preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

HOSTETTER'S

STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, [illegible] healthy and vigorous action, [illegible] the system to strength and vigor.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, [illegible] of the Stomach [illegible] these Bitters have no equal.

Diarrhoea, dysentery [illegible] by the change of [illegible] Dyspepsia, a disease which is probably more prevalent, in all [illegible] than any other, [illegible] always [illegible] HOSTETTER'S [illegible] BITTERS, as per directions [illegible]

Fever and Ague [illegible] and prostrating disease, which [illegible] the body of man [illegible] HOSTETTER'S RENOWNED [illegible] none of the above-stated [illegible] contracted, even in exposed [illegible] Bitters are used as per directions. [illegible] neither create nausea nor [illegible] and render unnecessary any [illegible] or interruption of ordinary pursuits [illegible] sound sleep and healthy digestion [illegible] complaint is removed as speedily as [illegible] with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is [illegible] such as Hostetter's Stomach Bitters [illegible] to impart temporary strength and vigor to the system. Ladies should [illegible] try this remedy for all cases of [illegible], before so doing, should ask their physician, who, if he is acquainted with [illegible] the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S [illegible] STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

☞ Prepared and sold by HOSTETTER & SMITH, Pittsburgh, Pa., and sold by all druggists, grocers, and dealers generally throughout the United States, Canada, South America, and Germany.

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five Boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

Frailty of Wood.

If the world has not entirely lost its confidence in wood, in the arts, on account of its turning and twisting qualities, and frailty generally; it most certainly is in a fair way to have a demonstration that Wood in politics at least, is the most unreliable material that ever man confided in.

We are led to thus reflect, on seeing an affidavit of one CORNELIUS WOOD—the man who struck Stryker at Syracuse—in which he doth depose and say in substance as follows:—"That he went to Syracuse for the fun of the thing, loving such kind of excitement, and that in knocking the president of the Convention off the platform, he supposed that he was aiding the Gagger side of the question, and that he did'nt mean to strike Striker but Alvord,"

O, thou frail and fickle rotten hearted Wood—FERNANDO WOOD we mean—that thou shouldst take a branch from thy own trunk, of thy own name, to strike thine opponent with, and then teach him to deny it—to cause the *twig* of thyself to wither under the scorching scorn and condemnation of the thousands who saw the deed and know the denial to be a lie. O! *Fernando*, thy weapons will all be used up soon, in the way you are now going on. You have scattered seeds that have sprung up all over this great State in a growth of political saplings but they are now withering from the blight that you have spread through the political field.—The frost of political treachery are gathering around thy head, and thy fall will be like the sear and yellow leaf—to be scattered by the winds, and known no more forever.

NEW YORK, Oct. 5.—The St. Louis was withdrawn at the 11th hour, and California mails were dispatched on the Northern Light.

LE ROY, Oct. 4th, 1859.

EDITOR HERALD & TIMES:—

Sir:—This community was shocked from center to circumference, on hearing of the base ingratitude manifested at the black Republican County Convention, held at Batavia on Saturday last.

One of our most worthy citizens was passed by, unnoticed, without receiving from that Convention what justice, honor and good faith required at its hands.

Col. John G. Bixby of this town, long a resident here, and so eminently qualified for judicial honors, and for whose elevation, expectation was on tiptoe, failed to receive the nomination for that all important and even to be sought for office of Sessions Justice.

He had at various times held these important position, and had worn the honors so meekly, and all his legal opinions and decisions, were in strict accordance with all the higher tribunals, that no one doubted his success in again obtaining that office, or even much more exalted ones, if his extreme modesty could permit him to ask for them.

He had prepared himself, (as he thought) to be eligible to that office by receiving an appointment of Justice of the Peace for the county of Genesee by a special board of officers—appointed by a special act of our last Legislature for his special benefit, as the people of the town at a special Town Meeting, made a special mistake and elected another man in his place. Therefore it was necessary, and in accordance with the fitness of things, to have all things in readiness for the coming event.

The vacancy was made by an acting magistrate for his special benefit who tendered his resignation in order to have the people benefitted by a more brilliant luminary. Every thing looked well for a complete triumph; the machinery worked to a charm; visions of future greatness floated before him; there appeared nothing to prevent the consummation of his wishes; all nature smiled upon the scene, and the people smiled; but alas, how futile are hopes, that appear well founded.

The Convention day came as such days usually come, but the people that were sent there were blinded. They failed to see and appreciate his important services rendered. They were reminded time and again, of the vast importance he was to his party, and to his country, but they heeded it not. Now was there ever baser ingratitude made manifest than this? To pass over and bury in oblivion a man in all respects so well qualified to fill with honor to himself and his country, and that too where so much depends upon correct judicial knowledge, and when months and years have been spent in its acquisition—and not only this, but much time, labor, and many sleepless nights vainly spent in perfecting the great plan, to bring around the desired result, "but he could not see himself as others see him" and he went from door to door assisted by his faithful cane supporting him in his afflictions when borne down with the ugly *gout*, brought upon him in defence of proper nominations and equal rights.

But the worst is yet to come, the picture is yet unfinished. Let humanity blush. The unkindest cut of all, to be superseded by a renegade Democrat, taken fresh from the ranks of his bitterest enemies, into the arms of his supposed friends, and one too, who had never fought in the Abolition ranks, nor had discovered the beauties of the higher law, until he could see clearly the way to a good office, whil the Col. fought shoulder to shoulder with the darkest of the crew, and in the hottest of the fight is left to limp his way as best he can through this political vale of tears, unwept, unknown and unsung.—If Republicans are not ungrateful, Black Republicans are.

ARGUS.

A few days since, two men, one a champion of Bourbon whiskey, and the other a patron of brandy, were discussing the respective merits of those liquors at the Burnet House, in Cincinnati. Finally, as a clincher, the Bourbon man cited a well known Lexington "Colonel," who had drank pure Bourbon freely since he was fifteen years old, and who is now sixty, and hale and hearty at that. "What do I care for that?" responded the brandy advocate, triumphantly; "if he'd drank brandy he'd been eighty by this time!"

To the Republicans of the Co. of Genesee:

FELLOW CITIZENS:—It is, I suppose, not only lawful and expedient, but due to you, as well as myself, that I should publish the reasons and motives for my action in the Republican County Convention last Saturday, in withdrawing my name as a candidate for the office of county Judge, from the consideration of that body. I will, therefore, in this communication endeavor to furnish as concise a statement of some of the matters connected with the election of some of the delegates and the composition of the Convention, as it is possible for me to furnish and make myself understood. I may find it necessary to refer to some other matters, and shall do so in as brief a manner as possible.

I consented to have my name used as a candidate for the office, after repeated and urgent solicitations to do so, and I believed that there was a pretty general desire among the people that I should become such candidate.

I expected to meet only an ordinary competition, unaccompanied by any asperity or bitterness. It was, however, soon evident that I was to be opposed by a very zealous and unscrupulous combination by which I was to be not defeated, but crushed, or politically speaking 'killed.'

I pass over in silence the particulars in reference to the caucuses, except in the towns of Batavia and Byron.

In Batavia's delegation, all but one of whom were supported and voted for on the false representations that they were favorable to me, and there is but little doubt that but for these representations, together with a large number of votes, given by voters not belonging to, or acting or intending to act with the Republican party, they would have been defeated. I claim that the Batavia delegates were elected by false and fraudulent pretences.

I was prepared to submit to this infringement of my rights, as one of those wrongs for which there is remedy, but the ever active managers of the canvass in this town dispatched their emissaries to Byron to devise further measures to accomplish their purposes.

The Republican caucus met there in the evening, was regularly organized, and after passing a resolution with great unanimity to admit those who had heretofore voted with other parties, but who would support the nomination to be made, to vote in caucus. A ballot was taken to elect one delegate, which resulted in the choice of Mr. Cook, by a vote of 73 to 30 for his competitor. As soon as the result of the ballot was ascertained by the minority, the defeated party raised the cry of "Republicans to another room." The minority immediately retired to another room, organized, and, elected another set of delegates by a vote varying from 32 to 29. The highest vote given on any ballot being but 35, three of those being given for the delegate elected by the regular caucus.

The regular caucus, after the separation of the minority, elected the three remaining delegates by about the same numerical vote given on the first ballot.

It is understood that the secession in Byron, was instigated by the emissaries of the Batavia delegate, and would not have been thought of but for them.

The question of the contested seats in the Byron delegation was submitted to a committee, of which the Batavia delegate was chairman. The committee heard such evidence as they were willing to hear, which established the matters I have above stated, and upon such evidence, reported to the Convention, "that both sets of delegates were Republicans, and those that the committee had examined agreed in their statement of facts, *and that* the committee was unable to decide which were the regular delegates." They, therefore, recommended that certain persons, named, (comprising, it appears, two from each set,) be the Byron delegates in the Convention.—The committee was careful not to report the evidence, but the Convention adopted the report, assumed the authority to appoint the Byron delegates, any refused to hear the evidence.

I thought then, it was time for me to withdraw my name. Had I longer remained silent I should have acquiesced in that flagrant abuse of the rights of the people.

An elected Convention which will so cover up and smother the acts of its committee, is not entitled to have its nominees respected as the candidates of the party.

The committee *stultified* themselves in their report by admitting their ignorance upon a question so plain that "he that runs may read." I have not, however, quite the charity to believe they were as ignorant as they pretended.

I have a high respect for most of the members of the Convention, and believe that all except a few who were in the secret were misled by those who knew, and should have done better.

I cannot, however, tamely submit to such a fraud as they allowed to be enacted and covered up. If the Republicans of Genesee County are willing to sanction the proceedings of such a Convention, so be it. I enter my most solemn protest against it, as establishing a dangerous precedent, and hold myself under no obligation to vote for any of its nominees as such. I intend to support the Republican State ticket with what little energy and ability I may possess. If I vote for any nominee of that Convention, I shall so vote out of regard for him as a man worthy of the office, and not because he is nominated by the Convention.

Batavia, October 3d, 1859.

MOSES TAGGART.

The Lost Found.

Here is a romance in a few words.—Many years ago, a young man living in Homer, this state went to Albany, became enamored of a dress-maker in the family where he was visiting—promised to marry and then seduced her and left. Conscience smitten he a year or more afterwards tried to find her he loved and had so injured, but could only learn that she had given birth to a daughter and left the city in shame. Years after the young man married and became a wealthy farmer in his native town.

A mason moves into the place with a young and interesting wife. The farmer visits the mason's house to deliver produce in payment for the mason's labor. He is pleased with the mason's wife, and learns her history—that her mother had married after she was born, and subsequently died, and—finally, that, which convinced him to whom she was thoughtlessly unfolding her history, that he was her father, and that she was his long lost child. The father was happier after that interview, and the daughter is received as an heir in common with his other children to share the old man's fortune.

Proclamation.

By his Excellency, EDWIN D. MORGAN, Governor of the State of New York.

The gathered harvest and the varied hues of Autumn admonish us that another year is drawing to a close. To us, as a State and a Nation, it has been a year of countless blessings. The labors of the husbandman have been most abundantly rewarded. Commerce and Manufactures are recovering from the great prostration into which the late revulsion had thrown them. The pestilence, so much dreaded at our principal seaport, has been happily averted, and health has reigned within our borders. While vast multitudes in foreign lands have been summoned from their homes to engage in bloody conflict or to stand in battle array, we have been permitted, in the Providence of God, to continue in the enjoyment of freedom and self-government, and to pursue, amid the pleasures and comforts of our own fire-sides, our unexampled career of peace and prosperity.

These and the unnumbered other bounties which have been showered upon us as a people and as individuals, should serve to remind us that the homage of grateful hearts is due to Him from whom these mercies flow.

I do therefore, in humble reverence, appoint THURSDAY, the TWENTY-FOURTH DAY OF NOVEMBER NEXT, as a day of general Thanksgiving and Praise to Almighty God; and I invite all persons to abstain on that day from their usual avocations, and to unite in public declarations of their gratitude to our Heavenly Father, the Author and Giver of every blessing.

In witness whereof, I have hereunto signed my name and affixed the [L. S.] Privy Seal of the State, at the city of Albany, this first day of October, in the year of our Lord one thousand eight hundred and fifty-nine.

By the Governor,
(Signed) EDWIN D. MORGAN.
GEORGE BLISS, Jr., Private Secretary.

On Friday last a freight car on the Illinois Central Railroad took fire and while all ablaze was subjected to a pour bath which soon extinguished the flames. A portion of the car and a large amount of the freight was burned. Among the latter was a box marked "codfish," which was so badly charred that on attempting to remove it, it fell to pieces, and was found to contain two kegs of gunpowder! An Illinois editor, with a dry humor which such an event is liable to provoke, closes his account of the affair with the remark that "in a few minutes more the engineer would have received the worst blowing up he ever got."

It is related of the French family of the Duke de Levis, that they have a picture in their chateau, in which Noah is represented going into the ark, and carrying under his arm a small trunk on which is written, "*Papers belonging to the Levis family.*" The pride of descent can, however, gather but small consolation from this evidence of the antiquity of the name, for the families of apes and jackasses were represented, not by papers alone, but in their proper persons, in the ark.

LOCAL MATTERS.

We print in another column to-day, the Speech of Judge Taggart, to which we made reference yesterday. We understand that Judge Dibble; District Attorney, Bowen; Judge Taggart and some others will take the stamp in favor of the Union Ticket to be nominated on the 13th inst; also that John H. Martindale of Rochester may be expected to speak in several of the prominent places in the county.

Spiritualism.—Mrs. Spence will speak again to-night at Concert Hall. Human depravity will be the subject of her discourse.

Mrs. Spence, is a purely inspirational speaker, altho' her manner in the rostrum are apparently normal. Without the aid of inspiration she would indeed be a marvel of intellectual capacity. Admittance 5 cents.

We saw a live Bloomer at the Spiritual Meeting last night. We had supposed that this class of people had become extinct, but it isn't so. She belongs we are told to the race of Kings, and of course takes the liberty to wear just what she pleases, and so puts on trowsers, not because they are "so handy" perhaps, as Peggy.

Teachers' Institute.—Lectures at Ellicott Hall, Wednesday evening by Geo. H. Denison Com. Wyo. Co., Thursday evening by J. M. Watson Prof. of Elocution, Friday evening by Prof. Geo. H. Stowits.

Lectures to commence at 8 o'clock.

All friends of Education are invited to attend.

Good news for the People.

G. W. Hull, is again in the field with the largest stock of *Boots and Shoes* ever exhibited in Genesee county—he has all the desirable styles suitable for the season. We noticed among other things a large assortment of *Mens and Boys* Thick Kip and Calf Double sole Boots of *extra quality custom made* which are selling very fast at about one half the price that the people of this county have formerly paid for such goods.

Ladies and Children's work he has in very great variety.

We would advise all our friends to give him a call and save money in shoeing up for the winter, his stock is large, his goods first quality and his prices are from 30 to 40 percent below any other House in the county. The store is north side of Main Street, Batavia.

DR. N. R. C. ROWE.
URISCOPIAN PHYSICIAN.

(Late from the Island of Barbadoes, West Indies)

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity that he can be consulted on all CANCEROUS and CATARRH affections, Tumors, Diseases of the Lungs, Throat, Liver, Kidneys, &c., &c. Also Scrofula and all other Chronic Diseases, at his office No. 4 Stone Block, corner of Main and St. Paul Streets.

The success that has attended his practice has never been surpassed by any other Medical man in his profession. He has cured entirely some of the worst cases of that most loathsome disease, CANCER—the thought of which chills the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skillful Physicians as decided incurable. These patients now live as witnesses to this fact. CATARRH, this most awful disease, which if not checked, terminates in Consumption, he can cure most speedily.—Scrofula and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practitioner and no self taught man. Dr. R. has discovered a speedy and certain cure for such cases of that fearful and ravaging disease Cancer, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer cannot be cured. Dr. Rowe however, has after a thorough investigation and long study of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a special chemical examination of the Urine can tell almost every Chronic Disease that man is liable to, and then can treat diseases more certainly and successfully than by any other mode of examination. The reason that so many curable diseases are deemed incurable is simply from not finding out the real seat of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and $1 as a fee for testing it, at the same time stating their age, will be told their disease. Letters addressed to Box 904, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. References as to his mode of treatment can be given to some of the first Physicians in this country.

Dr. Rowe will be at the Exchange Hotel, Attica, for 4 days, Tuesday, Wednesday, Thursday, Friday, Oct. 4, 5, 6, 7, where he can be consulted on the above diseases.

'Tis Found

Something True and Important.

IF YOU are crippled with Palsy or Rheumatism suffering with pains and can find no relief for body or mind—given up as beyond the reach of medical aid, and have no other prospect before you than a premature grave, read the following—pause, reflect and hope on, as an opportunity is now offered for the restoration of your health. *Profs. Chamberlin & Ballou*, of Buffalo, would say to the citizens of Batavia and vicinity that they have taken rooms at the Eagle Hotel, and will remain a few days for the purpose of introducing their new and important discovery in the use of Electricity for the cure of all curable diseases.

They solicit no patients except those given up everywhere else as incurable. The reader might here ask do they really cure such cases or are their statements false? Have they cured any such cases in [illegible] vicinity, or are their cases all on paper and afar off. In reply they would say they have cured, and are curing every day, just such cases. They have restored to health a great number of persons in Buffalo, and surroundings, who have been suffering from various diseases, five, ten, and fifteen years and upwards, in a few days. They have cured and are curing a class of diseases that has baffled the skill of the medical profession in all ages of the world. The reader might here enquire, by what means such wonderful cures are performed? [illegible] by irritating the delicate membranes of vital organs by drugging the stomach, but by direct application of the positive and negative currents of electricity—again, it might be asked, has not electricity been employed as a remedial agent for years both in Europe and the United States, with no different success? and are not many now using it, in very many modes, with no better results? This is all very true, and when we consider the ignorance and recklessness displayed in its application the result has been more favorable than could have been anticipated. It has been considered as beneficial in a few cases, only, and uncertain even in those. There has been no fixed principle for applying it, and, therefore, no uniform result could have been anticipated; but owing to the friendly relation existing between electricity and health, remarkable cures have been performed, which have been looked upon as a lucky hit, rather than the result of a fixed law. The ignorance displayed in the administration of this mighty agent, is unpardonable.

The current has been generally applied through the hands or feet, with power so to convulse the whole nervous and muscular system, and frequently producing irreparable injury; sometimes it has been applied by means of metallic conductors to different parts of the body, which is equal to a process of cauterization—and the effect upon the nervous system is similar to that produced by over-doses of Strychnia or Quinine.

Every thing connected with their mode of applying electricity is new and original with themselves. Their philosophy for the electrical laws of life, health and disease, is new—Their reliable method for the diagnosis of disease by electrical contact is new.

As, also, their important discovery in the use of the positive and negative polarities to the human body, for the safe and speedy removal of all diseases.

All is new and unknown to medical men and others except the few instructed by them.

By this mode of applying electricity there is no guess work, no uncertainty, and no matter of doubt as to the result that will follow.

The diseased are invited to call and witness the wonderful cures they are performing daily.

Instruction given to those wishing a knowledge of this method of curing disease.

DR. M'LANE'S
CELEBRATED
VERMIFUGE
AND
LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of Liver Complaints, all Bilious Derangements, Sick Head-Ache, &c. In cases of

Fever and Ague,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

Fleming Brothers,
Pittsburgh, Pa.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa. To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

Ayer's Sarsaparilla,

A compound remedy, [illegible] have labored [illegible] the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, [illegible] of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PREPARED BY

DR. J. C. AYER & CO.,

LOWELL, MASS.

Price, $1 per Bottle; Six Bottles for $5.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidences of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five Boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

THE
NEW YORK WEEKLY,
A HANDSOME QUARTO PUBLICATION,
BEAUTIFULLY ILLUSTRATED,
IS NOW UNIVERSALLY ACKNOWLEDGED TO BE
THE BEST STORY PAPER
IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States. Such writers as Justin Jones, (Harry Hazel) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Fenner, Anne Raymond, Ella Rosalie. While [illegible] a score of other well-known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now secured a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same medium. We shall never publish a word or line the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notices of Travel and Adventure, Short Stories, General Summary of Events, Humorous Miscellany, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Gilbert H. The Hero of Italy! Harry Hazel's thrilling Indian Romance, The Mute Spy! Francis S. Smith's intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting melange, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Moments, our Items of Interest, etc., etc. In a word the Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land[illegible] shall be a welcome visitor wherever it goes—equally popular in the workshop and the office, at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS.

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taking tens they are now taking hundreds of copies. This is the general effect among the Ten Thousand News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 for a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $5, eight copies for $12. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to

STAR WRITING FLUID.

In bringing this Writing Fluid before the Public, the Proprietor knows he has a great deal to contend with, as there are so many spurious Inks manufactured that are utterly worthless, but I do not wish to say this is the only Ink and best in use. I will say that it is second to none, as my motto is, "Try it, if you like it—buy it." The superior qualities of this Fluid are, namely: It is decidedly a business Ink, and so permanent and ineffaceable, that even the test of Oxalic Acid cannot remove it from paper; hence its value to business men and the community. This Acid instantly affects most Inks, even that from the largest establishments. Arnold's of London, is gradually effected by it. Harrison's of Philadelphia, instantly disappears, while no effect upon the Star Ink is visible, till at last it is changed by the Acid to a reddish tinge but remains true afterwards as permanent and legible as ever. Test our Ink with a drop of the Acid, then test others, you will observe the result. There is but one other kind of Ink besides ours that will stand the test, that is thicker, redder and dearer than ours, so all of these combined, every one can see that the Ink which cannot be effaced, and thus counterfeited by rogues as is often done on Bank Bills, Deeds, Wills, Records, &c., not only deserves but will command the custom of an enlightened community. As it is a Chemical preparation I challenge all competition. It flows more readily from the pen, will not mould, and is easily removed from the hands when stained. It needs only to be tried and you will buy no other kind.

DR. JOHNSON'S HERB DISPENSARY!

OFFICE 95 MAIN STREET,
(Corner Up Stairs, Buffalo, N. Y.)
A NEW, SPEEDY, AND MOST SUCCESSFUL
MODE OF TREATING
Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.
AND ALL
Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, [illegible] and wakefulness; Caramnia, or muscular wasting and consumption of the tissues of the whole body; [illegible] of breathing, or hurried respiration on ascending a hill, or a flight of stairs; great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study; dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea or Fluor Albus &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of old School Doctors.

DR. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new; it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such that patients can be cured at their own homes without expense, in any part of the country, from an accurate description of their case by letter and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills, will receive for 25 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

The telegraph report in Wednesday's papers to the effect that La Mountain lost his reason, is without foundation. We learn from the Editor of the Rome Sentinel, that John A. Haddock, one of the balloonists, made a speech Tuesday evening to a large audience in one of the halls at Watertown, giving a full account of the balloon voyage, and that Mr. La Mountain was on the platform while Mr. H. was giving his narrative, but as he (Mr. La M.) could not, on account of his sufferings, raise his voice at present above a whisper, he did not speak. Mr. La M. received the cheers and congratulations of those present.

The Returned Balloonists.

The New York Times of Thursday contains a thrilling history of the experiences and sufferings of La Mountain and Haddock in their recent balloon trip. It has already been announced that they landed in Canada forest 300 miles north of Watertown, from whence they started. On first landing, they had no possible means of knowing where they were, but finally concluded that the dense Canada forests surrounded them, this opinion being confirmed by the timber (spruce) and subsequently on finding a half barrel with an inspectors mark, "Montreal." They found a deserted cabin, and of this they made a raft, and set out to float their way to the borders of civilization. Day and night they tugged on in the rain and cold, without ever a spark of fire, or a dry spot of ground to lie down upon, or food except raw frogs. On the fourth day, when on the last legs of exhaustion and despair, discovered smoke from a cabin. We give the effect of the discovery in the language of Mr. Haddock.

"In a few moments the blue smoke sailed gently, yet unmistakably, above the tree tops, and we felt that we were saved. Such a revulsion of feeling was almost to much for us. We could hardly believe our senses, and credited anything favorable to our condition with the utmost caution, Our bitter disappointments had taught us that lesson,

We paddled the raft with the ends of our poles directly across the lake, near, perhaps, three-fourths of a mile wide, and made for the canoe. It proved to be a large one, evidently an Indian's. Up to the bank I pressed, leaving La Mountain at the canoe to cut off a retreat by the Indian, in case he was timid and wished to avoid us. I came at once upon the shanties of a lumbering wood, and from the chimney of the farthest building a broad volume of smoke was rising. I halloed—a noise was heard inside, and a noble looking Indian came to the door. "*Vous parlez Français?*" was my eager inquiry, as I grasped his outstretched hand. "Yes, —s, and English too," He drew me into the cabin, and there was the head of the party, a noble hearted Scotchman, named Angus Cameron. I immediately told my story—that we came in with a balloon, were lost, and had been four days without food, asking where we were. Imagine my surprise when he said we were one hundred and fifty miles due north of Ottawa—in the dense, uninhabited forest, whose only limit was the Arctic circle. In a word, we were nearly three hundred miles in a due north course from Watertown, in latitude 47°.

Dinner was all ready. The party consisted of four persons—Mr. Cameron, and his assistant, who was also named Cameron, La Mab, McDougall—a half breed—and his son, Beaucell. I dispatched the young Indian for La Mountain, who came in after a moment the absolute picture of wretchedness. All that the cabin contained was freely tendered us, and we began to eat. Language is inadequate to express our sensations while doing so.—The clouds had all lifted from our sombre future, and the "silver lining" shone all the brighter for the deep darkness through which we had passed.

News Items.

The tower of the Presbyterian Church begins to show its proportions. It gives effect to the whole structure, and brings it into better proportions all around. We hope this expensive tower, that it is said will cost $3,000, will be occupied by a clock to warn our citizens of passing time, and keep them punctually in the path of duty—to their daily work—to dinner, and to meeting.

The Bruisers,

There was a fight between two bullies over in Canada at Point Albino yesterday. One of the vagabonds beat the others face into pumice, and broke three of his ribs besides other injuries of which it is scarcely expected he will recover. Buffalo turned out its hundreds if not thousands to witness the scene. For several days a string of notices have appeared in the papers of that city in apparent condemnation of such outrages upon humanity, yet just the kind of notices to stimulate the vagabonds and put them on the scent. Now that the fight is over, these virtuous sheets cry out in holy horror at the idea that such exhibitions of beastliness should be allowed. The Express of this morning says that many of the Buffalo Boys, who went over were spotted, and will probably be arrested to-day, but this is all nonsense. Prize fighting is what a large portion of the world wants; it is educated for it and will have it—let them fight.

The Republican Nominees.

We clip the following from the Le Roy Gazette, on the nomination of Judge Brown for re-election. We well know the Editor of the Gazette was a bit of a wag. But the following is the sharpest irony we have seen for sometime. The Gazette has got over the matter in the slickest possible way. Read:—

JOSHUA L. BROWN, was fairly re-nominated for Judge and Surrogate—and this with little or no effort on his part to secure the nomination. It is due to this official to say that the duties of County Judge were never committed to better hands in this County than to Hon. JOSHUA L. BROWN'S. *Learned in the Law, of the strictest integrity, and noted for the correctness of his Judical decisions,* it is no wonder that he proved a power in the Convention, though silent in his supposed desires for the evidence of approval manifested by his re-nomination to the place he has for three years filled so honorably and well. As Surrogate, Judge Brown has made his a model office. His papers are so classified and arranged that the vast and important business embracing the *all* of hundreds of widows and orphans, is rendered intelligible to any who may have occasions to learn the condition of their estates. To bring order out of chaos has cost the present Surrogate many weeks of patient and wearisome labor, and the re-nomination is but a just acknowledgment of his valuable services in this department of public affairs.

RUFFIANISM IN NEW YORK.—There are some precious scoundrels in New York.—The following is an instance, which, for shameful audacity, stands without a parallel. On Sunday morning several well known bad characters, among them, it is alleged, Jack Tagan, surreptitiously entered Harry Jennings' public house in Madison street, drank liquor to their heart's content, and free of charge, smashed the windows and raised quite a "breeze," generally. Pouring out of the door they discovered a meek-looking gentleman coming down the street, evidently on his way to church. Immediately going outside they by main force pulled the gentleman in, and procuring a rope, made a noose on one end and placed it around the sufferer's neck, pulling him around, and hauling him on until he was frightened almost to death. They then let him off, and he ran away at the top of his speed, and has not been heard of since.

The Meeting at the Capitol.

The Ratification Meeting held by the Democrats of Albany in the Capitol Park on Tuesday evening was one of great interest—imposing not only in numbers, but also in its harmonious spirit, its enthusiasm, and the ability and efficacy of the speeches delivered on the occasion. Its influence cannot fail to be felt beyond the limits of this city and county and through out the State. It was a practical proof and illustration of the re-union and perfect consolidation of the Democracy of the State, which will rightly give confidence and inspire effort and nerve the purpose of our political friends in this great contest.—The speeches of Hon. D. S. Dickinson, Gen. Dix and Attorney General Tremain, were able and eloquent efforts. The full and graphic report of them and of the whole proceedings, contained in our paper of the following morning, we doubt not, has been read with interest by our subscribers. The readers of our first edition will find the whole proceedings on our first page this morning.—[Atlas & Argus.

A METEOR.—People who happened to be out at 1 o'clock Wednesday morning, were treated to a spectacle of a splendid meteor, which made its appearance in the south-eastern heavens, and illuminated for a brief space the whole city, with a brilliancy similar to lightning. It moved in an oblique direction, westward and toward the horizon, and finally disappeared without making any explosion that was audible to us. For a long time after the disappearance of the meteor, there was a fiery streak visible in the sky, marking its track. So says the Rochester American. Rather late out Mr. American—perhaps locked out—shouldn't see such things at that time of night and then tell of it, we wouldn't.

WASHINGTON, Oct. 6.

But little information has been received in official quarters in addition to what was telegraphically stated yesterday relative to the filibuster movement. As to the reported departure of a party of filibusters, the only authentic account in the possession of the Government is that they left in a tug boat about ten miles below New Orleans, but which could not convey them to the place of their destination. They doubtless expected to be taken on board a larger and more suitable steamer. In the meantime, Collector Hatch and his deputies and other federal officers are, according to their instructions, resorting to every legitimate means to intercept the filibusters.

In addition to other measures, vessels have been despatched for that purpose.

While these things are progressing in the neighborhood of New Orleans, information has been received that a number of filibusters are in Mobile, some of whom were prominent in the Susan filibustering expedition, which vessel it will be remembered was wrecked at Glover's reef. The federal officers in that city have been instructed to watch their movements and act accordingly. It is not yet considered necessary to send out any instructions to our naval forces in the Gulf and Pacific, as the vessels now there are in possession of the orders heretofore issued in relation to unlawful expeditions.

The success of this new filibustering movement is not considered in the least degree promising, but should the adventurers invade Nicaragua and interrupt the transit, there is reason to believe that our federal forces would promptly interfere.—The power is found in the Lamar-Zaladon treaty, and to its exercise Nicaragua would have no objections.

Miss Magdalene Hardy, of Delaware county, N. Y., has just recovered $500 damages from Frederick Cochrane, who had been "her friend from childhood," for a breach of marriage promise. The offense was aggravated from the fact that "he very often took breakfast at her father's house," and then married another girl, Mr. Cochrane held the steaks then, but Miss Hardy holds the stakes now.

HOMOEOPATHIC

REMEDIES.

☞ It is impossible to judge anything of the value of a medicine by the manner in which it is puffed and extolled in newspaper advertisements. We are not compelled to resort to any such methods to dispose of our remedies, for their intrinsic merits alone are selling them as fast as we can prepare them.

All who are in want of a *Safe, Convenient and Efficient Medicine* are referred to the following list of Gifford's pure and reliable Homoeopathic Remedies:

CATARRH AND HEADACHE PILLS, for headache, sick headache, vertigo, habitual nose-bleed, and all forms of Catarrh of the head, throat and lungs.

COUGH PILLS, for coughs, colds, Hoarseness, Influenza, Sore Throat, Asthma and all similar troubles of the throat and lungs.

CROUP PILLS, for Croup, dry and hoarse cough, and hard breathing.

DYSPEPTIC PILLS, for Dyspepsia, Constipation, Indigestion, weak and sour Stomach, Epilepsy, mental despondency, gloomy forebodings, hypochondria, Liver and Kidney complaints.

BILLIOUS PILLS, for irregular action of liver, lost and depraved appetite, and jaundice.

DIARRHEA PILLS, for Diarrhea, Dysentery, Cholera Infantum, Cholera Morbus, Cholic, Griping, and all summer complaints.

PILES PILLS, for constipation, blind and bleeding Piles.

FEVER PILLS, for all forms of Fevers, Congestions, Inflammations, and Pleurisy.

NEURITIC PILLS, for Nervous Irritability, Sleeplessness, Toothache, Neuralgia, and all nervous affections.

SCROFULA PILLS, for Salt Rheum, Glandular Swellings, Eruptions of the Skin, Erysipelas, Sore Eyes, and discharge from the Ears.

FEMALE PILLS, for scanty, painful and suppressed menstruation, Leucorrhea, profuse menses, and bearing down.

WORM PILLS, for Worms, Worm Fever, cholic, convulsions, and wetting the bed.

These remedies are put up in beautifully embossed boxes.

We have also prepared Cases, which contain one box of each of the twelve remedies for the use of families; also, small Cases, containing six boxes each, for the use of travelers, &c.

Price of large cases, containing twelve boxes, with manual of directions, $2.25. For small cases, containing six boxes, with manual of 21 sections, $1.25. For single boxes, with full 21 sections, 25 cts.

DR. N. R. C. ROWE,

URISCOPIAN PHYSICIAN.

(Late from the Island of Barbadoes, West Indies)

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections, Tumors, diseases of the Lungs, Throat, Liver, Kidneys, &c., &c. Also Scrofulous and all other Chronic Diseases, at his office No. 4 Stone Block, Corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathsome disease, CANCER—the thoughts of which chill the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skillful Physicians as decidedly incurable. These patients now live as witnesses to this fact. CATARRH, this most awful disease, which if not checked, terminates in Consumption, he can cure most speedily.—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practitioner and no self taught man. Dr. R. has discovered a speedy and certain cure for such cases of that fearful and ravaging disease CANCER, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer cannot be cured. Dr. Rowe however, has after a thorough investigation and long study of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases more correctly and successfully than by any other mode of examination. The reason that a great many curable diseases are deemed incurable is simply from not finding out the real seat of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and $1 as a fee for testing it, at the same time stating their age, will be told their disease. Letters addressed to Box 984, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. References as to his mode of treatment can be given to some of the first Physicians in this country.

☞ Dr. Rowe will be at the Exchange Hotel, Attica, for 4 days, Tuesday, Wednesday, Thursday, Friday, Oct. 4, 5, 6, 7, where he can be consulted on the above diseases.

PERRY, Sept. 5th, 1859.

Dr. Rowe,

Sir:—I take the pleasure of writing to you hoping to find you in good health as this now leaves me in at present. The remedy you gave me is the best I ever had, it has made my skin look clean and healthy and I feel better now than I have felt for the last seven years. The day you left here I weighed 143 lbs, and now I weigh 157½ lbs. I have doctored for the last 6 years and never could find a Doctor to cure me until you, and I shall feel ever thankful to you.

Yours truly,
DANIEL M. FERGUSON.

Good news for the People.

G. W. Hull, is again in the field with the largest stock of *Boots and Shoes* ever exhibited in Genesee county—he has all the desirable styles suitable for the season. We noticed among other things a large assortment of *Mens and Boys* Thick Kip and Calf Double sole Boots *of extra quality* custom made which are selling very fast at about one half the price that the people of this county have formerly paid for such goods.

Ladies and Children's work he has in very great variety.

We would advise all our friends to give him a call and save money in shoeing up for the winter, his stock is large, his goods *first quality* and his *prices* are from 30 to 40 percent below any other House in the county. The store is north side of Main Street, Batavia.

IT is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial!

Sold by druggists and dealers everywhere.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprets to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS,

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

Evening Report.

The State Fair

ALBANY, Oct.—The weather continues remarkably fine, and the largest crowd within the State Fair for one day visited the grounds to-day. Since Tuesday evening the city has swarmed with strangers, and new arrivals are recorded by every train. The ample and desirable hotel accommodation to be found at the Capital is a great advantage at this time. The Delevan House, the Congress Hall, the Stanwix, the Commercial, American, Farmers, Merchants, Dunlops and all the smaller hotels are in full requisition, while outside accommodations, should the public hotels be found insufficient, are provided in such amplitude as to insure visitors against inconvenience and trouble in securing quarters. The chances are, however, that the citizens will be put to their metal in providing room for all, although we have no doubt that no strangers will be permitted to go away unsatisfied. The Boston train last evening brought down 18 car loads of passengers. The boats are literally crowded and pour off their hundreds on each trip on the docks. A large number of excursion boats, from various points down the river, reached here to-day, each loaded down with its living freight. The Central cars arrived at the depot, having in sight and at the distance of a respectable walk from the city, and each car is as full inside as a city omnibus carrying 12 female passengers. The Northern road, which runs trains every half hour, adds a large installment to the crowd.—These facts may convey some idea of the extent of the influx of visitors, which has steadily increased for the past two days.

The means of conveyance to the Fair are ample. There must have been issued up to yesterday morning nearly 400 licenses for carriages, while the half hour trains on the Northern road are a great convenience. Nearly every vehicle and every car goes up full of passengers.

The cattle show of Devons, Durhams, Herefords and Ayrshires is very large.—Messrs. Falk Thorn, Conger, E. Corning, Jr., and Hon. W. Kelley, have all large displays and send their choicest cattle.

Over 300 horses are entered and embraces many blood stallions, brood mares and some three of the best trotters in the Union.

A display, both of horses and cattle, from Kentucky is noticeably large.

Entries are as follows:—Cattle, 362; horses, 507; sheep, swine and poultry, 603; plowing implements and machinery, 495; grain, vegetables, sugar and honey, 339; domestic manufactures, 264; miscellaneous, 601; flowers and fruits, 240. Total, 3,431.

A fine dinner was given to-day on the grounds, cooked on a new stove made by Rathbone & Co., and served in a tent.

Gen. Wool, Horace Greeley, Hon. Mr. Conger, and a number of invited guests are present.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa. To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

HOSTETTER'S

STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

[illegible]

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PREPARED BY

DR. J. C. AYER & CO.,

LOWELL, MASS.

Price, $1 per Bottle; Six Bottles for $5.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five Boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

News Items.

The Sabbatarians of Philadelphia and and Pittsburgh are trying to make the people good, by *swearing* out affidavits on Sunday against people whose carriages are seen in the street. The crusade commenced against running cars on Sunday, but the war will probably go on until it will be deemed improper to ring the bells or eat. Such is fanaticism.

The beauties of the free school system are to be realized in the fact that the N Y. Board of Education have made out their estimates for 1860 at *one million three hundred and fourteen thousand dollars*—an advance of seventy thousand over last year.

It is said that the popularity of winter evening lectures, which have become so general in this county, is due to the young ladies, who wish to escape from father and mother, in the sitting room, with a nice beau to whisper with, and chatter *ad libitum.* The matter better be looked into.

"Grace Greenwood" is in the list of lecturers before the Albany Yound Men's Association. Her subject is "the heroic in common life."—*O! Grace-ious!*

MRS. SPENCE closed her series of three discourses at Concert Hall last evening.—Although the audience were small, yet it was decided to re-engage her to speak again next Tuesday evening, and one or more evenings afterwards.

When it is once understood that beauty in person, is far more attractive than beauty in dress, and that women of acknowledged beauty always dress plain, methinks there will be much less 'taste and buckram' incorporated in the wearing apparel, so appalling, in the present styles of outside show.

The State Fair closed at Albany Friday. It is said to have been the most successful of any one yet held.

The speech of John A. Dix, is higly spoken of, and was listend to by many thousand.

The total recipts exceed, by a trifle $18,000—about $1,200 having been taken in Friday. The Fair, then, in a pecuniary point of view, as well as in other respects, has been the most successful ever held by the Society. The receipts exceed those of last year some $6000, and are over $2000 in excess of 1857, which was the highest.

The American Reveille desires to know the whereabouts of D. C. Butterfield, a pretended Indian Doctor who neglects to pay his printer's bills. We guess he is looking after one Randolph J. Lyon (Phœbus what a man!) who made the same pretentions, and one Dr. Sanborn both worthies of Rochester, who diddled us to the tune of about $20 each. One cent reward is offered *for the worthy trio.*
—*Genesee Republican.*

There is a worthy trio in this village of medical gentlemen engaged in publishing and editing a medical journal by the name of the Genesee Democrat. We do not believe they are the ones advertised by the Genesee Republican. If so they can be spared for less than one cent reward. Their names are Harry Wilber, F. W. Follett and W. G. Bryan. Their receipes consist exclusively of emetics.

Takes it Back.

The Express published an article from the Syracuse Standard a day or two ago, reflecting severely on the managers of the Central Railroad for refusing to pay the bills for the burial of the late Thomas Gifford. In the same paper it was stated in a separate article that the editors did not vouch for the truth of the account of its correspondent, which the Express overlooked. It says:

In our issue of yesterday we published extracts from an article which appeared in the Syracuse Standard, in relation to the burial of Thomas Gifford. The Standard published at the same time, in another column, the following which escaped our notice then, and we now publish it with pleasure:

"We publish in another column an article severely-censuring the Railroard Company for their action in relation to the funeral of the late Thomas Gifford, who was killed by the Railroad accident at Jordan. We know but little of the facts except as they are related by our correspondent and vouched for by a respectable name. From what we do know, however we are satisfied that our correspondent is mistaken in his assertion that the "pompous parade" of the funeral should be chargeable to the Railroad Company."

This puts another feature on the matter, and makes us regret that we should have republished anything calculated to do injustice to the Central Railroad Company. We are assured by an officer of the company that the bill which was repudiated was one of fifteen dollars, from the writer of the article in the Standard, who is a physician, and made this charge for taking care of Mrs. Gifford during the funeral services, under the direction of the masons, who assumed full and entire control of the obsequies. We say this much to undo any wrong that we may have done by publishing a statement which is not clearly established in fact.

THE BOTTOM OF A WELL FALLING IN.—The Maine Farmer tells an extraordinary story from information received from a citizen of Weeks' Mills, in China, who while digging for a well recently, came to a bed of clay, which began to give way under his feet, when he got to a depth of about twenty-five feet. Feeling himself going down, he immediately sprang into a tub which had been suspended to receive the excavated earth, when the clay which had given way under pressure of his feet at once began to rise toward him.—He thrust his spade into the mass and the water gushed forth. Supposing he had struck a profuse vein of water he ascended, and commenced throwing stone to serve as a foundation for stoning up the well.—But every stone he cast down disappeared below the water's surface, and when he had thus disposed of several tons, the greedy well looked up for more. The man resorted to soundings, but his poles would not reach the bottom. Lines were tied with heavy sinkers which went down eighty feet and made no report. The locality of this singular discovery is some miles or so away from one of the open ponds in China, and on an elevation considerable above it.

The N. Y. Times says murders in the Sixth Ward are every day affairs. The latest was perpetrated upon the person of one Michael Cornelius, who was picked up on Sunday evening in a cellar, senseless and almost lifeless, with a deep wound in his left breast.

WHY DO CHILDREN DIE?—The reason why children die, says *Hall's Journal of Health* is because they are not taken care of. From the day of birth they are stuffed with food, choked with physic, sloshed with water, suffocated in hot rooms, steamed in bed-clothes. So much for in doors. When permitted to breathe a breath of pure air once a week in summer, and once or twice during the coldest months, only the nose is permitted to peer into daylight. A little later they are sent out with no clothes at all, as to the parts of the body which most need protection. Bare legs, bare arms, bare necks, girted middles, with an inverted umbrella to collect the air and chill the other parts of the body. A stout, strong man goes out on a cold day with gloves and overcoat, woolen stockings and thick double-soled boots, with cork between and rubbers over. The same day a child of three years old, an infant in flesh and blood, and bone and constitution, goes out with soles as thin as paper, cotton socks, legs uncovered to the knees, neck bare; an exposure which would disable the nurse, kill the mother in a fortnight, and make the father an invalid for weeks.—And why? To harden them to a mode of dress which they are never expected to practise. To accustom them to exposure, which a dozen years later would be considered downright foolery. To rear children thus for the slaughter pen, and then lay it to the Lord, is too bad. We don't think the Almighty has any hand in it.—And to draw comfort from the presumption that he has any agency in the death of a child, in the manner of the quoted article, is a presumption and a profanation.

FERNANDO WOOD HAVING HIMSELF PUFFED IN THE GERMAN PAPER.—The New Yorker Democrat having published a portrait and biography of Fernando Wood, was accused by the Abend Zeitung on Tuesday, of having sold out to Wood. The Democrat of yesterday indignantly repels the charge, and says that the likeness and eulogium were an advertisement. Mr. Schwedler, the publisher of the Democrat states, over his own signature, that he will show to any one who chooses to call Wood's letter authorizing him to insert the life.

The N. Y. Tribune says the note is in the well-known hand of Fernando, and that the price paid for the publication was *fifty dollars.*

HEENAN'S GLORY.—Our reporter met Kelly in his carriage, after the fight, as he was slowly proceeding to Fort Erie. He was wrapped from head to foot in blankets, and was groaning as though in great pain. He was bleeding profusely from his eyes and mouth, was much bruised in body, and and two ribs broken, as the result of the sixth round. He was the most effectually used up man that ever left a Canada or an American prize ring. Commingled with his pangs of body were his pangs of pocket, and we do not wonder that he was thoroughly cast down at the result of the fight, and the utter obliteration of any claim he may have had as a fighting man.—*Prize Fight Reporter.*

Mr. Gray is a dyspeptic old bachelor—and gray at that, no doubt. In a sacrilege onslaught upon ladies hoops, which he evidently designs to crush, he says:—"The eye needs no cultivation, the brain no instructions to perceive that such an outline cannot be produced by drapery upon a woman's form. It is clear, at a glance, that there is an artificial structure underneath that swelling skirt; that a scaffold, a frame work has been erected to support that dome of silk; and that the wearer is merely an automatic machine, by which it is made to perambulate. A woman in this rig hangs in her skirts like a clapper in a bell; and I *never meet one without being tempted to take her by the neck and ring her."*

THE DYING SOLDIER.—"What shall I do for you?" kindly asked a British officer, of one of his dying men on the field.

"Take a Testament from my knapsack," gasped the poor fellow, "and read to me the marked verse."

The officer opened the book, where a leaf was turned, and read this marked passage—"Peace I leave with you, my peace I give unto you." The dying man's eye lighted once more—it was the last upshooting of the flame before it went out, and repeating the words faintly, "Peace—my peace," he died.—[Messenger.

A very remarkable physiological fact has been developed in the existence of numbers of perfectly white rats in the Bible House. They are quite numerous, and are constantly caught by the tenants on the lower floors. Some of the older specimens in the Bible House are quite fat, and look as venerable and quiet as D. D.'s.—[Scalpel.

Mr. Botts refuses to run for the White House. He says, in a late "card:"

DR. J. B. GIFFORD'S
HOMOEOPATHIC
REMEDIES.

It is impossible to judge on theory of the value of a medicine by the manner in which it is puffed and extolled in newspaper advertisements. We are not compelled to resort to any such methods to dispose of our remedies, for their intrinsic merits alone are selling them as fast as we can prepare them.

All who are in want of a *Safe, Convenient and Efficient Medicine*, are referred to the following list of Gifford's pure and reliable Homoeopathic Remedies:

CATARRH AND HEADACHE PILLS, for headache, and headache arising from [illegible] stopped, and all forms of Catarrh of the head, throat and lungs.

COUGH PILLS, for coughs, colds, Hoarseness, Influenza, Sore Throat, Asthma and all similar troubles of the throat and lungs.

CROUP PILLS, for Croup, dry and hoarse cough, and hard breathing.

DYSPEPTIC PILLS, for Dyspepsia, Constipation, Indigestion, weak and sour Stomach, Epilepsy, mental despondency, [illegible] headache, hypochondria, Liver and Kidney complaints.

BILLIOUS PILLS, for bilious [illegible], loss of appetite, and jaundice.

DIARRHEA PILLS, for Diarrhea, Dysentery, Cholera Infantum, Cholera Morbus, Cholic, Griping, and all summer complaints.

PILES PILLS, for constipation, blind and bleeding Piles.

FEVER PILLS, for all forms of Fever, Congestions, Inflammations, and Pleurisy.

NEURALGIC PILLS, for Nervous Irritability, Sleeplessness, Toothache, Neuralgia, and all nervous affections.

SCROFULA PILLS, for Salt Rheum, Glandular Swellings, Eruptions of the Skin, Erysipelas, Sore Eyes, and discharge from the Ears.

FEMALE PILLS, for scanty, painful and suppressed menstruation, Leucorrhea, profuse menses, and bearing down.

WORM PILLS, for Worms, Worm Fever cholic, convulsions and wetting the bed.

These remedies are put up in beautifully embossed boxes.

We have also prepared Cases, which contain one box of each of the twelve remedies for the use of families; also small Cases containing six boxes each for the use of travelers, &c.

Price of large cases containing twelve boxes with manual of directions, $2.25. For small cases, containing six boxes, with manual of directions, $1.25. For single boxes, with full directions, 25cts.

DR. N. R. C. ROWE.
URISCOPIAN PHYSICIAN.
(Late from the Island of Barbadoes, West Indies)

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections, Tumors, diseases of the Lungs, Throat, Liver, Kidneys, &c. &c. Also Syphilitic and all other Chronic Diseases, at his office No. 4 Stone Block, corner of State and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathesome disease, CANCER—the thoughts of which chill the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skillful Physicians as incurable. These patients are live as witnesses to this fact. CATARRH, this most painful disease, which if not checked, terminates in Consumption, he can cure most readily.—Scrofula and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practioner and no self taught man. Dr. R. has discovered a speedy and certain cure for such cases of that fearful and ravaging disease Cancer, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer cannot be cured. Dr. Rowe however, has after a thorough investigation and study of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases more correctly and successfully than by any other mode of examination. The reason that a great many curable diseases are deemed incurable is simply from not finding out the real secret of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and $1 as a fee for testing it, at the same time stating their age, will be told their disease. Letters addressed to Box 364, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. References as to his mode of treatment can be given to some of the first Physicians in the country.

Dr. Rowe will be at the Exchange Hotel, Attica, for 4 days, Tuesday, Wednesday, Thursday, Friday, Oct. 4, 5, 6, 7, where he can be consulted on the above diseases.

Good news for the People.

G. W. Hull, is again in the field with the largest stock of *Boots and Shoes* ever exhibited in Genesee county—he has all the desirable styles suitable for the season. We noticed among other things a large assortment of *Mens and Boys* Thick Kip and Calf Double sole Boots of *extra quality custom made* which are selling very fast at about one half the price that the people of this county have formerly paid for such goods.

Ladies and Children's work he has in very great variety.

We would advise all our friends to give him a call and *save money* in shoeing up for the winter, his stock is large, his goods *first quality* and his *prices* are from 30 to 40 percent below any other House in the county. The store is north side of Main Street, Batavia.

It is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial!

THE GREAT AMERICAN

Boot & Shoe Store,

No. 2, Odd Fellow's Hall.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprets to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the villages of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* in manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

Latest News.

BY TELEGRAPH.

Arrival of the Steamship Canada

News of Sir John Franklin.

INTERESTING DETAILS!

Sackville, N. B., Oct. 7.

The Royal Mail steamship Canada, Captain Lang, left Liverpool at 3 P. M. of the 24th ult., and arrived at Halifax on Thursday the 6th inst., at 11 A. M.

The ship Josiah Quincy, from Leghorn for Boston, was abandoned at sea on the 4th of September leaking badly. The crew had reached Liverpool per ship Edmonton, as had also a small portion of the cargo.

The London Morning Herald gives prominence to the following paragraph:

We have reason to believe that a definite treaty will soon be concluded at Zurich. It will, however, bear only the signatures of two powers, France and Austria.

The preliminaries of Villafranca will be strictly maintained. As to the relations of Austria and Sardinia, we learn from Vienna that the preliminaries of Villafranca will serve as a guide to the conduct of Austria.

A Berne telegram says a courier from Vienna had reached Zurich with instructions to draw up a treaty of peace and a document for the cession of Lombardy to Sardinia. No allusion is made to the Duchies. It is hoped that a treaty will be signed in a few days.

GREAT BRITAIN.

The screw steamship Fox, Capt. McClintock, sent by Lady Franklin to the Arctic region, in search of Sir John Franklin's expedition, had returned to England having been completely successful.

At point William, on the northwest coast of King William's Island, a record was found dated April 25th, 1848, signed by Capt. Crozier and Fitzjames. The record says the Erebus and Terror were abandoned three days previously in the ice, five leagues to the northwest, and that the survivors in all, amounting to 105, were proceeding to Great Fish River.

Sir John Franklin had died June 11th, 1847, and the total deaths to date had been 9 officers and 15 men. Many interesting relics of the expedition, on the western shore of King William's Island and others, were obtained from the Esquimaux who stated that after their abandonment, one ship was crushed in the ice and sunk and the other forced on shore, where she remained.

The Fox was unable to penetrate beyond Bellot Straits, and wintered in Brentford Bay. Minute and interesting details of the expedition are published.

Several skeletons of Franklin's men, large quantities of clothing, &c., and a duplicate record up to the abandonment of the ship, was discovered.

Thirty of the crew of the Great Eastern had been arrested and tried at Weymouth for mutiny in refusing to wash the deck when ordered. The two ringleaders were sentenced for three weeks and a month imprisonment, respectively, at hard labor, and the remainder for a fortnight each. The evidence showed that the ships crew was far from complete.

The English journals strongly denounce the incomplete and hurried manner in which the ship was set to sea.

A vague rumor has been current that her first voyage would be postponed till next year, and that in the interim she would be exhibited at the principal ports in the Kingdom. This, however, is authoritatively contradicted, and she is still advertised to leave Holyhead for Portland on the 20th of October.

It is announced that the Queen on her way back from Scotland, will visit the Great Eastern at Holyhead on the 17th, and stay at Penrhyn Castle as the guest of Col. Pennant.

At the agricultural show at Lewes a steam chaff cutter exploded, killing four persons.

Is Found

Something True and Important.

If you are afflicted with any of those diseases [illegible] Profs. Youngs & Bolles, of Buffalo, would say to the citizens of Batavia and vicinity that they have taken rooms at the Eagle Hotel, and will remain a few days for the purpose of introducing their new and important discovery in the use of Electricity for the cure of all curable diseases.

They solicit no patients except those given up [illegible] The reader might here ask are they really cured such cases, or are their statements false? Have they not, as [illegible] in their own vicinity all such cases [illegible] In reply they would say, they have cured and are curing every day just such cases. They have restored to health a great number of persons in Buffalo and surroundings, who have been suffering from various diseases five, ten, and fifteen years and upwards, in a few days. They have cured and are curing a class of diseases that has baffled the skill of the medical profession in all ages of the world. The reader might here enquire, by what means such wonderful cures are performed? Not by irritating the delicate membranes of vital organs by drugging the stomach, but by direct application of the positive and negative polarities of electricity—[illegible]

[illegible] but owing to the friendly relation existing between electricity and health, remarkable cures have been performed, which have been looked upon as a lucky hit, rather than the result of a fixed law. The ignorance displayed in the administration of this mighty agent, is unpardonable.

The current has been generally applied through the hands or feet in such power as to convulse the whole nervous and muscular system and frequently producing irreparable injury; sometimes it has been applied by means of metallic conductors to different parts of the body, which is equal to a process of cauterization—and the effect upon the nervous system is similar to that produced by over doses of Strychnine or Quinine.

Every thing connected with their mode of applying electricity is new and original with themselves. Their philosophy for the electrical laws of life, health and disease, is new—Their reliable method for the diagnosis of disease by electrical contact is new.

As, also, their important discovery in the use of the positive and negative polarities to the human body, for the safe and speedy removal of all diseases.

All is new and unknown to medical men and others except the few instructed by them.

By this mode of applying electricity there is no guess work; no uncertainty; and no matter of doubt as to the result that will follow.

The diseased are invited to call and witness the wonderful cures they are performing daily.

Instruction given to those desiring a knowledge of this method of curing disease.

Address Profs. BOLLES & CHAMBERLIN.

THE UNDERSIGNED having gone for a few months to Europe, has left his accounts with Mr. J. A. Smith, at the Land Office, and has authorized him to adjust the same.

H. GANSON.

Batavia, Sept. 1859.

DR. M'LANE'S
CELEBRATED
VERMIFUGE
AND
LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa. To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

DR. HOOFLAND'S

GERMAN BITTERS,

AND

DR. HOOFLAND'S BALSAMIC CORDIAL,

The great standard medicines of the present age, have acquired their great popularity only through years of trial. Unbounded satisfaction is rendered by them in all cases; and the people have pronounced them worthy.

Liver Complaint, Dyspepsia, Jaundice, Debility of the Nervous System, Diseases of the Kidneys,

and all diseases arising from a disordered liver or weakness of the stomach and digestive organs, are speedily and permanently cured by the GERMAN BITTERS.

The **Balsamic Cordial** *has acquired a reputation surpassing that of any similar preparation extant. It will cure, without fail, the most severe and long-standing*

Cough, Cold, or Hoarseness, Bronchitis, Influenza, Croup, Pneumonia, Incipient Consumption,

and has performed the most astonishing cures ever known of

Confirmed Consumption.

A few doses will also at once check and cure the most severe **Diarrhoea** *proceeding from Cold in the Bowels.*

These medicines are prepared by Dr. C. M. JACKSON & *Co., No. 418 Arch Street, Philadelphia, Pa., and are sold by druggists and dealers in medicines everywhere, at 75 cents per bottle. The signature of C. M. Jackson will be on the outside wrapper of each bottle.*

In the Almanac published annually by the proprietors, called EVERYBODY'S ALMANAC, *you will find testimony and commendatory notices from all parts of the country. These Almanacs are given away by all our agents.*

News Items.

The Buffalo Republic goes in for co-operative associations; that is, clubbing together in a joint stock company, and employing a competent person to go to the best market and buy a store of goods and then sell them out, at low rates of profit. The mechanic who buys in stock during the summer, has his funds in the bank that will pay him off in just what he wants during the winter, at the lowest rates. These joint stock stores have been in operation for many years in some States, and work well. They serve as regulators of prices, and reduce demands down to lowest profits.

The New York Tribune has for a long time enjoyed a rare reputation as a "story teller," but of late it seems ambitious to outdo Bonner. It has appeared of late adorned and made interesting, with two very long tales, "The Man of Snow" and some other man, or woman, we forget which.

From the *narrative* about Doesticks as Tribune Reporter at the Canada Fight, as it appeared in the Buffalo Republic, we should suppose that the Tribune was ambitious for a sporting reputation also.—Doesticks makes a tail that is pretty much all way.

WHAT IS HUNGER? How few know what it is to be hungry, and yet how many there are who are complaining from morning to night about what they eat, and yet do not know what hunger is. The following item from La Mountain's narrative of his balloon voyage and sufferings will give a slight fore taste of what may be relished.

"In one of these [illegible], we found two tiny white frogs. They were the first *food*" we had seen in twenty four hours. Perhaps they were not eaten—probably they were. Not hind-quarters alone; we were not dainty; fore-quarters, head, bones and all. I never tasted a sweeter morsel in my life—and my companion came to the conclusion that Soyer could not have fabricated a more tempting morsel. Yet the unsatisfied, longing cry of our stomachs was, "Give! give!—more! more!"—But no more dainty little frogs—nor even a snake—responded; and we went without. We thought we knew what it was to feel hungry then; we found afterwards that we were only taking the first rudiments in our lesson."

SINGULAR [illegible].—We give a gratuitous insertion to the advertisement of a New Haven lady, in the idea that some of our Buffalo ladies, who are occasionally in similar straits, may take the hint and bring a grist to our advertising mill:—

"WANTED TO HIRE.—A lady, having a pleasant home, no incumbrances but a husband and one child, wishes to place herself at the disposal of some servant who can come well recommended from her last place. She would prefer one who would be willing to remain in doors at least five minutes after the work is finished. She would also stipulate for the privilege of going to church herself once each Sunday, having been compelled to refuse the last applicant, who was not willing to allow her but half a day once a fortnight. Wages satisfactory —if under $10 a week.

She is deeply conscious of the inability of ladies in general to comply with the present demands of servants, but she hopes by strict attention to please in all respects. The best of references can be given; also a good recommend from one who has now left her to the fate of many housekeepers. Please apply before 9 A. M."—[Buff. Republic.

BIDDING ADIEU.—Mr. La Mountain says of bidding adieu to his air ship, after jumping out, I knew that it was necessary to abandon the balloon, as we should have all we could do to find our way out of that almost impenetrable wild, without any encumbrance. There was no alternative—the work of the Atlantic was done. I have known what it was to be shipwrecked at sea, and to behold a vessel I had learned to love as my home, engulphed in the foaming waters—but I never experienced anything like the emotion that filled my heart as I exclaimed, "Good-bye, old Atlantic; we shall never meet again." It seemed like parting from an old friend in perfect health, with the full knowledge that he would never be seen again [illegible]. Tears blinded my sight; and it required, I suppose, the same effort to enable me to leave the cherished "companion"—for so I had learned to look at it,—of so many perils and so many pleasures, as it does for a father to tear himself away from the coffin of a beloved child. Perhaps it was foolish and "nonsensical;" if it was, I can only say, I could not help it.

The Pittsburg Evening Journal says of the enforcement of the Sunday law as carried out in that city:

"There is no telling to what extremes this Sunday law may not be pushed, if a strict compliance with the act is insisted on. The sextons who toll the bells in our churches; the collectors on our bridges and public roads; the drivers of carriages, which bring passengers from the railway stations; the helpers who harness horses at the livery stables, and even the organists who contribute so much to the effective worship of the Almighty in the churches—all would be liable under a strict construction of the act, and had we those among us fanatical enough to demand it, all might be mulcted in the inevitable $25.

The family and friends of Mr. Amos Haskins, of New Bedford, Massachusetts, received information some time ago that he had been drowned at San Francisco.—A body, supposed to be that of the defunct Haskins, was found and decently interred, and the bill for funeral expenses forwarded to his wife for payment. His friends also passed resolutions of condolence; but on last Friday, to the great relief of his family, Haskins returned safely home.

There were 8,630 emigrants arrived at New York during the month of September—2,703 Germans, 3,126 Irish, 1,123 English, 237 Scotch, 48 Welch, 234 French, 69 Swiss, etc. Since the 1st of January, 62,118 emigrants have arrived in New York.

The Grand Jury of Chittenden county have indicted the Vermont State Agricultural Society as a nuisance. The ground of the indictment is that said Society has violated the law against horse racing.

A letter in the London Times speaking of the revival in Ireland, says that during the last three months twelve persons have been committed to the Belfast Jail as "dangerous lunatics" whose loss of reason is attributable to religious excitement.

There is a rumor that a formidable filibustering expedition has left Charleston for Nicaragua.

Women's Rights.

The Convention of Buffalo adjourned the other day without affording any relief to the poor, weak creatures. What a pity! Men pride themselves on being the lords of creation, blustering about their superiority, and sneer at women's rights; but it is a hypothetical theory, knocked into a cocked hat by actual demonstration. Women do and will have their own way anyhow right or wrong. If Mr. Brown, in a sudden fit of economy, resolves to vote no further appropriation for millinery, a smile irradiating the angelic countenance of Mrs. B. who enthusiastically expatiates upon the transcendant beauties of that "love of a bonnet," softens his heart and relaxes his purse strings. [illegible] Mrs. B. that it's no use; that [illegible] silk may be very rich and remarkably cheap, but she can't come it over him this time.—His better half changes her tactics, goes into the aqueduct line, and gushes forth like a fountain on the Fourth of July,—Brown isn't sugar or salt, but he can't stand tears. He thinks of Niobe, conjures up visions of Mrs. B. in marble, and ten yards of striped silk, with trimmings, go to the dressmaker's. Old bachelors need not say a word; they have eaten Mrs. Ferguson's [illegible] and [illegible] without a murmur; [illegible] bed bugs and dirty sheets and [illegible] complain; [illegible] their dinners without a [illegible] would be [illegible] his been in [illegible]. Don't talk of women's [illegible] their rights, and some of our rights besides. It is only [illegible] of feminine [illegible] complain of man's [illegible] women [illegible] against the stronger sex.

"[illegible]."
—*Albany Knickerbocker.*

NEW ORLEANS, OCT. 8.

The filibusters have arrived in custody of the U. S. Marshal. Captains Maury, Fassaux and [illegible], and [illegible] Anderson have been held to bail in $3,000 each, to answer. The rest of the men were left at the barracks [illegible] and have since decamped, there being no guard there, the filibusters having made the addition [illegible] the steamer while coming up to the river. They state that they were on a fishing party.

On Time.

[illegible] 11, molasses 31, saleratus [illegible], Indian gaiters [illegible]. Mens boots $2.00. Milo is in full bloom again. *Sells remarkably Cheap* and keeps a splendid assortment.
Hard to Beat the Yankee. tf

Good news for the People.

G. W. Hall, is again in the field with the largest stock of *Boots and Shoes* ever exhibited in Genesee county—he has all the desirable styles suitable for the season. We noticed among other things a large assortment of *Mens and Boys* Thick Kip and Calf Double sole Boots of *extra quality* custom made which are selling very fast at about one half the price that the people of this county have formerly paid for such goods.

Ladies and Children's work he has in very great variety.

We would advise all our friends to give him a call and save money in shoeing up for the winter, his stock is large, his goods *first quality* and his *prices* are from 30 to 40 percent below any other House in the county. The store is north side of Main Street, Batavia.

IT is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial!

Sold by druggists and dealers everywhere.

DR. N. R. C. ROWE.
URISCOPIAN PHYSICIAN
(Late from the Island of Barbadoes West Indies.)

WILL be located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections, Tumors, diseases of the Lungs, Throat, Liver, Kidneys, &c., &c. Also Scrofulous and all other Chronic Diseases [illegible], corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of the Profession. He has cured entirely some of the worst cases of [illegible] CANCER, [illegible] chill the heart and makes life a [illegible] system afflicted with [illegible] pronounced by some of the most skillful Physicians incurable. [illegible] CATARRH, this most awful disease, which if not checked, terminates in Consumption, he can cure most readily.—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practitioner and no self taught man. Dr. Rowe has discovered a speedy and certain cure for such cases of that fearful and ravaging disease Cancer, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer cannot be cured. Dr. Rowe however, has after a thorough investigation [illegible] of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases more correctly and successfully than by any other mode of examination. The reason that a great many curable diseases are deemed incurable is simply from not finding out the real secret of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and $1 as a fee for testing it, at the same time stating their age, will be told their disease. Letters addressed to Box 961, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. Reference as to his mode of treatment can be given to some of the first Physicians in this country.

Dr. Rowe will be at the Exchange Hotel, Attica, for [illegible] days, Tuesday, Wednesday, Thursday, Friday, [illegible] where he can be consulted on the above diseases.

LOCAL MATTERS.

Burglary.

A very decided, but unworkmanlike manifestation was made Sunday night in and upon the Gunsmith shop of I. M. Joslyn, in the way of breaking through and taking things that belonged to somebody else. Whether he broke the Sabbath or waited until that day had passed away, is not evident, but that he did break a door between the back and front shop so as to reach his hand through and unlock it—the most positive evidence in splinters and two large holes, appeared this morning.—A revolver that never mis't [illegible], was missed this morning with some other property to the amount of about ten dollars.

Mr Joslyn would not have minded the burglary much had it only been done in a workmanlike manner, but such a bungling way of doing things is not pleasing to a good mechanic, as Mr. Joslyn is well known to be. We presume the thief would be forgiven the theft, and be furnished trimmings for the revolver, by calling on the owner, if he would use it on himself—he wouldn't be missed.

Free Lecture.

At Concert Hall, Monday evening, Oct. 10, 1859, at 7½ o'clock, P. M.—Subject, Electropathy.

Prof's Bolles & Chamberlin will give a series of Lectures explaining the Laws of Life and Health, and demonstrate most incontrovertably, that Electricity is the only *safe, efficient* and *reliable* agent for the cure of diseases.

They will also show why it is that Medical Men, and others who have undertaken to use this agent in the cure of disease, have almost invariably failed.

As this subject is so intimately connected with the Life, Health and happiness of all classes and conditions of life, both Male and Female, a general invitation is given.

First Lecture on Monday evening, Oct. 10, half past 7.

Batavia, Oct. 7, 1859.

THE GREAT AMERICAN

Boot & Shoe Store.
No. 2, Odd Fellow's Hall.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprets to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS,

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c, which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

Batavia, August 17th, 1859.

[illegible] Quaker City, Capt. [illegible], from New York, bound to Havana, has arrived here.

On the 7th inst. [illegible] Cape Hatteras, her engine was disabled. The excitement was very great, and the boats were manned, provisioned and equipped, as it was supposed the ship was leaking badly.—The pumps were immediately set to work and the water [illegible] was thrown out of her, but it was found she was not leaking.

Vicksburg, Miss., Oct. 8.

Mr. Partridge, editor of the Vicksburg Whig and Mr. Wagner, [illegible] candidate for Representative in the State Legislature had a hostile meeting at [illegible] yesterday, but the affair was amicably adjusted before any shots had been exchanged.

New York, Oct. 9.

It is said that Edwin Price who [illegible] won the fight with Kelley, received a challenge yesterday from [illegible] King [illegible] to fight him in Canada at such time as the parties may determine upon and that Price has accepted. [illegible] Heenan, the Benecia Boy, [illegible] the trainer and second of Price. The fight is to come off in about three months.

The steamship Manhattan, from Queenstown 25th, arrived to-day.

Father Point, Oct. 9—P. M.

There are yet no signs of the steamer Indian, fully due, with Liverpool dates of the 28th ult. Weather clear and calm.

New Orleans, Oct. 9.

The Schooner Star has arrived from Minatitlan with California advices of September 20th.

The steamer Jno. L. Stephens and Orizaba, which sailed on that day for Panama, had $2,000,000 in treasure.

The foreign trade business was dull. Arrivals had been numerous and the market weaker, though no decline was noticeable except in candles which were heavy and lower. Provisions less firm and the turn was in favor of the buyers. Sugar quiet and refined lower. Dry goods, boots and shoes depressed.

The Star brings a large mail of government dispatches.

Judge Terry had been arrested. The public were much incensed at the killing of Broderick. His funeral was the most imposing ever witnessed in San Francisco.

By the Star we have Vera Cruz dates to the 29th and City of Mexico to the 23d ult. The conspiracy on the part of the leading officers in Miramon's army with the object to overthrow Miramon, and recognize the liberals was divulged the day before the execution of the officers took place—on the 23d ult.

The other conspirators not in the army, would not, it is supposed, be punished.

At Vera Cruz active preparations were making to move upon Jalapa.

Cobos' division was entirely routed on the 12th by the Liberals, by Oajaca. A number of prisoners were taken but were pardoned.

The Church party had taken Moreno and others, and they had been shot.

Minister Otway leaves on the British steamer Oct. 2.

The British ship of war Calypso was engaged in smuggling $600,000 from a port near San Blas.

Dr. M'Lane's
CELEBRATED
VERMIFUGE
AND
LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of Liver Complaints, all Bilious Derangements, Sick Head-Ache, &c. In cases of

Fever and Ague,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

Fleming Brothers,
Pittsburgh, Pa.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa. [illegible] All orders from Canada must be accompanied by twenty cents extra.

THE GROVER & BAKER Sewing Machine Co.

Having greatly increased their facilities for manufacturing their Celebrated Family Machines, with all the recent improvements, have reduced their prices, and offer to-day

A NEW STYLE MACHINE, PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

POSTPONED.—The Fair of the Pavilion and Covington Agricultural Society, that was to be held last Saturday was, in consequence of the rain, postponed to Oct. 21, at which time it will come off without further delay.

Mr. Charles M. Leupp, a well known, leather dealer, of Ferry st., New York committed suicide by shooting himself through his heart, a few days ago. Mr W. F. Cook of Geneva, had but a short time previous called upon him at his house where he found Mr. Leupp at dinner. Shortly after, while Mr. Cook was in conversation with Mr. L's daughters, the report of a gun was heard up stairs and on going to the room, Mr. Leupp was found dead. He had been suffering for some time from strange hallucinations, but no real cause was known to induce him to commit the rash act.

"Hon. Israel T. Hatch of Buffalo has been appointed by the President to examine into the operations of the reciprocity treaty upon the revenue and trade between Canada and the United States.—There is an almost universal dissatisfaction on northern frontier with this treaty, and it is believed that it can be so modified and amended that it will work less injuriously to the revenue."

The working men of Buffalo had a meeting last Saturday evening to take into consideration the question of furnishing employment and wages for the mechanics and laboring men of that city. The meeting was duly organized, and speeches made.

C. C. Bristol Esq., of the Republic in response to a general call, addressed the meeting at some length. He thought the most feasible plan of benefitting the pe[illegible]ing classes, was the establishing of protective stores, where the pure unadulterated necessaries of life might be procured at a fair price, and the profits arising therefrom accrue to the subscribers to the stock. He read an extract from a newspaper giving a short history of a cooperative store in Rochdale, which was established by a number of poor weavers in the year 1844, and was successfully carried on up to the present time. It commenced with 28 members with a capital of £28, and in 1857 the number of subscribers had increased to 1,850 with a capital of £15,142 1s. 9d. His remarks were well received and elicited much applause.

LOCATED ABROAD.—The N. Y. Post in an article about the poor of that city says:—

It is now several years since we have been afflicted with cholera. Should, however, the cholera visit us next summer as its march from Asia, and through the countries of northern Europe this year renders probable, it will find in New York a gala festival of death. Our tenement houses are worse than ever, and the poor population has greatly increased since 1832. Then the class now represented by some twelve thousand families, living two and three families in a house, formed by far the largest class of the citizens of New York, and were in a position with the wealthier classes to leave, and to a great extent did really leave the city until the cholera subsided. But now it is estimated that there are fifty thousand families whose poverty would compel them to remain in the city, although certain death would be the consequence of their thus remaining, through some epidemic.

A STRATAGEM.—The following composition is from a recently invented machine that is expected soon to usurp the use of brains. It makes good poetry with the exception that the lines are not properly arranged as in this specimen. Another fault is in getting the subject topsy-turvy towards the end, but all this will be remedied in time.

On a winter's night, when the moon shone bright, and the snow was crusted o'er, with a sound as rain as seraphs see, I slid from a hill down lower. Ere we reached the base, (like a horse on a race,) one swift sliding sled careered; and with tresses fair, streaming back on the air, *sweet Sally [illegible] ever read.*

"I hope you are not disposed to question the character of my milk," said a landlord to his guest,—"Oh; no, it has been pumped enough already."

"Are you sure the milk you feed the baby is pure" said a Brooklyn Doctor to the mother of a little patient "O' certainly" replied the anxious father sitting by, "I know the man well that makes it."

The Boston Herald gives an account of the death of Henry Black of Newport, Penn., who undertook to sever the head of a hen, and was scratched by a rooster, which spurred him on the hand into an artery. About two weeks after the accident he was attacked with intense pain, a sickening sensation of the heart, and his sufferings became insupportable. At this date a remarkable occurrence took place. He drew his entire frame together, as though to gain strength for an act, and his voice broke forth like the crowing of a rooster. This was repeated from time to time, and such was the similarity of voices, that the outside listeners asserted their belief that it was a rooster. After four days of indescribable suffering he died, and crowed no more.

GREAT FIRE AT BATH.—Between two and three o'clock Saturday morning, a fire broke out in the "Crooks House," Bath, Steuben county. The Hotel was entirely consumed, together with the Court House adjoining. Beckman's sash and blind factory was damaged two or three hundred dollars.

The loss on the Crooks House was about $10,000; insured for $5,000.—There is an insurance of $5,000 on the Court House. Two men were injured by falling from a building. The fire is supposed to be the work of an incendiary.

Old Line Whigs Flocking to the Standard of the Democracy.

Numerous instances have come to our knowledge recently from different portions of the State of large numbers of Whigs who have become thoroughly disgusted with Republican isms and corruption, and who have for some years stood aloof from party politics, coming out openly avowing their purpose to unite with and support Democratic principles and Democratic candidates. We welcome all such to our standard, because we are assured that they come from not for spoils but from principle—they come because they are convinced that the Republican organization is founded upon [illegible] corrupt purposes that its success will [illegible] the institutions of the country, and that its only support is gained by a false and hypocritical pretence of regard for human freedom, while its purposes tend to every species of [illegible] of body and mind.

SILVER SPARROWS AND SPLENDID FISHING.—The Fredonia Censor tells of one of the sharpest fishing tricks than we have heard of in some time. A Mr. Jackson Sage made a wager of [illegible] with some parties in Fredonia that he could shoot fifty [illegible] at the distance of ten rods, without once missing the mark. He accomplished the feat, but did it by [illegible] the [illegible]. He had only to [illegible] of the creek, and the [illegible] them home, &c.

Miller is in full bloom again. *Sells remarkably Cheap* and keeps a splendid assortment. *Hard to Beat the Yankee.* tf

Good news for the People.

G. W. Hall is again in the field with the largest stock of *Boots and Shoes* ever exhibited in Genesee county,—he has all the desirable sort—suitable for the season. We noticed among other things a large assortment of *Mens and Boys* Thick Kip and Calf Double sole Boots of extra quality custom made which are selling very fast at about one half the price that the people of this county have formerly paid for such goods.

Ladies and Children's work he has in very great variety.

We would advise all our friends to give him a call and save money in shoeing up for the winter, his stock is large, his goods first quality and his prices are from 30 to 40 percent below any other House in the county. The store is north side of Main Street, Batavia. *

It is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorant as Dr. J. Hostetter has given to the world, in his celebrated "bitters." The weak and nervous denizen of the counting house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial?

DR. N. R. C. ROWE,
URISCOPIAN PHYSICIAN.
(Late from the Island of Barbadoes, West Indies.)

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections, Tumors, diseases of the Lungs, Throat, Liver, Kidneys, &c., &c. Also Scrofulous and all other Chronic Diseases, at his office No. 3 Stone Block, corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathsome disease, CANCER—the thoughts of which chill the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skillful Physicians as decidedly incurable. These patients now live as witnesses to this fact. CATARRH, this most awful disease, which if not checked, terminates in Consumption, he can cure most speedily.—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practitioner and no self taught man. Dr. R. has discovered a speedy and certain cure for such cases of that fearful and ravaging disease Cancer, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer cannot be cured. Dr. Rowe however, has after a thorough investigation and study of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases more correctly and successfully than by any other mode of examination. The reason that a great many curable diseases are deemed incurable is simply from not finding out the real seat of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and $1 as a fee for testing it, at the same time stating their age, will be told their disease. Letters addressed to Box 194, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. Reference as to his mode of treatment can be given to some of the first Physicians in this country.

Dr. Rowe will be at the Exchange Hotel, Attica, for 4 days, Tuesday, Wednesday, Thursday, Friday, Oct. 4, 5, 6, 7, where he can be consulted on the above diseases.

DR. J. B. GIFFORD'S HOMOEOPATHIC REMEDIES.

☞ It is impossible to judge anything of the value of a medicine by the manner in which it is puffed and extolled in newspaper advertisements. We are not compelled to resort to any such methods to dispose of our remedies, for their intrinsic merits alone are selling them as fast as we can prepare them.

All who are in want of a *Safe, Convenient and Efficient Medicine,* are referred to the following list of Gifford's pure and reliable Homoeopathic Remedies:

CATARRH AND HEADACHE PILLS, for headache, sick headache, vertigo, habitual [illegible], and all forms of Catarrh of the head, throat and lungs.

COUGH PILLS, for coughs, colds, Hoarseness, Influenza, Sore Throat, Asthma, and all similar troubles of the throat and lungs.

CROUP PILLS, for Croup, dry and loose cough, and hard breathing.

DYSPEPTIC PILLS, for Dyspepsia, Constipation, Indigestion, weak and sour Stomach, [illegible], mental despondency, gloomy forebodings, hypochondria, Liver and Kidney complaints.

BILIOUS PILLS, for irregular action of liver, lost and depraved appetite, and jaundice.

DIARRHEA PILLS, for Diarrhea, Dysentery, Cholera Infantum, Cholera Morbus, Cholic, Griping, and all summer complaints.

PILES PILLS, for constipation, Blind and bleeding Piles.

FEVER PILLS, for all forms of Fevers, Congestions, Inflammations, and Pleurisy.

NEUROTIC PILLS, for Nervous Irritability, Sleeplessness, Toothache, Neuralgia, and all nervous affections.

SCROFULA PILLS, for Salt Rheum, Glandular Swellings, Eruptions of the Skin, Erysipelas, Sore Eyes, and discharge from the Ears.

FEMALE PILLS, for scanty, painful and suppressed menstruation, Leucorrhea, profuse menses, and bearing down.

WORM PILLS, for Worms, Worm Fever, [illegible], convulsions, and wetting the bed.

These remedies are put up in beautifully embossed boxes.

We have also prepared Cases, which contain one box of each of the twelve remedies for the use of families; also, small Cases, containing six boxes each, for the use of travelers, &c.

Price of large cases, containing twelve boxes, with manual of directions, $3.25. For small cases, containing six boxes, with manual of directions, $1.75. For single boxes, with full directions, 25 cts.

THE GREAT AMERICAN
Boot & Shoe Store,
No. 2, Odd Fellow's Hall.
GREAT DISCOVERY!
NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprets to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and MECHANICS to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

Batavia, August 11th, 1859.

Arrival of the Steamer India.

Four Days Later from Europe.

FARTHER POINT, Oct. 11.

The steamship India, from Liverpool at 12 o'clock on the morning of the 28th ult., passed this point at half past 4 o'clock this afternoon, and will reach Quebec about 3 o'clock tomorrow night. Her dates are four days later than the Canada.

The steamship Africa, from New York, arrived at Liverpool on the 25th ult.

The American ship Charles Buck, recently loaded, for Liverpool, was burnt at Bombay on the 22d of August. She was a total loss.

It was stated that the Conferences at Zurich were again progressing.

The Paris correspondent of the London Times says that the task of the Plenipotentiaries has been diminished by dispatches from Vienna, and that it is believed the Conferences will be terminated in a few days, unless fresh impediments should be manifest. The amended programme is stated to be as follows:

A definitive treaty of peace will be signed by the three powers, when another treaty will be drawn up by which Austria will cede Lombardy to France, who will make it over to Sardinia. The most difficult point is the double transfer is the debt, and on this head it is believed Austria will moderate her demands. Documents will be brought up respecting the Italian confederation, the restoration of the Dukes and other questions, but they can only be signed by the Austrian and French Plenipotentiaries, as Sardinia entirely rejects the restoration of the Dukes and will not agree to a confederation on the present circumstances. Spain is requested to be represented, should a Congress take place.

The gossips of Paris and Brussels state that Prince Albert will represent England the Arch Duke Maximilian, Austria, at the prospective Congress at Brussels.

Great Britain.

The repairs of the Great Eastern were going on actively forward at Portland, but it was considered doubtful whether the ship could be got ready for sea during the month of October. The fittings and all connected with her sea-going equipments had been placed entirely in the hands of the marine department of the Board of Trade and this, it was supposed, would increase the expected delay. It was thought probable that in a few days the ship would proceed to Southampton for convenience of receiving materials from London and for the gratification of excursionists, who continued to visit her by thousands.

The telegraph cable between Malta and Sicily had been successfully laid. Business had commenced upon it.

Derby had carried out his threat to clear his Doon estate in Ireland, so far as to have every tenant served with a formal notice to quit.

The incentive, it will be remembered, was the difficulty experienced in tracing out a murder and the conviction that the tenantry threw impediments in the way of his discovery. The case had attracted much attention.

It was stated that Sir Robert Hope's grant is to have command of the expeditionary force to China and that 10,000 men are to be sent from India, but none from England.

Episcopal Convention.

RICHMOND, Oct. 10.

In the Episcopal Convention the committee on canons reported adversely as to amending article first of the constitution, so as to locate the convention permanently at Philadelphia. The report was tabled.

The committee also reported that canons one and two of 1853 are not repealed by the action of the last convention.

The order of the day being the amendment to article three of the constitution, was taken up and debated at length without action.

The following is the proposed amendment to article three:—Whenever general conventions are held, the Bishops of this church shall form a separate house, with the right to originate and propose acts for the concurrence of the House of deputies. All acts must pass both Houses.

THE [illegible]

DR. M'LANE'S
CELEBRATED
VERMIFUGE
AND
LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,
PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa. [illegible] All orders from Canada must be accompanied by twenty cents extra.

AND

DR. HOOFLAND'S BALSAMIC CORDIAL,

The great standard medicines of the present age, have acquired their great popularity only through years of trial. Unbounded satisfaction is rendered by them in all cases; and the people have pronounced them worthy.

Liver Complaint, Dyspepsia, Jaundice, Debility of the Nervous System, Diseases of the Kidneys,

and all diseases arising from a disordered liver or weakness of the stomach and digestive organs, are speedily and permanently cured by the GERMAN BITTERS.

The **Balsamic Cordial** *has acquired a reputation surpassing that of any similar preparation extant. It will cure,* WITHOUT FAIL, *the most severe and long-standing*

Cough, Cold, or Hoarseness, Bronchitis, Influenza, Croup, Pneumonia, Incipient Consumption,

and has performed the most astonishing cures ever known of

Confirmed Consumption.

A few doses will also at once check and cure the most severe **Diarrhœa** *proceeding from* COLD IN THE BOWELS.

These medicines are prepared by Dr. C. M. Jackson & Co., No. 418 Arch Street, Philadelphia, Pa., and are sold by druggists and dealers in medicines everywhere, at 75 cents per bottle. The signature of C. M. Jackson will be on the outside wrapper of each bottle.

In the Almanac published annually by the proprietors, called EVERYBODY'S ALMANAC, *you will find testimony and commendatory notices from all parts of the country. These Almanacs are given away by all our agents.*

Old Party Issues.

Our "perseverance," it seems, has at length had such an effect upon our impassible but respected friend of the Advocate, as to produce a partial response to our enquiries as to the principles of the new republican party. He says that "so far as we have been able to ascertain the Republican party is not in favor of a Bank of the United States. It is not in favor of building a great *national highway from Buffalo to New Orleans* by the General Government." We doubt whether this response will satisfy the honest enquirer after truth upon this subject. As to the Bank question we have seen how the same men who now compose nineteen-twentieths, at least, of this new party, acted after they came into power in 1840. As to the question of internal improvements, by the General Government, among the States, whether the remark, that the new party is not now in favor of building the great national highway from Buffalo to New Orleans will satisfy the honest elector as to the future policy of the new party upon this great question, the public will determine. No one supposes that any party would now favor the construction of such a road.

In regard to another great issue of grave importance to the people at large the Advocate is entirely silent. We allude to the tariff question which was discussed with so much spirit during the Presidential elections of 1840 and 1844, in the public press and upon the stump. The effect of those discussions upon the public mind was such that an entire change was effected upon this subject. The abominable whig tariff act of 1842 with its "doctrine of minimums," was overthrown and the revenue tariff act of 1846, substituted. In all the subsequent enactments of Congress (with the exception of free wool to which subject we shall hereafter refer) a revenue tariff has been the policy of the government. Now, it is important for the public to know whether this new republican party will, if it comes into power, abandon the present revenue tariff plan and fall back upon the protective system. We shall be ready at any time to enter again upon the discussion of this question. Is it the fear of discussion that occasions the silence of the Advocate and the "republican" press generally, upon this subject?

The Advocate admits that the new party is formed of majority of old whigs and a minority of democrats—This is true, but the minority of stool pigeon democrats is very small. Too insignificant to have any influence upon the policy of the new party should it attain power. The N. Y. Evening Post, now the tender of the Tribune and the Albany Evening Journal in this new enterprise, was for a long series of years the steady and able Advocate of free trade. Is it to be supposed that the past teachings of this paper will be adopted as the policy of the new party? The Post will be compelled to yield or be silent. Indeed, ever since it has composed a portion of the force of this new organization it has been silent or indifferent upon the subject of its former doctrines.

The Evening Post cooperated with the Tribune and the Albany Evening Journal in the free wool project of 1855—6. On that occasion it was induced to abandon its position as a *free trade* paper, and become the advocate of protection so far as to argue for the release of all duty on wool while it was continued on woolen cloth, thus making a discrimination of thirty per cent in favor of a few manufactures of woolen cloths against the great body of wool growers and consumers of woolen goods in this Country.

It was a plain proposition to levy, through the aid of the government, a tax or bounty of thirty per cent upon the consumers or purchasers of woolen goods for the purpose of reestablishing the manufacture of fine broad cloth, because such manufacture, it was said, had ceased to be a profitable business in this Country.

The Post had thus early been so far estranged from the democratic party and its own professed principles as to become the advocate, with the Tribune and other opposition papers, of a protective tariff to the extent above indicated—a tariff by which the farmer was to be sent into the markets of the world with his wool, while to the manufacturers of fine broad cloth from foreign wool a protection of thirty per cent was still to be continued.

We must be permitted to say, therefore, that the democratic idea of a revenue tariff will hardly find a single advocate with this new "republican" party. We may have more to say hereafter upon this subject of Free wool and the bribery of the editors of several influential Journals to advocate the passage of the bill.

The Telegraph.

"To grant special privilege to one is an encroachment upon the rights of another. To secure confidence, the public must be well served. The new company will have it in their power largely to reduce expenses. There are now two offices in almost every city and village in the country. One can do the business, and do it well. They will have a sufficient number of wires to transmit messages promptly. Of all the telegraph patents, they will naturally adopt the best system there has been or that may be devised. There should be no advance in price, but improvement in public convenience may be, and ought to be accorded to the wires. More substantial lines should be erected, and better insulation should be obtained. The operators and agents should be intelligent and accommodating. No message should be taken when it cannot be immediately sent; no charges should be made when business is not promptly transmitted. With these improvements the public will be fully served. The telegraph is an institution peculiar to the American people."

We clip the above from an article upon the rules and regulations of the telegraph system as embraced in the proposed charges of the Eastern lines. How the Associated Press can reconcile such views with its practice of granting exclusive privileges as it has done in this place, we do not understand. We made the first application for the telegraph News Report, and yet an exclusive contract was made with the *Republican paper here*, and there is placed over its telegraph column a notice that is a disgrace to the telegraph management, if there is any authority for it. There is a great abuse in this matter somewhere, and it ought to be rectified. The HERALD and Advocate could together afford to pay for a Report, and on this account we would prefer that our Daily cotemporary should keep running if it could come up to a standard of fair dealing, but as the effort to run us out has failed, we fear that the *Daily Advocate* will one of these days give out with its exclusive privileges. This we should deem a misfortune while by keeping up, it would help defray the expense of a telegraph Report, for it does us no harm whatever.

The Quaker city steamship from New York for Havana, smashed her engines on the 7th inst, and her passengers were transferred to a sailing vessel at sea and taken into Norfolk. The disabled steamer was floating about loose when last heard from. There was about one hundred passengers, and as might be supposed they were greatly alarmed at the crushing of the engine, which was only appeased after learning that the ship was not sinking.

BALLOON ASCENSION.—Prof. PERRY, Says the Rochester American, made a successful ascension from Falls Field, in this city wednesday afternoon. The balloon took longer to inflate than was expected, and it was as late as 5 o'clock before the moment got off. All things being ready, however, the Professor took his place in the basket, and gave the order to cast loose. The machine sailed majestically away in a southeasterly direction, but did not rise to a very great height. Probably the greatest altitude attained was less than a quarter of a mile. Before getting out of the bounds of the city, the Professor sent back to the earth he had quitted, a small parachute to which was attached a cat. As near as we could ascertain, the animal must have landed somewhere in the 12th ward. When last seen, the balloon was proceeding steadily in its original course, but gradually descending. It did not probably get farther than Pittsford or Mendon.

GOOD ADVICE.—Some one says, "the more quietly and peaceably we all get on, the better—the better for ourselves, the better for our neighbors. In nine cases out of ten the wisest policy is, if a man cheats you, quit dealing with him; if he is abusive, quit his company; if he slanders you, take care to live so that nobody will believe him; no matter who he is, or how he misuses you, the wisest way is generally to let him alone; for there is nothing better than this cool, calm, quiet way of dealing with the wrongs we meet with."

Massachusetts is the only State in the Union which, by a constitutional provision, grants the title of Excellency to its Governor. Newspapers sometimes speak of the President of the United States as His excellency the President, but there is no legal sanction for this, the framers of the government having decided, after discussion, to bestow no title upon the President. A Committee of the Senate reported in favor of the style His Highness," but the House opposed any other title of office than that expressed in the Constitution.—So says the New American Cyclopedia.

Thomas McDonald, a native of Scotland, aged about forty-five years, committed suicide Thursday, Oct. 6, about 2 o'clock P. M., by hanging himself to a drum cord attached to a piece of gearing overhead, in the cabinet shop where he worked in Ogdensburg. No cause is known for the act. He leaves a wife and seven children to struggle with the world.

The fishermen have a very curious way of catching fish in the Rhone. They wade into the water at night with a knife and water tight lamp. They place the lamp under water, and the trout will soon follow it. As the fish come up to the surface of the water the fisherman kills them with his knife. This is no story but a veritable fact.—*Boston Courier.*

Arrival of the Overland Mail—Broderick's Funeral.

ST. LOUIS, October 1?th—The overland mail of the 18th ult, arrived in this city this evening. The San Francisco papers of that date give a long account of the funeral of Senator Broderick, which took place on the afternoon of the 18th. The remains were followed to the grave by about three thousand persons on foot, forming with the long line of carriages, the largest and most imposing procession ever witnessed in San Francisco. The streets were densely thronged and the buildings along the line of the procession were draped in mourning. A funeral oration was delivered over the remains by Col. E. D. Baker.

In describing a lady rider's costume at the Fair Grounds the reporter of a Cleveland paper meant to *say* she wore a "black skirt," but the printer placed an *h* where the *k* should have been. My goodness! we wouldn't be in that reporter's place for "gold untold."

DR. N. R. C. ROWE.
URISCOPIAN PHYSICIAN.

(Late from the Island of Barbadoes, West Indies)

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity that he can be consulted on all CANCEROUS and CATARRH affections, Tumors, Diseases of the Lungs, Throat, Liver, Kidneys, &c., &c. Also Scrofula and all other Chronic Diseases, at his office No. 3 Stone Block, corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathsome disease, CANCER—the thoughts of which chill the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skillful Physicians as decidedly incurable. These patients can live as witnesses to this fact. CATARRH, that most awful disease, which if not checked, terminates in Consumption, he can cure most readily—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practitioner and [illegible]. Dr. [illegible] has discovered a speedy and certain cure for such cases of that fearful and ravaging disease CANCER, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer cannot be cured. Dr. Rowe however has after a thorough investigation [illegible] of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. [illegible] Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases more correctly and successfully than by any other mode of [illegible]. The reason that a great many curable diseases are deemed incurable is simply [illegible] of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first passed in the morning [illegible] at the same time stating their age will be told their disease. Letters addressed to Box [illegible], Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to the office. Reference as to his mode of treatment can be given to many of the best Physicians in the Country.

☞ Dr. Rowe will be at the Exchange Hotel [illegible] Tuesday, Wednesday, Thursday, Friday, [illegible] where he can be consulted on the above diseases.

Correction.

In making up the article in this paper of last week under the head of "Public Debt," an error was made in the closing paragraph which should read as follows:

"A decline in the population and wealth of the State will inevitably be the result of over taxation, and many will be induced to sell their property and remove to some other State or territory where there is no public dept and where yet is to be seen some traces of public virtue and less vice-degeneracy than we have witnessed in this State during the ascendancy of antimasonry, whiggery and black republicanism.

Miles is in full bloom again. *Sells* remarkably *Cheap* and keeps a splendid assortment. *Hard to Beat the Yankee.* tf

Good news for the People.

G. W. Hall, is again in the field with the largest stock of *Boots and Shoes* ever exhibited in Genesee county—he has all the desirable styles suitable for the season. We noticed among other things a large assortment of *Mens and Boys* Thick Kip and Calf Double sole Boots of *extra quality custom made* which are selling very fast at about one half the price that the people of this county have formerly paid for such goods.

Ladies and Children's work he has in very great variety.

We would advise all our friends to give him a call and *save money* in showing up *for the winter*, his stock is large, his goods *first quality* and his *prices* are from 30 to 40 percent below any other House in the county. The store is north side of Main Street, Batavia. *

It is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial!

Sold by druggists and dealers everywhere.

Rail Track and Lands for Sale, AT AUCTION.

A JUDGMENT HAVING BEEN OBTAINED at a special Term of the Supreme Court of the State of New York, held at Corning Steuben County, on the 16th December, 1858, in an action wherein John A. Stevens and others were plaintiffs, and The Buffalo, Corning and New York Railroad Company and others were defendants—directing the sale by a Referee of all the property of said railroad corporation covered by their first mortgage—and the undersigned, as Trustees for the holders of the first mortgage bonds of said Company, having purchased, at such Referee's sale, the said property, they will, as such Trustees, sell at public auction, by Samuel B. Hard, Auctioneer, at the Rotunda of Spaulding's Exchange, in the City of Buffalo, in the county of Erie, on Wednesday, the ninth day of November, 1859, at 12 o'clock at noon, that portion of the said property which is described as follows, to-wit: All the interest of said Trustees in and to all that part of the rail track of The Buffalo, Corning and New York Railroad Company, and of the lands or interests in lands acquired by said Company for a rail track or other purposes, lying within the city of Buffalo, in the county of Erie, and extending from thence to the Tonawanda creek, in Batavia, in the county of Genesee.

Also, all the interest of said Trustees in and to the following described lands, to wit: All and singular, those lands conveyed by Joseph Dart, Jr., to the said railroad company, by deed, dated July 21, 1854, described as follows: "All that piece or parcel of land situate in the town of Black Rock, in the county of Erie, in the State of New York, being a part of lot No. 2, township 11, range 8, of the Holland Land Company's land, and bounded as follows, to-wit: Beginning at a point in the west line of said lot No. 2, at its intersection with the northerly line of a strip of land 125 feet wide, which has been heretofore staked out for the tracks of The Buffalo and Rochester Railroad Company and The Buffalo, Corning and New York Railroad Company; said point is also about 333½ feet north from the centre line of Williams street, running from thence northerly along said west line of said lot, seventeen hundred and twenty-seven feet; thence east at right angles with said west line of said lot number 2, twelve hundred and ninety-six and three-fourths of a foot to the east line of the same; thence south along said east line of said lot nine hundred and sixty-four and a half feet to the notherly line of the above mentioned strip of land of one hundred and twenty-five feet in width, heretofore staked out for the tracks of the said Buffalo and Rochester Railroad, and The Buffalo, Corning and New York Railroad Company, and thence southwesterly along the same fifteen hundred and two feet and three-fourths of a foot, to the place of beginning, containing forty acres of land, be the same more or less."

Also, all those lands conveyed to Constant Cook, as agent or commissioner for said company, by James Sully and wife, of Buffalo, date of deed December 2d, 1852, described as follows: "Land situated in the city of Buffalo, distinguished as part of outer lot No. 89, and bounded as follows: Beginning at a point in the westerly line of Louisiana street one hundred feet northerly from the north line of Exchange street, and running thence northerly on the said line of Louisiana street, twenty-five feet; thence westerly at right angles with Louisiana street, one hundred feet; thence southerly and parallel with Louisiana street, twenty-five feet; and thence easterly one hundred feet to the place of beginning: Being the southerly half of a lot fifty feet wide, which was conveyed to Thomas T. Sherwood by Martin Dailey, by deed recorded in the Clerk's Office, Erie County, Liber 89 page 179."

Also conveyed as aforesaid by the heirs of John Clapp, deed dated Dec. 28th, 1852, described as follows: Lot on west side of Louisiana street, in the city of Buffalo, commencing one hundred feet north of Exchange street, and running thence northerly on Louisiana street being twenty-five feet front and rear, by one hundred feet deep:

Also conveyed as aforesaid by Joseph Hottenger, June 30th, 1853, described as follows: Land situated in the town of Black Rock, being part of lot No. 50, in the eleventh township and seventh range of the Holland Company's Lands, bounded as follows: Being a strip of land bounded on the easterly end by the highway and lands of William Bailey; on the westerly end by lands now owned by Oliver Kirkover and wife and others; and on the northerly and southerly sides by lands owned by the above named Joseph Hottenger; said strip of land being 2[illegible] feet in length, as measured on the centre line of track of Railroad Company, and 125 feet in width, to-wit, 72 feet on southerly side, and 53 feet on northerly side of said centre line, containing [illegible] acres of land.

Also, a piece in the same county and town being a part of said lot number 50, bounded as follows: Being a strip of land bounded on the easterly end by said land conveyed as aforesaid to Oliver Kirkover and others; on the westerly end by lands owned by heirs of Henry H. Sizer; and on the northerly and southerly sides by lands owned by the above named Joseph Hottenger; said strip being seven hundred and twenty-two feet in length, as measured on the centre line of the track of said Railroad, and 125 feet in width, to-wit, 72 feet on the southerly and 53 feet on the northerly side of said centre line, containing two acres of land, more or less.

Also, the land conveyed as aforesaid, by William Bailey and wife, June 29th, 1853, described as follows: Land in town of Black Rock, part of lot 41, township 11, range 7 of the Holland Company's Lands, bounded on the easterly end by lands formerly owned by W. H. Gregg, now by second party; on westerly end by lands of Joseph Hottenger and the centre of the highway, on the northerly and southerly sides by lands of the said grantors; being 1435 feet in length as measured on centre line of Railroad track and 125 feet in width, to-wit, 53 feet on north side, and 72 feet on south side of centre line, containing 4 1-4 acres.

Also by William B. Green and wife, June 1st, 1853, described as follows: Part of lot 41, township 11, range 7, of the Holland purchase; a strip bounded on the easterly end by lands of S. V. R. Watson; on the westerly end by lands of W. Bailey; and on the northerly and southerly sides by lands of grantors, being 475 feet in length, and 125 feet in width, to-wit: 72 feet on southerly side, and 53 feet on northerly side of centre line of located track of Railroad, containing about 1 2-3 acre land:

Also, by Thomas Savage and wife April 13th 1853, described as follows: Land in city of Buffalo, beginning at a point in the west line of Pollard street, 100 feet south from Seneca street; running thence westerly on a line parallel with Seneca street, 167 feet, to the west line of subdivision lot 18; thence southerly along the west line of said lot No. 18, 30 feet; thence easterly at right angles, and along the north line of land, deeded to Young, 41 feet; thence southerly along the easterly line of land, deeded to said Young, to lands deeded to the Attica and Buffalo Railroad Company; thence northeasterly along the line of lands conveyed to said railroad company to Pollard street; thence on the west line of Pollard street to the place of beginning, reserving an alley 10 feet wide on the north side of said land, and 167 feet in length, from Pollard street to the west line of subdivision lot No. 18.

Also, by George M. Kaith and wife, March 2[illegible], 1853, described as follows: Land in the city of Buffalo, bounded as follows, beginning at a point in the south line of Steuben street, 38[illegible] feet easterly from the east line of Alabama street, and runs thence easterly on the south line of Steuben street, 30 feet; thence southerly at right angles to Steuben street to the line of the Buffalo and Rochester Railroad Company's lands; thence southwesterly along the said line of the railroad land to a point where a line commencing at the first above mentioned point, drawn thence at right angles with Steuben street, would intersect the line of railroad lands; and thence northerly and at right angles with Steuben street to the place of beginning.

Also, by Calvin Hurd and wife, February 11th, 1853, described as follows: Land in city of Buffalo, commencing on the south line of North Division street 15 feet east from the east line of Grosvenor street; thence east along the south line of North Division street, [illegible] feet to the line of the Buffalo and Rochester Railroad lands; thence southerly on said railroad lands, 141 45-100 feet, to a 20 foot alley; thence westerly and at right angles to and within 150 feet east of the east line of Grosvenor street; thence northerly and parallel with Grosvenor street, 105 feet to North Division street, the place of beginning:

Also, by Mary and W. A. Evening Report.

Court of Claims—Boston Post Office—The Slave Trade.

WASHINGTON, Oct. 11.—The business of the U. S. Court of Claims is suspended, owing to the absence of Judge Loring, who is detained at home by sickness. Opinions are ready to be delivered in all unfinished cases heretofore argued. There are perhaps 50 of them.

Considerable interest is manifested in certain influential quarters concerning the law of the last session of Congress, fixing the Boston postoffice in State street. An impression prevails that it will be repealed when Congress meets, and the State street party will require all their strength to sustain the present location.

The Governor is satisfied that the yacht Wanderer is the only vessel which has landed Africans on our coast, but with a view to prevent any farther violation of the law, the most stringent efforts have been and will continue to be made to intercept any such cargoes destined for the United States.

The Secretary of War has returned in improved health.

The Governor elect of Virginia, Mr. Metcher, is recovering from his protracted illness.

Yellow Fever.

CHARLESTON, Oct. 11.—The Courier's special New Orleans correspondent says the yellow fever is increasing at Houston, but there were no cases at Galveston.—There were nine cases in the hospitals at New Orleans last week.

Democratic Nomination.

GENEVA, Oct. 11.—At the Democratic Senatorial Convention held here to-day for the 26th district, Gen. Charles B. Stewart, of Geneva, was nominated.

Meeting of the Democratic State Committee.

NEW YORK, Oct. 11.—A fully attended meeting of the Democratic State Committee was held to-day at the St. Nicholas Hotel. All the candidates for State offices were present, together with a large number of prominent Democrats from different parts of the State.

The greatest confidence was expressed in the success of the whole ticket, and vigorous measures were adopted for pushing the canvass with spirit.

New Hampshire Democratic State Nomination.

CONCORD, N. H. Oct. 11.—The Democratic State Convention held here to-day, was quite fully attended. The ballot for candidate for governor resulted as follows:

Asa P. Cate, of Northfield, 122; J. S. Cheney, of Manchester, 99; scattering 4.

Cate's nomination was made unanimous. The Convention did not act upon the question of delegates to the Charleston Convention.

DR. COGGSWELL'S NEW MEDICAL SALT.

For Inflammatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only.

DR. COGGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, [illegible] has but one aim, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength it effectually cures inflammatory diseases, [illegible], by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

NOTE ITS PECULIARITY! The following forms which the unbalanced fluids assume, and [illegible] that have more or less fever or pain, are as easily subdued by the *New Medical Salt* as fire is extinguished by water, to wit: [illegible], Headache, Rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver; Neuralgia, Spinal affections, Erysipelas, Bronchitis, [illegible], Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more, no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt.*

Ask your neighbors about the *New Medical Salt.* If sick, try it. If not sick, remember the *New Medical Salt.*

DR. COGGSWELL'S NEW MEDICAL Salt is for sale in Batavia by H. W. Fellows and by all enterprising druggists wherever the Herald is [illegible]. As it is not a Patent Medicine, but the prescription of an eminent Physician, no one should fail to try the New Medical Salt.

For testimonial and directions see circular.

HOSTETTER'S STOMACH BITTERS.

IT is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhœa, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

☞ Prepared and sold by HOSTETTER & SMITH, Pittsburgh, Pa., and sold by all druggists, grocers, and dealers generally throughout the United States, Canada, South America, and Germany.

DR. CHURCHILL'S REMEDY

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption,
Chronic Bronchitis, Asthma, Marasm-
us, Dyspepsia, General Debility
and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris) is obtaining for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. The *Hypophosphites increase the Principle which constitutes nervous force, and are the most powerful blood generating agents known.*

The Cure of Consumption.

In the second and third stages (at a period, consequently, when there can be no uncertainty as to the nature of the disease,) can be obtained IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

This REMEDY has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act AS A PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WI[illegible] GARD TO SMALL-POX.

Professional Correspondence.

"[illegible], Ohio, Aug. 9, 1859.—I have been treating this disease for twenty-five years, and have derived more satisfaction *from the use of the* HYPOPHOSPHITES *than from all other forms of medication combined.*"

"MANCHESTER, Mich., Aug. 8, 1859.—I have used the HYPOPHOSPHITES in my practice *with very happy effects*—so much so that I WOULD NOT BE SATISFIED TO REMAIN WITHOUT THEM."

"MIDDLEBURY, VT., Aug. 4, 1859.—I believe the HYPOPHOSPHITES used in the manner and way Dr. Churchill used them, WILL CURE CONSUMPTION."

"SHEPHERDSTOWN, VA., Aug. 15, 1859.—I have prescribed the Hypophosphite in several cases, and am *delighted with its effects.* IT IS ACCOMPLISHING WONDERS."

"LOWELL, O., July 5, 1859.—I have used in all about forty bottles, and in but one instance have they failed to benefit the patient, and that was a hopeless one before I was called. I have had several cases given up by attending physicians, WHO ARE NOW ENJOYING COMPARATIVELY GOOD HEALTH, AND EXEMPT FROM ALL THE SYMPTOMS of pulmonary disease. I have used the REMEDY in my own case, *with decided success.* It was regarded as hopeless by physicians and friends, and even by myself, under the 'old treatment.' I am now able to ride, in attending on the sick, as many miles, perhaps, in a day, as any other physician in the county."

"CHATHAM, PA., July 26, 1859.—I received the twelve bottles of Churchill's Remedy for Consumption. * * * It WORKS WONDERS IN EVERY CASE."

CONSUMPTIVES, in any stage of the Disease, should resort *immediately* to the use of the HYPOPHOSPHITES OF LIME AND SODA. "WINCHESTER'S GENUINE PREPARATION" (in simple syrup), in extra large bottles, is "chemically pure;" is the combination proposed by Dr. Churchill "for general use;" and is prepared according to his *original Formula.*

Dr. Churchill's Work on Consumption, Comprising his Report made to the Imperial Academy of Medicine, Paris; Notes of Cases; and Letters, Documents, Testimonials, &c., together with a Circular, will be sent on receipt of TWELVE CENTS in stamps.

CAUTION.—Interested Druggists will try to sell you other preparations than mine. Do not buy them! My "Genuine Preparation" bears my *fac simile signature.*

Beware of all Preparations claiming to be the Hypophosphites, which contain IRON, or any DRUG. The country is likely to be flooded with spurious preparations. By writing to me, you obtain information that will prevent any deception being practised upon you.

PRICES.—*One Bottle,* $1; three Bottles, $2; Concentrated Solution, by mail, *pre-paid,* $2. Sold Wholesale and Retail at the Sole General Depot in the United States, (where all orders should be addressed) by

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREAUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

THE
NEW YORK WEEKLY,
A HANDSOME QUARTO PUBLICATION,
BEAUTIFULLY ILLUSTRATED,
IS NOW UNIVERSALLY ACKNOWLEDGED TO BE
THE BEST STORY PAPER
IN THE WORLD!

Among its Popular Contributors will be found the names of some of the best male and female writers in the United States. Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Ada Bayville. Write for it regularly, while a score of other well-known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be excelled by any similar journal in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the *pleasing* guise of fiction, or to teach great moral lessons through the same medium. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Mute Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing paragraphs, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting melange, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of interest, etc., etc. In a word, its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS.

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taken tens, they are now taking hundreds of copies. This is the general effect among the *five* thousand News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2.00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $6, eight copies for $12. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

STAR WRITING FLUID.

In bringing this Writing Fluid before the Public, the Proprietor knows he has a great deal to contend with, as there is so many spurious Inks manufactured that are utterly worthless, but I do not wish to say this is the only Ink and best in use. I will say that it is second to none, as my motto is, "Try it, if you like it—buy it." The superior qualities of this Fluid are, namely: It is decidedly a non-corrosive Ink, and so permanent and indelible that even the test of Oxalic Acid cannot remove it from paper; hence its value to business men and the community. This Acid instantly affects most Inks, even that from the largest establishments. Arnold's of London, is gradually effected by it. Harrison's of Philadelphia, instantly disappears, while no effect upon the Star Ink is visible, till at last it is changed by the Acid to a reddish tinge, but remains ever afterwards as permanent and legible as ever. Test our Ink with a drop of the Acid, then test others, you will observe the result. There is not one other kind of Ink besides ours that will stand the test, that is thicker, redder and dearer than ours, or all of these combined, every one can see that the Ink which cannot be effaced, and then counterfeited by rogues as is often done on Bank Bills, Deeds, Wills, Records, &c., not only deserves but will command the confidence of all enlightened community. As it is a Chemical preparation, I challenge all competitors. It flows more freely from the pen, will not mould, or the easily removed from the hand when soiled. It needs only to be tried and you will buy no other kind.

Put up in small stands.
Also, in Bottles of
1-4 Pints.

DR. JOHNSON'S

HERB DISPENSARY!

OFFICE 95 MAIN STREET,
(Up stairs, Buffalo, N. Y.)
A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING
Spermatorrhoea, Nervous Debility, Marasmus or Wasting Consumption.
AND ALL
Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus or consumption, wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study; dimness of eye sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago; dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such that patients can be cured at their own homes without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills, will receive for 25 a series of Health Rules, and perfect chart of cure, which will be to them a true guide star through life.

READ AND REFLECT!

JUST PUBLISHED

A NEW WORK SPLENDIDLY ILLUSTRATED with elegant engravings, of nearly 300 pages, the best work on diseases of the genital organs ever introduced to the public, is Dr. Reynold's Manual, embracing every subject known in the catalogue of human ills, as venereal, or other diseases of the genital organs, and how all persons can avoid them, and if they are so unfortunate as to have contracted such diseases, how to effect a speedy and permanent cure—it being in fact, a complete and practical work on the Physiological Mysteries of the Male and Female system, and will be mailed in sealed wrappers to any part of the world. Price, TWENTY-FIVE CENTS, or 5 copies for $1.

N. B.—The author has devoted nearly twenty years to the treatment of diseases of a private Nature, (both male and female) and can be consulted on all and every variety thereof, at his old established Hospital, Rochester, N. Y.

Secret habits in young men effectually cured, although abandoned by the entire faculty, and given up by all medical pretensions to the healing art. All cases warranted. No Mercury used.

Patients treated at home by letter, and packages forwarded to all parts of the world.

Females afflicted with irregularities, obstructions, &c., can obtain Dr. Nichols' Female Monthly Pills at the above office. Ladies in a certain situation should not use them, the particulars of which will be found on the directions accompanying each box. Price, One Dollar—sent by mail free of charge.

THE GROVER & BAKER

Sewing Machine Co.

Having greatly increased their facilities for manufacturing their Celebrated FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE,
PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made, that they can be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

The Judiciary.

Not the least important among the numerous offices of public trust to be filled by the electors of the State at the approaching general election, are those of a Judicial nature—a Judge of the Court of Appeals, a Justice of the Supreme Court in each Judicial district and County Judges in many of the counties of the State. It is undeniably true that a minor position is very generally assigned this class of officers, since their selection has devolved upon the manifestation of the "popular will" through the instrumentality of the ballot box, in that periodical, miscellaneous scramble for office so necessary to the preservation of our "glorious institutions" and those "certain inalienable rights" which all America, young and old, is bound to enjoy! We are of those, by no means few in number, who have seen and continue to see much more cause for apprehension than gratification in the system of an "Elective judiciary." The reasons are sufficiently manifest to any unprejudiced, observing mind and we shall not now pause to enumerate or enlarge upon them. Our remarks already made are sufficiently suggestive of one of the principal objections to the system. That class of officers, in strictly *political* contests for strictly *political* supremacy among the electors, inevitably receives much less attention and consideration than it really should receive, when viewed in a proper light and its true importance and superior claims upon the consideration of the elector are duly considered. It needs no extended argument to show that if the system shall result in the dragging down of this class of officers to the dirty level of a merely political scramble for office with its attendant claptrap, wire-pulling and jockeying generally such an institution as an *independent* judiciary will speedily be ranked among the things which were but are no more. Every well wisher of his country would certainly grievously deplore such an untoward consummation and should quite as certainly devote his entire energies to the prevention of the possibility of its occurrence. An independent judiciary is strictly dependent upon an independent exercise by the elector of the right of suffrage. A failure in the latter is an end of the former.

These considerations are not inappropriate to the present canvass. For the Court of Appeals the Democracy have placed in nomination, or rather re-nomination, Hon. A. S. Johnson, for the past six years a leading and influential member of that tribunal. His qualifications for that honorable position are conceded on all hands with great unanimity. An able jurist, courteous gentleman and honest man he is well fitted to adorn the office and give character to the bench. In the view in which the question *should be* considered by an intelligent constituency, his re-election should be unanimous.

In this Judicial District we take it for granted that Hon. Martin Grover will be presented as the Republican Candidate for Justice of the Supreme Court. Politically considered our opponents are largely in the ascendant in this district and we are not aware of any individual in our own ranks especially ambitious for extinction as a candidate for that office. Judge Grover during the brief period he has held a position on the bench has ably vindicated the propriety of his selection and has secured, to a gratifying degree, the respect and confidence of those interested in the operations of that tribunal—professional and lay. "Rotation in office" is neither theoretically nor practically applicable as a principle to the selection of judicial officers, more especially when its tendency is to rotate well-qualified judges out of office to make room for candidates of inferior competency, in payment for political services or for the exclusive benefit of party organizations and interests.

Fully appreciating the importance of the question and the propriety of the course of action suggested, we have jotted down these desultory considerations as indicative of our personal views and "programme," in such case made and provided, for such consideration and concurrence by our political friends, as they shall see fit to give them in their several exercise of the right of suffrage in the approaching election.

What course the Democratic Judicial Convention appointed to be held on the 18th inst, may be inclined to pursue in the premises, we are as yet unadvised.—

For ourselves we shall be gratified if their action shall so far accord with the spirit of the views here suggested, as to leave the Democratic electors free to act upon this question, untrammeled by a party nomination and the consequent requirement of political orthodoxy in the support of "regular candidates,"—Such an evidence of political magnanimity, having for its object the furtherance of the best interests of the judiciary and the adoption of a correct appreciation thereof in principle and practice, is subservient not only to the *general* welfare, but also that of any political organization by whom it is accorded. The Democratic party have, not unfrequently, in times past, both acknowledged the correctness of this principle and realized the practical benefits resulting from its application.

News Items.

J. SUMMERFIELD, of Le Roy, is out with a letter in the *Gazette*, seemingly deprecating the course of JUDGE TAGGART in bolting the Republican ticket, but more evidently for the purpose of telling how many grievances he has had to hear from the dear party he will never forsake.

If he wan't afraid he would bolt the party as quick as an Hibernian would a "womit," and with about as much disgust. J. L. BROWN, and WM. TYRRELL are a little too much for the political stomach of any County, even tolerant Genesee,—Let, however, no Democrat regret their nomination and place upon the County ticket, for they can't be elected.

A distructive fire occurred at Hamilton, Mad'son Co., on Monday morning, which destroyed the store of Mr. Willis, the store of Mr. Long, two dwelling houses, the Post Office and United States mails.

The Late Duel.

The overland mail from San Francisco brings intelligence of the obsequies of Senator Broderick. The following brief notice of the antecedents of the parties, occupies all the space the matter demands.

Mr. Broderick first won political distinction in New York city,—as the Chief of a set called the Butt Enders, in the 9th Ward. This was a Club of Roughs of the school and class of the Empire Club, and Mr. Broderick was their Chief. When California began to be settled, he was among the early emigrants from New York city, and carried with him his Tammany politics and Tammany enthusiasm.

Judge Terry, who shot him, was for some time in the hands of the Vigilance Committee of San Francisco, who hesitated whether they should expel him or not. The charge against him was that he favored and let off as Judge the miserable scamps who at one time so fatally disturbed the city of San Francisco. He had, however, we believe, re-won, in fact, the good opinion of the people, by a change of conduct in the better execution of the laws.

It is said that Judge Terry resigned his seat on the Bench before leaving Sacramento.

Some of the San Francisco papers evince a disposition to make it appear that Mr. Broderick was the victim of a conspiracy, but the most prominent ones assert that the duel was conducted in strict accordance with the *code duello*.

RELICS OF SIR JOHN FRANKLIN.—The following is a list of the articles discovered and brought away from the Arctic regions by Capt. McClintock:—

They consist principally of such articles as belong to a ship's furniture, or the personal outfit of Arctic voyagers. Knives, forks, spoons, silver ware—some bearing Sir John Franklin's crest—carpenter's tools articles of clothing, pocket compasses, some watches, pieces of telescopes, pocket books, buttons, and the fragments of articles of various kinds. There were also found in one parcel a small prayer-book, cover of a small book of "Family Prayers;" "Christian Melodies," an inscription within the cover to "G. G. Vicar, of Wakefield;" a small bible, interlined in many places, and with numerous references written in the margin; and a New Testament in the French Language.

There were also many articles discovered that were not brought away. Of the wrecks of the two ships the expedition failed to find any portions. It would, however, be a most foolish enterprise to prosecute the search farther. All hope that any of Franklin's party survive is at an end. It is over eleven years since they abandoned their ships, and they doubtless all perished within a short time after the abandonment in the vain attempt to escape from the perils which surrounded them. Their noble commander did not live to see them reduced to the last terrible extremity, and perhaps his loss made certain a fate which his experience and counsels, had he lived longer, might have averted.

Seven thousand persons from the Isle of Anglesea alone, attended a great revival meeting at Bangor, Wales, on the 21st ult. at which 20,000 were present in all. The revival in Wales has not the same symptoms of great mental excitement which attend the corresponding movement in Ireland.

A woman in Albany declares that she is and has been for some time dreadfully annoyed by strange noises in her house at night, and that on one or two occasions, ghostly hands have been laid upon her, as if it was the intention to drag her from her bed, and annihilate her. Her screams at such times have alarmed her neighbors, and on one or two occasions, the aid of the police has been invoked, but there is no explanation of the mystery.

The San Francisco Times of the 10th ult., says three distinct shocks of earthquake were felt at Mariposa on Monday night previous. The interval between each was not more than one minute. One was so severe as in some instances to throw bottles and crockery off shelves. Some were so terrified as to run out of their houses, anticipating a general tumble.

They charge one dollar for an admission ticket to a single lecture by Bayard Taylor in San Francisco.

DR. N. R. C. ROWE.
URISCOPIAN PHYSICIAN.

(Late from the Island of Barbadoes, West Indies)

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections, Tumors, Diseases of the Lungs, Throat, Liver, Kidneys, &c., &c. Also Scrofulous and all other Chronic Diseases, at his office No. 6 Stone Block, corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathesome disease, CANCER—the thoughts of which chill the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skillful Physicians as decidedly incurable. These patients now live as witnesses to this fact. CATARRH, this most awful disease, which if not checked, terminates in Consumption, he can cure most speedily.—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practioner and no self taught man. Dr. . has discovered a speedy and certain cure for such cases of that fearful and ravaging disease CANCER, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer cannot be cured. Dr. Rowe however, has after a thorough investigation and study of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases more correctly and successfully than by any other mode of examination. The reason that a great many curable diseases are deemed incurable is simply from not finding out the real secret of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and $1 as a fee for testing it, at the same time stating their age, will be told their disease. Letters addressed to Box 984, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. Reference as to his mode of treatment can be given to some of the first Physicians in this country.

☞ Dr. Rowe will be at the Exchange Hotel, Attica, for 4 days, Tuesday, Wednesday, Thursday, Friday, Oct. 4, 5, 6, 7, where he can be consulted on the above diseases.

LOCAL MATTERS.

ALVA SMITH & SON are now opening an extensive and varied stock of seasonable goods which they offer to their customers on terms as reasonable as any other dealers in the country.

Messrs. BOLLS & CHAMBERLAIN gave a free lecture Wednesday evening at Concert Hall on the uses of Electricity in the treatment of diseases.

They can be consulted at the Eagle Hotel.

See Richard King's advertisement in to day's paper.

GRAND BALL.—E. H. Norton of the Western Hotel will give a Grand Opening Ball on Friday evening the 14th inst.—In order to accommodate the large number of Guests expected, the Dance will be at Concert Hall which is engaged for that purpose.

Supper will be given at the Western Hotel. Squier's Band will furnish the music, and it is expected that all who participate will have a pleasant time.

STEPHENSON has just returned from New York with the largest and best selected stock of Dry Goods ever offered in this market, which he is selling at his low Cash prices. His stock consists of Raglans, shawls, merinoes, cashmeres, delaines, black and fancy silks, prints, flannels, cloths and casimeres, brown and bleached cotton, and in fact every thing belonging to the Dry Goods trade which he offers at prices that defys competition.

His motto is one price and cash.

Good news for the People.

G. W. Hull, is again in the field with the largest stock of *Boots and Shoes* ever exhibited in Genesee county—he has all the desirable styles suitable for the season. We noticed among other things a large assortment of *Mens and Boys* Thick Kip and Calf Double sole Boots of *extra quality custom made* which are selling very fast at about one half the price that the people of this county have formerly paid for such goods.

Ladies and Children's work he has in very great variety.

We would advise all our friends to give him a call and *save money* in shoeing up for the winter, his stock is large, his goods *first* quality and his *prices* are from 30 to 40 percent below any other House in the county. The store is north side of Main Street, Batavia. *

IT is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "Bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentions, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial!

THE GREAT AMERICAN

Boot & Shoe Store,

No. 2, Odd Fellow's Hall.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the Inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprets to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS,

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

Batavia, August 11th, 1859.

Arrival of the North Star.

Later from California.

ANOTHER FATAL DUEL.

NEW YORK, Oct. 12.—The steamship North Star, from Aspinwall the 4th inst., arrived this morning, bringing 700 passengers, $800,000 specie, and California dates to the 20th ult.

The Star of the West, for New York, via Key West, left Aspinwall on the 3d inst.

Judge Terry attempted to make his escape by the Overland Mail to Texas, but was arrested and lodged in San Francisco jail on the morning of the sailing of the steamer.

Another duel was fought between Dr. Preston Goodwin and Col. Jeff Gatewood, near San Andrews, in which Dr. Goodwin was killed.

The Treasurer of the Humboldt Company, Jesse Wells, had absconded with $14,500 belonging to the State.

Mr. John Congdon, long connected with the Press of California, died at San Francisco on the 19th September, after a short illness, at the age of 62 years.

The arrival of General Scott at Aspinwall created quite an excitement. Salutes were fired by the Roanoke, and all the vessels in the harbor, and the American houses on shore were decorated with flags.

Election Returns.

OHIO ELECTION.

CLEVELAND, Oct. 12.—Incomplete returns from 30 counties give a Republican gain of about 5,000 over 1857 and indicate a Republican majority in both branches of the Legislature.

IOWA ELECTION.

CHICAGO, Oct. 12.—There being but four telegraph offices in the State of Iowa, some days must elapse before the result of the election there can be definitely ascertained. The vote received thus far is about the same as in 1857, when Low, Rep. was elected by 2000 maj. Scott county gives 209 Rep. maj. for the State ticket.

Louisa county gives 50 Rep. maj.

Henry county gives 700 rep. maj.

Jefferson county gives 150 rep. maj.

Dubuque gives 1500 dem. maj.

Desmoines gives 150 dem. maj.

PHILADELPHIA, Oct. 12.

Macon, Opposition, majority for District Attorney is 3,216; Cochrane's majority for Auditor General in Philadelphia is 2,892; Kearne's majority for Surveyor General is 2,854. The Opposition also elect both State Senators, and 10 out of 17 representatives from this city.

The indications are that the State Senate will contain 3 Opposition majority.

The House will probably stand opposition 57, Democrats 43.

BALTIMORE, October 12.

The Municipal election for City Council is going on to-day. There is a large turnout of rowdies as well as voters.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but *Dr. M'Lane's*, prepared *by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

HOSTETTER'S

STOMACH BITTERS.

IT is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhœa, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

DR. CHURCHILL'S REMEDY

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption,
Chronic Bronchitis, Asthma, Scrofula,
Dyspepsia, General Debility,
and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris) is obtaining for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. The *Hypophosphites* [illegible] *the Principle* which constitutes *nervous force*, and are *the most powerful blood generating agents known*.

The Cure of Consumption,

In the second and third stages (as a [illegible], consequently, where there can be no uncertainty as to the nature of the disease,) can be obtained, IN ALL CASES by this treatment, except where the existing lesion of the lungs is of itself sufficient to produce death.

This Remedy has not only a curative effect, but will, if used whenever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act as a PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

Professional Correspondence.

"[illegible], Aug. 8, 1859.—I have been treating this disease for twenty five years, and have derived more satisfaction from the use of the HYPOPHOSPHITES *than from all other forms of medication combined*."

"[illegible], MICH., Aug. 3, 1859.—I have used the Hypophosphites in our practice *with very happy effects*—so much so that I would not be satisfied to remain without them."

"MIDDLEBURY, VT., Aug. 9, 1859.—I believe the Hypophosphites used in the manner and way Dr. Churchill used them, will CURE CONSUMPTION."

"[illegible], VA., Aug. 15, 1859.—I have prescribed the Hypophosphites in several cases, and am *delighted with its effects*. It is ACCOMPLISHING WONDERS."

"[illegible], O., July 5, 1859.—I have used it in all about forty [illegible] and in but one instance have they failed to benefit the patient, and that was a hopeless one before I was called. I have had several cases given up by attending physicians, WHO ARE NOW ENJOYING COMPARATIVELY GOOD HEALTH, and EXEMPT FROM ALL THE SYMPTOMS of pulmonary disease. I have used the Remedy in my own case, *with decided success*. It was regarded as hopeless by physicians and friends, and seen by myself, under the 'old treatment.' I am now able to ride, in attending on the sick, as many miles, perhaps, in a day, as any other physician in the county."

"CHATHAM, PA., July 26, 1859.—I received the twelve bottles of Churchill's Remedy for Consumption. * * * It has WORKED WONDERS IN EVERY CASE."

CONSUMPTIVES, in any stage of the Disease, should resort *immediately* to the use of the HYPOPHOSPHITES OF LIME AND SODA. "WINCHESTER'S GENUINE PREPARATION" (in [illegible] [illegible], in [illegible] bottles, is "chemically pure;" is the [illegible] proposed by Dr. Churchill "for general use;" and is prepared according to his *original Formula*.

Dr. Churchill's Work on Consumption,

[illegible] his Report made to the Imperial Academy of Medicine, Paris; Notes of Cases and Letters, Documents, Testimonials, &c., together with a Circular, will be sent on receipt of TWELVE CENTS in stamps.

CAUTION.—Interested Druggists will try to sell you [illegible] preparations [illegible]. Do not buy them! My "Genuine Preparation" bears my *fac simile* signature.

Beware of all Preparations claiming to be the Hypophosphites, which contain IRON, or any DRUG. The country is likely to be flooded with spurious preparations. By writing to me, you obtain information that will prevent any deception being practised upon you.

PRICES.—One Bottle, $1; three Bottles, $3; Concentrated solution, by mail, *pre-paid*, $2. Sold Wholesale and Retail at the Sole General Depot in the United States, where all orders should be addressed by

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREAUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO.,

Price, $1 per Bottle; Six Bottles for $5.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five Boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION, BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States. Such writers as Justin Jones (Harry Hazel) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eda Mayville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notices of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Mute Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting *melange*, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of interest, etc., etc. In a word, its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS.

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taking tens, they are now taking hundreds of copies. This is the general effect among the five thousand News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2.00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $5, eight copies for $12. Postmaster and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to,

STAR WRITING FLUID.

In bringing this WRITING FLUID before the Public the Proprietor knows he has a great deal to contend with, as there is so many spurious Inks manufactured that are utterly worthless, but I do not wish to say this is the only Ink and best in use. I will say that it is second to none, as my motto is, "Try it, if you like it—buy it." The superior qualities of this FLUID are, namely: It is decidedly a business Ink, and so permanent and ineffaceable, that even the test of Oxalic Acid cannot remove it from paper; hence its value to business men and the community. This Acid instantly affects most Inks, even that from the largest establishments. Arnold's of London, is gradually effected by it. Harrison's of Philadelphia, instantly disappears, while no effect upon the Star Ink is visible, till at last it is changed by the Acid to a reddish tinge, but remains ever afterwards as permanent and legible as ever. Test our ink with a drop of the Acid, then test others you will observe the result. There is but one other kind of Ink besides ours that will stand the test, that is thicker, redder and dearer than ours, or all of these combined, every one can see that the Ink which cannot be effaced, and then counterfeited by rogues as is often done on Bank Bills, Deeds, Wills, Records, &c., not only deserves but will command the custom of an enlightened community. As it is a Chemical preparation I challenge all competition. It flows more readily from the pen, will not mould, and is easily removed from the hands when stained. It needs only to be tried and you will buy no other kind.

Put up in small Stands.

HERB DISPENSARY!

OFFICE 95 MAIN STREET,
(Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorrhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat, shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgy pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fleur Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflamation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new. It is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for $5 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

ONLY SIX CENTS A WEEK

The good people of St. Anthony are having a good deal of sport over a proposed balloon ascension got up by one Wilson, who was to be the æronaut in chief, assisted by Augustus Crofutt of the St. Anthony *News.* Augustus feeling considerably elated, and wishing to do the *fair* thing, sent an invitation to a young lady to ascend with him, who, we understand, accepted. A sentimental young gentleman, learning of her determination, addressed her the following lines:

"Forbear, sweet girl, the task forego,
And thus our anxious troubles end;
That you will mount full well we know,
But greatly fear you'll ne'er descend.

"That graceless chap
Despite of all you do or say,
When sailing in the upper sky,
Will get you in the 'milky way'."

Fortunately, for the young lady, the balloon did not go up.

The streets were full of Re-publicans, Democrats and Sinners, Thursday, to attend the Mass Meeting at Ellicott Hall.

It was most decidedly a good time for a good many politicians of all parties who were privileged to take a seat at the first table. The nomination of JUDGE TAGGART for County Judge, and J. M. The People's Convention.

The People's Convention of the electors of Genesee County, assembled at Ellicott Hall, Batavia on the 13th day of October 1859, pursuant to a call signed by 500 of the voters of said county.

The Convention was called to order by W. S. Miller Esq., of Byron, and upon motion the following were elected officers of the Convention.

President—JOHN FISHER, Batavia.

Vice Prest's—CHESTER HANNUM of Pavilion, J. G. SHEPARD Alexander. JUNIUS A. SMITH, Batavia.

Secretarie's—G. W. BROWN, Oakfield. EDWARD H. PARMLEE, Bergen.

On motion of James R. Mitchell persons present from each town were requested to nominate two persons from their respective towns to act as a committee to present suitable names to the convention as their candidates for county officers. The following named gentlemen were duly nominated and elected such committee towit:

Alexander—W. F. Cogswell, Warren Thompson.

Bergen—Eugene O'Donohue, Samuel Richmond.

Batavia—Edgar C. Dibble, Junius A. Smith, E. A. Lewis, Geo. W. Dewey.

Byron—Lorin Green, Zeno S. Terry.

Pavilion—Simeon Burnham, George Tomlinson.

Elba—Adison Foster, Wm. C. Raymon.

LeRoy—Consider Warner, R. Ballard,

Stafford—Orin S. Clark, Joseph Remington.

Oakfield—Calvin Nobles, Samuel Horton.

Bethany—Abel W. Page, N. K. Cone.

Pembroke—Yates Douglass, Daniel N. Wells.

The following persons were elected committee on Address and Resolutions.

George Bowen, M. F. Robertson, James G. Shepard.

During the absence of the nominating committee stirring and eloquent speeches were made by Hon. Moses Taggart, M. F. Robertson, Esq., and others.

Wheaton S. Miller Esq., of Byron, detailed in an eloquent speech the proceedings of the Byron Caucus and the mode adopted in getting up bogus delegates and the gross fraud perpetrated by the late Co. Republican Convention in admitting a portion of the bogus delegates from that town to a seat in that body in exclusion of those rightfully elected. The reason of the withdrawal of the two delegates which the convention agreed to admit—and detailed in a vivid manner the scenes which transpired in the late Republican Convention including the withdrawal of candidates, and delegates from several of the towns who refused to be bound by the action of the convention.

These remarks were listened to by the Convention with deep attention, many hearing for the first time a detail of the tricks and frauds practiced by designing men at that convention.

The committee on nominations through R. Ballard Esq., their Secretary, made the following report.

County Judge,
MOSES TAGGART, of Batavia.

District Attorney,
JAMES M. WILLETT, of Batavia.

Member of Assembly,
WILLIAM C. RAYMOND, of Elba.

Justice Session,
LUTHER CROSBY, of Bergen.

Superintendant of the Poor,
ALEXANDER R. RUMSEY, of Stafford

Coroners.
WILLIAM D. HOWARD, of Alexander
RANDALL WILLIAMS, of Byron.
BARNUM BLISS, of Oakfield.

Mr. Ballard made a handsome speech stating also that the above report was unanimous.

The report was adopted by the Convention by acclamation.

The committee on Address and Resolutions through their Chairman Mr. Bowen, presented the following Address and Resolutions.

Address of The People's Convention held at Batavia Oct 13, 1859—to the Electors of Genesee County.

FELLOW-CITIZENS:—We are approaching an election of more importance, so far as our county ticket is concerned than has occurred in some time.

Important offices are to be filled by your suffrages, and before going to the ballot box and there designating the men of your choice, it is well to pause and reflect to the end that you may not only elect *capable* but *honest* men of your own choice, instead of those foisted upon you by a set of unscrupulous political tricksters who are demanding of you to support candidates whom they have put in nomination simply, and for no other reason than because they have been nominated.

We know full well the strength of party ties. Honest good citizens who have seen and felt the evils of caucus management as at present practiced who have seen bad and incapable men elevated to place and preferment have suffered it to go on rather than raise their voices against it dreading the cry of bolter which designing men are ready to raise whenever a spirit of independence is manifested.

In this county caucus corruptions and intrigues have increased to an alarming extent, and in the Republican party where the nomination has for some time been equivalent to the election every means are resorted to by unscrupulous candidates and their adherents, no matter how base to accomplish their ends. They have adopted the motto "that there is no honesty in politics" which they openly and unblushingly avow, and as openly and unblushingly practice. The Republican County Convention which assembled at Batavia on the 1st, inst., was managed and controlled by these base designing men, though a portion of the delegates composing it, were men of high character and of true honesty and integrity, but they were not admitted within the circle of managers who controlled the action of the Convention, and made up the Slate for its action.

If these things are allowed to go on unnoticed and unrebuked, the consequences will be dangerous in the extreme.

No man of honesty and capacity can reach any office within your gift—unless a candidate will consent to surrender his manhood by resorting to, or winking at the tricks of these politicians, he must necessarily be defeated.

The chief Judicial office of the county may come to be filled by a man who will not hesitate to pronounce his judgments so as to reward his friends and punish his enemies, looking rather to the person of the suitor than the merits of his cause—and the judicial ermine which should be kept pure and immaculate, be soiled stained and polluted by the corruption and stench which hung around and form a part of the pot house politician.

The office of District Attorney important, as it is for the preservation of law and order may be prostituted to base political purposes, and an offender who can render services in the caucus, be allowed to run at large when he should be doing the State service at Auburn, other offices of less note can be used for the accomplishment of political purposes, or even for baser ends.

These are some of the natural results which must inevitably flow from the caucus system as at present controlled and managed in this county.

Fellow-Citizens:—There is a remedy for these evils ample and sufficient. Men must think and act for themselves, and when they go to the polls, cast their votes fearlessly for the best men no matter how their names are presented for their suffrages, or upon what party platform they stand.

It surely can make no difference what the views of the Supt. of the Poor of this country are with reference to the abstract question of the right of Congress to legislate upon the question of Slavery in the territories.

The question of far more moment to you as tax payers, is has he *capacity* to discharge the duties of that responsible office, and will he faithfully husband and honestly apply the thousands of dollars of your money which you have intrusted with him, with which to relieve the wants and necessities of the poor and unfortunate.

If it is said that by thus voting each his preference parties will be destroyed and dismembered, we answer rather than allow them to become cesspools of corruption from which rises a moral malaria so sickening and disgusting as that which hung over the [illegible] Convention of this county, let party and party ties be wiped out forever. But we deny that it will have this effect.

It will purify our Caucuses and Conventions. It will raise party character, and though the more like the Vigilance Committee of California, may be revolutionary and severe yet it will be aimed at political blacklegs and thimble riggers and as effectually clean them out as did the Vigilance Committee the thieves, blacklegs and rascals of the Golden State.

By the election of the ticket nominated at the People's Convention held at Batavia on the 13th of October we believe that these results will be attained.

The nominees are all worthy capable men, and they have been placed in nomination by the spontaneous action of the people without intrigue or pipe laying of any kind on their part.

We ask their support by men of all parties who believe with us that there is yet "honesty in politics" and who desire to see that principle carried out in Genesee County.

Resolved,—That fraud not only vitiates all contracts in law but all political compacts—and we will not be bound by the action of any Convention no matter what party it may profess to represent, controlled by entriguers and political thimble riggers who adopt every and any means to carry out their own ends regardless of the rights of the people and those of us who are Republicans while we still remain devoted to that party, hereby repudiate the action of the Republican Co. Convention, which assembled at Batavia on the first of this month—and pledge our best energies to defeat the nominations then made and we believe in doing so we shall not only serve the party in this county but promote the cause of good morals and fair dealing.

Resolved,—That we take great pleasure in presenting the name of Hon. MOSES TAGGART as a Candidate for county Judge and Surrogate. As a practicing Lawyer for more than a quarter of a century, as a member of the last Constitutional Convention, and as a justice of the Supreme Court, in which tribunal his opinions commanded the highest respect and confidence he has made this community so thoroughly familiar with his ability learning, diligence and unbending integrity in legal affairs that any eulogy or description of his qualifications for this place is entirely unnecessary. In the Surrogates office his patience, kindness of heart and good common sense would be most valuable and welcome, and on the Bench his decisions would continue to be marked by that correctness sound judgement unbiased fairness which have earned him an honest and honored name.

Resolved,—That our other nominations, are those eminently fit to be made and we will give to each nominee our cordial support at the coming election each man of us being a vigilance committee of one not only to vote straight himself, but to see that his neighbors do likewise.

The Address and Resolutions were accepted.

The following were appointed a County Central Committee.

Singular Tradition.

Among the Seminole Indians their is a singular tradition regarding the white man's origin and superiority. They say that when the Great Spirit made the earth he also made three men all of whom were of fair complexion; and, that after making them, he led them to a small lake and bade them leap therein and wash. One immediately obeyed and came from the water, purer fairer than before; the second hesitated a moment during which the water, agitated by the first, had become slightly muddy, and when he had bathed he came up copper-colored; the third did not leap in till the water become black with mud, and he came out his own color. Then the Great Spirit laid before them three packages of bark, and bade them chose; and, out of pity for his misfortune in color, gave the black man the first choice. He took hold of each of the packages, and, having felt the weight, chose the heaviest, copper co'ord one then chose the second heaviest, leaving the white man the lightest.—When the packages were opened, the first one was found to contain spades, and all the implements of labor; the second enwrapped hunting, fishing, and all the warlike apparatus; the third gave to the white man pens, ink and paper—the engine of the mind—the mutual, mental improvement—the social link of human existence, —the foundation of the white man's superiority.

FREE LECTURE.—At Concert Hall, Saturday evening Oct. 15th, at 7½ o'clock by Proffs. BOLLES & CHAMBERLIN. Subject—Electricity, the great curative agent. A general invitation is extended to all.

STEPHENSON has just returned from New York with the largest and best selected stock of Dry Goods ever offered in this market which he is selling at his low Cash prices. His stock consists of Raglans, shawls, merinoes, cashmeres, delanes, black and fancy silks, prints, flannels, cloths and casimeres, brown and bleached cotton, and in fact every thing belonging to the Dry Goods trade which he offers at prices that defys competition.'

His motto is one price and cash. *

On Time.

Bierce is aneal with *New Fall Goods*, and is underselling the *Old Fogies*—Only look at his *Cash Prices*—Sugar 5c. Nutmeg 6c, crushed sugar 10c. Coffee do. 9c. [illegible]—31, molasses 31, saleratus 8c. ladies gaiters 30c. Mens boots $200. Miles is in full bloom again. *Sells* remarkably *Cheap* and keeps a splendid assortment. *Hard to Beat the Yankee.* tf

Good news for the People.

G. W. Hull, is again in the field with the largest stock of *Boots and Shoes* ever exhibited in Genesee county—he has all the desirable styles suitable for the season. We noticed among other things a large assortment of *Mens and Boys* Thick Kip and Calf Double sole Boots of *extra quality custom made* which are selling very fast at about one half the price that the people of this county have formerly paid for such goods.

Ladies and Children's work he has in very great variety.

We would advise all our friends to give him a call and *save money* in shoeing up for the winter, his stock is large, his goods *first* quality and his *prices* are from 30 to 40 percent below any other House in the county. The store is north side of Main Street, Batavia. *

IT IS a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentions, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expe, the most terrible forms of disease. Who would not give it a trial!

Sold by druggists and dealers everywhere.

DR. N. R. C. ROWE.
URISCOPIAN PHYSICIAN.
(Late from the Island of Barbadoes, West Indies)

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections, Tumors, diseases of the Lungs, Throat, Liver, Kidneys, &c., &c. Also Scrofulous and all other Chronic Diseases, at his office No. 6 Stone Block, corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathesome disease, CANCER—the thoughts of which chill the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skilful Physicians as decidedly incurable. These patients now live as witnesses to this fact. CATARRH, this most awful disease, which if not checked, terminates in Consumption, he can cure most speedily.—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practioner and no self taught man. Dr. R. has discovered a speedy and certain cure for such cases of that fearful and ravaging disease CANCER, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer cannot be cured. Dr. ROWE however, has after a thorough investigation 'ong study of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases more correctly and successfully than by any other mode of examination. The reason that a great many curable diseases are deemed incurable is simply from not finding out the real secret of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and $1 as a fee for testing it, at the same time stating their age, will be told their disease. Letters addressed to Box 964, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. References as to his mode of treatment can be given to some of the first Physicians in this country.

☞ Dr. Rowe will be at the Exchange Hotel, Attica, for 4 days, Tuesday, Wednesday, Thursday, Friday, Oct. 4, 5, 6, 7, where he can be consulted on the above diseases.

Later From Europe.
Arrival of the City of Washington.

NEW YORK, Oct. 13.—The City of Washington arrived from Liverpool, the 28th, via Queenstown the 29th.

The steamship Edinburg, from Glasgow 28th ult., arrived this P. M.

St. Patrick's Cathedral was crowded to overflowing to-day, the occasion being the wedding of Senior Oviedo and Miss Bartlett. When the Cathedral was filled so that there was no possibility of getting any other living being in, the reaction commenced, and the rush was frightful between those who wished to return and those who wanted to get in. In the confusion several dresses were torn and ruined. Ladies fainted and were dragged out—gentlemen pushed till red in the face, and nearly dead with suffocation.

The marriage ceremony was performed by Rt. Rev. Archbishop Hughes, assisted by Vicar General Starrs, Rev. John McAvoy, Rev. Francis McNierny, Rev. Tomas S. Preston, Rev. John Woods and other priests.

The steamship Star of the West, from Aspinwall, with California mails, broke her shaft before she put into Key West, at which port she had arrived.

She has on board $2,600,000 specie, and she may be expected to arrive here on Sunday or Monday.

WASHINGTON, Oct. 13.—No action has yet been taken in response to any communication which may have recently been received from the British Government on the subject of the San Juan Island difficulty.

An extraordinary meeting of the Cabinet was held to-day. All the members were present, with the exception of Mr. Cass, who was absent on account of physical indisposition.

The reason for leaving Brownsville without troops is, as stated by an army officer, the unhealthiness of the port, and belief that there was no necessity for their presence, as a means of protection. Besides, their services were urgently needed elsewhere to texas. But since their withdrawal, in addition to the recent invasion by the Mexican banditti, the Indians have committed many excesses on the settlements of the Rio Grande frontiers.

By this time it is believed troops have been sent thither to protect our citizens.

THE GREAT AMERICAN
Boot & Shoe Store,
No. 2, Odd Fellow's Hall.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of
BOOTS AND SHOES
that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprits to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its
ENTIRE SUCCESS.
and would recommend it to all the other Boo and Shoe makers and dealers in this vicinity tobe adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as
Oak and Hemlock Sole Leather,
French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

HERRICK & BROTHER,
PRACTICAL CHEMISTS,
206-1yr Albany, N. Y.

It's Found

Something True and Important.

IF YOU are crippled with Palsy or Rheumatism suffering with pains and can find no relief for body or mind—given up as beyond the reach of medical aid, and have no other prospect before you than a premature grave, read the following—pause, reflect and hope on, as an opportunity is now offered for the restoration of your health, *Proffs. Chamberlin & Bolles*, of Buffalo, would say to the citizens of Batavia and vicinity that they have taken rooms at the Eagle Hotel, and will remain a few days for the purpose of introducing their new and important discovery in the use of Electricity for the cure of all curable diseases.

They solicit no patients except those given up everywhere else as incurable. The reader might here ask, do they really cure such cases? are their statements false? Have they cured any such cases in Buffalo and vicinity, or are their cases all on paper and afar off? In reply they would say they have cured and are curing every day, just such cases. They have restored to health a great number of persons in Buffalo, and surroundings who have been suffering from various diseases, five, ten, and fifteen years and upwards, in a *few days*. They have cured and are curing a class of diseases that has baffled the skill of the medical profession in all ages of the world. The reader might here enquire, by what means such wonderful cures are performed? Not by irritating the delicate membranes of vital or ans by drugging the stomach, but by direct application of the positive and negative polarities of Electricity.—Again it might be asked, has not electricity been employed as a remedial agent for years both in Europe and the United States, with indifferent success? And are not numbers now using it, in our very midst, with no better result? This is all very true; and when we consider the ignorance and recklessness displayed in its application the result has been more favorable than could have been anticipated. It has been considered as beneficial in a few cases, only, and uncertain even in those. There has been no fixed principle for applying it, and, therefore, no uniform result could have been anticipated; but owing to the friendly relation existing between electricity and health, remarkable cures have been performed, which have been looked upon as a lucky hit, rather than the result of a fixed law. The ignorance displayed in the administration of this mighty agent, is unpardonable.

The current has been generally applied through the hands or feet in such power as to convulse the whole nervous and muscular system, and frequently producing irreparable injury; sometimes it has been applied by means of metalic conductors to different parts of the body, which is equal to a process of cauterization—and the effect upon the nervous system is similar to that produced by over-doses of Strychnine or Quinine.

Every thing connected with their mode of applying electricity is new and original with themselves. Their philosophy for the electrical laws of life, health and disease, is new.—Their reliable method for the diagnosis of disease by electrical contact is new

As, also, their important discovery in the use of the positive and negative polarities to the human body, for the safe and speedy removal of all diseases.

All is new and unknown to medical men and others except the few instructed by them.

By this mode of applying electricity there is no guess work; no uncertainty; and no matter of doubt as to the result that will follow.

The diseased are invited to call and witness the wonderful cures they are performing daily.

Instruction given to those desiring a knowledge of this method of curing disease.

Address Profs. BOLLES & CHAMBERLIN.

DR. M'LANE'S
CELEBRATED
VERMIFUGE
AND
LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated
Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,
For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,
For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,
preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,
PITTSBURGH, PA.
to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

☞ P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and *take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

HOSTETTER'S
STOMACH BITTERS.

IT is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhoea, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

DR. CHURCHILL'S REMEDY

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris) is obtaining for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. The *Hypophosphites* *increase the Principle which constitutes nervous force, and are the most powerful blood generating agents known.*

The Cure of Consumption,

In the SECOND and THIRD STAGES (at a period, consequently, when there can be no uncertainty as to the nature of the disease,) can be obtained, IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

This Remedy has not only a curative effect, but will, if used, wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act AS A PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

Professional Correspondence.

"ST. CHARLES, OHIO, Aug. 3, 1859.—I have been treating this disease for twenty-five years, and have derived more satisfaction from the use of the *Hypophosphites than from all other forms of medication combined.*"

"MARSHFIELD, MICH., Aug. 5, 1859.—I have used the Hypophosphites in my practice *with very happy effects*—so much so that I WOULD NOT BE SATISFIED TO REMAIN WITHOUT THEM."

"MIDDLEBURY, VT., Aug. 9, 1859.—I believe the Hypophosphites used in the manner and way Dr. Churchill used them, WILL CURE CONSUMPTION."

"SHEPHERDSTOWN, VA., Aug. 15, 1859.—I have prescribed the Hypophosphites in several cases, and *am delighted with its effects.* IT IS ASTONISHING WONDERS."

"LOWELL, O., July 5, 1859.—I have used in all about forty bottles, and in but one instance have they failed to benefit the patient, and that was a hopeless one before I was called. I have had several cases given up by attending physicians, who ARE NOW ENJOYING COMPARATIVELY GOOD HEALTH, and RECOVERING FROM ALL THE SYMPTOMS of pulmonary disease. I have used the Remedy in my own case, *with decided success.* It was regarded as a serious case by physicians and friends, and given up by myself, under the 'old treatment.' I am now able to attend to attending on the sick, as many miles, perhaps, in a day, as any other physician in the county."

"CHATHAM, PA., July 29, 1859.—I received the twelve bottles of Churchill's Remedy for Consumption. * * * IT HAS WORKED WONDERS IN EVERY CASE."

CONSUMPTIVES, in any stage of the Disease, should resort *immediately* to the use of the HYPOPHOSPHITES OF LIME AND SODA. "WINCHESTER'S GENUINE PREPARATION" (in simple syrup), in extra large bottles, is "chemically pure;" is the combination proposed by Dr. Churchill "for general use;" and is prepared according to his *original Formula*.

Dr. Churchill's Work on Consumption,

Containing his Report made to the Imperial Academy of Medicine, Paris; Notes of Cases; and Letters, Documents, Testimonials, &c., together with a Circular, will be sent on receipt of TWELVE CENTS in stamps.

CAUTION.—Interested Druggists will try to sell you other preparations than mine. Do not buy them! My "Genuine Preparation" bears my *fac simile* signature.

Beware of all Preparations claiming to be the Hypophosphites, which contain IRON, or any DRUG. The country is likely to be flooded with spurious preparations. By writing to me, you obtain information that will prevent any deception being practised upon you.

PRICES.—One Bottle, $1; three Bottles, $5; Concentrated solution, by mail, pre-paid, $2. Sold Wholesale and Retail at the Sole General Depot in the United States, (where all orders should be addressed) by

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREAUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five Boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same medium. We shall never publish a work of fiction the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c. &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Nun Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to housekeepers and others.

Our Pleasant Paragraphs, an interesting melange, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Manifold Morsels, our Items of Interest, etc., etc. In a word, its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or hold them to acknowledged [illegible] and wrong.

OUR CIRCULATION & PROSPECTS.

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is not one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the [illegible] were taken [illegible], they are now taking hundreds of copies. This is the general effect among the five thousand News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country we are daily getting [illegible] to send orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, as is a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agent.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $5, eight copies for $12. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to

STAR WRITING FLUID.

In bringing this WRITING FLUID before the Public, the Proprietor knows he has a great deal to contend with, as there is so many spurious Inks manufactured that are utterly worthless, but I do not wish to say this is the only Ink and best in use. I will say that it is second to none, as my motto is, "Try it, if you like it—buy it." The superior qualities of this FLUID are, namely: It is decidedly a business Ink, and as permanent and indelible, that even the test of Oxalic Acid cannot remove it from paper; hence its value to business men and the community. This Acid instantly affects most Inks, even that from the largest establishments. Arnold's of London, is gradually effected by it. Harrison's of Philadelphia, instantly disappears, while no effect upon the Star Ink is visible, till at last it is changed by the Acid to a reddish tinge, but remains ever afterwards as permanent and legible as ever. Test our Ink with a drop of the Acid, then test others, you will observe the result. There is but one other kind of Ink besides ours that will stand the test, that is thicker, redder and dearer than ours, or all of these combined, every person sees that the Ink which cannot be effaced, and then counterfeited by rogues as is often done on Bank Bills, Deeds, Wills, Records, &c., not only deserves but will command the custom of an enlightened community. As it is a Chemical preparation I challenge all competition. It flows more readily from the pen, will not mould, and is easily removed from the hands when stained. It needs only to be tried and you will buy no other kind.

Put up in small stands.
Also, in Bottles of
1-4 Pints.

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorrhœa, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye sight, loss of memory, dizziness of the head, neuralgia, pain in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhœa, or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders, and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

DR. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills will receive for $1 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

INFLUENCE OF THE SMILE IN GIVING BEAUTY OF EXPRESSION.—A beautiful smile is to the female countenance what the sunbeam is to a landscape. It embellishes an inferior face, and redeems an ugly one. A smile, however, should not become habitual; insipidity is the result; nor should the mouth break into a smile on one side, the other remaining passive and unmoved; for this imparts an air of deceit and grotesqueness to the face. A disagreeable smile distorts the line of beauty, and is more repulsive than a frown. There are many kinds of smiles, each having a distinctive character; some announce goodness and sweetness; others betray sarcasm, bitterness and pride; some soften the countenance by their languishing tenderness, others brighten it by their brilliant and spiritual vivacity. Gazing and poring before a mirror cannot aid in acquiring beautiful smiles half so well as to turn the gaze inward, to watch that the heart keeps unsullied from the reflection of evil, and illumined and beautified by sweet thoughts.

Democratic Senatorial Convention.

A Democratic Convention for the Twenty-ninth Senate District, to consist of four Delegates from each of the Counties of Niagara Orleans and Genesee, will be held at the Cataract House, at Niagara Falls, on Saturday the 22d day of October next, at one o'clock, P. M., for the purpose of nominating a candidate for Senator, and for the transaction of any other business which may properly come before the same. Dated Sept. 29th, 1859.

Party Bondage.

The *Advocate* is horrified at the fact that a few honest Republicans have had the temerity to come out from the ranks of the political organization known by that name, and united their endeavours to save this community from the deplorable possibility of an election to office of the men put in nomination, by fraud and trickery, at the Republican County Convention. It seems to have suffered a regular spasm—and is suffering still for aught we know—at the thought that Republicans should unite with Democrats and Americans in nominating what it calls a "mongrel ticket,"—as though the public interest in the election of capable honest men; men who will seek to discharge the duties of the office over which they will be called to preside, with some reference to obligations of duty, and the interests of the community—is not a matter of more importance than fidelity to a political organization that has no such incentives to the faithful discharge of its trusts.

The Advocate pays a high and well deserved compliment to Judge TAGGART, finding no fault with him, save that he has turned away from the clique that claimed him as one of its own party, thus striking at the very root of any possible argument it might have sought to urge against his election.

A capable honest man is what the people want for Judge and Surrogate—and such qualifications are certainly not the product of the Republican organization, and it fails here most assuredly to afford any garrantee that it will furnish such candidates.

As to the charge, that, "Democrats seeing that the Republicans had left their port-holes open, design jumping in"; we can only say in the first place, the admission is a rather damaging one. The Republicans should have kept their port-holes closed, and the only effectual way to do this is to be honest. Democrats though they are ready to face the cannon's mouth, never *jump* port-holes, though they may fire into them sometimes, and in this sense the Advocate's metaphor is not far from the point.

The code of honor in the Republican party seems to be that of "honor among thieves" but this does not embrace honest men, and therefore it should not complain when they step out.

It may seem wrong to stigmatise a party as dishonest upon local precedents, but as the Republican management of this county claims to be under the counsel of the party of the State and Nation, we see no other way than to let it share the reputation it wins by attempting to force upon this community the candidates nominated for Judge and District Attorney by party power, against the will of the people.

News Items.

We announce to-day, under the appropriate head, taken from the Detroit Free Press, the marriage of our much esteemed citizen, Jerome A. Clark Esq., to Mrs. Mary W. Field, of Brooklyn, N. Y.

A furniture dealer in New York, purchased at auction on Fulton st., an old fashioned clock and sold the same a short time afterwards for ten dollars. The last purchaser, in having it repaired discovered behind a looking glass plate in the clock, a roll of English bank notes to the amount of $3000. The clock was origionally owned by a rich old fellow by the name of Benham, who had a queer way of hiding his valuables, and died one day without revealing his secrets.

Duelling, like other evils, seems to be contagious. The prospect now, is that a perfect epidemic of duels will grow out of the excitement in San Francisco relating to the murder of Broderick.

To Teacher's.

The following resolutions were unanimously adopted at a meeting of "The Genesee County Teachers Associations," held at Batavia Oct. 13th, 1859, and by the Genesee County Teachers Institute on the evening of the same day.

It is proper to observe that these resolutions were adopted by each of the above named organizations, after a full and impartial comparison of the merits of the different text-books, and without any interference or influence of any one who might be supposed to have any pecuniary interest in the matter.

Recognizing the importance of securing uniformity and stability in the use of text-books, in the schools of the county. The Teachers have taken the matter into their own hands, and have manifested a determination to put an end to the officious and selfish interference of Publishers and book agents, in the affairs of the schools of this county.

The county has been fully represented (from 100 to 120 teachers being present) and it may be expected that these resolutions will carry with them an influence which will be permanent, and which will result in securing the object for which the Teachers of the county, have been so long contending, viz: uniformity and stability in the use of text-books. B.

RESOLUTIONS.

Resolved,—That we earnestly recommend for use in the schools of Genesee County, Robinson's Series of Progressive Arithmetics, and Robinson's Algebra, as being better adapted to the wants of both Teachers and Pupils than any similar books in use.

Resolved.—That we recommend Sander's New Series of Readers and Spellers, to be used in the Schools of this county, *provided* the Publishers will cause the county to be canvassed and books furnished for *introduction* at least for half-price and old books; and *provided* also the publishers will take in, *even* exchange all "Progressive Readers" now in use in the said schools.

I approve of the above resolutions.

CLOSE OF LAKE NAVIGATION.—Ward's Toledo, Sandusky and Cleveland Line has been discontinued for this season, and the steamers Forester and Arctic are laid up. The steamers Sea Bird and Gazelle will continue to make daily trips between Cleveland and Buffalo until navigation ceases. The Toledo, Sandusky and Cleveland line will be resumed early in the spring.

SINGULAR PHENOMENON.—A Canada paper notices the fact that during the past six weeks the waters of Lake Ontario have fallen not less than eighteen inches. At the same time a good deal of rain has fallen, and the waters in the rivers and lakes to the West have risen considerably. The solution of the phenomenon would be interesting.

Presentiments and Dreams.

Do any of readers believe that there are cases in which persons foredoomed to be victims of calamity to receive, through some mysterious or supernatural agency, an intimation of the misfortunes impending? Such belief seems to be in conflict with a rational idea of the laws which govern nature, and philosophers will reject it as absurd; and yet most of us have read or heard of apparently well authenticated instances, which seemed to justify an opinion similar to the one referred to. It would probably be found, however on a close investigation of the circumstances, that, as a general rule, persons visited with warnings or apprehensions of this kind are laboring under some form of disease, mental or physical, which is concealed from those about them, and not unfrequently from themselves. But we did not set out to discuss the question. It is enough for our present purpose that many people have faith in the doctrine, if it may be so called, of presentiments, and for the behoof of those especially, we propose to relate briefly two incidents connected with the late terrible tragedy at Albion.—They were given to us by a gentlemen of this city, who was well acquainted with the parties, and whose relatives now reside in Orleans county.

It will be remembered that among the lost were two young ladies residing in Carlton, named Sarah Thomas and Augusta Martin. The former was eighteen years of age and the latter nineteen. Both were girls of intelligence and culture. A day or two before the occurrence by which she lost her life, Miss Thomas is said to have dreamed that she was in Albion, and saw Main street bridge full of people. Suddenly it gave way under the weight and fell into the canal. Startled she awoke, and the ensuing day related her vision to members of the family. It was passed by without special comment, so far as we know, and nothing more was said about it till the morning of the day on which Miss Thomas was drowned, when she rode in a carriage over the bridge.—Her dream was recalled to her mind, and she mentioned it a second time. Evidently she did not deem it a warning, or she would not have ventured to go upon the structure in the afternoon. In this instance it seems unfortunate that she was not tinctured with some share of superstition, for it would have probably saved her life.

Miss Martin's case is not so strong as that of Miss Thomas, though a shadow of death seems to have passed over her soul previous to the tragedy. Two or three days before coming to Albion, she was engaged in household duties, when she came across some articles belonging to her, which were not in their proper place, and turning to her mother remarked that she must immediately set about putting her things in order, as she did not think she should live long, and all of them ought to be arranged before she died. As Miss Martin was then in good health, doubtless the remark was not dwelt upon at the time, but who can wonder that the bereaved and agonized mother should recur to it after the sad event which made her childless! Mrs. Martin narrowly escaped sharing her daughter's fate. Both went into the water together, and rose to surface face to face. The strangled, terrified girl had only breath to cry "Oh, mother, what will become of us!" ere she sank to rise no more. We are informed that the horrors of the scene, and the loss she sustained, had the effect, temporarily, to deprive Mrs. Martin of her reason. She was insane twenty-four hours after the rescue—[Rochester American.

WHAT IS FAME!—Clerks in Postoffices are generally pretty well posted in political matters, but a case happened recently which is rather amusing. Ex-President Fillmore was stopping at a small place, and had occasion to send a letter by his servant to the village Postoffice. It was franked, all Ex-Presidents having that privilege. The bearer dropped it in, but the official caught it up and, glancing at the frank, exclaimed; "who the deuce is Mr Fillmore?" "Why he's the ex-President," replied the messenger. "P'rap he is, my friend; but I've voted for all the Presidents since General Jackson, and I'll be hanged if I recollect any such a name, I guess you'll have to try it on at some other place, for we read history down here, we do." What is fame?—[Buffalo Rep.

The new Dome of the St. Louis Court House has been declared by two competent architects to be unsafe, and ready to fall at any moment. It will have to be taken down, and another built, involving an expenditure of thirty thousand dollars.

It seems that there are two opinions regarding the recent *water gas* experiment at Wilmington, Del. According to the local papers, the experiment was made by interested parties in Philadelphia, who carried out the arrangements with the Gas Company, without the knowledge of the citizens; and the first intimation the latter had of what had been done, was the illumination of the city. The Wilmington *Herald* says it was a decided failure; the gas gave a very poor light, and emitted a horrible smell.

Mr. John Wise writes that out of 113 balloon ascents in which he reached an altitude of three miles, the balloon sailed to the east 112 times. In the exception she remained nearly stationary—landing three miles west of the point of ascension. Out of 234 clear aerial voyages, and 219 topical ascensions, he met with two slight accidents, and the loss of two balloons by their getting away from him. The accidents occurred in his noviciate. The balloons were lost—one in a whirlwind, the other in a juniper swamp in Maine.

Dr. Daily, the drunken President of the University of Indiana, was on Friday, expelled from the M. E. Conference, in session at Bloomington. He was convicted of drunkenness by a vote of 48 to 31, and on the charge of lewdness by a vote of 63 to 16. The Conference expelled him by a vote of 61 to 14.

LOCAL MATTERS.

FREE LECTURE.—At Concert Hall, Saturday evening Oct. 15th, at 7½ o'clock, by Proffs. BOLLES & CHAMBERLIN. Subject—Electricity, the great curative agent. A general invitation is extended to all.

[From the Orleans Republican.] Remarkable cure for deafness, Nathaniel Bailey and old resident of this town was operated one day last week by Dr. de H. in the Platt House Albion and entirely cured for deafness. Mr. Bailey is 63 years of age and has been suffering upwards of 40 years, he lives in our best vicinity, and relates joyfully the above fact. For this successful operation on one of our most aged and respected citizen we feel a great pleasure in passing the Doctor around. See his advertisement.

Perfumery.

The largest assortment of Perfumery ever brought into Batavia, is now offered at Dibble's New Store at FIFTY PER CENT LESS than it can be bought at any other place in Western New York.

We call attention to the advertisement of Charles de Heintze, who has taken rooms at the Western Hotel.

STEPHENSON has just returned from New York with the largest and best selected stock of Dry Goods ever offered in this market which he is selling at his low Cash prices. His stock consists of Raglans, shawls, merinoes, cashmeres, delaines, black and fancy silks, prints, flannels, cloths and casimeres, brown and bleached cotton, and in fact every thing belonging to the Dry Goods trade which he offers at prices that defys competition.

His motto is one price and cash.

On Time.

Bierce is ahead with *New Fall Goods*, and is underselling the *Old Fogies*—Only look at his *Cash Prices*—Sugar 5c. Nutmeg 6c. crushed sugar 10c. Coffee do. 9c. —31, molasses 31, saleratus 8c. ladies gaiters 30c. Mens boots $200. Miles is in full bloom again. *Sells* remarkably *Cheap* and keeps a splendid assortment. *Hard to Beat the Yankee.* tf

Good news for the People.

G. W. Hull, is again in the field with the largest stock of *Boots and Shoes* ever exhibited in Genesee county—he has all the desirable styles suitable for the season. We noticed among other things a large assortment of *Mens and Boys* Thick Kip and Calf Double sole Boots of *extra quality custom made* which are selling very fast at about one half the price that the people of this county have formerly paid for such goods.

Ladies and Children's work he has in very great variety.

We would advise all our friends to give him a call and *save money* in shoeing up for the winter, his stock is large, his goods *first* quality and his *prices* are from 30 to 40 percent below any other House in the county. The store is north side of Main Street, Batavia.

IT IS a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "Bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial!

Sold by druggists and dealers everywhere.

DR. N. R. C. ROWE.

URISCOPIAN PHYSICIAN.

(Late from the Island of Barbadoes, West Indies)

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections, Tumors, Diseases of the Lungs, Throat, Liver, Kidneys, &c., &c. Also Scrofulous and all other Chronic Diseases, at his office No. 6 Stone Block, corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathsome disease, CANCER—the thoughts of which chill the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skillful Physicians as decidedly incurable. These patients now live as witnesses to this fact. CATARRH, this most awful disease, which if not checked, terminates in Consumption, he can cure most speedily.—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practioner and no self taught man. Dr. has discovered a speedy and certain cure for such cases of that fearful and ravaging disease CANCER, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer cannot be cured. Dr. Rowe however, has after a thorough investigation and study of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases more correctly and successfully than by any other mode of examination. The reason that a great many curable diseases are deemed incurable is simply from not finding out the real secret of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and $1 as a fee for testing it, at the same time stating their age, will be told their disease. Letters addressed to Box 964, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. Reference as to his mode of treatment can be given to some of the first Physicians in this country.

☞ Dr. Rowe will be at the Exchange Hotel, Attica, for 4 days, Tuesday, Wednesday, Thursday, Friday, Oct. 4, 5, 6, 7, where he can be consulted on the above diseases.

Arrival of the Steamship Africa.

THE ZURICH CONFERENCE.

THE GREAT EASTERN.

EXPEDITION AGAINST CHINA.

NEW YORK, Oct. 14.

The steamship Africa, from Liverpool, at noon of Oct. 1st, arrived at 4 P. M. to-day.

The steamer Bavaria, hence for Hamburgh, touched at Southampton on the morning of Sept. 30th.

The Arago, hence for Havre, touched at Southampton at noon of the same day.

The news by this arrival is of considerable importance.

The Zurich conference continued its settings at last accounts. Prince Napoleon, however, had left without having had an interview with the Plenipotentiaries.

The London builders strike remains in a very unsatisfactory state. Negotiations extending over two days between the master builders and a deputation from the operative masons, had been brought to a close without any favorable result, and the breach between the employers and the employed is becoming wider and deeper than before.

The Great Eastern remained at Portland, and if she is removed from that port before going to Holyhead the directors have determined that she shall go to Southampton.

FRANCE.—The Emperor was not expected to return from Biarritz until the 8th of October.

The Paris Patrie says the number of vessels and troops which are to form the expedition to China had not yet been decided upon.

Up to the commencement of August last no treaty had been signed between France and Cochin China.

The Moniteur says some journals have stated that the solution of the affairs of Italy would be impeded by the desire of the Emperor of the French to form a Kingdom in Italy for a Prince of his house. These rumors do not need refutation to deprive them of all value. It suffices, without speaking of the engagements entered into at Villafranca, to bring to recollection the acts and the words of Napoleon before and since that epoch.

The Paris correspondent of the London *Herald* confirms in the most positive manner the statement that the King of Belgium's visit to the Emperor was wholly on account of the debt due from Belgium to France, amounting to £2,000,000—a pressing claim for payment having been put forward.

It is announced that several regiments of the corps de armee, under command of Marshal Castellane in the Lyons district, had received orders to hold themselves ready to march.

Letters from the provinces in France confirm the reports of grand armaments of the various ports. The government had purchased land at a high price, on the coast, for the purpose of erecting fortifications at Boulogne. A floating battery is to be constructed without sails, navigated by steam, and armed with rifled guns.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprets to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS.

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock, such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

Something True and Important.

IF YOU are crippled with Palsy or Rheumatism, suffering with pains and can find no relief [illegible]—given up as beyond the reach of medical aid, and have no other prospect before you than a premature grave, read the following—pause, reflect and hope on, as an opportunity is now offered for the restoration of your health. *Proffs. Chamberlin & Bolles*, of [illegible] beg leave to say to the citizens of Batavia and vicinity that they have taken rooms at the Eagle Hotel and will remain a few days for the purpose of introducing their new and important discovery in the use of Electricity for the cure of all curable diseases.

Every thing connected with their mode of applying electricity is new and original with themselves. Their philosophy for the electrical laws of life, health and disease, is new.— Their reliable method for the diagnosis of disease by electrical contact is new.

As also their important discovery in the use of the positive and negative polarities to the human body, for the safe and speedy removal of all diseases.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but *Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. HOSTETTER'S

STOMACH BITTERS.

IT is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhoea, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

DR. CHURCHILL'S REMEDY

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of the NEW REMEDY discovered by Dr. Churchill, of Paris, is exhibiting for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. The *Hypophosphites increase the Principle which constitutes nervous force, and are the most powerful blood generating agents known.*

The Cure of Consumption,

In its earlier and middle stages [illegible], which increases in uncertainty as to the nature of the disease [illegible] obtained. IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

The Remedy has not only a curative effect, but will, if used whenever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act AS A PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

Professional Correspondence.

"[illegible], Ohio, Aug. 8, 1859.—I have been treating this disease for twenty-five years, and have derived more satisfaction from the use of the Hypophosphites *than from all other forms of medication combined*."

"[illegible], Miss., Aug. 3, 1859.—I have used the Hypophosphites in my practice *with very happy effects*—so much so that I WOULD NOT BE SATISFIED TO REMAIN WITHOUT THEM."

"[illegible], Vt., Aug. 5, 1859.—I believe the Hypophosphites used in the manner and way Dr. Churchill used them, [illegible]."

"[illegible], Va., Aug. 15, 1859.—I have prescribed the Hypophosphites in several cases, and was *delighted with its effects*. It is [illegible], [illegible]."

"[illegible], O., July 5, 1859.—I have used it in all about forty patients, and in but one instance have they failed to benefit the patient, and that was a hopeless case before I was called. I have had several cases given up by attending physicians, who ARE NOW ENJOYING COMPARATIVELY GOOD HEALTH, and [illegible] ALL THE SYMPTOMS of pulmonary disease. I have used the Remedy in my own case, *with decided success*. It was regarded as hopeless by physicians and friends, and [illegible], under the 'old treatment.' I am now able [illegible] on the sick, at many miles, perhaps, in a [illegible] other physician in the county."

"[illegible], Pa., July 27, 1859.—I received the twelve bottles of Churchill's Remedy for Consumption. * * * It [illegible] IN EVERY CASE."

[illegible], in any stage of the Disease, should resort [illegible] to the use of the HYPOPHOSPHITES OF LIME [illegible]. "WINCHESTER'S GENUINE PREPARATION" (in dimes [illegible] large bottles, is "chemically pure;" is the [illegible] prepared by Dr. Churchill "for general use;" and is prepared according to his *original Formula*.

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five Boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

PACK YOUR THOUGHTS.—Do not assume that [illegible] have something important [illegible] communicate it is necessary to write a long article. A tremendous thought may be packed into a small compass—made as solid as a cannon ball, and, like the projectile, cut all down before it. Short articles are generally more effective, find more readers and are more widely copied than long ones. *Pack your thoughts* [illegible] *together,* and though your article may be brief they will have [illegible] and [illegible] likely to make an impression. Democratic Senatorial Convention.

A Democratic Convention for the Twenty-ninth Senate District, to consist of four Delegates from each of the Counties of Niagara, Orleans and Genesee, will be held at the Cataract House, at Niagara Falls, on Saturday the 22d day of October next, at one o'clock, P. M., for the purpose of nominating a candidate for Senator, and for the transaction of any other business which may properly come before the same.

Dated Sept. 29th, 1859.

HENRY L. GLOWACKI, }
N. Z. SHELDON, } Committee.

Democratic County Nominations.

We place at the head of our columns to-day the excellent County Ticket nominated on Saturday last by the Democratic County Convention.

We shall publish the proceedings of the Convention together with a more extended notice of the several candidates placed in nomination, in our paper of to-morrow. We have only time at present to add that the nominations were made with great unanimity and are such as are eminently "fit to be made."

Mr. T. S. C. Low's Balloon the "City of New York" is said to be nearly completed, and that he will start for Europe in it. It is to be provided with an ericsson colonic engine, to steer it, and a "lime stove" to supply heat when up in the cold regions. According to accounts, the balloon when inflated will be about three times as high, with the car on the ground, as the tower of the Presbyterian Church in this village.

The "back bone" of the American party in Albany county are in favor of a union with the Republicans, and the "Pubs" are willing, in case a fair and square union is agreed upon, to give the Americans the larger slice of the loaf. There are others in the American ranks, however, who are deadly opposed to a union on *any* terms—who are determined to follow in the foot-steps of their leader, Erastus, and go in for a general rebellion—a jubilee—a revolution—to smash up the machine, and have the fun of showing that—some things can be done as well as others.

Destructive Fire at Warsaw.—A destructive fire occurred in the village of Warsaw Friday morning, says the Buffalo *Republic*, consuming property of the value of $13,000, covered by no insurance. It was discovered about one o'clock in the morning, in the upper part of the planing mill and sash factory owned by Messrs. Gates & Hurd, and had obtained such headway, that with the means possessed in the village, it was impossible to extinguish it, and the building with all its contents were destroyed. The loss to Messrs. Gates & Hurd is placed at $10,000.—The flames communicated to a quantity of lumber belonging to a carriage manufactory owned by Messrs. C. & T. Hexton, and about $3,000 worth of this was consumed.

A Baby Overboard among the Sharks!—While the passengers of the disabled steamer Quaker City were being handed up the side of the bark Dumbarton, a heavy sea was running, and it was with the utmost difficulty that the ladies could be gotten on board. This was finally effected, and then an innocent little nursling, whose mother had entrusted it to the rough hands of the honest tars, was handed up. The little thing was too light and tender for their hard palms, and they sung out from the boat to those above to catch the "little one," and the next moment a score of arms was outstretched, as it was lifted crowing and kicking toward the gunwale. Alas! all hands missed it, and it fell back into the sea among the sharks—every eye was strained, the pulsations of the heart were stopped, and for a moment all seemed paralyzed: but this lasted only for an instant, the sturdy arm of one of the gallant boat's crew had grasped the dear little one by the leg, and as he lifted it aloft a cheer saluted its appearance. The mother of the child now went into strong convulsions, and the infant was passed into the hands of Mrs. Davidson, and while resting there a beautiful land bird hovered for a moment over its little form, and then, as if to assure itself that it lived, perched upon its dress, and hopped and chirped in concert with the crowing of the babe. The bird then jumped to the shoulder of Mrs. Davidson, who was near, and then took a final farewell of the bark and her rescued passengers.—*Norfolk Day Book.*

A Good Way to Advertise.—A few weeks since the good people of a quiet rural village near Carlisle, Penn., were much astonished one Sunday morning by the appearance at Church, in a solid, orderly phalanx, of Dan Rice's entire Show Company, who happened to be stopping there over the Sabbath. Dan must be getting pious. A short time since we heard of his distributing tracts, and now he marches his Circus Company off to church Sundays.—Good for Dan.

Two Editors Gone.—In Coudersport, on the 22d ult., Mr. Hugh Young, Editor of the Tioga *Agitator*, was married to Miss L. A. Butterworth, of the former place; and on the 28th ult., Mr. Thomas S. Chase, editor of the Potter *Journal*, was married to Miss Ida Butterworth, of Coudersport.

We would ask in reference to the above, says an exchange, in the thrillingest of tones—"*What is Butterworth now?*"

Soldering Broken Limbs.—M. Milne Edwards has been making some experiments in feeding animals, whose limbs he had broken, with *phosphate* of lime. Out of six rabbits and ten dogs, whose legs he broke in the same way, half were fed on food mixed with ground bones, and their bones united much more rapidly than those of the unphosphated animals. He thinks the use in human cases would be decidedly beneficial.

Gilbert, the first Member of Congress from California, was killed in a duel.—Herbert, another Member of Congress, murdered a hotel waiter at Washington. Key, the District Attorney who treacherously connived at his acquittal, was shot by Sickles, and now Senator Broderick is killed by a Judge of the Supreme Court! This is a bloody and disgraceful record for a young State.

About forty of the oldest citizens of Dunfermline recently dined together, the youngest of whom was 70, the oldest 93 the average age being about 75, and the aggregate being more than 3,000 years. There were no fewer than 21 present who had served in the army.

The St. Paul Minnesotian says that a physician in that place asserts that 3,000 babies were born there last Winter, and that the crop the coming Winter will be still heavier. The Minnesotian says: "We think his figures rather steep, but this is certainly a fast country, and a prolific climate. In a few years we shall be indifferent whether we have immigration or not."

In Terre Haute (Ind.) is a fellow exhibiting rattlesnakes, who swallows about twenty inches of one, with its fangs and poison in their natural conditions. He is a professor, of course, and his name is Brennon.

Geo. M. Horton, editor of the *Geneva Gazette*, and a man of fine natural powers, died a few days since, a victim of intemperance.

Mrs. Frances D. Gage of St Louis, Mrs. Tracy Cutler of Illinois, and Susan B. Anthony, will attend a Woman's Rights Convention at Albion, Orleans County, on Thursday next.

A consignment of 10,000 cigars, made at Havana for Louis Napoleon, has arrived at Norfolk en route for France.—They cost $800 per M.

A poor woman at Niagara Falls received a letter from the post office a few days since containing a draft for $1,000. It was a part of a fortune left her by a brother recently deceased at New Orleans.

THE GREAT AMERICAN
Boot & Shoe Store,
No. 2, Odd Fellow's Hall.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING,

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of
BOOTS AND SHOES
that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprets to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its
ENTIRE SUCCESS
and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.
He has on hand a good assortment of Stock such as
Oak and Hemlock Sole Leather,
French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.
Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*
Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.
Batavia, August 15th, 1859.

IT is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial!

DR. N. R. C. ROWE.

URISCOPIAN PHYSICIAN.

(Late from the Island of Barbadoes, West Indies)

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections. Tumors, diseases of the Lungs, Throat, Liver, Kidneys, &c. &c. Also Scrofulous and all other Chronic Diseases, at his office No. 8 Stone Block, corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathsome disease, CANCER—the thoughts of which chill the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skillful Physicians as decidedly incurable. These patients now live as witnesses to this fact. CATARRH, this most awful disease, which if not checked, terminates in Consumption, he can cure most quickly.—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practioner and no self taught man. Dr. R. has discovered a speedy and certain cure for such cases of that fearful and ravaging disease CANCER, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer cannot be cured. Dr. Rowe however, has after a thorough investigation and study of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases more correctly and successfully than by any other mode of examination. The reason that a great many curable diseases are deemed incurable is simply from not finding out the real secret of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and $1 as a fee for testing it, at the same time stating their age, will be told their disease. Letters addressed to Box 964, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. References as to his mode of treatment can be given to some of the first Physicians in this country.

☞ Dr. Rowe will be at the Exchange Hotel, Attica, for 4 days, Tuesday, Wednesday, Thursday, Friday, Oct. 4, 5, 6, 7, where he can be consulted on the above diseases.

Arrival of the Overland Mail.

LEAVENWORTH, Oct. 14.

The overland express brings Denver city dates of the 16th ult.

An election had been held for delegate to Congress, and B. D. Williams is probably chosen. The vote was small.

An election had also been held in Arizona, under the laws of Kansas, creating considerable feeling—the previous policy of the mining region having been the ignoring of all political connection with Kansas.

Snow had fallen to the depth of one foot at Gregory's diggings and other localities, causing a temporary suspension of mining operations, but the succeeding mild weather had enabled the miners to resume their work. A large number were leaving for the States to pass the winter. The mines were producing well. A nuggett worth $150 had been taken from Russell's gulch, and several others of less amount had been found.

Two hundred men were still at work in the Terryall district, all making good wages.

The Kansas lead had yielded $500 in two days to three men.

The miners remained vigorously at work in all the diggings.

BOSTON, Oct. 15.

Upon an application of the Bank Commissioners the Supreme Court this day issued a temporary injunction against the People's Five Cent Savings Bank in Hanover street. A deficiency has been discovered in the accounts of the Treasurer. The amount of it has not been fully ascertained, but it is hoped that the depositors will not be endangered. The Bank does only a limited business. The other banks of the city are in a safe and prosperous condition.

PORTLAND, Oct. 15.

Frederick Cumberland, agent of the Great Eastern, who has come to make arrangements for her reception, arrived here yesterday from Canada. He has no doubt that the steamer will leave for Portland, Me., in the latter part of October. When he left the Company did not entertain the thought of visiting any other port in America this trip, but Portland, where it was reported she would remain about three weeks.

ALBANY, Oct. 15.

Governor Morgan has applied to Attorney General Tremaine for his opinion relative to the disputed jurisdiction over the oyster island, between the State of New York and New Jersey. The Attorney General gives his opinion that the island clearly belongs to New York, and that New Jersey has no jurisdiction over the disputed territory.

WASHINGTON, Oct. 14.

The President authorizes the emphatic denial of the despatch from Philadelphia, which stated that Col. Forney had received notification of his intention to institute a prosecution for libel on account of the article in his paper of Monday last, in relation to the death of Senator Broderick.

SAVANNAH, Oct. 15.

The News says that the Star of the West had on board 550 passengers and $1,600,000 in treasure.

She landed 200 passengers at Key West. The others remained on board.—She then left for New York with one engine in order.

FARTHER POINT, Oct. 15.

There are no signs of the steamship North Briton.

Weather clear and cold with strong westerly winds.

NEW ORLEANS, Oct. 14.

Port au Prince advices to October represent the city to be still in a state of siege. The excitement was abating, however.

NEW YORK, Oct. 13.

The rumor afloat yesterday, of a heavy defalcation in the Bank of the Republic in this city, is said to be wholly without foundation.

NEW YORK, Oct. 15.

The steamship City of Manchester, for Liverpool, took out 120 passengers and $350,000 in specie.

'Tis Found

Something True and Important.

IF YOU are crippled with Palsy or Rheumatism suffering with pains and can find no relief for body or mind—given up as beyond the reach of medical aid, and have no other prospect before you than a premature grave, read the following—pause, reflect and hope on, as an opportunity is now offered for the restoration of your health. *Profs. Chamberlin & Bolles*, of Buffalo, would say to the citizens of Batavia and vicinity that they have taken rooms at the Eagle Hotel, and will remain a few days for the purpose of introducing their new and important discovery in the use of Electricity for the cure of all curable diseases.

They solicit no patients except those given up everywhere else as incurable. The reader might here ask do they really cure such cases or are these statements false? Have they cured any such cases in Buffalo and vicinity, or are their cures all on paper and afar off? In reply they would say they have cured and are curing every day just such cases. They have restored to health a great number of persons in Buffalo and surroundings, who have been suffering from various diseases, five, ten, and fifteen years and upwards, in a few days. They have cured and are curing a class of diseases that has baffled the skill of the medical profession in all ages of the world. The reader might here enquire, by what means such wonderful cures are performed? Not by irritating the delicate membranes of vital organs by drugging the stomach, but by direct application of the positive and negative polarities of Electricity.—Again it might be asked, has not electricity been employed as a remedial agent for years both in Europe and the United States, with indifferent success? And are not numbers now using it, in our very midst, with no better result? This is all very true; and when we consider the ignorance and recklessness displayed in its application the result has been more favorable than could have been anticipated. It has been considered as beneficial in a few cases, only, and uncertain even in those. There has been no fixed principle for applying it, and, therefore, no uniform result could have been anticipated; but owing to the friendly relation existing between electricity and health, remarkable cures have been performed, which have been looked upon as a lucky hit, rather than the result of a fixed law. The ignorance displayed in the administration of this mighty agent is unpardonable.

The current has been generally applied through the hands or feet in such power as to convulse the whole nervous and muscular system, and frequently producing irreparable injury; sometimes it has been applied by means of metallic conductors to different parts of the body, which is equal to a process of cauterization—and the effect upon the nervous system is similar to that produced by over-doses of Strychnia or Quinine.

Every thing connected with their mode of applying electricity is new and original with themselves. Their philosophy for the electrical laws of life, health and disease, is new.—Their reliable method for the diagnosis of disease by electrical contact is new.

As, also, their important discovery in the use of the positive and negative polarities to the human body, for the safe and speedy removal of all diseases.

All is new and unknown to medical men and others except the few instructed by them.

By this mode of applying electricity there is no guess work; no uncertainty; and no matter of doubt as to the result that will follow.

The diseased are invited to call and witness the wonderful cures they are performing daily.

Instruction given to those desiring a knowledge of their mode of curing disease.

DR. M'LANE'S
CELEBRATED
VERMIFUGE
AND
LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated
Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,
For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,
For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,
preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,
PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa. To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

HOSTETTER'S STOMACH BITTERS.

It is a fact [illegible] every member of the [illegible] to disease or [illegible] but, with the aid of a [illegible] and the exercise of [illegible] may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the stomach or bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhœa, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

☞ Prepared and sold by HOSTETTER & SMITH, Pittsburgh, Pa., and sold by all druggists, grocers, and dealers generally throughout the United States, Canada, South America, and Germany.

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Rail Track and Lands for Sale,

AT AUCTION.

A JUDGMENT HAVING BEEN OBTAINED at a Special Term of the Supreme Court of the State of New York, held at Corning, Steuben County, on the [illegible] December, 185[illegible], in an action wherein John A. Stevens and others were plaintiffs, and The Buffalo, Corning and New York Railroad Company and others were defendants, [illegible] a sale of all the property of said railroad corporation covered by their first mortgage—and the [illegible] as Trustees, for the holders of the first mortgage bonds of said Company, having [illegible] the said property, they will, as such Trustees, sell at public auction, by Samuel B. Hard, Auctioneer, at the Rotunda of Spaulding's Exchange, in the City of Buffalo, in the county of Erie, on Wednesday, the [illegible] day of November, [illegible] at noon, that portion of the said property which is described as follows, to wit: All the interest of said Trustees in and to all that part of the rail track of The Buffalo, Corning and New York Railroad Company, and of the lands on or [illegible] certain lands acquired by said Company for a rail track or other purposes lying within the city of Buffalo, in the county of Erie, and extending from thence to the Tonawanda creek, in Batavia, in the county of Genesee.

Also, all the interest of said Trustees in and to the following described lands, to wit: All and singular, those lands conveyed by Joseph Hart, Jr., to the said railroad company by deed dated July 21, 1853, described as follows: "All that piece or parcel of land situate in the town of Black Rock, in the county of Erie, in the State of New York, being a part of lot No. 2, township 11, range 8, of the Holland Land Company's land, and bounded as follows, to wit: Beginning at a point in the west line of said lot No. 2, at its intersection with the northerly line of a strip of land 125 feet wide, which has been heretofore staked out for the tracks of The Buffalo and Rochester Railroad Company and The Buffalo, Corning and New York Railroad Company; said point being also about 23[illegible] feet north from the centre line of Williams street, running from thence northerly along said west line of said lot, seventeen hundred and twenty seven feet; thence east at right angles with said west line of said lot number 2, twelve hundred and ninety-six and three fourths of a foot, to the east line of the same; thence south along said east line of said lot nine hundred and sixty-one and a half feet to the northerly line of the above mentioned strip of land of one hundred and twenty-five feet in width, heretofore staked out for the tracks of the said Buffalo and Rochester Railroad, and The Buffalo, Corning and New York Railroad Company, and thence southwesterly along the same fifteen hundred and two feet and three-fourths of a foot, to the place of beginning, containing forty acres of land, be the same more or less."

Also, all those lands conveyed to Constant Cook, as agent or commissioner for said company, by James Sully and wife, of Buffalo, date of deed December 2[illegible], 1852, described as follows: "Land situated in the city of Buffalo, distinguished as part of outer lot No. [illegible], and bounded as follows: Beginning at a point in the westerly line of Louisiana street, one hundred feet northerly from the north line of Exchange street, and running thence northerly on the said line of Louisiana street, twenty-five feet; thence westerly at right angles with Louisiana street, one hundred feet; thence southerly and parallel with Louisiana street twenty-five feet; and thence easterly one hundred feet to the place of beginning. Being the southerly half of a lot fifty feet wide, which was conveyed to Thomas T. THE PIKE'S PEAK GOLD MINES.—The Rocky Mountain Reporter gives the following statement of the operations at the gold mines. We consider that the most flattering stories will now be received with credulity and excitement:

"We present this week a full report of three of the gulches in this region. From the head of Russell Gulch to where W. G. Russell & Co. are at work there are sixty companies and three hundred men at work, who are taking out on an average $10,000 a week. From there down, and the same in the Nevada and Illinois gulches, we give the name of each company, the number of hands at work, and the amount taken out weekly by each company. The season is so far advanced that hundreds have recorded their claims and gone home to make preparations for next year's work.

"We find in Russell's Gulch 891 men at work; they are taking out on an average weekly $35,585, or nearly $39 per man.

"In Nevada there are 97 men at work, who are taking out weekly $3,750, or nearly $39 per man.

"In Illinois Gulch, Missouri Flats, there are at work 116 men, who are taking out weekly $4,294, or over $42 per man.

"Paternity of the Nine Million Canal Debt."

Under this head the Republican Advocate on the 11th inst, copied an article from the Albany Evening Journal which asserts that the portion of the "Debt created by that Bill and the other Canal debts, and especially the unnecessary, gratuitous debts, were created by our accusers and assailants."

As to the paternity of the Canal debt, generally, it is hardly necessary again to refer to the message of Governor Seward and Young, to expose this unblushing falsehood. The former in his message of 1838 expressly adopted the report of Canal Commissioner Ruggles, proposing a debt of forty millions of dollars. Governor S, said that the Canals were "a property substantially unencumbered;" and that their productiveness would warrant the State in expending in internal improvements, *four millions of dollars annually, during the period of ten years;* and that the revenue of the Canals alone would reimburse this expenditure previous to 1865 and he added the conclusions of this report, although of vast interest to the State *and I trust decisive of its policy*, have not been questioned." After the democratic party had, as it was supposed, arrested this wild career of extravagance and public debt by the financial article in the Constitution of 1846, Governor Young declared that article to be "an obstacle across their path," and it was obliterated by the perseverance of the late whig party.

As to the Nine Million Canal Bill it was passed into a law by the aid of a few "Recreant Democrats," the most prominent among these, in this part of the State, was Burroughs of Medina. He was almost immediately rewarded by an election to Congress by the Whig party and he has continually since acted with that party.—There were also some other very *hard* democrats who united with Burroughs in the assembly. The facts disclosed during the passage of the Bill, as well as the action of the "letting board" under, sufficiently prove its paternity and the ultimate object of the conspirators. One fact on the passage of the Bill would alone be sufficient to show what political party was responsible. We allude to the resignation of their seats by twelve democratic members of the Senate rather than witness the abominable fraud attempted to be practiced upon the people by this bill. Another fact may be refered to as showing the party complexion of the project. It was proposed by the democratic minority to take the opinion of the Court of Appeals, or of the Attorney General as to the Constitutionality of the Bill. But this the tyranical majority refused. Why? *Doubtless because a majority of that Court was composed of democrats, and the Attorney General was also a democrat.* In the insane madness of party spirit this tyranical majority went further. They adopted a most unheard of and unparliamentary provision, they actually passed an enactment *forbiding the Attorney General from taking the opinion of the Court of Appeals as to the Constitutionality of the Bill.* The same majority also voted down a proportion of the minority to take the opinion of the people as to the propriety of passing this bill. Yes, the same legislature which had just submitted a School bill, involving no Constitutional question, to be voted on by the people, refused to take the vote of the people upon this important bill involving, as it most clearly did, grave Constitutional questions. No one then believed, and certainly no one at this time can believe that the people would have approved of this bill.

The monstrous fraud that would have been perpetrated upon the people through the currency, is now palpable. It is now manifest that the circulating notes proposed to be issued and based upon the "Canal Revenue Certificates," would not have been worth one rye straw. These Certificates, which were to be the basis of Banking the same as the State Stocks, pledged only the *residue* of the Canal revenues, after the payment of superintendance and repairs, interest on the State debt and the other requirements of the Constitution. To exhibit the fraud intended to be perpetrated upon the currency by this iniquitous act we refer to an amendment proposed by Mr. Dart, a democratic Senator, on the passage of the bill. He proposed to add to the 6th Section of the bill "But the bills so issued shall have engraved on them. 'SECURED BY CANAL REVENUE CERTIFICATES.' This proposed amendment was debated and lost, and the words "*Secured by Public Stocks,*" retained, without any designation of the particular stock or security upon which they were to be issued. The citizen who parted with his property—the farmer who sold his wheat, beef and pork and received these notes in payment had no means of knowing whether they were founded upon Canal Revenue Certificates or other Public Stocks; and every one at the time well knew that these Certificates would be deposited with the Comptroller for Bank notes before the ink upon them was fully dry.

But the refusal of the majority to take the opinion of the Court of Appeals was the most deplorable act in these proceedings—The same people had elected both the Court and the legislature, and both were assembled in the State Capitol.—Were there any grounds upon which the honesty, integrity or ability of that Court could be questioned! Certainly no reason was stated. The judiciary of the State is the bulwark of public and private Security. Its purity has never, hitherto, been seriously doubted. Did the majority act under the narrow minded suspicion that political considerations would influence the minds of the judges of that Court when sitting as a *Court* in determining a grave Constitutional question! Such an example of suspicion and distrust proceeding from so high a source was calculated to produce the most deplorable consequences. It was calculated to sink deep into the veins and vitals of the republic and rapidly to undermine the public confidence in the judiciary; for if the legislature pronounces that its legal decision are not to be depended upon, in consequence of the political opinions of the judges, every man in the State would be justified in refusing to submit the decision of his cause to a judge whose political opinions might differ from his own.

That there were a few democratic members of the legislature and some democratic prints in the State, which, from mercenary considerations or from the "shrieks of localities," acted with this tyranical majority, is not denied. This has ever been the practice of the opposition, whether acting under the name of federalists, anti-masonic whigs or republican, when a nefarious political measure was to be accomplished. They have never failed to find a few democrats of easy virtue, willing to be used as stool pigeons and scape goats, so that when the public condemnation should overtake them they might say not we but these recreant democrats have done it.

We might further expose the false operations of the Evening Journal by refering to the proceedings of the "Letting Board," after the passage of the bill.

It will be sufficient to say that while contracts were refused to the lowest bidder they were mainly given to Seward Whigs and to Hunker democrats. We do not remember that a Silver Gray whig or a democrat (then called barn burners) obtained a single contract.

County Convention.

An adjourned meeting of the Democratic County Convention of Genesee County was held, pursuant to the call of the officers of the Convention, at Ellicott Hall in the village of Batavia on Saturday Oct., 15, 1859, at 2 o'clock P. M., for the purpose of nominating Candidates for county officers to be supported at the ensuing election.

The Convention was called to order by the Chairman Hon, H. J. REDFIELD, and on calling the list of delegates every town was found to be represented, with the exception of the town of Darien.

Mr. A. T. DRAKE, of Le Roy moved that the Convention proceed to take an informal ballot for a candidate for County Judge and Surrogate.

Mr. J. A. SMITH of Batavia moved as an amendment that the vote be taken *viva voce*. Question taken on the amendment and declared *lost*. The original motion was then put and declared *carried*.

The informal ballot was then had, with the following result: Whole number of votes cast, 38. Of which C. FITCH BISSELL received 28; EDGAR C. DIBBLE 4; MOSES TAGGART 3; blank 3.

Judge DIBBLE being present, announced that his name was presented against his wishes, as he was not a Candidate for the office and would'nt have it under any circumstances!

C. FITCH BISSELL Esq., of Le Roy was thereupon on motion declared unanimously nominated.

Mr. E. SCOFIELD of Bergen moved that JAMES M. WILLETT Esq., of Batavia be nominated by acclamation as Candidate for the office of District Attorney, carried unanimously.

Col. Wm. SEAVER moved that CARLOS A. HUGGINS Esq., of Bethany be nominated by acclamation as Candidate for the office of Superintendent of the Poor, carried unanimously.

Mr. J. A. SMITH, after briefly adverting to the recent bellicose movements in the ranks of the Republican party in this county, growing out of efforts to put in nomination *suitable* and *satisfactory* nominees for county offices, and to the action of the two Conventions already held for that purpose—moved that this Convention make no farther nominations, but complete the County Ticket by adopting the nominees of the recent "Peoples Convention."

After some discussion the motion was put and declared *lost*. Mr. SMITH then moved that this Convention make no farther nominations. Upon this motion the ayes and noes were taken, and the vote resulted—ayes 11; noes 27. Lost.

Mr. SMITH stated, by way of explanation that his sole object in making these motions was fairly to test the sense of the Convention with reference to the formation of a Union ticket for the purposes of the present canvass for the election of local officers. That although he observed that in the published proceedings of the "Peoples Convention" his name was mentioned as one of its officers, and as a member of the Committee on nominations—he begged leave to state that he in fact took no part in the proceedings of that body, in any capacity, and was in no sense connected with [illegible] by its action.

Mr. A. T. DRAKE thereupon moved that JUNIUS A. SMITH of Batavia be unanimously nominated as Candidate for Member of Assembly. Carried *uproariously*! Mr. S. being loudly called for, in a few very pithy remarks handsomely "acknowledged the corn." In the present "irrepressible conflict" he had certainly fallen a "victim." In imitation of his Republican competitor of Alexander, he urgently requested all his constituents, when he had taken his seat in the Legislature, to send on their little "patch work" and it should receive prompt attention!

WILLIAM BARNETT Esq., of Stafford was nominated by acclamation as Candidate for Session Justice.

MORRIS W. TOWNSEND of Bergen, BARNUM BLISS of Oakfield and NEHEMIAH STEVENS of Bethany, were severally nominated by acclamation as Candidates for Coroners.

Mr. DRAKE moved that the delegates present from the several towns, select and report the names of two individuals in each election district in their respective towns to act as a Vigilance Committee, in attending to the registration of the names of voters, and canvassing the district. Carried.

The following named gentlemen were thereupon selected and reported by the delegates, viz:—

Alexander.—Chas. Fulton, H. H. Norton.

Alabama.—Gardner S. Clark, Edward Diver.

Batavia.—1st. dist.—J. Haskell, Ep. Powers, 2d. G. Knowles, David E. E. Mix.

Bethany.—Chas. S. Cone, O. J. Clemens.

Bergen.—David Hooper, A. T. Southworth.

Byron.—Aaron Arnold, J. L. Hodges.

Elba.—G. Southworth, J. Lamberton.

Le Roy.—1st dist.—A. T. Drake, John Agar, 2d—J. H. Lent, Wm. Huyck.

Oakfield.—Cyrus Pond, Barnum Bliss.

Pavilion.—William Bradley, Theodore Henry.

Pembroke.—1st. dist.—R. Willett, S. Wight, 2d.—J. A. Garvin, Mr. Converse.

Stafford.—Stephen Crocker, Robt. W. Stage.

Convention adjourned *sine die.*

The *Advocate* of last evening contains over three columns of matter that has appeared in the Daily Herald. This is a good idea of the *Advocate's*—it is getting to be exceedingly interesting, indeed we of late take it up and look at it nearly every day to see how we look reflected therein.

The effort to make it appear that we use aggressive language against the Republicans, is a base coin, that executes itself out of raw material, or at least is only executed in such "mints" as the *Advocate* comes from.

We have never said that a Republican was a *thief*, nor any thing like it; on the other hand, we agree with the Advocate that such a charge against the Party would be a great wrong. An incident that occurred in New York some years ago at a time when the press was down on the Common Council, as thieves and robbers, will illustrate this. One good honest man complained of the bitter denunciations of the press, and stoutly denied the charge—saying that he knew at least two members of the Common Council that were never known to steal!

Our neighbor can have the argument.—But the *Advocate* must be excused for many things. It don't know why the Republican Party, is a Republican Party, and like an honest man—don't twist this now—owns up.

Speaking of the Peoples Convention he says:—

"If the action of the Republican Convention had resulted in the nomination of a political trickster or a pot-house politician for the office of County Judge, or in the nomination of a man notoriously incompetent and unfit for the place, there might be good ground for bolting his nomination."

Here he hits the nail right straight on the *caput*, and we take the argument this time in behalf of the "People's" that hasn't any organ.

Now he comes in all his strength:

"The allegation that Judge Brown is either incompetent or unfit for his office, has never been made to our knowledge.—On the contrary, it is admitted on all hands he is the best Judge we ever had. This is a fact well known by all who are conversant with the history of our Courts for many years past."

Why, the *Advocate* isn't round, surely—don't read the HERALD, and never did, and moreover tells a small story up above by implication where he charges the People's Convention with making these same allegations against the Republican nominee for Judge. The *Advocate* ought to "circulate" more, and hear people talk and it would learn some new things. Spur round and pick up your friend's reputations!

It is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentions, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial!

DR. N. R. C. ROWE.

URISCOPIAN PHYSICIAN.

(Late from the Island of Barbadoes, West Indies)

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections, Tumors, diseases of the Lungs, Throat, Liver, Kidneys, &c., &c. Also Scrofulous and all other Chronic Diseases, at his office No. 6 Stone Block, corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathesome disease, CANCER—the thoughts of which chill the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skilful Physicians as decidedly incurable. These patients now live as witnesses to this fact. CATARRH, this most awful disease, which if not checked, terminates in Consumption, he can cure most speedily.—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practioner and no self taught man. Dr. ... has discovered a speedy and certain cure for such cases of that fearful and ravaging disease CANCER, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer cannot be cured. Dr. Rowe however, has after a thorough investigation ung study of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases more correctly and successfully than by any other mode of examination. The reason that a great many curable diseases are deemed incurable is simply from not finding out the real secret of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and $1 as a fee for testing it, at the same time stating their age, will be told their disease. Letters addressed to Box 964, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. References as to his mode of treatment can be given to some of the first Physicians in this country.

☞ Dr. Rowe will be at the Exchange Hotel, Attica, for 4 days, Tuesday, Wednesday, Thursday, Friday, Oct. 4, 5, 6, 7, where he can be consulted on the above diseases,

Insurrection at the South!

Between 500 and 700 Blacks and Whites Engaged in the Fight.

HARPER'S FERRY IN THE HANDS OF THE INSURRECTIONISTS.

SEIZURE OF THE GOVERNMENT BUILDINGS.

THE CAUSE OF THE DISTURBANCE.

Baltimore, Oct. 17.

A dispatch just received here from Frederick, dated this morning, states that an insurrection had broken out at Harper's Ferry, where an armed band of abolitionists have full possession of the government arsenal.

The Express train going east was twice fired into, and one of the railroad hands and a negro killed while they were endeavoring to get the train through the town. The insurrectionists stopped and arrested two men who had come to town with a load of wheat, and seizing their wagon loaded it with rifles and sent them into Maryland. The insurrectionist number about 250 whites, and are aided by a gang of negroes. At last accounts fighting was going on.

Another account received by the train says the bridge across the Potomac was filled with insurgents, all armed. Every light in the town was extinguished, and the hotels closed. All the streets were in the possession of the mob, and every road and lane leading thereto was barricaded and guarded. Men were seen in every quarter with muskets and bayonets, who arrested the citizens and pressed them into the service, including many negroes.—The U. States Arsenal and Government pay-house in which was said to be a large amount of money, and all other public works were seized by the mob. Some were of the opinion that the object was entirely to plunder, and to rob the Government of the funds deposited on Saturday at the pay-house. During the night the mob made a demand on the Wager Hotel for provisions, and forced the claim by a body of armed men. The citizens were in a terrible state of alarm, the insurrectionists having threatened to burn the town. The following has just been received from Monocacy, this side of Harper's Ferry:

The mail agent on the western bound train has returned to Monocacy, and reports that the train was unable to get through. The town is in possession of the insurgents, who arrested every one they could lay hands on. The trains could not get through, and the agent came home on an extra engine.

2 P. M.—The western train on the Baltimore & Ohio Railroad has just arrived here. Its officers confirm the statement first received, touching the disturbance at Harper's Ferry. Their statement is to the effect that the bridge-keeper at Harper's Ferry, perceiving that his lights were extinguished, went to ascertain the cause, and was pursued and fired upon by a gang of blacks and whites. Subsequently the train came along, when a colored man, acting as an assistant to the baggage master, received a mortal wound; and the conductor, Mr. Phelps, was threatened with violence if he attempted to proceed with the train. Feeling uncertain as to the condition of affairs, the conductor waited till after daylight, when he ventured to proceed, having delayed the train six hours.

Mr. Phelps says the insurrectionists number 200 blacks and whites, and that they have full possession of the U. S. armory.

The party is commanded by a man named Anderson, who had lately arrived at Harper's Ferry. Mr. Phelps also confirms the statement in a previous dispatch that the insurrectionists had seized a wagon and loaded it with muskets, and had despatched into Maryland.

The military of Frederick had been ordered out.

Dispatches had been received from President Buchanan, ordering out the U. S. troops at this point, and a special train is now being got ready to convey them to the scene of the disturbance. He has also accepted the volunteer services of Capt. Renyak's company of Frederick and has likewise ordered the government troops from old Point Comport to proceed immediately to Harper's Ferry.

This intelligence is authentic.

4 P. M.—An account from Frederick says a letter [illegible] from a merchant at Harper's Ferry, sent by a boy who had to cross the mountain and swim the river, which says all the principal citizens are imprisoned and many have been killed; also that the railroad agent had been shot twice, and the watchman and the watchman at the depot had been shot dead.

Washington, Oct. 17—9 P. M.—In view of the possibility of the disturbance at Harper's Ferry extending to this vicinity, the Mayors of Washington and Alexandria have taken precautionary steps for its suppression. The President through the Mayor of Washington, ordered a strong detachment of volunteers to be posted at the national and company armories, which was promptly done. Two hundred stands of muskets and a supply of ammunition were also placed in the City Hall for emergency.

It is suggested by well informed persons that the cause of the insurrection, is the reported fact that long since the contractor for the construction of a government dam at the Ferry, absconded, largely indebted to several hundred employees, and who have taken this step to indemnify themselves by the seizure of the government funds, which it was supposed were transported thither on Saturday.

A gentleman, just in from Harper's Ferry thinks the blacks [illegible] in the outbreak on compulsion.

Richmond, 9 P. M.—There is a great excitement here. A company of [illegible] ranks has just left the armory, expecting to take a special train to-night. There is a new company with a similar uniform to the Grays. The Grays leave for Harper's Ferry early in the morning.

The Governor left to-night for Washington.

Arrival of the North Briton.

Farther Point, Oct. 16.—The steamship North Briton, from Liverpool on the 5th inst., passed this point at 3 o'clock this morning.

The Zurich Conference.—All the six plenipotentiaries were present at the Conference on the 3d, at which articles of peace were [illegible] over.

The Paris Patrie re-asserts that the peace treaty will be signed within a few days at Zurich.

The treaty will confirm the cession of Lombardy, and contain a settlement of the Lombardy debt.

There will be three instruments of peace; the first between France and Austria; another between France and Sardinia, and the third between the three powers. Central Italian affairs are to be settled by the Congress.

Great Britain.—The London Times has another sharp editorial on the San Juan difficulties.

The directors of the Great Eastern have finally decided that the ship shall not go to Southampton, but leave Portland on her trip Oct. 8th, arriving at Holyhead about the 11th. If the trial is successful, it is still intended to despatch the vessel to America by the 20th.

France.—The Emperor remains at Biarritz till October 10th and will stop two days at Bordeaux en route to Paris.—Another speech is anticipated at Bordeaux.

A Paris telegraph of the 4th briefly announces that Mr. Mason, the American minister, died on the 3d, of appoplexy.

The Paris correspondent of the London Times says Italian affairs are approaching a crisis and refers to the circulars of the Sardinian Government and quotes the order of the day just issued by Gen. Fanti, the Commander in Chief of Central Italy, who promises that the tri-color of Italy preceeded by the old cross of Savoy will precede them in the fresh battles and will forever free Italy from the stranger.

Garabaldi has also issued an address summoning the Italians of the legation to arms.

A collision is shortly expected, and some think it will be brought on by the Papal troops invading Romagna.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of Liver Complaints, all Bilious Derangements, Sick Head-Ache, &c. In cases of

Fever and Ague,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

Fleming Brothers,

Pittsburgh, Pa.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and *take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

HOSTETTER'S
STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhœa, Dysentery or Flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PREPARED BY
DR. J. C. AYER & CO.,
LOWELL, MASS.
Price, $1 per Bottle; Six Bottles for $5.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,
FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five Boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION

BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the most gifted male and female writers in the United States. Such writers as Justin Jones, Harry Hazel, Angeline A. H. [illegible], William [illegible], [illegible], [illegible] Reynolds, [illegible]

Mrs. Mary A. Holmes, Helen Forest Graves, Mary C. [illegible], Margaret Verne, Anna [illegible], [illegible]. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never has so young a candidate for public favor in the literary world received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our energy, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First Class Story Paper. It will be our aim to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES. The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to [illegible] great moral lessons [illegible] scenes. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Among those of the NEW YORK WEEKLY will contain many Sketches of Life and Manners, Sketches of Travel and Adventure, [illegible], General [illegible] of Events, Humorous [illegible], [illegible], &c. &c. As specimens of our [illegible] point to A. J. H. [illegible] great story, [illegible], The Hero of [illegible]! Harry Hazel's exciting Indian Romance, The [illegible] [illegible] Smith's [illegible] Interesting Domestic Story, Maggie, The [illegible]! [illegible] many of our [illegible] we point with pride to our Gallery of the [illegible] all to be the most choicely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to housekeepers and others.

Our [illegible], an interesting melange, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our [illegible] our Items of Interest, etc., etc. In a word, the Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are at present, that the circulation of the WEEKLY will soon reach half a million. Where the [illegible] have taken hold, they are now taking hundreds of copies. This is the general effect among the [illegible] News Agents who are now regularly selling the NEW YORK WEEKLY, and from nearly every Post Office in the country we are daily getting [illegible] orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing you do not run the risk of having your money lost at the Post Office, or having to pay for what you will never get. If the paper you are buying from the agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3; four copies for $5, eight copies for $12. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

HERB DISPENSARY

OFFICE 95 MAIN STREET,

[illegible] Buffalo, N. Y.

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorrhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community, dooming at least fifty thousand youths of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study; dimness of eyesight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the genital organs, and arise from unnatural excitement, and chronic inflammation, a state of morbid irritability, hence the want of success on the part of old-school doctors.

DR. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such that patients can be cured at their own homes without exposure, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young men suffering from these direful ills, will receive our Pamphlet of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

THE GROVER & BAKER

Sewing Machine Co.

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY SEWING MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE, PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

Is Found

Something True and Important.

IF YOU are crippled with Palsy or Rheumatism suffering with pains and can find no relief for body or mind—given up as beyond the reach of medical aid, and have no other prospect before you than a premature grave, read the following—peace, relief and hope are, as an opportunity is now offered for the restoration of your health. *Profs. Chamberlin & Bolles* of Buffalo would say to the citizens of Batavia and vicinity that they have taken rooms at the Eagle Hotel, and will remain a few days for the purpose of introducing their new and important discovery in the use of Electricity for the cure of all curable diseases.

[illegible]

The current has been generally applied through the hands or feet in such power as to convulse the whole nervous and muscular systems and frequently causing irreparable injury; sometimes it has been applied by means of metallic conductors to different parts of the body, which is equal to a process of magnetization—and the effect upon the nervous system is similar to that produced by over-doses of Strychnine or Quinine.

Every thing connected with their mode of applying electricity is new and original with themselves. Their philosophy for the classification of life, health and disease, is new.— Their reliable method for the diagnosis of disease by electrical contact is new.

As, also, their important discovery in the use of the positive and negative polarities to the human body, for the sure and speedy removal of all disease.

It is new and unknown to medical men and others except the few instructed by them.

Besides mode of application there is no guess work or uncertainty and no matter of doubt as to the result that will follow.

The diseased are invited to call and witness the wonderful cures they are performing daily.

Instruction given to those desiring a knowledge of this new mode of curing disease.

The disaffection among the Republicans of this county, grows more and more interesting every day. There are three county tickets now in the field. The Republican, that goes party, right or wrong; The Peoples ticket, made up of all parties; and the straight out, and out Democratic ticket, headed by C. F. BISSELL of LeRoy for Judge, and James M. Willett of Batavia for District Attorney.

The chance for election to the office of Judge, lies between BISSELL and TAGGART the other candidate is entirely overdone by the *Advocate.*

Orleans Daily American is the title of a new Daily paper just started in Albion.

The DAILY HERALD, is the progenitor of quite a family of small Dailies, and he hopes all his off-springs will prosper—even the *Advocate* of Judge Brown.

ALMERON H. Cole, an aged and much respected citizen of Albion, Orleans Co, died last Friday.

OLD PETER PARLEY.—The correspondent of the Charleston Mercury says:—I saw the venerable Peter Parley Goodrich in Wall street to-day, leaning on the arm of his son, "Dick Tinto" Goodrich. The old man is fading and failing fast. He wore his spectacles, and had a handkerchief around his throat. His step was unsteady, and I was satisfied that the popular author who has delighted so many hearts and homes, and given to the schools so many pleasant and useful books, cannot long remain among us. It is very rarely now-a-days that the old man leaves his quiet home in Connecticut to make a visit to New York.

UNPROFITABLE FARMING.—Will such farmers as expose their cattle to all weather, read and reflect upon the following item, clipped from an exchange no matter where, since it is true of more than one locality:

"We are informed that great numbers of cattle have died throughout the country in consequence of exposure to the recent storms. A gentleman informs us that one merchant in the county told him he had purchased 78 hides taken from cattle that had died since the storm of snow and sleet a few days since. Is it not profitable to build sheds and use them?"

And it is not unprofitable thus to murder cattle?

The Harper's Ferry Insurrection.

The principal originator of this short but bloody insurrection, was undoubtedly Capt. John Brown, whose connection with scenes of violence with the border warfare in Kansas then made his name familiarly notorious throughout the whole country.—Brown made his first appearance in Harper's Ferry more than a year ago, accompanied by his two sons. All three of them assumed the name of Smith. He enquired about land in the vicinity and made investigations as to the probability of finding ores, and boarded for some time at Sandy Point, a mile east of the Ferry. After an absence of some months the elder Brown re-appeared in the vicinity, and rented or leased a farm on the Maryland side, about four miles from the Ferry.—They bought a large number of shovels and spades, and this confirmed the belief that they intended to mine for ores. They were frequently seen in and about Harper's Ferry, but no suspicion seems to have existed that Bill Smith was Capt. Brown, or that he intended embarking in any movement so desperate or extraordinary. Yet the development of the plot leaves no doubt that his visits to Perry and his lease of the farm were all parts of his preparation for an insurrection which he supposed would be successful in exterminating slavery in Maryland and Western Virginia. Brown's chief aid was John E. Cook, a comparatively young man, who has resided in and near Perry some years. He was first employed in tending a lock on the canal, and afterwards taught a school on the Maryland side of the river, and after a brief residence in Kansas, where it is supposed he became acquainted with Brown, returned to Perry and married there.

He was regarded as a man of some intelligence and was known to be anti-slavery, but was not so violent in the expression of his opinion as to excite any suspicions. These two men with Brown's two sons were the only white men connected with the insurrection that had been seen about Perry. All were brought by Brown from a distance, and nearly all have been with him in Kansas.

The first active movement in the insurrection was made at about half-past 10 o'clock on Sunday night. William Williamson, the watchman at Harper's Ferry bridge, whilst walking across toward the Maryland side, was seized by a number of men, who said he was their prisoner and must come with them. He recognized Brown and Cook among the men, and knowing them treated the matter as a joke, but enforcing silence they conducted him to the Armory, which he found already in their possession. He was detained till after day-light, and then discharged.

The watchman who was to relieve Williamson at midnight, found the bridge lights all out. Supposing it an attempt at robbery, he broke away, and his pursuers tumbling over him he escaped. The next appearance of the insurrectionists was at the house of Col. Lewis Washington, a large farmer and a slave owner living about four miles from the Ferry. A party headed by Cook proceeded there and rousing Col. Washington told him he was their prisoner. They also seized all the slaves near the house, took a carriage, horse and a large wagon with two horses. When Col. Washington saw Cook he immediately recognized him as the man who called on him some months past, to whom he had exhibited some valuable arms in his possession, including an antique sword, presented by Frederick the Great to George Washington, and a pair of pistols presented by Lafayette to Washington, both being heir looms in the family. Before leaving, Cook wanted Col. Washington to engage in a trial of skill at shooting and exhibited considerable certainty as a marksman. When he made the visit on Sunday night he alluded to his previous visit and the courtesy with which he had been treated, and regretted the necessity which made it his duty to arrest Col. Washington. He however, took advantage of the knowledge he had obtained by his former visit to carry off all the valuable collection of arms, which he did not re-obtain until after the final defeat of the insurrectionists. From Col. Washington's he proceeded with him as a prisoner in a carriage and twelve of his negroes in a wagon to the house of Mr. Allstadt, another large farmer on the same road.—Mr. A., and his son, a lad of 16, were taken prisoners and all their negroes within reach forced to join the movement. He then returned to the armory at the Ferry.

All these movements seem to have been made without exciting the slightest alarm in town, nor did the detension of Capt. Phelps' train, at the upper end of the town, attract attention. It was not until the town thoroughly waked and found the bridge guarded by armed men, and a man stationed at all the avenues, that the people found they were prisoners. A panic seemed to have ensued, and the number of the insurrectionists immediately increased from 50 (which was probably their greatest force, including the slaves who were forced to join) to from 500 to 600. In the meantime a number of workmen, not knowing what had occurred, entered the armory and were successively taken prisoners, until at one time they had not less than 60 men confined in the armory. Those thus entrapped were Armistead Ball, chief draughtsman of the armory; B. Mills, master of the armory, and J. E. Dangerfield, pay-master's clerk. These were imprisoned in the engine house which afterwards became the chief fortress of the insurgents, and were not released until after the final assault. The workmen were imprisoned in a large building farther down the yard, and were rescued by a brilliant Zouave dash made by the Railroad Co.'s men who came down from Martinsburgh. This was the condition of things at daylight, about which time Capt. Cook, with two white men, accompanied by thirty slaves taking with them Col. Washington's large wagon, went over the bridge and struck up the mountain road towards Pennsylvania. The following is a fragment of a letter found in Brown's pocket, to be introduced into the report as hereafter directed:

CAPT. BROWN—DEAR SIR:—I have been disappointed in not seeing you here ere this to take charge of your freight.—They have been here now two weeks, and as I have had to superintend the providing for them, it has imposed no small task on me besides, and if not soon taken of, some of them will go back to Missouri.—I wish to know definitely what you propose doing. They cannot be kept here much longer without risk to themselves, and if any of them conclude to go back to the State, it will be a bad termination to your enterprise."

The foregoing occupies a page of fine note paper, straw tinted; is written in pencil and not dated, was evidently written by a person of education, and the freight he had was no doubt that usually carried on the underground railroad.

Sleeping Car Experience.

"Tripping," the humorous correspondent of the Cincinnati Railroad Record, lately made a trip east, over the Baltimore and Ohio Railroad, and reports his night's coquetry with somnus on the cars, in the following pleasant vein:

At Wheeling I took a sleeping car, just to try it. The "chambermaid," dressed in male attire, was very accommodating and pleasant and gave me an under berth, where I took twenty-five sleeps, being very tired. Between the sleeps I noticed that it rained. A sleeping car is a great convenience—you can lay at length—that tired spinal column, instead of being bumped together is shook delightfully loose, and the two-fifths of the body that is fluid, has its splashing waves contra-plashed like a pickle bottle on its side, essentially changing the current of one's feelings. Then you have the quiet of a public sleeping room, no one feeling privileged to talk to his neighbor across the aisle for more than an hour at a time—no one feeling privileged to make more than twice as much noise as they would in another car. The odor of forty pairs of boots laid along the floor—the perfume of the coal and lubricating oils, and the aroma squirted over the passage between the berths, intermingled with forty breaths is all ventilated at each station, by opening the doors and letting the very passengers walk through. I commend the sleeping car as a variety to spice travel.

YE STORY OF YE CANDIDATE'S GRINDSTONE.—A neighbor of Colonel Baker, the warrior state man of Windham, tells the following story:

The Colonel's old grindstone, which had long done service on the farm, having become pretty well worn down, he bought and brought home a nice new one. A poor neighbor—conceiving that the venerable colonel could have no use for *two* stones, but could get along very well with one—asked him to give him the old one. The proposal, however, was not very eagerly embraced, but was, on the contrary, positively negatived. An effort to buy the stone also failed, owing to a disagreement regarding the price; and the man having asked for a stone and been given a decidedly cold shoulder, went away exceedingly sorrowful.

A day or two after the colonel's nomination for Congress, he fell in with his neighbor, and after shaking hands and inquiring after each member of the independent elector's family, he took occasion to say, in the most friendly manner:

"By the way, you was speaking to me the other day about an old grindstone of mine. I don't know as I shall want it for anything, and if it will do you any good, you can take it along with you any time when you are going by. It lies out there by the woodpile."

The colonel paused to receive the warm thanks which he felt that his noble conduct deserved, but was a trifle set back by the following blunt response:—

"Better keep it yourself, Colonel; you've got more axes to grind than I have."

It will not be regretted by many that John A. Washington has lost all the money he received for Mount Vernon, by speculations in Chicago lots that did not pay. All the money which he extorted from the country for his ancestor's bones, has melted away like April snow.

GRATITUDE.—There is an old proverb which warns us that the last person from whom we expect to receive a favor is the one upon whom we have liberally bestowed favors. And it is not unusual for persons to experience a positive aversion towards those who have done them great services; an aversion they struggle against—they are ashamed of—they despise themselves for entertaining—and yet are even keenly conscious of feeling. Is not this very often the consequence of the manner in which the services have been rendered? Nothing so thoroughly destroys the beauty of an act of kindness as the desire for, or even the expectation of gratitude. And yet nothing is more common.

John Cutler of Albany is the most extensive truck and cart operator in the United States. He owns 81 horses 30 carts and some 25 two horse trucks. He keeps a blacksmith shop to do up his own work. His annual expenses exceed $30,000. He employs 75 men and a general superintendent. His capital is $28,000; he does the Railroad and Steamboat carting.

It is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial!

Sold by druggists and dealers everywhere.

DR. N. R. C. ROWE.
URISCOPIA PHYSICIAN.

Late from the Island of Barbadoes, West Indies)

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections, Tumors, diseases of the Lungs, Throat, Liver, Kidneys, &c., &c. Also Scrofulous and all other Chronic Diseases, at his office No. 6 Stone Block, corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathesome disease, CANCER—the thoughts of which chill the heart and make life a burden to those afflicted with it—which had been pronounced by some of the most skilful Physicians as decidedly incurable. These patients now live as witnesses to this fact. CATARRH, this most awful disease, which if not checked, terminates in Consumption, he can cure most readily.—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practitioner and no self-taught man. Dr. . has discovered a speedy and certain cure for such cases of that fearful and ravaging disease CANCER, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer cannot be cured. Dr. Rowe however has after a thorough investigation and study of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases more correctly and successfully than by any other mode of examination. The reason that a great many curable diseases are deemed incurable is simply from not finding out the real secret of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and $1 as a fee for testing it, at the same time stating their age, will be told their disease. Letters addressed to Box 964, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. Reference as to his mode of treatment can be given to some of the first Physicians in this country.

☞ Dr. Rowe will be at the Exchange Hotel, Attica, for 4 days, Tuesday, Wednesday, Thursday, Friday Oct. 4, 5, 6, 7, where he can be consulted on the above diseases.

Further from Harper's Ferry.

Citizens Arrested and shot down by the Mob. The Rioters Refuse to Surrender. Storming of the Armory.—The Rioters Defeated. Old Ossawatomie Brown among the Rioters. The Killed and Wounded. Reported Object of the Riot.

HARPER'S FERRY, 3 A. M.

A battle was fought mainly by the R. R. men from Martinsburg led by Capt. Albert. Evan Dorsey was killed, and Conductor Bowman Howitt was wounded. No damage was done to the R. R. or bridge. It is thought that the rioters will be hung as soon as they are captured in the morning.

HARPER'S FERRY, Oct. 18, 6 A. M.

Preparations are making for an attack on the armory. The soldiers are all around the ground, and for the last hour everything has been quiet.

The rioters have still the following persons in their possession: Anisted Bale, Chief Draughtsman at the Armory; Benjamin Mill, Master of the Armory; John P. Dangerfield, Pay Master; Clark Lewis of Washington, a farmer and prominent citizen; John Allstead, farmer and his son 16 years old. The three last were seized on their way several miles from the Ferry. Geo. Turner, a graduate of West Point and one of the most distinguished citizens in this vicinity, was shot yesterday whilst coming into the town. He has died during the night. Three of the rioters are lying dead in the streets; three more are lying dead in the river and several are said to be lying within the Armory inclosure.

The following is the list of killed, among the citizens and soldiers, as far as ascertained: Fontaine Beckham; Haywood, a negro porter at the Railroad station; Joseph Burnley, of Harpers Ferry; Evan Dorsey and Geo. Richardson, of Martinsburg.—Another rioter a negro named Lewis Leary has just died. He confessed to the particulars of the plot which he says was concocted by Brown at a fair held in Ohio two months ago. The rioters have just sent out a flag of truce and say if not protected by the soldiers at present there they will hang all they capture.

HARPER'S FERRY—8 A. M.

The Armory has been stormed and taken after a determined resistance.—Colonel Shutz approached the people with a flag of truce and demanded a surrender. After expostulating for some time the rioters refused to surrender. The marines advanced to the charge and endeavored to break the doors down with sledge hammers, but it resisted all their efforts. A large ladder was then used as a battering ram, and the door gave way. The rioters fired briskly and shot three marines; the marines firing in turn through the partly broken door. The marines then forced their way through the breach, and in a few minutes all resistance was at an end. The rioters were brought out amid intense excitement, many of the military present trying to get an opportunity to shoot them.

Capt. Brown and his son were both shot. The latter is dead, and the former is in a dying state. He lies in the armory enclosure, talking freely. He says he is old Ossawatomie Brown, whose feats in Kansas have had such wide notoriety; that his whole object was to free the slaves, and justifies his action. He says that he had possession of the town and could have murdered all the people, and that he has been murdered in return.

James Anderson was also shot down in the assault. He was from Connecticut.

The dead body of a man killed yesterday, was found within the Armory.—Brown declares that there were more engaged in the plot than those accompanying him. The prisoners are retained in custody within the Armory enclosure.

BALTIMORE, Oct. 18.

There is intense excitement in this city and nothing is talked of but the insurrection. Gen. Stewart, through Gov. Wise, has communicated an order to Gen. J. Watkins of this city, to prepare, equip and mount immediately, a body of men for service in the mountains near Harper's Ferry, where many of the insurgents have taken refuge. The troops will leave this afternoon.

Gov. Wise passed the Relay House this morning, *en route* for the seat of war.

Three companies of Artillery from Fort Monroe, are quartered at Fort McHenry.

HARPER'S FERRY, Oct. 18, Noon.

Soon after the storming of the Armory, four dead bodies of insurgents shot yesterday were found within the enclosure. Capt. Brown and his son were dangerously wounded. Only two of the insurrectionists are wounded. The names are Edwin Coppigh, a white man from Iowa, and Shield Green, colored from Iowa. The party originally consisted of 22 persons, of whom 15 are killed, two mortally wounded, and two are here unhurt and three went off with slaves on Monday morning. Soon after storming the armory some firing took place on the hills of the Maryland shore, suppo[illegible] k and his party, who left on Monday morning. It was returned with a general volley, but the parties were too distant to do damage. A company of armed men have gone in pursuit of the fugitives. There are probably 1,000 armed men. They have been arriving all night from all parts of the surrounding country.

DR. M'LANE'S
CELEBRATED
VERMIFUGE
AND
LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated
Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,
PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and *take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

HOSTETTER'S STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhoea, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

Fever and Ague.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

☞ Prepared and sold by **HOSTETTER & SMITH**, Pittsburgh, Pa., and sold by all druggists, grocers, and dealers generally throughout the **United States, Canada, South America, and Germany.**

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

Scrofula and Scrofulous Complaints, Eruptions and Eruptive Diseases, Ulcers, Pimples, Blotches, Tumors, Salt Rheum, Scald Head, Syphilis and Syphilitic Affections, Mercurial Disease, Dropsy, Neuralgia or Tic Douloureux, Debility, Dyspepsia and Indigestion, Erysipelas, Rose, or St. Anthony's Fire, and indeed the whole class of complaints arising from Impurity of the Blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five Boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION,

BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER
IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel.) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Ella Rayville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners. Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story Garibaldi, The Hero of Italy! Harry Hazel's exciting Italian Romance, The Mute Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting *melange*, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of interest, etc., etc. In a word, its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS.

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taken tens, they are now taking hundreds of copies. This is the general effect among the five thousand News agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post-Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, as it be a place where you have no means of [illegible], after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2.00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $6, eight copies for $12. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to

OFFICE 95 MAIN STREET,

(*Up Stairs, Buffalo, N. Y.*)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorrhœa, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community, dooming at least fifty thousand youth of both sexes, annually, to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat, shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhœa, or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases all the above named disorders and a host of others not named have their seat primary in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own homes without exposure, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills, will receive free a series of Health Rules and perfect chart of cure, which will be to them a true polar star through life.

THE GROVER & BAKER
Sewing Machine Co.

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices and offer for sale

A NEW STYLE MACHINE,
PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

'Tis Found

Something True and Important.

IF YOU are afflicted with Palsy or Rheumatism suffering with pains and can find no relief for body or mind—given up as beyond the reach of medical aid, and have no other prospect before you than a premature grave, read the following—pause, reflect and hope on, as an opportunity is now offered for the restoration of your health. *Profs. Cropsey & Hibbard,* of Buffalo would say to the citizens of Batavia and vicinity that they have taken rooms at the Eagle Hotel, and will remain a few days for the purpose of introducing their new and important discovery in the use of Electricity for the cure of all curable diseases.

The [illegible] no patients except those given up everywhere else as incurable. The reader might here ask do they really cure such cases? are their statements false? Have they cured any such cases in the immediate vicinity, or are their cures all on paper and afar off? In reply they would say they have cured and are curing every day just such cases. They can testify to to their—a great number of persons in Buffalo and surroundings, who have been suffering from various diseases for [illegible] and eleven years and upwards, in a few days [illegible] and are curing a class of diseases that has baffled the skill of the medical profession in all ages of the world. The reader might here enquire, by what means such wonderful cures are performed? Not by irritating the delicate membranes of vital organs by drugging the stomach, but by direct application of the positive and negative polarities of Electricity—[illegible]. It might be asked, has not Electricity been employed as a remedial agent for years, both in Europe and the United States, with indifferent success? [illegible] are not physicians now using it in our very midst, with no better result? This is all very true and when we consider the ignorance and recklessness displayed in its application the result has been more favorable than could have been anticipated. It has been considered as the *Ignis* in a few cases, only and uncertain even in that. There has been no fixed principle for applying it, and, therefore no uniform result could have been anticipated; but owing to the friendly relation existing between electricity and health, remarkable cures have been performed, which have been looked upon as a lucky hit, rather than the result of a fixed law. The ignorance displayed in the administration of this mighty agent is unpardonable.

The current has been generally applied through the hands or feet in such power as to convulse the whole nervous and muscular system and frequently producing irreparable injury; sometimes it has been applied by means of metallic connections to different parts of the body, which is equal to a process of [illegible]—and the effect upon the nervous system is similar to that produced by overdoses of strychnia or Quinine.

Every thing connected with their mode of applying electricity is new and original with themselves. Their philosophy for the causes and laws of life, health and disease, is new. Their reliable method for the diagnosis of disease by electrical current is new.

As also, their important discovery in the use of the positive and negative polarities in the human body for the sure and speedy removal of all diseases.

It is new and much more [illegible] of men and [illegible] except the [illegible] instructed by them.

By this mode of [illegible] no drugs or medicines [illegible] and no manner of doubt as to the result that will follow.

The diseased are [illegible] the Word [illegible] daily [illegible] those desiring it [illegible].

Democratic Senatorial Convention,

A Democratic Convention for the Twenty-ninth Senate District, to consist of four Delegates from each of the Counties of Niagara, Orleans and Genesee, will be held at the Cataract House, at Niagara Falls, on Saturday the 22d day of October next, at one o'clock, P. M., for the purpose of nominating a candidate for Senator, and for the transaction of any other business which may properly come before the same.
Dated Sept. 29th, 1859.

HENRY I. GLOWACKI, }
N. Z. SHELDON. } Committee.

The County Ticket.

In a brief allusion to the Nominations of the recent Democratic County Convention in our paper of the 17th inst., we referred to them as nominations "eminently fit to be made." We are confident that the ticket when contrasted and compared with either of those previously placed before the electors of the county their suffrages, whether as an aggregate or "in severalty," will not only stand the test of the closest scrutiny and criticism but will establish satisfactorily its superior claims upon the support of the intelligent voters of the county. The standing and conceded qualifications of the several nominees are so well known to the citizens of the county as to render any extended reference thereto merely a work of supererogation.

C. FITCH BISSELL Esq of LeRoy, the nominee for the office of County Judge and Surrogate, is and has been for many years past, a prominent and influential practitioner in the ranks of the legal profession of the county and of Western New York. He is not only a Lawyer of marked ability and a gentleman of irreproachable character, but he possesses in an eminent degree those peculiarities of mental culture and habit which are so necessary in the "making up" of a competent administrator of the laws. We say this, for the reason that it is not every *good lawyer* even, who will make a *good Judge.* If elected we are confident he would discharge the arduous duties of the office in a manner alike creditable to himself and satisfactory to the citizens of the county.

We have thus far adverted only to those considerations which are *legitimately* involved in an enquiry as to the qualifications of the nominee for the office in question. This inquiry being satisfactorily answered, all considerations of a purely political nature are, *with us,* collateral to the "main question." Politically speaking, Mr. BISSELL belongs to that school of politicians commonly styled "old line whigs." In the general breaking up of that once respectable and respected political organization, the whig party, and the general stampede therefrom of a majority of its members, Mr. B. stood aloof, declining to follow in the wake of those quixotic explorers after some available "ism."—While ostensibly occupying a position independent of all existing political organizations, his sympathies are clearly with the Democratic party, for whose nominees for State officers he has regularly given his vote for several years past.

JAMES M. WILLETT, Esq., of this village, the nominee for the office of District Attorney, is a younger member of the same profession—long a resident of this County, and extensively and favorably known by its citizens. He is in all respects well qualified to discharge the duties of the office. His personal popularity and conceded qualifications, are, well attended by his unanimous nomination as a candidate for the same office by the recent "People's Convention." *His* political orthodoxy will not be questioned, we apprehend, by the Democrats of Genesee County.

CARLOS A. HUGGINS Esq., of Bethany, the nominee for Superintendent of the Poor, is the present Supervisor of that town. His thorough, systematic and economical business habits render him well qualified for the discharge of the duties of an office where these qualifications are preeminently requisite.

JUNIUS A. SMITH Esq., of this village, the nominee for Member of Assembly, is a life long resident of the County of Genesee and has been for many years prominently identified and connected with its business interests. He is too well known throughout the county to require any "introduction" or "certificate of character" or qualification from us. In any point of view his claims upon the suffrages of the electors of the county are certainly quite equal to those of either of his competitors.

WILLIAM BARNETT Esq., of Stafford the nominee for Session Justice is the present incumbent of that office, which we believe he has held for the past two terms. As a servant of the people in that capacity his course has given general satisfaction and he will undoubtedly be retained for another term.

Messrs. MORRIS W. TOWNSEND of Bergen, BARNUM BLISS of Oakfield, and NEHEMIAH STEVENS of Bethany, are placed in nomination for Coroners. They are prominent and reliable citizens, fully competent for the position.

From this brief survey of its ingredients we think we are well warranted in urging the ticket as one well entitled to the hearty and vigorous support of the electors of the County.

The Le Roy Gazette hoists an old Cock, (Rooster) at the head of one of its editorial columns. What faction of the Republican party he belongs to, we really don't know, but we presume it is the Brown Shanghai. That the Gazette has armed for victory, is evident from the fact that he has brought out the cannon also, which is going off.

A wag suggests that the Cock is only up to help fight during the campaign.—Another, says he is up merely to crow, in case of victory. Still another waggish chap says that the Cock is up to wake the Republicans early, least they be caught napping. Any way the "bird" with spurs is ominous.

The Gazett, we are inclined to think, falls into an egregious mistake in the assertion that "Judge Taggart was a defeated candidate, before the Republican Convention." If we are rightly informed, the Judge stepped outside of the ring before there was a chance to be "defeated," in declining to be a candidate, and in repudiating the course that had been pursued in the caucus management. Moreover it is positively asserted that there was a majority of Delegates in the Convention in favor of Judge Taggart, and that he would have received the nomination had he stood the test.—But we leave them to fight their own battle. Out with the—Rooster!

When Cæsar gave one a great reward, 'This,' he said, 'is too great a gift for me to receive.' 'But,' says Cæsar, 'it is not too great for me to give.' So, though the least gift that Christ gives, in one sense, is too much for us to receive, yet the greatest gifts are not too great for Christ to give.

The anonymous attack upon Moses Taggart.

Before any nominations were made by the People's Convention, on the 13th inst. numbers of the Republican Advocate, containing an anonymous attack upon Mr. Taggart, printed in an *extra* for the occasion, were sent into the convention, and distributed among its members.

All this was not done without preconcert and design. By whom and for what purpose was it done? By the friends of Judge Brown, to injure Mr. Taggart, and prevent his nomination! The Convention responded to this attack, by unanimously nominating Mr. Taggart for the office of County Judge.

The article in question charges Mr. Taggart with *selfishness* in being a Candidate for that office—just as if it was more selfish for Mr. Taggart than for Mr. Brown, to be a Candidate. But the articles says that Mr. Taggart recommended Mr. Brown's nomination four years ago.—He did more. Before the Convention was held at that time, Mr. Brown asked Mr. Taggart if he was a Candidate for that office; and Mr. Taggart told him he was not. Against the earnest request of Mr. Taggart, the Convention nominated him instead of Mr. Brown. Mr. Taggart consulted with Mr. Brown, and the latter insisted that Mr. Taggart could not then honorably accept the nomination. Mr. Taggart thereupon declined the nomination; and Mr. Brown was nominated and elected. With what grace can Mr. Brown's friends charge Mr. Taggart with selfishness in relation to that office!

Last Spring Mr. Taggart was urged to become a Candidate for the office; but he hesitated to do so until a few weeks before the Republican County Convention.—Then Mr. Brown's friends very gratefully and magnanamously argued that Mr. Taggart ought not to be nominated, *because* he refused the nomination four years ago.

But it is said that Mr. Taggart advocated Mr. Brown's nomination, until a short time before the Republican Convention. There is as little truth as generosity in this statement. Both before and after Mr. Taggart become a Candidate, he spoke favorably of Mr. Brown's *legal* qualifications and said nothing against his moral fitness for the office. I am not aware that this courtesy towards an opponent, sustains the charge of inordinate selfishness.

It is however admitted that after he became a Candidate, Mr. Taggart *was* selfish enough not to like to be *defrauded* out of a nomination.

With equal mendacity and meanness, the article states "that in Mr. Taggarts own town a majority of 143 disclosed that they did not want him for a Candidate." *One* of the delegates *elected* at the Republican Caucus in Batavia, was in *fact* in favor of the nomination of Mr. Taggart, and the others were elected under *representations* that they were so. The two sets of delegates which were *voted* for, differed as to the Candidate for District Attorney, but both set *professed* to be, and were represented by their respective friends to be, in favor of Mr. Taggart for County Judge. It is proper to add that Dr. Clark, being ill, took no active part in the Caucus, and it is believed made no representations on the subject. Mr. Brown may *boast of* a Caucus in his own town, where, in order to induce people to vote for delegates in his favor, his *friends* believed that it was necessary for them to represent that those delegates were in favor of Mr. Taggart.

I shall not detail the facts in relation to the Caucus in *Byron, and the frauds,* next day in the Convention, for they have already been made public. The article in question *omits* to state the fact that had it not been for those frauds, which *neutralized* the town of Byron, as represented in the Convention, Mr. Taggart would have had more delegates than any other Candidate, for the office of County Judge.

Mr. Taggart did not repudiate the action of that Convention *merely* because two delegates out of 52 were *improperly* excluded. Two delegates in his favor were *fraudulently* excluded, and two, believed to be opposed to him, *admitted* in their stead, making a difference of *four* delegates against him. It was because all thi [illegible] but *plotted,* and *predetermined,* for the *purpose* of defeating him, that Mr. Taggart, and the regular delegates from Byron and Elba, withdrew from the Convention.

Mr. Taggart has *not* accused a majority of the delegates, of "dishonesty" or "great ignorance," That they were ignorant of the facts in relation, to the delegations from Byron, is certain, for by vote they refused to *hear the evidence.* That the majority were deceived and misled by a *few* who alone are responsible for the wrong, there is no reason to doubt.

Of course a *party* to the fraud, is opposed to any attempt at reform; and he naturally thinks that an attack upon this fraud, relating to a local nomination, *will endanger the State Ticket, and injure the Republican party.* It is easy to understand why the writer of the article in question, is so sensitive on this subject, and so malignant towards Mr. Taggart.

Harper's Ferry Insurrection.

BALTIMORE.—We have just received the following important intelligence from the Ferry:

Last evening a detachment of marines and some volunteers made a visit to Brown's house. The first visit was to the school house, and not Brown's as was stated yesterday. They found a large quantity of blankets, boots, shoes, clothes, tents and fifteen hundred pikes with large blades affixed. They also discovered a carpet bag containing documents, throwing much light on the affair, printed constitutions and by-laws of an organization, showing or indicating ramifications in various States of the Union. Also letters from various individuals at the North—one from Frederick Douglas containing $10 from a lady for the cause. Also a letter from Gerrit Smith about money matters and a check or draft by him of $100, endorsed by the Cashier of a New York Bank, name not recollected.

All these are in possession of Gov. Wise. The Governor has issued a proclamation offering one thousand dollars reward for Cook, and a large number of armed men are now scouring the mountains in pursuit of him.

Some time yesterday morning, Riley, the line repairer, while at work between the Ferry and Martinsburgh, was shot at by Capt. Cook, whom he recognized.

Evangelical Christians in Covention.

CHICAGO, Oct. 19.

The Convention of the Western Evangelical Christians opposed to the policy of the American Tract Society on the subject of Slavery, met here yesterday and was largely attended. Permanent organization was made by the election of Rev. Henry D. Kitchell, of Mich., as President. A committee was appointed to report business, who subsequently reported a series of resolutions declaring that the Tract Agency is the most vital means for the promotion of the cause of Christ; that the efforts now making in our country to revive the African Slave Trade demand renewed testimony from the Churches against its abomination; that evangelical Christianity condemns slaveholding as a high crime against God" and man; that in view of the refusal of the Tract Society of New York to apply the Gospel to the sin of slaveholding the time has come for the organization of a system of tract operations with a view to meet the present emergency in the cause of our common Christianity.

Addresses were made by members of various societies.

A strong feeling of opposition to slavery and the action of the American Tract Society on that subject pervades the whole assembly.

The Convention will probable remain in session some days.

GREAT DISCOVERY!
NEW MODE OF ADVERTISING.
The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of
BOOTS AND SHOES
that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprets to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its
ENTIRE SUCCESS,
and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.
He has on hand a good assortment of Stock such as
Oak and Hemlock Sole Leather,
French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and MECHANICS to manufacture it who are second to none in the State.
Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*
Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

LOCAL MATTERS.

The outside world, in this vicinity, put on the garb of winter last night. It commenced snowing early in the evening, and continued until near midnight. It melted however nearly as fast as it fell.

We give place to day to a communication defending Judge TAGGART from the charges brought against him, by a portion of his party. It is no more than just that Judge TAGGART should be defended wherever wrong has been done him, and we therefore yield the space not fearing the right.

We hope the Judge will get his eyes fully opened to the unscrupulous character of the party that goes in for power at the sacrifice of its principles, and best men.

STILL AS MICE.—A good personal friend, though he does belong with the "Pulse" got us by the elbow yesterday and "talked round" in a sly kind of a way to find out if we proposed to say anything about Harry Wilber, and the Genesee Mutual going in with all the weight of their influence for Judge Brown. If we are not a good deal mistaken, he was a little afraid there would be too much weight in the moves, and that it would have a "crushing effect," and that the dear Party would suffer. He didn't like that we should say anything about it until after election, and of course we won't.

IT is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "bitters." The weak and nervous denizen of the counting house, the exhausted toiler upon the shop-board, and the prostrate student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial!

[From the Orleans Republican.] Remarkable cure for deafness. Nathaniel Braley and old resident of this town was operated one day last week by Dr. de H. in the Platt House Albion and entirely cured for deafness. Mr. Braley is 63 years of age and has been suffering upwards of 40 years, he lives in our best vicinity, and relates joyfully the above fact. For this successful operation on one of our most aged and respected citizen we feel a great pleasure in passing the Doctor around. See his advertisement.

DR. N. R. C. ROWE.

URISCOPIAL PHYSICIAN.

(Late from the Island of Barbadoes, West Indies)

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections, Tumors diseases of the Lungs, Throat, Liver, Kidneys &c., &c. Also Scrofulous and all other Chronic Diseases at [illegible] No. 5 Stage Block, corner of Main and St. Paul streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathsome disease, CANCER—the thoughts of which chill the heart and make life a burden to those afflicted with it—which had been pronounced by some of the most skilful Physicians as decidedly incurable. These patients now live as witnesses to this fact. CATARRH, this most awful disease, which if not checked, terminates in Consumption, he can cure most readily.—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practioner and no self taught man. Dr. [illegible] has discovered a speedy and certain cure for such cases of that fearful and ravaging disease CANCER, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer cannot be cured. Dr. Rowe however, has after a thorough investigation and study of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases more correctly and successfully than by any other mode of examination. The reason that a great many curable diseases are deemed incurable is simply from not finding out the real secret of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning and stating their age will be told their disease. Letters addressed to Box 264, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. Reference as to his mode of treatment can be given to some of the first Physicians in this country.

☞ Dr. Rowe will be at the Exchange Hotel, Albion, for 4 days, Tuesday, Wednesday, Thursday, Friday, [illegible] where he can be consulted on the above diseases.

The Insurrectionists—Brown's Statement

HARPER'S FERRY, Oct. 19.—The prisoners have been committed to Charlestown Jail to await the action of the Grand Jury. They will be indicted and tried in a few days. The question of jurisdiction has been settled in this way:

The local authorities are to try the prisoners for murder, and meanwhile the U. S. authorities are to proceed on the charge of treason. Gov. Wise said to the U. S. District Attorney, Ould, that he has no objection to the general government proceeding against the prisoners, that is, what will be left of them by the time the Virginia authorities are done with them.—Brown is better and has made a full statement, in which he says he rented the farm from Dr. Kennedy six months since and the rent is paid till next March. He never had over 22 men at the farm at one time that belonged to the organization, but he expected reinforcements from Maryland, Kentucky, North and South Carolina and Canada. He had arms sufficient for 1500 men. He had 200 revolvers, 200 Sharp's rifles and 1000 pistols. He left them at the farm; he had abundance of powder and other ammunition; he brought all the arms from time to time from Connecticut and other eastern points to Chambersburgh, Pa. They were directed to J. Smith & Sons, Kennedy Farm, his assumed name; they were packed in double boxes so as to deceive the parties who handled them to the farm; he says he made one mistake in either not detaining the train on Sunday night or permitting it to go along unmolested. This mistake, he seemed to infer, exposed his doings too soon, and prevented his reinforcements from coming. The parties on Sunday night, except four white men, whom he admits he sent away on an errand, are as follows with their proper titles under the Provisional government:—Capt. Oliver Brown, dead; Capt. Watson Brown, dead; Capt. Aaron C. Stevens, of Conn., wounded badly,—he has three balls in him—cannot possibly recover; Lieut. Coppie, of Conn., unhurt; Lieut. Albert Haselett, of Pa., dead; Lieut. Leman, of Me., dead; Capt. John E. Cook, of Conn., escaped.

Privates—Stewart Taylor, of Canada, dead; Charles P. Tidd, of Me. dead; Wm. Thompson of N. Y. dead; Adolph Thompson of N. Y. dead; Capt. John Kage of Ohio dead; Jeremiah Anderson of Ind. dead; three whites previously sent off, making 17 whites. Negroes—Dangerfield newly of Ohio, raised in Virginia, dead; Emperor, of N. Y. raised in South Carolina, not wounded but a prisoner—the latter was elected a member of the Provisional Government some time since; Lewis Leary, of Ohio, raised in Virginia, dead; Copeland of Ohio, raised in Virginia, wounded, prisoner at Charleston.

Gen. Brown has nine wounds but none fatal. Bushels of letters have been discovered in all parts of the country, one from Gerrit Smith, and informs Brown of money being deposited in a Bank in New York to the credit of J. Smith & Sons. It appears to be one of many informing him from time to time as money was received.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,
PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but *Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

HOSTETTER'S STOMACH BITTERS.

IT is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhœa, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—*We caution the public against using any of the many imitations or counterfeits, but ask for* HOSTETTER'S CELEBRATED STOMACH BITTERS, *and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.*

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris) is attested by the now UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all cases of Pulmonary and Nervous Disease. *The Hypophosphites increase the Principle which constitutes nervous force, and are the most powerful blood generating agents known.*

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREAUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Price, $1 per Bottle; Six Bottles for $5.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five Boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

Lager Beer Saloon!

WM. BENDER.

You who have drank "Bill's" Lager Beer
And felt its warmth arise,
Know well it drives out ev'ry fear,
And wakes up *just surprise!*

It fills the nerves with Native life,
And warms the stomach so,
Digestion moves with greater strife
And sets the soul in glow!

"Bill's" Lager is the best of drink,
It makes a man FEEL all he'll think;
It warms him through and through, you know
And puts his senses in a glow.

It never makes a man *quite* drunk
Nor filthy as a common skunk!
But always makes the senses rise
To Truthful triumph if he *buys!*

Bill's glasses, too, are just the thing,
They hold as much as Nature'll swing,
And keep the mind in equal poise,
And conscience from a drunken noise.

So you who want your senses whet
You drink Bill's Lager, and you'll get
The fullest worth in sparkling foam,
At Bender's shop and happy home!

So you that want a bev'rage clear
And one that sparkles fine,
Come buy of Bill his Lager Beer,
'Twill make *you feel* sublime!
And will digestion much improve,
And make your *business* onward move!

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION

BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eta Mayville. Write for it regularly while a score of other well-known writers were [illegible] contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any [illegible] in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters our editorial brethren have showered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, Short Stories, General Summary of News, Humorous Gleanings, Poetry, Editorials, &c. &c. As specimens of our serials, we would point to A. J. H. Duganne's great story Garibaldi, the Hero of Italy! Harry Hazel's exciting [illegible] Romance, The [illegible] Francis S. Smith's [illegible] Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our [illegible] departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a mass of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting melange ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Method Morsels, our Items of Interest, etc., etc. In a word, the Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the [illegible]—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS.

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are at present, that the circulation of the WEEKLY will soon reach half a million. Where the [illegible] were taken [illegible] they are now taking hundreds of copies. This is the general effect among our five thousand News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting [illegible] and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions,—and to a place where you have no means of [illegible], after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 for a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $5, eight copies for $12. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription to prepay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to

IF YOU are troubled with Chronic Rheumatism [illegible] and no relief for [illegible] beyond the reach of medical skill, and have no other prospect before you than a premature grave, heed the following—judge, reflect and hope on, as an opportunity is now offered for the restoration of your health. *Profs. Cammerlin & Bolles,* of Buffalo would say to the citizens of Batavia and vicinity that they have taken rooms at the Eagle Hotel, and will remain a few days for the purpose of introducing their new and important discovery in the use of Electricity for the cure of all chronic diseases.

They [illegible] to cure all curable diseases—except those given up [illegible] as incurable. The reader might [illegible] they really cure such cases? [illegible] Have they cured any such cases? [illegible] paper and ask [illegible] they have cured and are curing every day, just such cases. They have restored to health a large number of persons in Buffalo, and surrounding towns, who have been suffering from various diseases, from [illegible] years and upwards, in a few days. [illegible] and are curing [illegible] diseases that have baffled the skill of the medical profession in all ages of the world. The reader might here enquire, by what means such wonderful cures are performed? Not by irritating the delicate membranes of [illegible] by drugging the stomach, but by direct application of the positive and negative polarities of Electricity—[illegible] It might be asked, has not electricity been employed as a remedial agent for years both in Europe and the United States, with no different success? And are not numbers now using it in our very midst, with no better results? This is all very true; and when we consider the ignorance and recklessness displayed in its application, the result has been more favorable than it could have been anticipated. It has been considered as [illegible] in a few cases only, and [illegible] There has been no fixed principle in applying it, and, therefore, a uniform result could have been anticipated but for [illegible] the friendly relation existing between electricity and health, [illegible] have been performed, which have been looked upon as a lucky hit, rather than the result of a fixed law. The ignorance displayed in the administration of this mighty agent is [illegible]

The current has been generally applied through the hands or feet in such power as to [illegible] and frequently producing irreparable injury; sometimes it has been applied by means of metallic conductors to different parts of the body, [illegible]—and the effect upon the nervous system is similar to that produced by over-doses of Strychnia or Quinine.

[illegible] connected with their mode of applying electricity is new and original with themselves. Their philosophy for the electrical laws of life, health and disease, is new—Their reliable method for the diagnosis of disease by electrical [illegible] is new.

As, also, their important discovery in the use of the positive and negative polarities to the human body, for the sure and speedy removal of all diseases.

It is new and unknown to medical men and others except the few instructed by them.

By this mode of application, [illegible] no guess work [illegible] and no possibility of doubt as to the result that will follow.

The diseased [illegible] wonderful cures they are performing [illegible]

A BOY ROBBED OF $1,800 WHILE ENTERING A BANK.—In New York, Monday afternoon, Mr. J. Frost, Broker, sent a boy twelve years old, named George F. Hall, with $4,800 in eastern bank notes, to deposit in the Park Bank. As he was entering the bank a man dashed about a quart of spirits of turpentine over his person, and then snatching the bag from his hand, ran off and escaped. The turpentine, which was probably intended to put out the boy's eyes, was received on his breast, which was badly burned by it.—The lad was so taken aback that he was unable for a moment or two to give an alarm, and almost instantly the thief was in the crowd and out of sight. Not the least trace of him has been obtained.

The Advocate on the Railroads.

The Republicans show a strong inclination to *run* the Canal during the present campaign. We wonder that they will take such a risk—the hazard is imminent, unless they can find better pilots than the *Advocate*, over the way, would make.—Here is a *breaker* from that concern that would wreck almost any kind of a craft.

The Erie Canal belongs to the People of the State, and where people are not biased by some selfish or mercenary motive, seek to protect the same.

What will the *Advocate* take for his share? The Editor of that paper, is of course one of the People, therefore he must own, according to his own statement, some of the "mud." Say the word, and make out a bill, and we will see it cashed. What importance it gives a man to be a part owner of the Canal—only think of it? Of course the People must not see their property sacrificed by the Democrats and therefore must rush to the polls on election day, and vote the Republican ticket—for the party that takes such excellent care of the People's property, that it is running the People into debt by the million in so doing.

The different lines of Railroad have been the means of reducing the value of lands in Western New York. How? By the abusive use of a discriminative Freight Tariff. And who are injured thereby?—Everybody in general, but particularly the farmer, merchant, miller, manufacturer, laborer, and indeed *all* who go to make up the life and business part of community.

There's an argument for ye Republicans. The Railroads have reduced the price of lands! What was the price of land in Genesee County at the time the first Railroad was built, or immediately before it was built, from Albany to Buffalo? Was it a hundred dollars an acre? Was it seventy-five? Was it forty? Was it twenty five? Just tells us if you please how much less, land can be bought for in Batavia to day, than it could before there was a Railroad through here? You have made the assertion, and now don't let us—Wait—no, pause too long for a reply.

"Everybody is injured (by the Railroads) in general," and especially the farmer, merchant, miller, manufacturer, laborer, and indeed *all*,"—that means "everybody" and the rest of mankind. The farmer is injured because the Railroads bring merchandize to him so cheap, and takes his produce away so cheap, and saves him the trouble of taking it over to the Canal. The miller is injured because it enables the People to get their grists to mill. The merchant because his goods are brought to his door and he saved the expense of carting them twenty miles from the Canal. And then the poor laborer is a great sufferer in consequence of the Railroads, and though he may not see exactly how, yet the Republican paper says so, and therefore he should vote the Republican ticket. This is logic philosophy and politics all mixed up. Won't the Advocate try again—just do.

The following advertisement appears in the Buffalo Express:

WANTED—An English Widow Lady, young, beautiful, accomplished, and of first rate family, wants a position as companion to some gentleman's wife; would make herself generally useful as housekeeper, with the needle, or care of children.

We should like to see a house big enough for a gentleman's wife, and a young widow of that sort. It would raise the sign of nails on her face in no time, and there would be an explosion, a—a—yes, there would.

The Tract Convention now in session at Chicago, commenced by declaring that the Tract Society should recognize the great sin of slavery, and therefore proposed to issue Tracts on that subject; but the Harper's Ferry difficulty coming to hand during their deliberations, a Resolution was immediately passed declaring that the Convention desired the abolition of slavery only by peaceable means.

Ticknor & Fields paid 10,000 for the Atlantic Monthly. So says the papers.

It's more than the Boston concern is worth.

Judge Lowrie, of Pittsburgh, Pa., whose driver was fined $25 for violation of the Sunday laws, in driving his family to church, has published a card, in which he says he was quite ignorant that he had been allowing a transgression of the law, though he had studied it carefully, and declines carrying the case farther, because there may be suitors before the Supreme Court in other cases, and they ought not to be embarrassed by having one of its Judges pecuniarily interested. Judge Lowrie is one of the three Judges who rendered an opinion adverse to the Excelsior Omnibus Company, a few years since, for running on Sunday.

ANOTHER FAST MAN—A WOMAN AND ESTABLISHMENT KEPT.—A Cincinnati carpet dealer, Henry Falls, has turned up missing. His liabilities are said to be $100,000 and he carried off $25,000 in cash. It is said he has been living extravagantly of late, and though a man of family, having a wife and two or three children, that he has a mistress, whose house, in Covington, was richly and expensively furnished, and whose large outlay has done much to embarrass him. A day or two before he left, the furniture of that establishment was disposed of at auction, but whether the frail one accompanied or followed him is unknown. He was, we learn, much attached to her—foolishly fond, indeed—and gratified her every wish, and that this generosity proved expensive those familiar with such things need not be told.

OLD RELICS OF THE PURITANS.—At the recent Maine State Fair there were exhibited some relics of the Puritans which attracted much attention. Among these was a pewter platter, brought over in the Mayflower, 1620; also, a table made of English willow, which formerly belonged to the father of General Joseph Warren, the hero of Bunker Hill, who, as did his father, took his meals on this table.—There was a bed-cord, made of the sinews of a whale, known to have been in constant use for more than two hundred years and looks as if it might last several years longer. These was brought from Marshfield, Plymouth county, Mass., to Kent's Hill, seventy-one years ago, by Nathaniel Ford, great grandfather of the present possessor, and son of Eliza Warren, sister of the patriot.

In the case of William J. Lane, jr., the defaulting clerk in the Fulton Bank, Justice Osborne has decided that the charge of forgery upon which he was apprehended cannot be sustained. The prisoner was therefore discharged from custody, but was re-arrested immediately on a charge of obtaining money under false pretences.

A WEAKNESS FOR PAYING POSTAGE.—A few days a dead letter was returned to the Post Office Department, on the back of which a printed label was pasted, in the following words, (we omit the name of the post office:)

"This letter was detained in the post office at ——, N. J., on account of the non-payment of postage. One who realizes how important it may be to have letters forwarded immediately has placed the necessary stamp upon this letter. To repay him, please send one postage stamp, addressed to box 582, ——, N. J."

This excited the attention of the Postmaster General, by whose direction Mr. King addressed a letter to the postmaster at the mailing office, asking an explanation. He replied that this service "is voluntary, and is performed by one of our wealthy citizens, who has expended in this way from two hundred to three hundred dollars during the whole time, since the postage on letters has been required to be prepaid. He has given me standing authority to prepay and forward all letters, both foreign and domestic, of that description, and his motive is no other than 'the consciousness of having performed a friendly act.'"

AN APPLE BUYER MISSING.—On Wednesday, a gentleman who is engaged in the produce business at Clyde, was in the city says the Rochester American, making inquiry concerning the whereabout of a man named S. T. Potter, who has been employed by him to purchase apples at Medina for shipment east. It seems that Mr. Potter was at Clyde Monday, and left that place for Medina with $1,000 in cash, belonging to his principal. Instead of going direct to his destination he stopped at Rochester, and it has been ascertained that while here he got $700 or $800 in bills converted into gold. He also exchanged $100 in bills, for bills of different description. He is supposed to have left town the same evening, but it seems he did not go to Medina, for the gentleman could not find him there on Wednesday, nor learn that he had been there since he went to Wayne county. It was discovered however, that $130 furnished Potter previously, to buy barrels with, had not been applied to that object. Of course, the proprietor of the Clyde establishment feels considerable solicitude about Mr. Potter, and would be glad to hear what has become of him. Any information furnished to Chief of Police Keeney, on the subject of the missing man, will be promptly communicated to the right person.

MORE OUTRAGES BY FERNANDO WOOD'S FRIENDS IN NEW YORK.—The affidavit of a Mr. Carpenter of New York, setting forth the details of the arrangements made by Wood & Co. for their violent action at Syracuse last month seems likely to cause blood shed. On Saturday last Carpenter was assaulted by Cornelius Woods, for making this truthful statement, but the ruffianly assailant got the worst of it. On Monday evening Mr. Carpenter was taken to task in presence of his wife for making the affidavit, by one Thos. Cheever, a friend of Fernando Wood. After a few words, Cheever assaulted Mr. Carpenter, when the wife of the latter rushed in between them. *Cheever then knocked Mrs Carpenter down and otherwise abused her*, until her husband could obtain a pistol to shoot him, which he did, and thus rescued his wife. Cheever though dangerously was not mortally wounded.

One day last week while Mr. Franklin Lewis, of Johnsbury, Wyoming county was engaged about a threshing machine, he was caught by his frock in the machinery, which commenced the operation of *winding him up*. He was whirled half way round and succeeded in grasping hold of the feeder's stand, and hung fast until the rope wound his frock and jacket over his head, and the pin struck him just below the right eye, inflicting a frightful wound. His frock was torn off, all but the wristbands, and the binding was so strong about the neck that it skinned and bruised his neck badly. It was a miracle that he escaped without a broken neck.

The Portland Advertiser understands that the Great Eastern will entertain guests on board during her stay, in case the rush of visitors shall require it, and that in this way from 800 1,000 guests can be entertained. In this way, with the means at the command of city hotels, 5,000 strangers can be easily accommodated, and an equal number in private families, so that 1 ,000 strangers daily will find abundant accommodations during her stay of three weeks in Portland. The Great Eastern is expected to make one or two trips to sea while at Portland, carrying 10,000 persons.

The following is a recipe for making Homœopathic Soup: "Take two starved pigeons, hang them by a string in the kitchen window, so that the sun will cast the shadow of the pigeons into an iron pot already on the fire, and which will hold ten gallons of water; boil the shadows over a slow fire for ten hours, and then give the patient one drop in a glass of wa [illegible]

Harper's Ferry Insurrection—Gerrit Smith's Letter to Brown.

BALTIMORE, Oct. 20.

Gerrit Smith's letter, of the most importance, is as follows:

Capt. JOHN BROWN—My Dear Friend: I wrote you a week since, directing my letter to the care of John Kearney. He replied, informing me that he had forwarded it to Washington, but as Mr. Morton had received last evening a letter from Mr. Sanborn, saying your address would be your son's house, viz: West Andover, I therefore write you without delay, and direct my letter to your son. I have done what I could thus far for Kansas, and what I could to keep you at your Kansas work. Losses by endorsement and otherwise, have brought me under heavy embarrassment the last two years, but I must, nevertheless, continue to do in order to keep you at your Kansas work. I send you herewith my draft for $200. Let me hear from you on the receipt of this letter. You live in our hearts, and our prayer to God is that you may have strength to continue in your Kansas work. My wife joins me in affectionate regard to you, dear John, whom we both hold in very high esteem. I suppose you put the Whitman note into Mr. Kearney's hands. It will be a great shame if Mr. Whitman does not pay it. What a noble man is Mr. Kearney; how liberally he has contributed to keep you in your Kansas work.

(Signed) Your friend,
GERRIT SMITH.

A young girl in Buffalo was recently taken sick, with pains resembling cholera and was attended by Dr. Stock, who soon discovered that she had swallowed pins and needles. In the course of four days, nineteen pins and four needles were taken from her. She confessed that she had been in the habit of swallowing pins and needles for three months in order to get sick and avoid leaving home to go out to work. Rather sharp practice.

Squire Jack was a cabinet maker and undertaker, known far and wide as a master workman. One day a couple came to his office to get married. The man's face was familiar to the Squier, and he ordered him off in this wise. "Begone you scoundrel! You haven't paid me for your first wife's coffin!" Rather ghostly bluff that.

It is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "Bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrate student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial!

Sold by druggists and dealers every where.

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorrhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgy pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fleur Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflamation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills will receive for $5 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

THE GREAT AMERICAN

Boot & Shoe Store,
No. 2, Odd Fellow's Hall.

GREAT DISCOVERY!
NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprets to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and MECHANICS is manufactured which is second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

Batavia, August 11th, 1859.

THOMAS YATES.

DR. N. R. C. ROWE.
URISCOPIA PHYSICIAN.

Late from the Island of Barbadoes, West Indies.

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCERS and CATARRH affections, Tumors, Diseases of the Lungs, Throat, Liver, Kidneys, &c., &c. Also Scrofulous and all other Chronic Diseases, at his office No. 6 Stone Block, corner of Main and St. Paul streets.

The success that has attended his practice has not yet been surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathsome disease, CANCER—the thoughts of which chill the heart, and makes life a burden to those afflicted with it—which had been pronounced by some of the most skilled Physicians as [illegible] incurable. These patients are [illegible] [illegible] in this [illegible]. CATARRH, this most awful disease, which if not checked, terminates in Consumption, he can cure most [illegible]—Scrofula and all other Chronic Diseases he cures with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practitioner and not self taught man. Dr. [illegible] has discovered a speedy and certain cure for such cases of that painful and ravaging disease CANCER, as are curable. It has hitherto been the opinion of the Medical Faculty, that Cancer can not be cured. Dr. ROWE however, has after a thorough investigation, long study of the disease, been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that man [illegible] heir to, and they can treat diseases more correctly and successfully than by any other mode of examination. The reason that great many curable diseases are deemed incurable is a mere mistake in not finding out the real seat of the disease. Patients at a distance, not able to consult him personally, by sending a small vial with some of their Urine (one passed [illegible] in the morning, and if [illegible] at the same time stating their age [illegible] will be told [illegible] diseases. If they address Dr. [illegible] Rochester, N. Y., will meet with prompt attention. Packages containing Urine [illegible] addressed to his office. Reference [illegible] in his mode of Treatment can be given to some of the best Physicians in this country.

☞ Dr. Rowe will be at the Exchange Hotel, Attica, for 4 days, Tuesday, Wednesday, Thursday, Friday, Oct. 4, 5, 6, 7, where he can be consulted on the above diseases.

DR. M'LANE'S
CELEBRATED
VERMIFUGE
AND
LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and *take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

HOSTETTER'S

STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhœa, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five Boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION

BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith, Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eda Mayville, Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, to teach great moral lessons through the same means. We shall never publish a word or line the tendency of which is to injure the morals or taste of the young. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Sayings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Hate Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting *melange*, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of Interest, etc., etc. In a word, the Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS.

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation to the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the Weekly.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the news-dealers were taking tens, they are now taking hundreds of copies. This is the general effect among the [illegible] News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you [illegible] the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, as [illegible] place where you have no means of looking after it. We trust the day is not far distant when every town large enough to sustain a Post Office will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is four cents, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3; four copies for $5; eight copies for $12. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to,

THE DAILY HERALD,

ONLY SIX CENTS A WEEK

There was a holy man that rarely heard of other men's crimes but he usually bedewed the place with his tears, considering that the seeds of those very sins were in his own nature. In thy nature thou hast that which would lead thee, with the Pharisees, to oppose Christ, and with Judas, to betray Christ, and, with Pilate, to condemn Christ, and, with the soldiers, to crucify Christ. Oh! what a monster wouldst thou prove, should God but leave thee to act suitably to that sinful and woful nature of thine!

HOSTETTER'S

STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhœa, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

Fever and Ague.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

☞ **Prepared and sold by HOSTETTER & SMITH, Pittsburgh, Pa., and sold by all druggists, grocers, and dealers generally throughout the United States, Canada, South America, and Germany.**

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of

ness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

HOMOEOPATHIC
REMEDIES.

☞ It is impossible to judge in this age of the value of a medicine by the manner in which it is puffed and extolled in newspaper advertisements. We are not compelled to resort to any such methods to dispose of our remedies, for their intrinsic merits alone are selling them as fast as we can prepare them.

All who are in want of a *Safe, Convenient and Efficient Medicine*, are referred to the following list of Gifford's pure and reliable Homoeopathic Remedies:

CATARRH AND HEADACHE PILLS, for headache, sick headache, vertigo, habitual nose-bleed, and all forms of Catarrh of the head, throat and lungs.

COUGH PILLS, for coughs, colds, Hoarseness, Influenza, Sore Throat, Asthma and all similar troubles of the throat and lungs.

CROUP PILLS for Croup, dry and hoarse cough, and hard breathing.

DYSPEPTIC PILLS, for Dyspepsia, Constipation, Indigestion, weak and sour stomach, Epilepsy, mental despondency, gloomy forebodings, hypochondria, Liver and Kidney complaints.

BILIOUS PILLS, for irregular action of liver, lost and depraved appetite, and jaundice.

DIARRHŒA PILLS, for Diarrhœa, Dysentery, Cholera Infantum, Cholera Morbus, Cholic, Griping, and all summer complaints.

PILES PILLS, for constipation, blind and bleeding Piles.

FEVER PILLS, for all forms of Fevers, Congestions, Inflammations and Pleurisy.

NERVOUS PILLS, for Nervous irritability, Sleeplessness, Toothache, Neuralgia, and all nervous affections.

SCROFULA PILLS, for Salt Rheum, Glandular swellings, Eruptions of the Skin, Erysipelas, Sore Eyes, and discharge from the Ears.

FEMALE PILLS, for scanty, painful and suppressed menstruation, Leucorrhœa, profuse menses, and bearing down.

WORM PILLS, for Worms, Worm Fever, cholic, convulsions, and wetting the bed.

These remedies are put up in beautifully embossed boxes.

We have also prepared Cases, which contain one box of each of the twelve remedies for the use of families; also, small Cases, containing six boxes each, for the use of travelers, &c.

Price of large cases, containing twelve boxes, with manual of directions, $2 25. For small cases, containing six boxes, with manual of directions, $1 25. For single boxes, with full directions, 25cts.

THE GROVER & BAKER

Sewing Machine Co.

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices and offer for sale

A NEW STYLE MACHINE, PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

[illegible] was a holy man that rarely heard of other men's crimes but he usually bedewed the place with his tears, considering that the seeds of those very sins were in his own nature. In thy nature thou hast that which would lead thee, with the Pharisees, to oppose Christ, and with Judas, to betray Christ, and, with Pilate, to condemn Christ, and, with the soldiers, to crucify Christ. Oh! what a monster wouldst thou prove, should God but leave thee to act suitably to that sinful and woful nature of thine!

Earthly riches are called thorns, and well they be, for, as thorns, they pierce both head and heart; the head with cares in getting them, and the heart with grief in parting with them.

HOSTETTER'S

STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhœa, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

Prepared and sold by HOSTETTER & SMITH, Pittsburgh, Pa., and sold by all druggists, grocers, and dealers generally throughout the United States, Canada, South America, and Germany.

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound, Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith, Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eda Moyville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before [illegible] any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notices of Travel and Adventure, Short Stories, General Summary of Events, Humorous Sketches, Poetry, Editorials, &c. &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, [illegible], The Hero of Italy! Harry Hazel's exciting Indian Romance, The Moss-Spirit. Francis S. Smith's intensely interesting Domestic Story, Maggie, The Child of Charity! While as specimens of our standing departments we point with pride to our Ballads on the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to housekeepers and others.

Our Pleasant Paragraphs, an interesting *melange*, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared expressly for the ladies by one of the most brilliant lady writers of the present day.

Our *Mirthful Morsels*, our Items of Interest, etc. etc. In a word, the Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without a single misgiving, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the agents were taking tens, they are now taking hundreds of copies. This is the general effect among the [illegible] News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you will avoid the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, as will be the case where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3; four copies for $6; eight copies for $12. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to,

DR. J. B. GIFFORD'S

HOMOEOPATHIC REMEDIES.

☞ It is impossible to judge an iota of the value of a medicine by the manner in which it is puffed and extolled in newspaper advertisements. We are not compelled to resort to any such methods to dispose of our remedies, for their intrinsic merits alone are selling them as fast as we can prepare them.

All who are in want of a *Safe, Convenient and Efficient Medicine*, are referred to the following list of Gifford's pure and reliable Homoeopathic Remedies:

CATARRH AND HEADACHE PILLS, for headache, sick headache, vertigo, habitual nose-bleed, and all forms of Catarrh of the head, throat and lungs.

COUGH PILLS, for coughs, colds, Hoarseness, Influenza, Sore Throat, Asthma and all similar troubles of the throat and lungs.

CROUP PILLS, for Croup, dry and hoarse cough, and hard breathing.

DYSPEPTIC PILLS, for Dyspepsia, Constipation, Indigestion, weak and sour stomach, Epilepsy, mental depression, gloomy forebodings, hypochondria, Liver and Kidney complaints.

BILIOUS PILLS, for irregular action of liver, lost and depraved appetite, and jaundice.

DIARRHEA PILLS, for Diarrhea, Dysentery, Cholera Infantum, Cholera Morbus, Cholic, Griping and all summer complaints.

PILES PILLS, for constipation, blind and bleeding Piles.

FEVER PILLS, for all forms of Fevers, Congestions, Inflammations, and Pleurisy.

NERVOUS PILLS, for Nervous Irritability, Sleeplessness, Toothache, Neuralgia and all nervous affections.

SCROFULA PILLS, for Salt Rheum, Glandular swellings, Eruptions of the Skin, Erysipelas, Sore Eyes and discharge from the Ears.

FEMALE PILLS, for scanty, painful and suppressed menstruation, Leucorrhea, profuse menses, and bearing down.

WORM PILLS, for Worms, Worm Fever, cholic, convulsions, and wetting the bed.

These remedies are put up in beautifully embossed boxes.

We have also prepared Cases, which contain one box of each of the twelve remedies for the use of families; also, small Cases, containing six boxes each, for the use of travelers, &c.

Price of large cases containing twelve boxes, with manual of directions $2 25. For small cases, containing six boxes, with manual of directions, $1 25. For single boxes, with full directions, 25 cts.

THE GROVER & BAKER

Sewing Machine Co.

Having greatly increased their facilities for manufacturing their Celebrated Family Machines, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE, PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

may readily learn to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

THE DAILY HERALD,

ONLY SIX CENTS A WEEK

There was a holy man that rarely heard of other men's crimes but he usually bedewed the place with his tears, considering that the seeds of those very sins were in his own nature. In thy nature, thou hast that which would lead thee, with the Pharisees, to oppose Christ, and with Judas, to betray Christ, and, with Pilate, to condemn Christ, and, with the soldiers, to crucify Christ. Oh! what a monster wouldst thou prove, should God but leave thee to act suitably to that sinful and woful nature of thine!

Earthly riches are called thorns, and well they be, for, as thorns, they pierce both head and heart; the head with cares in getting them, and the heart with grief in parting with them.

HENRY I. GLOWACKI, } Committee.
N. Z. SHELDON, }

We are somewhat astonished to see a refference to the Telegraph column of the HERALD in the Advocate yesterday. It would have been difficult for us to believe that any man who had been connected with the Press for twenty years could so unblushingly refer to anything that should call to mind the underhanded scheme by which he says to this community, "you can't have the latest Telegraph News without taking the Advocate as I hold an exclusive contract with the Company."

A man who should undertake to monopolize the news in almost any place but this, would be spurned, and his paper cast under their feet. This thing is an outrage on all decency, and all sense of liberalmindedness. Republicanism is in the majority here, and this alone sustains such illiberality, for one of the active, and on y well stuck-to principles of the party is to accomplish its ends, no matter at what cost of right or justice. A number of our citizens take the cars in the morning, an accident occurs, wives and brothers and parents and children, are killed, the telegraph brings the report, but the surviving friends can't know their bereavements, only as they take the Advocate, or wait for a paper from a distant place. This is a pretty scheme to boast of in this enlightened age, and by a supposed to be christian man. Shame on such narrow minded selfishness—but it will have its reward.

The Advocate owns up about having reprinted the HERALD. It however does not seem inclined to take all the credit we gave it in denying that it had over three columns of our matter. We meant to be liberal, but if the Advocate did not come up to the recommend we gave it, the fault is not ours for the Herald was entirely at its disposal.

We would apprise the Advocate that we let the "Candidates" alone to-day, because to-morrow will be Sunday, and we wish all to go to Church with as much peace of mind as a Republican can be supposed to have. It has thrown down the glove as a terrible risk of bruised reputations, if any body chooses to take it up.—

There is but a small piece of the week left, and we don't like to break the peace.

If any body supposes that because no snow had fallen for the last six months that it had forgotten how, they will find by looking out of the window this 10 A. M., Saturday morning, that they were greatly mistaken.

Making Bargains.

Henry Ward Beecher in a recent Discourse on the above topic, closes as follows:—

What shall be done with the weaken races? That is the question of the age if which we live. The immense producing power of the civilized nations demands wider and better markets; the rapidity of travel has had the substantial effect of reducing the size of the globe; the remotest places are at arm's length. Once there were unvisited Islands and magnificent wastes, for the bankrupt and the buchaneer to fly to, but we have seen the end of all possible seclusion; there is no place for a man to run away to, for as in the improved husbandry, the plow turns up the acres that lie around; so the ship is a world plow, and is plowing the world. The continents, Asia, Africa, South America, Australia, are but the outfields of the great farm of civilization; every year are more and more coming into tillage. Now what shall become of the enormous population? That question stares us in the face. You may try to blink it, and run into the Bible Society and the Tract Society, but God is out, asking the question, and somebody has got to answer it.

* * * *

"Gold is the mercury in the world's barometer; it goes down when storms and disasters arise; and rises in the fair weather of liberty and humanity. In all questions between right and wrong, between liberty and oppression, between struggling weakness and despotic power, between truth and falsehood, virtue and vice, whether on a small scale or in the world's sphere, if commerce were guided only by interest and selfishness, it should be found ever on the side of rectitude and liberty. All the world over, Commerce should mean Justice, and Merchant, Emancipator."

Mrs. Stowe's Baby Boy.

But James was destined to put "faculty" and every other talent which his mother possessed, to rout. He was an infant of moods and tenses, and those not of any regular verb. He would cry of nights, and he would be taken up of mornings, and he would not suck his thumb, nor a bundle of caraway seed tied in a rag and dipped in sweet milk, with which the good gossips in vain endeavored to pacify him. He fought manfully with his two great fat fists the battle of babyhood, utterly reversed all nursery maxims, and reigned as baby over the whole prostrate household. When old enough to run alone, his splendid black eyes and glossy rings of hair were seen flashing and bobbing in every forbidden place and occupation. Now trailing on his mother's gown he assisted her in salting her butter by throwing in small contributions of snuff or sugar, as the case might be; and again after one of those mysterious periods of silence which are of most ominous significance in nursery experience, he would rise from the demolition of her indigo-bag, showing a face ghastly with blue streaks, and looking more like a gnome than the son of a respectable mother. There was not a pitcher of any description of contents left within reach of his little tiptoes and busy fingers that was not pulled over upon his guilty head without in the least seeming to improve its steadiness. In short, his mother remarked that she was thankful every night when she had fairly gotten him into bed and asleep; James had really got through one more day and killed neither himself nor any one else.

As a boy, the case was little better. He did not take to study—yawned over books and cut out molds for running anchors when he should have been thinking of his columns of words in four syllables. No mortal knew how he learned to read, for he never seemed to stop running long enough to learn anything; and yet he did learn, and used the talent in coming over travels, sea-voyages, and lives of heroes and naval commanders. Spite of father, mother, and brother, he seemed to possess the most extraordinary faculty of running up unsavory acquaintances. He was hale-fellow well met with every Tom and Jack and Jim and Ben and Dick that strolled on the wharves, and astonished his father with minutest particulars of every ship, schooner, and brig in the harbor, together with biographical notes of the different Toms, Dicks, and Harrys by whom they were worked.

Sunday Reading.

Here God gives his people some taste, that they may not faint; and he gives them but a taste, that they may long to be at home, that may keep humble, that they may sit loose from things here below, that they may not break and despise bruised reeds, and that heaven may be sweet to them at last.

Grace grows by exercise, and decays by disuse. Though both arms grow, yet that which a man uses most is the strongest, so it is both in gifts and graces.—In birds, the wings which have been used most are the sweetest. The application is easy.

It was a sweet observation of Luther, "that for the most part, when God set him upon any special service, for the good of the Church, he was brought low by some fit of sickness or other." Surely, as the lower the ebb the higher the tide, so the lower any descend in humility, the higher they shall ascend in honor and glory. The lower this foundation of humility is laid, the higher shall the roof of honor be overlaid.

The picture of a dear friend is not to be thrust into a corner, but placed in some conspicuous part in the house; so our graces are the very image of Christ, they are his picture, and therefore, to be held forth to open view.

BUFFALO DEMOCRATIC NOMINATION.—The charter election in Buffalo occurs on the day of general election, and the Democracy yesterday nominated the following ticket: Mayor, Henry K. Viele; Comptroller, Wm. H. Albro; City Attorney, John E. McMahon; Street Commissioner, John Ambrose; Treasurer, Michael Hagan; Secretary of Taxes, Solomon Scheu; City Surveyor, Ansel Wright; Superintendent of schools, Henry D. Garvin; Overseer of the poor, John Rodney; Assessor, Henry P. Clinton; Justices of the Peace, Nicholas Ottenot, Michael Murray.

HARPER'S FERRY, Oct. 20

The excitement here has not abated in the least, and rumors are multiplying every moment.

We have some authenticated statements from Chambersburg, showing that more supplies of arms and accoutrements have been tracked to that neighborhood.

The people still persist in believing that they are surrounded by spies and accomplices of Captain Brown. The withdrawal of Col. Lee and the Washington marines last night has increased the general consternation, and the citizens are to-day, under Col. Barbour of the armory, endeavoring to organize companies for the general defence. Virginia militia, however, are not very tractable material for the formation of efficient companies, as all hands want to be captain.

Scouts are out in the mountain to-day searching for Cook, but there is no doubt that he has before this passed the Pennsylvania line, and is far on his way towards Canada.

Every stranger that comes here is looked upon with suspicion, and several have been arrested on a charge of being spies.

Wm. Lee, a gentleman from Charlottesville, was brought in to-day under arrest, causing great excitement. He was soon recognized, and discharged.

Mr. Ould left for Washington last evening, thus virtually leaving the prison rs in the hands of the Virginia authorities.

The hearing of the case before the examining Court of Justice will probably take place tomorrow, when the prisoner will probably be removed to Wippeville for trial.

Capt. Brown is not considered in any danger from his wounds, though Stevens will, it is tho't, not survive. He, however, has a powerful constitution, and may recover.

BALTIMORE, Oct. 20.

It is generally conceded that Cooke is still in the mountains on the Virginia or Maryland side of the Potomac. The neighborhood is so closely guarded that he can hardly escape.

In a conversation, held with old Brown yesterday, in the presence of Senor Mason, Hon. Messrs. Faulkner, Vallandigham, and others, he made several answers which clearly demonstrate the complicity of numerous persons in the Northern, Western, and Eastern States.

He refused to answer a question as to whether he had a conference with Mr. Giddings about his Virginia expedition, but admitted that he had correspondence with parties at the north on the subject, and that he had numerous sympathisers in all the free States.

WASHINGTON, Oct. 20.

District Attorney Ould and Col. Lee have returned from Harper's Ferry.

Soon after his arrival the former had a conference with the President, and the latter a long interview with the secretary of war.

U. S. Marshal Johnson, of Ohio, now here, says one of the parties engaged with Brown was prominent in the Oberlin rescue.

Parties have been arrested for uttering counterfeit gold dollars and halves, remarkably well executed, but lighter than genuine ones. It is supposed that several thousand dollars worth have been thrown into circulation. They were brought from Pennsylvania.

CLARLES DE HEINTZE M. D
PHYSICIAN & SURGEON.

from Berlin, lately from Rochester and Syracuse, begs to inform the public of Batavia and vicinity that he has taken rooms at the Western Hotel Batavia N. Y. where he merely will stop a fortnight from October 20th. Dr. de Heintze has been Surgeon to the Royal Charity Hospital Berlin and Physician to the Elisabeth Hospital in Berlin. He is a member of the medical society of Prussia and member of the Homeopathic Academy of Palermo.

From the great advantage he enjoyed at those institutions in treating the various diseases the human system is liable to he confidently offers his services to the suffering public and solicits their patronage; he pays particular attention to the diseases of Eye and ear which he treats with the uniform success which has attended his practice for the last fourteen years.

IT is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentions, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial!

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fleur Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of *every one hundred* cases, all the above named disorders and a host of others not named have their seat primarly in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

DR. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills will receive for $1 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

THE GREAT AMERICAN

Boot & Shoe Store,

No. 2, Odd Fellow's Hall.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No 2 Odd Fellows Hall, south side Main Street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprets to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

Batavia, August 11th, 1859.

THOMAS YATES.

DR. N. R. C. ROWE.

URISCOPIA PHYSICIAN.

(Late from the Island of Barbadoes, West Indies)

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections, Tumors, diseases of the Lungs, Throat, Liver, Kidneys &c., &c. Also Scrofulous and all other Chronic Diseases, at his office No. 6 Stone Block, corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathsome disease, CANCER—the thoughts of which chill the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skilful Physicians as decidedly incurable. These patients now live as witnesses to this fact. CATARRH, this most awful disease, which if not checked, terminates in Consumption, he can cure most readily.—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practitioner and no self-taught man. Dr. has discovered a speedy and certain cure for such cases of that fearful and ravaging disease CANCER, as are curable. It has hitherto been the opinion of the Medical Faculty, that Cancer can not be cured. Dr. Rowe however, has after a thorough investigation and study of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases more correctly and successfully than by any other mode of examination. The reason that a great many curable diseases are deemed incurable, is simply from not finding out the real secret of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and $1 as a fee for testing it, at the same time stating their age will be told their disease. Letters addressed to Box 964, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. Reference as to his mode of treatment can be given to some of the first Physicians in this country.

☞ Dr. Rowe will be at the Exchange Hotel, Attica, for 4 days, Tuesday, Wednesday Thursday, Friday, Oct. 4, 5, 6, 7, where he can be consulted on the above diseases.

BY TELEGRAPH.

Evening Report.

LEAVENWORTH, Oct. 21.

The Denver City Express, of the 11th, arrived last night, bringing $7,000, in dust. The news is meagre.

A Delegate Convention was in session at Denver, for the purpose of organizing a Provisional Government, pending the action of Congress, in regard to the gold country. The miners were preparing to go into winter quarters.

PORT SARNIA, Oct. 21.

The steamer Islander is reported wrecked on Lake Huron. The crew and passengers all safe.

The weather is still very rough, and a number of upper lake boats are lying here.

There is nothing more yet heard from the remainder of the crew and passengers of the foundered propeller Troy, who took to the small boats.

TORONTO, C. W., Oct. 21.

Nearly the whole block of wooden buildings, bounded by Richmond, Adelaide, Bay, and Sheppard streets, was burned last night. Over fifty families are rendered houseless by this disaster. Bond's livery stable, and a number of horses were also burned. The fire is supposed to have resulted from design.

WASHINGTON, Oct. 21.

The Government has not yet been officially advised that Minister Ward has reached Pekin, but information received in diplomatic quarters, leaves no doubt of the fact.

It is confidently expected that the ratified treaty, will reach here before the meeting of the next Congress.

The names of various gentlemen have been named in connection with the mission to France, but no action has been taken, and it is doubtful whether it has yet been even considered by the President.

Mr. Irving Secretary of the British Legation, is among the recent arrivals.

The President has commenced the preparation of his annual message.

FARTHER POINT, October 21—8 P. M.

There is no probability of the steamship Anglo Saxon to-night, though she is nearly due.

A blinding snow-storm is prevailing on the river.

The Anglo Saxon has doubtless been detained by heavy westerly winds.

HUDSON, N. Y., Oct. 21.

The American County Convention held here to-day, nominated John S. Emans, the Democratic nominee for State Senator, and passed resolutions endorsing Judge Harries and the Utica mixed ticket, and adjourned.

RICHMOND, Va., Oct. 21.

Gov. Wise arrived to-day, and was received by Company F., which escorted him to the Capitol. He addressed the throng from the steps of that building, stating that he had taken the responsibility of placing a guard at Harper's Ferry, and that he would distribute arms at accessible points throughout the State.—The speech produced a great sensation.

The House of Bishops has given Bishop Onderdonk leave to withdraw his memorial, thus finally disposing of the matter. They have also concurred in the resolution to adjourn on Saturday.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS, Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but *Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

DR. COGGSWELL'S NEW MEDICAL SALT.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, has control over but one ill, has but one aim, and accomplishes but one thing, to wit:—subdues Inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (no other,) by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

NOTICE TO INVALIDS!! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

HOSTETTER'S

STOMACH BITTERS.

IT is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhœa, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. [illegible]

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Now is the Time to Subscribe.

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION,

BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eda Mayville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Mere Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to housekeepers and others.

Our Pleasant Paragraphs, an interesting melange, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of Interest, etc., etc. In a word, the Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY. The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the news-men were taken tens, they are now taking hundreds of copies. This is the general effect among the five thousand News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $6, eight copies for $12. Postmaster and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to,

THE GROVER & BAKER Sewing Machine Co.

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE, PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

Something True and Important.

IF YOU are crippled with Palsy or Rheumatism suffering with pains and can find no relief for body or mind—given up as beyond the reach of medical aid, and have no other prospect before you than a premature grave, read the following—pause, reflect and hope on, as an opportunity is now offered for the restoration of your health. *Proffs. Chamberlin & Bolles,* of Buffalo, would say to the citizens of Batavia and vicinity that they have taken rooms at the Eagle Hotel, and will remain a few days for the purpose of introducing their new and important discovery in the use of Electricity for the cure of all curable diseases.

They solicit no patients except those given up everywhere else as incurable. The reader might here ask, do they really cure such cases or are their statements false? Have they cured any such cases in Buffalo and vicinity, or are their cases all on paper and afar off? In reply they would say they have cured and are curing every day, just such cases. They have restored to health a great number of persons in Buffalo, and surroundings, who have been suffering from various diseases, five, ten, and fifteen years and upwards, in a few days. They have cured and are curing a class of diseases that has baffled the skill of the medical profession in all ages of the world. The reader might here enquire, by what means such wonderful cures are performed? Not by irritating the delicate membranes of vital organs by drugging the stomach, but by direct application of the positive and negative polarities of electricity.—Again, it might be asked, has not electricity been employed as a remedial agent for years both in Europe and the United States, with indifferent success? And are not numbers now using it, in our very midst, with no better result? This is all very true; and when we consider the ignorance and recklessness displayed in its application the result has been more favorable than could have been anticipated. It has been considered as beneficial in a few cases, only, and uncertain even in those. There has been no fixed principle for applying it, and, therefore, no uniform result could have been anticipated; but owing to the friendly relation existing between electricity and health, remarkable cures have been performed, which have been looked upon as a lucky hit, rather than the result of a fixed law. The ignorance displayed in the administration of this mighty agent, is unpardonable.

The current has been generally applied through the hands or feet in such power as to convulse the whole nervous and muscular system, and frequently producing irreparable injury; sometimes it has been applied by means of metallic conductors to different parts of the body, which is equal to a process of cauterization—and the effect upon the nervous system is similar to that produced by over-doses of Strychnia or Quinine.

Every thing connected with their mode of applying electricity is new and original with themselves. Their philosophy for the electrical laws of life, health and disease, is new.—Their reliable method for the diagnosis of disease by electrical contact is new.

As, also, their important discovery in the use of the positive and negative polarities to the human body, for the safe and speedy removal of all diseases.

All is new and unknown to medical men and others except the few instructed by them.

By this mode of applying electricity there is no guess work; no uncertainty; and no matter of doubt as to the result that will follow.

The diseased are invited to call and witness the wonderful cures they are performing daily.

Instruction given to those desiring a knowledge of this method of curing disease.

The Saratoga papers advise the public to beware of Miss Julia Nash, who, it seems, is a most *taking* girl. She has recently been released from Jail, having been acquitted on an indictment for stealing from Mrs. Allen, on the technical ruling of the Court, that the articles having been presented to Mrs. Allen, by her husband, previous to the passage of the law allowing a wife to hold property separate from her husband, they in reality belonged to the husband, and should have been so set forth in the indictment. She has stolen an entire baking, just from the oven and the dinner from a man's table, while the servant went to call the folks to sit down.

The progress of events brings us around sometimes to queer estimates of human greatness. Four years ago when J. L. Brown Esq., was up for the office of Judge; to which he was duly elected and now holds; it is generally understood that he rated the influence of Harry Wilber in his behalf, at the snug little sum of fifty dollars. The question very naturally arises what would be an equivalent for the same service now? How much can Mr. Wilber do towards electing the Republican's Candidate to the office of Judge at the coming election? This seems to be the question that agitates the public mind.

We wish to be clearly understood to say "Republican's Candidate," not Republican Candidate, for by so doing we might be held responsible. The Judge is technical, and he would draw a sharp line of distinction between the two expressions; the one making him a candidate for a party, and the other a party Candidate, and between the two there is a broad margin for the exercise of Judicial discrimination. We may as well here say in self defence—or by way of putting out fenders in case the Judge is re-elected—that we greatly question whether it can be proved that the Judge is a Republican, and here again we do not say that he is not—mark the difference between saying a thing and not saying it—but if he is, where is the evidence? Two questions at least are here involved in the same individual.

We refer to this subject briefly now, as the question is of some importance, a portion of the Republican party, having proposed to re-elect the present incumbent to the office of Judge in this county, for the next four years. We do it mildly, for we know that if the Judge is re-elected he will be seeking judgment against us. We have once been held under a suspense of judgment for three months by the Judge, and we prefer to avoid the necessity of any such violent exercise of Judicial functions in the future. A short article in this paper reviewing the basis of Judge Brown's judgment in a certain case, put him to the necessity of recording what he said, to show that it was not what somebody said he said, but as it was at a very late day, it is generally supposed that the Judge had actually forgotten what he did say, and hence the suspension of judgment, which might have been a very serious calamity.

Is Judge Brown a Republican? and what is Harry Wilber's influence worth? These are the questions!

The Editor of the Advocate wishes to be exonerated from the intimation that he is in any wise responsible for the Railroad and Canal article, we referred to on Friday last. He thinks that any body capable of running a paper, ought to have known that the article was not editorial. We never suspected that the Editor did write the article, but it appeared in the Advocate, and was a part of the Advocate that day, and we spoke of it as the Advocate's. Pray Mr. Editor how can you seperate your paper from the articles, doctrines, and sentiments it contains. We will let you off if you wish to go, but we must hold the Advocate to a strict accountability.

France.

The Emperor and Empress had quitted Biarritz and arrived at Bordeaux on the 10th. Their reception was enthusiastic.—On the 11th inst, the Emperor received the authorities of Bordeaux.

The Cardinal Arch Bishop addressed a speech to the Emperor, who read a reply to it. Both speech and reply produced the most favorable impression. The Emperor said that the government, which was the means of restoring the holy father to the throne, would only give utterence to such respectable counsels as were directed by sincere devotion to the interest of his holiness, could but be alarmed about the day, which is not far distant, when Rome will be evacuated by the French troops. It is necessary, instead of appealing to the ardent passions of the people, to search with calmness for the truth, and pray to providence to enlighten the people as well as their sovereigns, under a wish for the fulfilment of their rights, and that they may well understand their duties.

All the Bishops have received orders from Rome to preach the restoration of Italian duties.

A Paris journal says that Napoleon is becoming disgusted with the procrastination of Austria, and for the moment French policy inclines to more intimate understanding with England.

BURSTING OF CROTON WATER PIPE.—A portion of the people of New York were last Friday agitated by the sudden stoppage of their croton, caused by the bursting of the main supply pipe running down the westerly side of the city in the vicinity of 56th street and 4th Avenue.—The Express says:

At noon there was no water to be obtained, except in basements or underground places. Some idea of the seriousness of the accident may be formed when it is stated that the pipe in which the break has occurred is 36 inches in diameter, and is the main one supplying the city. At 79th street the main supply pipe for the eastern portion of the city branches off and contributes to the smaller mains chiefly through the third Avenue.

At last accounts workmen were busy in tearing up the flooded streets in search of the break.

COUNTERFEITS AT LOCKPORT.—The Advertiser, of Lockport, says: "A man calling himself Alexander Mosher, was arrested on Wednesday evening for passing a number of five dollar bills on different individuals in this place. The bills were on the Mechanics' Bank of Connecticut, entirely new, and Dated December 10th, 1857. A large V in the centre—lower part—has the five Presidents; on the left end is an oval with blacksmith's arm; on the right end, a ship, in oval, under full sail. The bills are signed Jno. W. Fitch, Cashier, and John Fitch, President. He passed one of the bills at W. J. Dunlap's for an umbrella, and took the balance in good money. He also passed one at Cram's saloon, and one at J. S. Low's, in payment for a pair of small shoes, and another at Hubbard's store for a pair of rubbers. Suspicion being excited at the latter place that the bill was spurious, it was presented to the bank and pronounced counterfeit. Mosher was then arrested by officer Anderson, and brought before Justice Donnelly. Mosher did not give a clear account of himself. He said that he got the money from a Mr. Wilson, in Buffalo, in exchange for Canada money. He made some other statements in regard to his transactions in Buffalo, that needed confirmation. He was searched and committed to jail until to-day, in order to elicit further information."

THE SORE THROAT DISEASE IN OHIO.—The Cleveland Herald says that in the School District of North Solon, in Cayuga co., the disease commonly known as putrid sore throat, is committing its ravages. Within six weeks Mr. Chas. Morse has lost two children, Mr. Elbridge Morse one child, Mr. Samuel Patrick one child, and the death of Mr. Edwin York, aged 23 years, makes five deaths from this malignant disease. Mr. York was a hale, hearty, worthy young man; he was taken sick on Friday and died the Monday following.

Bayard Taylor's lectures in San Francisco, produced a profit of $1,500 to the Mercantile Library Association.

The Loss of the Propeller Troy on Lake Huron.

The telegraph mentioned a day or two ago the loss of the propeller *Troy* on Lake Huron. The mate, engineer and wheelsman arrived at Detroit yesterday on the steamer Ruby. They state that she foundered in a tremendous sea on Tuesday night, when ten miles off Point aux Barque. The passengers and crew numbered in all twenty-six. Finding she was sinking, the three men launched a yawl and got in. It proved to be unseaworthy, and leaked so badly that it was with great difficulty they could keep from sinking.—In this frail boat and in a heavy sea, they drifted across Lake Huron, and landed about 7 o'clock Wednesday night, twelve miles below Goderich. The Captain and three ladies went to sea in the life boat, and have not since been heard from. The probability is that their boat swamped in the fearful gale. The telegraph reports that five others have been saved, leaving eighteen as the number lost or missing.—The Troy was on her route from Chicago to Port Colborne, with a cargo of wheat.

Steam Navigation.

BUFFALO.—A letter is published in the papers, signed by the Hon. Millard Fillmore, Hon. S. G. Haven, and a number of other influential citizens, addressed to Mr. Rollin Germain, requesting him to make a public explanation of his principles of construction for steam navigation. He proposes to establish, among others, the following propositions:

That steamers may be constructed to run 100 miles an hour, and so strong that the greatest oceanic forces would not endanger their safety: that the economy of their movements would be such as to reduce the cost of transportation to less than one-fifth the present rates; that when loaded with a large freight and passengers and fuel enough for a voyage around the world, would not draw over 22 feet of water; that as a war ship, one would be an over match to all existing navies.

Mr. Germain has made the subject his study for thirteen years and now makes it public for the first time.

Eminent Engineers of the U. S., pronounce the plan practicable, and destined to make a complete revolution in steam navigation.

A GREAT COUNTRY.—The Milwaukee *News* has a correspondent who gives a discription of "this country" in the following high style of the art, he says:—

"This is a glorious country! It has longer rivers, and more of them, and they are muddier, and deeper, and run faster, make more noise, rise higher, fall lower, and do more damage than anybody else's rivers. It has more lakes, and they are bigger, and deeper, and clearer than those of any other country. Our rail cars are bigger, and run faster, and pitch off the track oftener, and kill more people than all the other rail cars in this or every other country. Our steamboats carry bigger loads, are longer and broader, and *bust their bilers* oftener, and the captains swear harder than steamboat captains in any other country. Our men are bigger, and longer, and thicker, can fight harder and faster, and drink more mean whiskey, and chew more bad tobacco and not be killed, can spit more, and spit further than in any other country. Our ladies are richer, prettier, dress finer, spend more money, break more hearts, wear bigger hoops, shorter dresses, and kick up the devil generally to a greater extent than all other ladies in all other countries. Our children squall louder, grow faster, get too extensive for their pantaloons quicker than any other children in any other country.

"Well, this is a great country! Hang a man that won't praise his own country. I have written you all the news that is in this country.

Yours till death.
"ANDY SKINNER."

THE "SIX NATION" COUNCIL AT TONAWANDA.—The "Six Nation" Council of Indians will assemble at Tonawanda to-day at the lower Council House, and will hold five days. The Oneidas, Onondagas, Alleganys, and other American tribes, as well as the Mohawk, Chippewas, Delawares, Cayugas, Stockbridge and Moravian Indians, of Canada, are notified and expected to be present. The Tonawandas anticipate a great time. The Council House, where the meeting takes place, is situated above five miles from the Akron Station.

The President has appointed his nephew, James Buckhan, a young lawyer of Philadelphia his private Secretary. Mr. Shannon, who has been acting temporarily, having been detailed from the Treasury Department for that purpose, will resume his place in the Department.

Episcopal Convention.

RICHMOND, Oct. 22.

The Episcopal Convention to-day unanimously elected Rev. Dr. Joseph C. Talbot, of Indianapolis, Missionary Bishop for the north-west. The Convention will adjourn to-night.

Before the final adjournment, the House of Bishops consecrated Rev. Henry C. Lay, Missionary of the south-west.

CLARLES DE HEINTZE M. D
PHYSICIAN & SURGEON.

From Berlin, lately from Rochester and Syracuse, begs to inform the public of Batavia and vicinity that he has taken rooms at the Western Hotel Batavia N. Y., where he firmly will stay a fortnight from October 20th. Dr. de Heintze has been Surgeon to the Royal Charity Hospital Berlin and Physician to the Elizabeth Hospital in Berlin. He is a member of the medical society of Prussia and member of the Homoeopathic Academy of Palermo.

From the great advantage he enjoyed at those institutions in treating the various diseases the human system is liable to he confidently offers his services to the suffering public and solicits their patronage; he pays particular attention to the diseases of Eye and Ear which he treats with the utmost success which has attended his practice for the last fourteen years.

IT IS a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentions, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial!

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgy pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fleur Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old school Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without exposure, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for $5 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

THE GREAT AMERICAN

Boot & Shoe Store,

No. 2, Odd Fellow's Hall

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprits to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS.

and *would* recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of Judges; and *MECHANICS* to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

Batavia, August 11th, 1859.

THOMAS YATES.

DR. N. R. C. ROWE.

URISCOPIAN PHYSICIAN.

(Late from the Island of Barbadoes, West Indies)

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections, Tumors, Diseases of the Lungs, Throat, Liver, Kidneys, &c., &c. Also Scrofulous and all other Chronic Diseases, at his office No. 6 Stone Block, corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathesome disease, CANCER—the thoughts of which chill the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skillful Physicians as decidedly incurable. These patients now live as witnesses to this fact. CATARRH, this most awful disease, which if not checked, terminates in Consumption, he can cure most speedily.—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practioner and no self taught man. Dr. R. has discovered a speedy and certain cure for such cases of that fearful and ravaging disease Cancer, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer cannot be cured. Dr. ROWE however, has after a thorough investigation long study of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases more correctly and successfully than by any other mode of examination. The reason that a great many curable diseases are deemed incurable is simply from not finding out the real secret of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and $1 as a fee for testing it, at the same time stating their age, will be told their disease. Letters addressed to Box 864, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. References as to his mode of treatment can be given to some of the first Physicians in this country.

☞ Dr. Rowe will be at the Exchange Hotel, Attica, for 4 days, Tuesday, Wednesday, Thursday, Friday, Oct. 4, 5, 6, 7, where he can be consulted on the above diseases.

Arrival of the Steamship Anglo Saxon.

LATER FROM EUROPE.

The Great Eastern to Remain in England During the Winter.

FATHER POINT, Oct. 23.—The steamer Anglo Saxon, from Liverpool at 10 A. M. of the 10th, passed this point at 8 A. M. to-day, en route for Quebec.

The steamship Nova Scotian arrived at Liverpool at 11:30 P. M. of the 11th.

The prorogation of the conference is anticipated. Difficulties still remain unadjusted, and it was doubtful when the treaty would be signed. The plenipotentiaries of all the three powers held conferences on the 19th inst., and couriers were afterward dispatched to Vienna and Turin.

The Times' Paris correspondent says that the delay is attributed to Austria; that the Vienna Cabinet was doing all that it could to win over the Emperor to its views, while at the same time it was reported to be preparing a collision against him in Germany.

GREAT BRITAIN.

The Great Eastern quitted Portland at a quarter before 4 P. M. on the 8th, and anchored in Holyhead a quarter before 4 P. M. on the 10th, having accomplished the voyage round under favorable circumstances. The distance run during the 48 hours is said to be something over 550 miles. The average rate of speed for the whole trip is stated to be a little over 13 knots, though during the greater part of the time the engine did not go at more than half that speed. The greatest speed attained was over 14½ knots, or nearly 17 miles per hour. This was accomplished without any special exertions on the part of the engines, but a considerable quantity of canvass was spread. The weather during the trip was squally, and at times heavy ground swells were experienced, causing, according to some authorities, a good deal of pitching and rolling on the part of the vessel, while others say that the motion at all was most slight.

It was reported that the Great Eastern would remain at Holyhead 10 or 12 days, and then proceed to Southampton to have her boilers thoroughly repaired, in accordance to the requirements of the Board of Trade.

The correspondent of the London Times on board the steamship, writing before the run to Holyhead, says it is more than probable that the ship will not leave England during the winter, and that Southampton will probably be her winter quarters.

The London times, in another editorial on the San Juan difficulties, reiterates the denunciation of Gen. Harney's course.

Rumors were current of considerable differences, and even a split in the English Cabinet, on the Chinese question.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS, Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but *Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, has control over but one ill, has but one aim, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength it effectually cures inflammatory diseases, (no other,) by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

NOTICE TO INVALIDS!! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all Itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

HOSTETTER'S STOMACH BITTERS.

IT is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhœa, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Coughs, Dyspepsia, General Debility, and all Nervous Disorders.

The success of the NEW REMEDY (discovered by Dr. Churchill of Paris) in checking and in curing this fatal disease, has acquired for it an UNBOUNDED POPULARITY throughout Europe and the United States. It is a potent INVIGORATING PREPARATION, and acts with UNEQUALED EFFICACY in all forms of Consumptive and Nervous Diseases. The Hypophosphites *increase the Principle which constitutes Nervous Force, and are the most powerful blood generating agents known.*

The Cure of Consumption.

In CONSUMPTION and [illegible] (at a period, unexpectedly when there can be no uncertainty as to the nature of the disease) can be obtained, IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

This Remedy has not only a curative effect, but will, if used whenever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act as a PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

☞ Professional Correspondence.

"COLUMBUS, Ohio, Aug. 2, 1859.—I have been treating the disease for twenty-five years, and have derived more satisfaction from the use of the HYPOPHOSPHITES *than from all other forms of medication combined.*"

"MANCHESTER, Mass., Aug. 8, 1859.—I have used the Hypophosphites in my practice *with very happy effects*—so much so that I would not be [illegible]"

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

W. H. STORY.

Rail Track and Lands for Sale, AT AUCTION.

A JUDGMENT HAVING BEEN OBTAINED at a Special Term of the Supreme Court of the State of New York, held at [illegible], Steuben County, on the [illegible] December, 1858, in an action wherein John A. Stevens and others were plaintiffs, and The Buffalo, Corning and New York Railroad Company and others were defendants—directing the sale by a Receiver of all the property of said railroad corporation covered by their first mortgage—and the undersigned, as Trustees for the holders of the first mortgage bonds of said Company, having purchased, at such Receiver's sale, the said property, they will, as such Trustees, sell at public auction, by Samuel B. Hard, Auctioneer, at the Rotunda of Spaulding's Exchange, in the City of Buffalo, in the county of Erie, on Wednesday, the ninth day of November, 1859, at 12 o'clock at noon, that portion of the said property which is described as follows, to-wit: All the interest of said Trustees in and to all that part of the rail track of The Buffalo, Corning and New York Railroad Company, and of the lands or in certain lands acquired by said Company for a rail track or other purposes, lying all in the city of Buffalo, in the county of Erie, and extending from thence to the [illegible] in [illegible], in the county of [illegible].

Also all the interest of said Trustees in and to the following described lands, to wit: All and singular, those lands conveyed by [illegible], Jr., to the said railroad company, by deed, dated July 21, 1853, described as follows: "All that piece or parcel of land situate in the town of Black Rock, in the county of Erie, in the State of New York, being part of lot No. 2, township 11, range 8 of the Holland Land Company's land, and bounded as follows, [illegible] at a point in the west line of said lot No. 2, at its intersection with the northerly line of a strip of land 125 feet wide, which has been heretofore staked out for the tracks of the Buffalo and Rochester Railroad Company and the Buffalo, Corning and New York Railroad Company; said point is also about [illegible] feet north from the centre line of Williams street, running from thence northerly along said west line of said lot, [illegible] hundred and twenty [illegible] feet; thence east at right angles with said west line of said lot number 2, twelve hundred and ninety six feet three fourths of a foot, to the east line of the [illegible]; thence south along said east line of said [illegible] hundred and [illegible] feet to the northerly line of the above described strip of land of one hundred and twenty five feet in width, heretofore staked out for the tracks of the said Buffalo and Rochester Railroad and the Buffalo, Corning and New York Railroad Company, and thence southwesterly along [illegible] and two feet and three fourths of a foot, to the place of beginning, containing forty acres of land, on the same more or less."

Also, all those lands conveyed to Constant Cook, as agent or commissioner for said company, by James [illegible] and wife, of Buffalo, date of deed December 2d, 1853, described as follows: "Lot situated in the city of Buffalo, distinguished as part of outer lot No. [illegible], and bounded as follows: Beginning at a point in the westerly line of Louisiana street, [illegible] hundred feet northerly from the north line of Exchange street, and running thence northerly on the west line of Louisiana street, twenty-five feet; thence westerly at right angles with Louisiana street, one hundred feet; thence southerly and parallel with Louisiana street, twenty-five feet; and thence easterly one hundred feet to the place of beginning; being the southerly half of a lot fifty feet wide, which was conveyed to Thomas E. Sherwood by Martin Daily, by deed recorded in the Clerk's Office, Erie County, Liber 69 page 179."

And conveyed as aforesaid by the heirs of John Clapp, deed dated Dec. 29th, 1852, described as follows: Lot on west side of Louisiana street, in the city of Buffalo, commencing one hundred feet north of Exchange street, and running thence northerly on Louisiana street, being twenty-five feet front and rear, by one hundred feet deep;

And conveyed as aforesaid by Joseph Hottinger, June 30th, 1853, described as follows: Lands situated in the town of Black Rock, being part of lot No. 30, in the eleventh township and seventh range of the Holland Company's Lands, bounded as follows: Being a strip of land bounded on the easterly end by the highway and lands of William Bailey; on the westerly end by lands now owned by Oliver [illegible] and wife and others; and on the northerly and southerly sides by lands owned by the above named Joseph Hottinger; said strip of land being [illegible] feet in length, as measured on the centre line of track of Railroad Company, and 125 feet in width, to-wit, 72 feet on southerly side, and 53 feet on northerly side of said centre line, containing [illegible] acres of land.

Also, a piece in the same county and town, being a part of said lot number 30, bounded as follows: Being a strip of land bounded on the easterly end by said land conveyed as aforesaid to Oliver [illegible] and others, on the westerly end by lands owned by heirs of Henry H. [illegible], and on the northerly and southerly sides by lands owned by the above named Joseph Hottinger; said strip being seven hundred and twenty [illegible] feet in length, as measured on the centre line of the track of said Railroad, and 125 feet in width, to-wit, 72 feet on the southerly and 53 feet on the northerly side of said centre line, containing two acres of land, more or less.

Also, the land conveyed as aforesaid, by William Bailey and wife, June 29th, 1853, described as follows: Land in town of Black Rock, part of lot 41, township 11, range 7 of the Holland Company's Lands, bounded on the easterly end by lands formerly owned by W. H. Green, now by [illegible] on westerly end by lands of Joseph Hottinger and the centre of the highway on the northerly and southerly sides by [illegible] of the said grantors; being [illegible] feet in length as measured on centre line of Railroad track and 125 feet in width, to-wit, 53 feet on north side, and 72 feet on south side of centre line containing [illegible] acres.

Also by William H. Green and wife, June 1st, 1853, described as follows: Part of lot 41, township 11, range 7, of the Holland purchase; a strip bounded on the easterly end by lands of W. V. B. Watson; on the westerly end by lands of W. Bailey; and on the northerly and southerly sides by lands of grantors, being [illegible] feet in length, and 125 feet in width, [illegible] 72 feet on southerly side, and 53 feet on northerly side of centre line of intended track of Railroad, containing about [illegible] acres [illegible].

Also, by Thomas [illegible] and wife, April [illegible] 1853, described as follows: Land in city of Buffalo, beginning at a point in the west line of Pollard street, [illegible] feet south from [illegible] street; running thence westerly on a line parallel with [illegible] street, 167 feet, to the west line of subdivision lot 16; thence southerly along the west line of said lot No. 16, [illegible] feet; thence easterly at right angles and along the south line of land deeded to Young, [illegible] feet; thence southerly along [illegible] line of land deeded to said Young, to lands deeded to the Attica and Buffalo Railroad Company; thence northeasterly along the line of land so conveyed to said railroad company to Pollard street; thence on the west line of Pollard street to the place of beginning, reserving an alley 4 feet wide on the north side of said land, and 167 feet in length, from Pollard street to the west line of subdivision lot No. 16.

Also, by George M. Kobb and wife, March 2d, 1853, described as follows: Land in the city of Buffalo, bounded as follows, Beginning at a point in the south line of Seneca(?) street, [illegible] feet easterly from the east line of Alabama street, and runs thence easterly on the south line of Seneca street, [illegible] feet; thence southerly at right angles to [illegible] street to the line of the Buffalo and Rochester Railroad Company's lands; thence southwesterly along the said line of the railroad land, to a point where a line commencing at the first above mentioned point [illegible] at right angles with [illegible] street would intersect said line of railroad lands; and thence northerly and at right angles with [illegible] street to the place of beginning.

Also, by Calvin [illegible] and wife, February [illegible], 1853, described as follows: Land in city of Buffalo, commencing on the south line of North Division street, [illegible] feet east from the east line of Grosvenor street; thence east along the south line of North Division street, [illegible] feet, to the line of the Buffalo and Rochester Railroad lands; thence [illegible] on said railroad lands, [illegible] feet, to a 20 feet alley; thence westerly and at right angles to and within [illegible] feet east of the east line of Grosvenor street; thence northerly and parallel with Grosvenor street, [illegible] feet to North Division street, the place of beginning.

Also, by Mary and W. A. Clarke, January 15th 1853, described as follows: Land in the city of Buffalo, beginning at a point in the northerly line of Seneca(?) street, 41 feet easterly from the east [illegible] of Hamburgh street; thence easterly along the northerly line of [illegible] street, 11 feet; thence northerly at right angles with [illegible] street [illegible] feet; thence westerly parallel with [illegible] street, 11 feet; and thence southerly at right angles, [illegible] feet to the northerly line of [illegible] street, the place of beginning, subject to the rights of the Buffalo and Attica Railroad Company, whose track crosses said premises.

Also, by Robert Hadfield and wife, February 2d, [illegible], described as follows: Land in the city of Buffalo, beginning at a point in the north line of Exchange street, at the east corner of Alabama street; running thence east along the north line of Exchange street, [illegible] feet; thence north at right angles [illegible] to [illegible] street; thence west along the south line of [illegible] street, [illegible] feet to Alabama street; thence south along the east line of Alabama street, 110 feet to the place of beginning.

Also, by Edward [illegible] and wife, March 1, 1853, described as follows: Land in city of Buffalo, beginning at a point in the southerly line of [illegible] street, [illegible] feet, easterly from the easterly line of Alabama street, and runs thence easterly on said southerly line of [illegible] street 21 feet; thence southerly on a line at right angles with [illegible] street, 117½ feet; thence at right angles westerly, 20 feet; thence at right angles northerly 117½ feet to the place of beginning.

Also, by Cornelius Burns and wife, February 17th, 1853, described as follows: Land in city of Buffalo, beginning at a point in the south side of [illegible] street, at the distance of [illegible] feet east of [illegible]; thence easterly on said line of [illegible] street, 30 feet; thence southerly parallel with Alabama street to Exchange street; thence westerly on Exchange street, 30 feet; and thence northerly about [illegible] feet to the place of beginning, subject to all the rights of the Buffalo and Rochester Railroad Company:

Also, by Richard J. Carey and wife, February [illegible], 1853, described as follows: Land in city of Buffalo, beginning at a point in the northerly line of Exchange street, [illegible] feet, easterly from Alabama street, and runs thence northerly at right angles to Exchange street, to the south line of [illegible] street; thence easterly along the south line of [illegible] street, 25 feet; thence at right angles southerly to the north line of Exchange street; and thence 25 feet, to the place of beginning.

Mrs. [illegible]'s Baby Boy.

But James was destined to put "faculty" and every other talent which his mother possessed, to rout. He was an infant of moods and tenses, and those not of any regular verb. He would cry of nights and he wouldn't be taken up of mornings, and he would not suck his thumb, nor a bundle of caraway seed tied in a rag and dipped in sweet milk, with which the good gossips in vain endeavored to pacify him. He fought manfully with his two great fat fists the battle of babyhood, utterly reversed all nursery maxims, and reigned as baby over the whole prostrate household. When old enough to run alone, his splendid black eyes and glossy rings of hair were seen flashing and bobbing in every forbidden place and occupation. Now trailing on his mother's gown, he assisted her in salting her butter by throwing in small contributions of snuff or sugar, as the case might be; and again after one of those mysterious periods of silence which are of most ominous significance in nursery experience, he would rise from the demolition of her indigo-bag, showing a face ghostly with blue streaks, and looking more like a gnome than the son of a respectable mother. There was not a pitcher of any description of contents left within reach of his little tiptoes and busy fingers that was not pulled over upon his giddy head without in the least seeming to improve its steadiness. In short, his mother [illegible] that she was thankful every night when she had fairly gotten him into bed and asleep; James had really got through one more day and killed neither himself nor any one else.

As a boy, the case was little better. He did not take to study—yawned over books and cut out molds for running anchors when he should have been thinking of his columns of words in four syllables. No mortal knew how he learned to read, for he never seemed to stop running long enough to learn anything; and yet he did learn, and used the talent in conning over travels, sea-voyages, and lives of heroes and naval commanders. Spite of father, mother, and brother, he seemed to possess the most extraordinary faculty of running up unsavory acquaintances. He was hale-fellow well-met with every Tom and Jack and Jim and Ben and Dick that strolled on the wharves, and astonished his father with minutest particulars of every ship, schooner, and brig in the harbor, together with biographical notes of the different Toms, Dicks, and Harrys by whom they were worked.

The Blondin Story in Paris.—The *Pays*, of Paris, extracts from the *New Examiner* a long notice of the performance of Blondin on the tight rope at Niagara, the terrible conclusion of which was a fall into the raging cataract. The sun, it is stated, came out from the clouds when he was half way across his rope, and, dazzled, he lost his balance and fell. His body had not been discovered.

There was a holy man that rarely heard of other men's crimes, but he usually bedewed the place with his tears, considering that the seeds of those very sins were in his own nature. In thy nature there lies that which would lead thee, with the Pharisee, to oppose Christ, and with Judas, to betray Christ, and, with Pilate, to condemn Christ, and, with the soldiers, to crucify Christ. Oh! what a monster wouldst thou prove, should God but leave thee to act suitably to that sinful and awful nature of thine!

Earthly riches are called thorns, and well they be, for, as thorns, they pierce both head and heart; the head with care in getting them, and the heart with grief in parting with them.

Square Jack was a cabinet maker and undertaker, known far and wide as a master workman. One day a couple came to his office to get married. The man's face was familiar to the Squire, and he reminded him of it, [illegible] "Begone! You scoundrel! You haven't paid me for your first wife's coffin." Rather ghostly, [illegible] that.

The "Advocate" and the "Republican Ticket."

"The Herald sneers at our defence of the Republican Ticket. When it can find any objection to the nominees which renders any of them either unfit or improper men for the offices for which they are nominated, it will do what it has never yet accomplished.

The Herald denounces the Republican Ticket, as it always does, but it has failed as yet to show any single act which any of our candidates have done which renders them improper persons. General, wholesale attacks are easily made—but it will find it hard to specify any particular charge against our candidates—save that they are Republicans."—]Republican Advocate.

Fairly said, Mr. Advocate, and as you have invited us to the task, we will endeavor as fairly to meet it. We perfectly agree with our worthy neighbor, that "general, wholesale attacks are easily made," but we must beg, most respectfully to differ with him, when he says, "it will find it hard to specify any particular charge against our candidates." We accept the challenge, and with refference to one of them, at least, will endeavor to show before we get through with him, that the writer for the Advocate has been most unwise in thus exposing him to the "fire of the enemy."

When an individual thrusts himself before the public, and claims the suffrage of the people for a high and responsible office, it should be exacted of him that he possess more exalted claims for support than the simple fact that "he is the nominee of the party." This may be sufficient for those who "make politics a trade," and "fatten upon the spoils of office," but it is not, and ought not to be enough for those who have higher and nobler aspirations in view. More especially should this be held to be true, when such an individual asks to be invested with the "Judicial Robe," to be exalted to that place which is to throw around him the "awful majesty of the law," and give into his hands the right to sit in judgment over the acts of his fellow men. Such a person should be "not only pure, but above suspicion," he should be able to show a clean record, exemplifying in his own life, that

> "The purest treasure mortal times afford,
> Is spotless reputation; that away,
> Men are but gilded worms or painted clay."

Does the career of Joshua L. Brown, the Republican Candidate for Judge of this county, present such a record? It is always an unpleasant, an ungracious task, to open up, and expose to the public gaze the black catalogue of our neighbors faults, much rather would we speak of their virtues; and nothing short of the stern and uncompromising demands of public duty, would prompt us to pursue a different course in the present instance. If Mr. Brown occupied a private position; if he was not beseeching the electors of this county again to bestow upon him the office of Judge and Surrogate for another four years, we should not presume to draw the vail from some of his acts, since he has been among us, which go far to stamp the seal of dishonor upon his conduct, and subject him to the suspicion, at least, of being untrustworthy. Besides, were we to omit doing this, did we refuse to take up the gauntlet so boastingly thrown to us by the writer for the "Advocate," we might perhaps, with some show of plausibility be accused of a failure "to specify any particular charge against" him, "save that he is a Republican."

Much that is good; all that is worthy of imitation in our institution of government must depend, mainly upon the judicious and rightful exercise of the "vote by ballot." In a political point of view, it must be regarded as a "sacred right" and its exercise should never be trifled with, or lightly performed. In voting for a candidate for office, the elector should be satisfied that he is "honest, capable, and faithful;" otherwise, this dearest right of a freeman becomes a mere farce, and he may lend himself to the perpetration of a great wrong. Can the electors of this county vote for Mr. Brown for Judge, and justify themselves before God, and their own consciences, and say they have done right? Let us see.

A General Term of the Supreme Court was held at Batavia in 1858, by Messrs. MARVIN, DAVIS, GREEN and GROVER, Justices of the Supreme Court for this District.

Among the cases brought on for argument were four between the New York Central Railroad Company, and the Buffalo New York and Erie Railroad Company. Judge Brown appeared as Counsel for the New York Central, and Judge Hoyt for the Buffalo New York and Erie, each of which, after argument, was decided against Judge Brown. Shortly prior to the sitting of the General Term, the N. Y. Central R. R. Co., had procured an injunction to be granted by a Justice of the Supreme Court, residing at Troy, to restrain the other Company from taking steps to effect a crossing of their road, over the track of N. Y. Central at Batavia which injunction was served. In order to get rid of it, a motion for its dissolution was made before Mr. Justice DAVIS, on the part of the Buffalo, N. Y. and Erie R. R. Co. Judges Brown and Hoyt Counsel for the respective parties made and signed a stipulation, agreeing to a certain state of facts to be admitted on the hearing of the motion to dissolve the injunction. The motion was heard and the injunction dissolved. An appeal was then taken by the N. Y. Central to the General Term, and this was one of the four cases referred to above. The papers by some means were in the possession of Judge Brown. On the day previous to the hearing of the appeal, Judge Hoyt applied to Judge Brown for the papers. Judge Brown replied that he had had a fair copy made and would give it to him; Brown gave Hoyt what *purported* to be a *copy*. Hoyt took it to the Hotel, and in the evening on reading it over became satisfied that it was *materially* different from the original. On the morning of the day the appeal was heard, Hoyt asked Brown for the *original* papers, Brown said that he had given him a *copy*. Hoyt *told* him he wanted the *original*; after expressing some doubt as to whether he had them or not, he fumbled awhile among his papers, found and handed them over to Hoyt. On examination Hoyt ascertained *that the original stipulation had been altered*. When in the course of the proceedings it became necessary to read the papers in this appeal case, Brown read from a copy as altered. Hoyt enquired of the Court whether the appeal was to be heard on the *original papers or others*. One of the Justices replied, "upon the original papers of course." Hoyt informed the Court that Brown was reading something different, and insisted upon it, and declared his willingness to make an affidavit of the fact. Brown denied substantially that the papers had been altered; he said "you are mistaken, Mr. Hoyt." Hoyt replied that he was not mistaken, and that by inspecting the original, the Court would be convinced of the alteration. As may well be supposed the announcement, that an important alteration, had been made in papers on which the result of the appeal depended, caused intense excitement in the court room; and there being a good many lawyers present, several of them not interested otherwise in the case exhibited great anxiety to find out the truth of the matter, and on a careful inspection of the *original*, it was apparent not only that an *important* alteration had been made, but that several other changes had been made to bring the whole stipulation into consistency with the first discovered alteration; and further, they became satisfied *that Brown himself had done it all!* Such indignation as was apparent among the members of the bar has been rarely witnessed. Brown however proceeded with his argument for nearly an hour, seeming much embarrassed by the exposure that had been made, when feeling probably that it would be impossible to carry the imposition further, he made a virtue of necessity and confessed *that he had himself made the alterations*; and attempted an excuse for his conduct, which however well it might have pleased himself, did not satisfy the Court, nor his brethren of the bar. One of them was heard to remark, "had this occurred before the *old* Supreme Court, it would have been his last appearance there, *except as a culprit*."

Judge Brown's tergiversations did not end here. He urged the Court to consolidate the four cases, or to enter one order covering the four cases. The object of this undoubtedly was to get such an order entered as would allow an appeal to the Court of Appeals to be taken, and thereby tie up the *matter* for two or three years. The Court however thought proper to decide the cases separately, and directly after announcing the decisions of the several cases heard, adjourned *sine die*, and the Judges left the court room, except Judge Davis, who remained engaged in writing. Judge Brown then endeavored to induce Hascall the Clerk, to enter one order covering all *four* cases. Judge Hoyt opposed this and claimed that the cases had been decided separately and that he was entitled to have a separate order in each, and proposed to leave it to Judge Davis who was sitting by. Judge Brown declined this offer in not very amiable terms. Notwithstanding Judge Hoyt did ask Justice Davis how the entry was to be made and he replied "separate orders of course." For the satisfaction of Hascall the Clerk, Judge Hoyt enquired of all the other Justices, and they all agreed with Justice Davis; and finally separate orders were entered, from which Brown took appeals, and Hoyt got the appeals dismissed.

Such is a picture, truthfully drawn, from one stand-point, of the candidate for whom the votes of the electors of this county are solicited for Judge and Surrogate.—The very act *of voting for a man*; of surrendering into the hands of one individual, the sacred rights and interests of a whole community, pre-supposes, in some measure, that such community become a part of him, and that his moral, business, and political integrity, is but the mere reflex of those who have invested him with official honors and dignity! Farmers, mechanics, and business men of Genesee County! You who have lived a life of honor and probity; and whose business integrity has never been sullied by the commission of a dishonorable act, it is to you we address ourselves, and ask, "can you, with the responsibility of the act resting upon your consciences, cast your vote for Joshua L. Brown?" We ask you in the spirit of candor; we ask you by the obligations by which you are bound to do right, to ponder and reflect upon this question. We ask you as MEN, not as *politicians*, if the time has come when you are to sink your manhood so low, as to bow submissively to the vassalage of party, and vote for such a man?

We have been pressed by the Advocate, with how little wisdom we leave for the public to judge, to point out an objection to the nominees of its party, "which renders them either unfit or improper men for the offices for which they are nominated." We respectfully ask the electors of this county, if we have not done so? It has been by no means a pleasant task, and had we not been driven to it by the friends of Judge Brown, should have permitted it to slumber with the records of the Court. The case to which we have alluded was notorious in this community at the time, and is still fresh in the recollection of *many* of our most respectable citizens. But we have discharged our duty, and we can leave the matter in the hands of the electors, satisfied that upon reflection, they will *feel it* to be *their duty* to cast their votes in reprobation of *such* a candidate, for *such* an office.

The Ticket of the Genesee Mutual Insurance Company.

EDITOR OF THE HERALD:

William Tyrrell, nominated for the office of District Attorney, has been the favorite *Auditor* and Referee of the Genesee Mutual Insurance Company, since it passed into the hands of the present Receiver. Harry Wilber seemed to be the presiding genius at the Republican caucus in Batavia; and he could not conceal his joy, when it appeared that the Tyrrell and Brown delegates were elected. The Receiver of the Genesee Mutual Insurance Company, with others, was active in getting in Harry Wilber's Democrats to vote for the Tyrrell and Brown delegates.—And when the caucus was over in Batavia he and another person went from Batavia to the Republican caucus in Byron, where a set of bogus delegates was elected by the defeated minority, to neutralize the regular Taggart delegation from that town. James Summerfield, the Secretary of the Genesee Mutual Insurance Company, has been the champion mouth piece of the Tyrrell and Brown party. He was put forward in the people's convention to make a speech against Mr. Taggart, and he has written several communications, published in the Republican Advocate, against Mr. Taggart, and in favor of the Tyrrell and Brown nomination. It is said that Lucius N. Bangs, the former Receiver of the Company, was the author, or one of the authors, of the anonymous attack upon Mr. Taggart, which appeared in the Advocate on the 13th inst. and was sent into the People's Convention, and delivered to its members. Charles Barlow, one of the attorneys of the Company while in the hands of the former Receiver, is one of the Central Committee, that recently issued a circular against the People's Ticket and in favor of the Tyrrell and Brown ticket. Augustus P. Hascall, the President of the Genesee Mutual Insurance Company, supports the latter ticket, and opposes the People's ticket. It will be seen that the President, both Receivers, the Attorney's, the Secretary, and the Auditor of the Genesee Mutual Insurance Company, are all opposed to Mr. Taggart and Mr. Willett, and in favor of Mr. Brown and Mr. Tyrrell. Such being the *facts*, comment is unnecessary. *

THE WAY THEY DO THE THING IN FRANCE.—A man named Henault was brought before the Police Court, in Paris the other day, having been detected by two police agents just as he was about to cut off the pocket of a countrywoman, at the Jardin des Plantes, while giving his unwary victim a lecture on the natural history of the hippopotamus. The *modus operandi* of the learned Professor is thus described by the agent who arrested him: "Madam," said the naturalist to his listener, "this animal, which is also known by the name of the seahorse, does not much frequent the society of man; it amuses itself in the water and in marshy grounds, and grows fat there like you or me.—While alive, it eats rattlesnakes, melons, and sometimes its own young ones, as you may have recently read in all the journals of Paris. (Here the Professor quietly drew from his pocket a pair of scissors) The savages make roast beef of its flesh, worsted stockings and razorstrops of its skin and with its tail they fabricate bellropes for their houses. (Here the Naturalist, who had his scissors in his right hand, gently placed his left on the pocket of the woman.) After death they are liable to be stuffed, as a proof of which you may see several in the Museum of Natural History in this city." Here the lecture was brought suddenly to a close by the professor being seized by the agents, just as he was about to effect his *coup* by cutting off the pocket. The woman lost the conclusion of the explanation, but saved her property. Henault, in his defense, declared that he was about to use the scissors to cut his nails. He was condemned to 13 months' imprisonment and five years' surveillance.

WHAT THE WEST WANTS.—The Rev. Peter Cartwright, "the Pioneer Preacher of the West," recently addressed a large audience in Philadelphia, giving incidents of his life. He discoursed as follows concerning the preachers now sent to the West, in contrast with those of earlier days.

"Of late years, my friends, another breed of preachers is transferred to us; these are the hysterical, dyspeptic, sore-throat, blue-gingerfield sort of preachers.—They travel among you; they are unacceptable; they are useless lumber; and lo! their zeal all at once moves (like a seventy-four rigged for England) to go to the West, and "help the West." We don't want any such cattle. I tell you now, in my seventy fifth year, I can outpreach and outwork dozens of these old dyspeptic things.

An ingenious mechanic has made, with his penknife, a miniature machine shop, fully equipped, and in working order, which is quite a wonder in its way. The size of the frame-work is about four by five feet, and within stands a locomotive in complete trim, a double engine, circular-saw, morticing apparatus, &c; in fact, all the different kinds of machinery generally met with in a shop of that kind.

Effets of Smoking.—Cancer in the mouth, M. Bouisson a Paris Surgeon declares to have grown so frequent from the use of tobacco that it now forms one of the most dreadful diseases in the hospitals, and at Montpelier, where Mr. Bouisson resides, the operation of its extraction forms the principal practice of the surgeons there. In a short period of time, from 1845 to 1859, M. Bouisson himself performed sixty eight operations for cancer in the lips at the Hospital Saint Eloi.

THE GREAT AMERICAN

Boot & Shoe Store,

No. 2, Odd Fellow's Hall.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No. 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprets to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of his

ENTIRE SUCCESS,

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

Batavia, August 11th, 1859.

THOMAS YATES.

DR. N. R. C. ROWE.
URISCOPIAN PHYSICIAN.

(Late from the Island of Barbadoes, West Indies)

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections, Tumors, diseases of the Lungs, Throat, Liver, Kidneys &c., &c. Also Scrofulous and all other Chronic Diseases, at his office No. 4 Stone Block, corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other medical man of his Profession. He has cured entirely some of the worst cases of that most loathsome disease, CANCER—the thoughts of which chill the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skilful Physicians as decidedly incurable. These patients now live as witnesses to this fact. CATARRH, this most awful disease, which if not checked, terminates in Consumption, he can cure most readily.—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practioner and no self taught man. Dr. [illegible] has discovered a speedy and certain cure for such cases of that fearful and ravaging disease CANCER, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer can not be cured. Dr. Rowe however, has after a thorough investigation and study of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases more correctly and successfully than by any other mode of examination. The reason that a great many curable diseases are deemed incurable is simply from not finding out the real secret of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and $1 as a fee for testing it, at the same time stating their age, will be told their disease. Letters addressed to Box 804, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. Reference also to his mode of treatment can be given to some of the first Physicians in this country.

☞ Dr. Rowe will be at the Exchange Hotel, Attica, for 4 days, Tuesday, Wednesday, Thursday, Friday, Oct. 4, 5, 6, 7, where he can be consulted on the above diseases.

Arrival of the Ocean Queen.

Later from Europe.

NEW YORK, Oct. 24.

The steamship Ocean Queen brings London advices of the 18th.

The ship Quebeck, of New Orleans, was wrecked at Edystone Lighthouse on the 11th. She was from Bordeaux for Shields.

Robert Stevenson died on the 12th.

Numerous arrests had been made at Parma, and the principal authors and accomplices of the murder of Anviti, are in the hands of justice. The town was tranquil, and the disarming of the populace had been order. The town was surrounded by Modena and Tuscan troops.

Gen Garibaldi had issued a proclamation to the army of Italy. He says,

SOLDIERS:—The hour of a new struggle approaches. The enemy is threatening and will, perhaps, attack us before many days are over. In addressing my old companions of Lombardy, I know I am not speaking to deaf men, and that it is enough to tell them that we are going to fight the enemy of Italy. I shall look to see you there, firm in your ranks.

Dated, BOLOGNA, October 5th.

The Pope was to have an interview with the King of Naples at Castle Gandolfo, where he will prolong his stay on account of the agitated reigning in Rome. After his departure a demonstration took place in honor of the Sardinian Ambassador, and a crowd of visitors, estimated at 10,000, left their cards at the Ambassador's residence. The French gen de armes preserved order, but the effect of the demonstration was profound. The Ambassador was to leave on the 10th, when another violent demonstration was expected.

A Zurich dispatch of the 11th, says the conferences do not draw to a close. Austria still refuses to diminish the amount of the debt of Lombardy to be borne by Sardinia. The demands of Austria are not only resented by Sardinia, but do not receive the support of France, who has proposed to submit the disputed point to the arbitration of another power. No answer had been received to the proposition.—The French government wishes the arrears of the pensions of the Monte Napoleon and an indemnity for the cost of the late war to be included in the settlement of the debt which will have to be paid by Austria and Piedmont.

The Emperor was expected at Paris on Wednesday night.

An Envoy of the Sultan had arrived at Alexandria, bearing an order to the Viceroy of Egypt, to oppose the continuation of the works of the Suez Canal.

The foreign Consuls had immediately assembled.

Letters from Madrid say that the Emperor of Morocco had ratified arrangements conceding with the frontier line of Melila, and expressed readiness to give Spain all the satisfaction she demanded.

Additional discoveries made at Constantinople concerning the conspiracy, asserted that incendiary machines were discovered which were destined to burn the European part of the town.

The Grand Vizier had tendered his resignation, but it was refused. It was evident, however, that a dissolution of the Ministry inevitable.

New War Contract.

A new loan was contracted under heavy conditions.

On the occasion of the obsequies of the Bey of Tunis, the Moors assailed the Jews, wounding many of them mortally. They wounded some Christians, and also the Minister of the new Bey, who came to the rescue, striking and killing many on the spot, and caused thirty Musselmen to be arrested. Tranquility finally prevailed.

AND
LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,
PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa. To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

DR. COGGSWELL'S NEW MEDICAL SALT.

For Inflammatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

Dr. Coggswell's New Medical Salt instead of its being a remedy for all ills, has control over but one ill, has but one aim, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

New Medical Salt. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (no other) by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

Notice To Invalids!! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, sore nose, lungs and liver, Neuralgia, Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

Dr. Coggswell's New Medical Salt does just what is claimed to do—no more, no less—equalizes the fluids by removing from the [illegible] obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

Dr. Coggswell's New Medical Salt. Get a Circular. Ask any Druggist about the *New Medical Salt.*

Ask your neighbors about the *New Medical Salt.* If sick try it, if not sick, remember the *New Medical Salt.*

Dr. Coggswell's New Medical Salt is for sale in Batavia by [illegible] W. Fellows and by all enterprising Druggists wherever the Herald is [illegible]

As it is not a Patent Medicine, but the prescription of an eminent Physician, no one should fail to try the New Medical Salt.

For testimonials and directions see circular.

HOSTETTER'S STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any bilious Complaints, arising from a morbid inaction of the stomach or bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhoea, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

Fever and Ague.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

Ayer's Sarsaparilla,

[illegible] complaints.

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION,

BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eda Hayville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of our readers. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Gulielmo, the Hero of Italy! Harry Hazel's exciting Indian Romance, The Mute Spy! Francis S. Smith's intensely interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting *melange*, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Market Reports, our Items of Interest, &c., &c. In a word, the Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has come up to a circulation which places it second in point of circulation in the list of publications of the day. There is not one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the canvassers were taken tens, they are now taking hundreds of copies. This is the general effect among the [illegible] thousand News Agents who are now regularly selling the NEW YORK WEEKLY, with from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 on a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3. four copies for $5, eight copies for $12. Postmaster and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to prepay the American postage.

All letters and communications, in relation to the Editorial or Business Departments of the NEW YORK WEEKLY, must be addressed to,

'Tis Found

Something True and Important.

IF YOU are crippled with Palsy or Rheumatism suffering with pains and can find no relief for body or mind—given up as beyond the reach of medical aid, and have no other prospect before you than a premature grave, read the following—pause, reflect and hope on, as an opportunity is now offered for the restoration of your health. *Profs. Chamberlin & Bolles*, of Buffalo, would say to the citizens of Batavia and vicinity that they have taken rooms at the Eagle Hotel, and will remain a few days for the purpose of introducing their new and important discovery in the use of Electricity for the cure of all curable diseases.

They solicit no patients except those given up everywhere else as incurable. The reader might here ask, do they really cure such cases or are their statements false? Have they cured any such cases in this city and vicinity, or are their cases all on paper and after all? In reply they would say they have cured and are curing every day, just such cases. They have restored to health a great number of persons in Buffalo, and surroundings, who have been suffering from various diseases, five, ten, and fifteen years and upwards, in a few days. They have cured and are curing a class of diseases that has baffled the skill of the medical profession in all ages of the world. The reader might here enquire, by what means such wonderful cures are performed? Not by irritating the delicate membranes of vital organs by drugging the stomach, but by direct application of the positive and negative polarities of electricity.—Again it might be asked, has not electricity been employed as a remedial agent for years back in Europe and the United States, with indifferent success? And are not numbers now using it, in our very midst, with no better result? This is all very true; and when we consider the ignorance and recklessness displayed in its application, the result has been more favorable than could have been anticipated. It has been considered as [illegible] in a few cases, only and [illegible] even in these. There has been no fixed principle for applying it, and, therefore, no uniform result could have been anticipated; but owing to the friendly relation existing between electricity and health, remarkable cures have been performed, which have been looked upon as a lucky hit, rather than the result of a fixed law. The ignorance displayed in the administration of this mighty agent, is unpardonable.

The current has been generally applied through the hands or feet in such power as to convulse the whole nervous and muscular system and frequently producing irreparable injury; sometimes it has been applied by means of metallic conductors to different parts of the body, which is equal to a process of cauterization—and the effect upon the nervous system is similar to that produced by over-doses of Strychnine or Quinine.

Every thing connected with their mode of applying electricity is new and original with themselves. Their philosophy for the electrical laws of life, health and disease, is new.—Their reliable method for the diagnosis of disease by electrical contact is new.

As, also, their important discovery in the use of the positive and negative polarities to the human body, for the safe and speedy removal of all diseases.

It is new and unknown to medical men and others except the few instructed by them.

By this mode of applying electricity there is no guess work; no uncertainty; and no matter of doubt as to the result that will follow.

The diseased are invited to call and witness the wonderful cures they are performing daily.

Instruction given to those desiring a knowledge of this method of curing disease.

Address Profs. BOLLES & CHAMBERLIN.

HOSTETTER'S STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhoea, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

Prepared and sold by HOSTETTER & SMITH, Pittsburgh, Pa., and sold by all druggists, grocers, and dealers generally throughout the United States, Canada, South America, and Germany.

For sale by D. Seaver; Clark & Tryon, Batavia; V. C. Calkins, Oakfield; Charles Andrus, [illegible] Barber, LeRoy; Tomlinson & Nobles, Pavilion; J. D. Doolittle, Bergen.

The Daily Herald, of Saturday, whines awfully because we have succeeded in obtaining the Telegraph Reports. It thinks that we should have made all the efforts which were necessary to get them, and then go to the conductor of that paper and offer to let the Herald into the arrangement! We have heard of many very cool things being *done* by the person who just now does the scribling for the Daily Herald—but we think this beats them all! —[Republican Advocate.

If the Editor of the Advocate has never heard any worse things of the writer for the HERALD than that we demand that paper to conform to established usage concerning the Telegraph Reports, we may well rest in contentment so far as our character is concerned.

What is this coolest thing we were ever known to do? Any person can make terms for telegraph reports with the Associated Press, but it is the invariable rule, and one that is nowhere deviated from, that, *each paper in the town where the reports are received, share in them alike*, and devide the expense between them.—The Advocate can cite no instance where this rule is deviated from—where so selfish a transactions has ever been carried into effect as that of monopolizing the Telegraph. In this matter the Advocate has established a precedent, but fortunately one that no enlightened member of the Press in this Country can be found to follow; but all alike, everywhere, will spurn the thought of doing such an illiberal and unmanly thing.

The efforts the Advocate made to get the Reports must have been tremendous. The Associated Press, was notified over a year ago that we wanted the Reports, but at that time, as we have before stated, they could not be delivered here. When the time come that they could be received here, the Advocate steps in and closes a contract shutting us out, and starts his paper. What could be more unmanly than such an act as this? The Advocate further says—

"No longer than last May, the Editor of the Daily Herald boasted publicly that he could secure the Reports, *but that it was not necessary, so long as there was but one Daily printed in town!* He said that as soon as another one was commenced, *he should obtain the Reports!*"

So far as we are concerned the above statement is false. But were it true, it offers no apology for the Advocate's attempt to keep the latest news out of the hands of the public, except through its columns.

The Advocate by such conduct as this is undermining whatever reputation for honor and liberality it ever had, and bringing merited condemnation upon itself from all parties. It is too late now for it to retrieve itself, for it has proclaimed its own dishonor and must take the consequences. Gladly would the Advocate release itself from the burthen it has undertaken to bear, but it cannot until its back is broke. It undertook to break the HERALD, but the weight falls upon itself, not us. The idea that a daily paper here is "perfectly worthless" without the afternoon telegraph News is all nonsense. Half of the telegraph News is now published by us as soon as it is by the Advocate, and the advantage of that paper over us with its monopoly, is pecuniarily our gain, yet it is true that we don't like to submit to the imposition it has imposed upon us.

It is said that the sweetest music to an Editor's ears is the clattering of the feet on the stairs—if he does business upstairs—of those who are eager to read what he (the editor) had written the night before, when perhaps the owners of these clattering feet were a bed and asleep without a thought of what the day would bring forth.

If this is so, we ought to have been well pleased if not happy last night.—Scarcely had we got seated in our chair ready to look over the evenings mail, when the door gently opened, and a voice from out the darkness in the doorway said, "have you got a daily 'Erald to sell here?" We looked up but darkness only was visible, save two white eyes, and two rows of ivory.

Are you a Black Republican? was our not very courteous enquiry!

"Don't know sir, but I want a daily 'Erald."

What do you want of it? was our natural enquiry, seeing at last that the voice came from a little black boy.

"I was sent for it, but I mus'nt tell who sent me."

We greatly regretted that a demand so complimentary, for the HERALD could not be supplied by us, but the fact was we had long before parted with the only copy we had, and the office above we had already many times been reminded by the knocking at its door, was closed for the night.

Making therefore these apologies to the Republican messenger who still stood in the door, we bade him good evening to which he hurriedly responded and merged into the darkness outside, that fitted him so exactly there seemed little difference between him and the night.

CAPT. BROWN.—In the speech of Gov. Wise at Richmond, on Friday, the Governor spoke of "Capt. Brown," awarding to him credit for bravery, fortitude and humanity toward his prisoners. He dwelt on the fact that Brown had armed himself with a sword which Frederick the Great had sent to General George Washington! The sword belonged to Mr. Lewis Washington, one of Brown's prisoners. The Baltimore Exchange says:

> Col. Washington, who was a keen observer of Captain Brown during the events of Monday and Tuesday, expresses the highest admiration of the cool, calm courage of the insurgent leader, and of his humanity. He told us that he heard Captain Brown give explicit orders to his men not to injure, if possible any woman, and only to aim at those who carried guns.—Captain Brown's coolness and courage inspired his men with a like contempt of danger, and their conduct and conversations were marked by a remarkable calmness.

WHAT A HORRIBLE COUNTRY.—A letter-writer from Japan says:

"In all of my travels in this country, during the seven months which we have at various times spent in the same, it has never fallen to my lot to see a gentleman and lady, either of high or low rank, walking lovingly together, as can be seen in our own beloved country.

If one can Judge by appearances, the Japanese of Jeddo are an industrious, hard working people. Their day's work commences at daylight, and they do not quit until sundown: and for such long days labor they receive but one hundred pieces of cash—equal to ten cents of our currency—and they are in fact slaves to the rich, who oppress them in all ways.—When the coolie or mechanic happens to meet or pass a wealthy merchant in the streets, the former must, by the laws stop and bow his head nearly to the ground until the rich man passes by.

Jeddo has her public schools, and they are supported by a direct tax upon the people; and the Japanese interpretor gave me to understand that the law was very severe upon all parents who neglect to send their offspring to school.

In the outskirts of the city all kinds of mechanical trades are carried on to a very great extent. In many of the shops and factories the young girls and old women are to be seen hard at work at all sorts of manual labor, such as planing and sawing timber, boards, &c."

The Trans-Atlantic Balloon.

Last Saturday, the colossal ballon which has been for some time in course of construction under the direction of Mr. T. S. Carlincourt Lowe, was conveyed from Hoboken to the grounds on Sixth avenue, between Fortieth and Forty Second streets, formerly occupied by the Crystal Palace. It was the intention of Mr. Lowe to commence the inflation of the balloon to day, but owing to the delay in getting the gas ready, and to the fact that many of the articles required in the inflating process were carried by mistake to the Palace Garden instead of to the site of the late Crystal Palace, the projector finds it impossible to commence the process of inflation before Wednesday.

A visit to the Crystal Palace grounds this morning showing that the proprietors of the great aerial ship have gone to great expense and pains to secure the success of their bold experiment. The entire space formerly occupied by the Crystal Palace is now surrounded by a board fence fifteen feet high. On the Sixth avenue a wide entrance has been prepared, to admit those who wish to attend the public exhibitions of the balloon.

The ruins of the burned Crystal Palace that for so long a time covered the ground, have been now quite removed. In the centre of the space stands a large circular tent, much like those ordinarily used for circus exhibitions. Under this is the balloon—not yet a graceful globe, but merely a long heavy pile of oiled twilled muslin, the entire pile being covered with canvass. Near this stands the basket that will convey the intrepid voyagers. It is made of strongly woven wicker-work, about two inches thick, the ropes that attach it to the balloon being woven into the sides, which are about four feet high. The basket is six feet in diameter, and in the centre of its flooring there is a circular aperture, large enough to admit a man's body, and intended to afford, by means of a ladder, an escape if necessary, to the boat that will be suspended beneath. This boat is thirty feet long, and provided with a caloric engine and paddle wheels; it has been made at Green Point, and will be brought over to the Crystal Palace grounds this evening.

The gas necessary for the inflation of the balloon will be provided by the Manhattan Gas Company, who are laying pipes for the purpose, connecting with that in Forty second street. They have already brought to the grounds a gigantic meter, one of the largest in existence.—This huge affair, in the form of a cylender, is eight feet in diameter about twelve feet long, and is capable of registering half a million cubic feet of gas per day.—This will be the first instance that a meter of this size has ever been used by a gas consumer, such huge affairs having been hitherto only used in large gas manfactories. Mr. Lowe estimates that he shall need 812,000 feet of gas to fully inflate his monster balloon.

Eight persons will probably start in the *City of New York* on her proposed transatlantic aerial trip. Previous to starting the balloon will be publicly exhibited at the Crystal Palace grounds.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood,*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,
FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,
FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

JOHN DEMUND.

IT is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial!

THOMAS YATES.

DR. N. R. C. ROWE.

URISCOPIAN PHYSICIAN.

(Late from the Island of Barbadoes, West Indies.)

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections, Tumors, diseases of the Lungs, Throat, Liver, Kidneys &c., &c. Also Scrofulous and all other Chronic Diseases, at his office No. 6 Stone Block, corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathsome disease, CANCER—the thoughts of which chill the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skillful Physicians as decidedly incurable. These patients now live as witnesses to this fact. CATARRH, this most awful disease, which if not checked, terminates in Consumption, he can cure most speedily.—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practioner and no self taught man. Dr. ... has discovered a speedy and certain cure for such cases of that fearful and ravaging disease CANCER, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer cannot be cured. Dr. Rowe however, has after a thorough investigation and study of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases more correctly and successfully than by any other mode of examination. The reason that a great many curable diseases are deemed incurable is simply from not finding out the real seat of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and $1 as a fee for testing it, at the same time stating their age will be told their disease. Letters addressed to Box 364, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. Reference as to his mode of treatment can be given to some of the first Physicians in this country.

☞ Dr. Rowe will be at the Exchange Hotel, Attica, for 4 days, Tuesday, Wednesday, Thursday, Friday, Oct. 4, 5, 6, 7, where he can be consulted on the above diseases.

LAST EVENING'S REPORT.

Trial of the Harper's Ferry Conspirators

CHARLESTON, VA., Oct. 25.

The trial of Brown and other Harper's Ferry conspirators commenced here to-day in the magistrates court.

Col. Davenport was the presiding Justice, and the following magistrates are associated with him on the Bench: Dr. Alexander, John J. Lock, John F. Smith, Thos. H. Willis, Geo. W. Eichelberger, Chas. H. Lewis and Moses W. Burr.

At half past ten o'clock, the Sheriff was directed to bring in the prisoners who were conducted from the jail under a guard of 80 armed men. A guard was also stationed around the Court.

The court house was bristling with bayonets on all sides.

Chas. B. Hardy, Esq., acted as attorney for the county, assisted by Andrew Hunter, counsel for the commonwealth.

The prisoners were brought in. Brown and Edwin Coppie, manacled together.—Brown seemed weak and haggard, his eyes swollen from the effect of wounds on his head.

Coppie is uninjured; Stevens seems less injured than Brown, but looks haggard and depressed. Both have a number of wounds on the head.

The examination to-day was merely to see whether the charges are of sufficient importance to go before the Grand Jury.

To-morrow the jury will report a bill and the case will be immediately called for trial. There is an evident intention to hurry the trial through and execute the prisoners as soon as possible, fearing attempts to rescue them. In the case of servile insurrection, 30 days are not required between conviction and execution, as in other capital convictions. The principal witnesses to day gave precisely the same testimony, in detail, as was published in their statement in Monday's New York Herald.

AUGUSTA, GA., Oct. 25.

The Comptroller General of Georgia reports the amount of cash in the Treasury as $288,765. The public debt and bonds outstanding, amount to $3,354,750.

The Treasury receipts during the year sum up $1,123,000, and expenditures $874.500.

The weather is favorable for the cotton crop.

ROCHESTER, Oct. 25.

The International Cricket Match is finished in favor of the English cricketers in one innings, and 68 runs to spare.

The Twenty-two's score was 39 and 64. The Eleven 171.

To-days play—Felix st. Lockyer, b. Wisden 0; Jackson (Amsterdam) st. Lockyer, b. Wisden. 0; Beattie b. Wisden, 0; Senior b. Wisden, 8; Pickering, not out, 14; S. Tarrant b. Wisden, 4; Hines b. Wisden 4; G. Tarrant b. Jackson, 2; H. Lillywhite b. Wisden, 0; Patterson c. Jackson, b. Wisden, 0; Collis (Buffalo) absent; Stephenson (Rochester) absent; Extras, 4; yesterday's score, 29;—Total 65.

Weather cold and windy; 1,000 persons were present this P. M. Six English cricketers and 12 Rochester base ball players from Live Oak, Flour City and Lone Star clubs, divided, played a match of nine innings: Lockyer's side, 7; Lillywhite's side, 27. The English cricketers left for Montreal this evening by the St. Lawrence route.

POUGHKEEPSIE, Oct. 24.

The American County Convention was held here to-day. The American State ticket was adopted, and a resolution nominating Jno. S. Emons, as the American candidate for Senator, was voted down by a large majority.

BOSTON, Oct. 25.

The Alms House at North Weymouth, Mass., was destroyed by fire last night.—Two insane paupers named Hayden and Dreck perished. Loss $6000.

Mr. B. A. Gould, an aged and well known citizen, died last night.

NEW BEDFORD, MASS., Oct. 25.

Two fires occurred in this city last night one on Cheapside street and the other in south second street, involving a loss of $10,000. Among the sufferers are J. C. Mara, dentist; Chas. Packfield, shoe-dealer; Tilden, confectioner, and Messrs. Cummings, owners of the buildings.

ALBANY, Oct. 25.

At the race to-day for the championship, the six-oared shell boat, Irving, carried off the belts and flag in 23 min. and 25 seconds. The Stephen Roberts barge came in second. time 34 min. and 54 sec. The race of double sculls did not come off. The single scull race was won by Augustus Pruyn.

TROY, Oct. 25.

At the Democratic Senatorial Convention held to-day for the district composed of Rensselaer and Washington counties, Hon. John D. Willard, of Troy, was unanimously nominated for re-election.

GRAND OPENING

OF

SPRING FASHIONS

AT

Mrs. HOLTON'S MILLINERY ESTABLISHMENT

SOUTH SIDE MAIN STREET—TWO DOORS WEST OF WESTERN HOTEL—BATAVIA.

SHE would respectfully announce to the LADIES of Batavia and surrounding country, that her extensive Stock of NEW GOODS are now opened with all the NEW STYLES of **Bonnets, Ribbons, Flowers, Head Dresses,** Caps, and every novelty in the MILLINERY LINE. She offers a very large and fine Stock—Selected with great care—embracing a variety of styles; much more so than is often found in country villages.

She respectfully invites the LADIES to call and examine. MRS. C. HOLTON.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,
PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P. S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and *take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

The Daily Herald, of Saturday, whines awfully because we have succeeded in obtaining the Telegraph Reports. It thinks that we should have made all the efforts *which were necessary to get them*, and then go to the conductor of that paper and offer to let the Herald into the arrangement! We have heard of many very cool things being *done* by the person who just now does the scribling for the Daily Herald—but we think this beats them all!—[Republican Advocate.

If the Editor of the Advocate has never heard any worse things of the writer for the HERALD than that we demand that paper to conform to established usages concerning the Telegraph Reports, we may well rest in contentment so far as our character is concerned.

What is this coolest thing we were ever known to do? Any person can make terms for telegraph reports with the Associated Press, but it is the invariable rule, and one that is nowhere deviated from, that, *each paper in the town where the reports are received, share in them alike*, and devide the expense between them.—The Advocate can cite no instance where this rule is deviated from—where so selfish a transactions has ever been carried into effect as that of monopolizing the Telegraph. In this matter the Advocate has established a precedent, but fortunately one that no enlightened member of the Press in this Country can be found to follow; but all alike, everywhere, will spurn the thought of doing such an illiberal and unmanly thing.

The efforts the Advocate made to get the Reports must have been tremendous. The Associated Press, was notified over a year ago that we wanted the Reports, but at that time, as we have before stated, they could not be delivered here. When the time come that they could be received here, the Advocate steps in and closes a contract shutting us out, and starts his paper. What could be more unmanly than such an act as this? The Advocate further says—

"No longer than last May, the Editor of the Daily Herald boasted publicly that he could secure the Reports, *but that it was not necessary, so long as there was but one Daily printed in town!* He said that as soon as another one was commenced, *he should obtain the Reports!*"

So far as we are concerned the above statement is false. But were it true, it offers no apology for the Advocate's attempt to keep the latest news out of the hands of the public, except through its columns.

The Advocate by such conduct as this is undermining whatever reputation for honor and liberality it ever had, and bringing merited condemnation upon itself from all parties. It is too late now for it to retrieve itself, for it has proclaimed its own dishonor and must take the consequences. Gladly would the Advocate release itself from the burthen it has undertaken to bear, but it cannot until its back is broke. It undertook to break the HERALD, but the weight falls upon itself, not us. The idea that a daily paper here is "perfectly worthless" without the afternoon telegraph News is all nonsense. Half of the telegraph News is now published by us as soon as it is by the Advocate, and the advantage of that paper over us with its monopoly, is pecuniarily our gain, yet it is true that we don't like to submit to the imposition it has imposed upon us.

It is said that the sweetest music to an Editor's ears is the clattering of the feet on the stairs—if he does business upstairs—of those who are eager to read what he (the editor) had written the night before, when perhaps the owners of these clattering feet were a bed and asleep without a thought of what the day would bring forth.

If this is so, we ought to have been well pleased if not happy last night.—Scarcely had we got seated in our chair ready to look over the evenings mail, when the door gently opened, and a voice from out the darkness in the doorway said, "have you got a daily 'Erald to sell here?" We looked up but darkness only was visible, save two white eyes, and two rows of ivory.

Are you a Black Republican? was our not very courteous enquiry!

"Don't know sir, but I want a daily 'Erald."

What do you want of it? was our natural enquiry, seeing at last that the voice came from a little black boy.

"I was sent for it, but I mus'nt tell who sent me."

We greatly regretted that a demand so complimentary, for the HERALD could not be supplied by us, but the fact was we had long before parted with the only copy we had, and the office above we had already many times been reminded by the knocking at its door, was closed for the night.

Making therefore these apologies to the Republican messenger who still stood in the door, we bade him good evening to which he hurriedly responded and merged into the darkness outside, that fitted him so exactly there seemed little difference between him and the night.

CAPT. BROWN.—In the speech of Gov. Wise at Richmond, on Friday, the Governor spoke of "Capt. Brown," awarding to him credit for bravery, fortitude and humanity toward his prisoners. He dwelt on the fact that Brown had armed himself with a sword which Frederick the Great had sent to General George Washington! The sword belonged to Mr. Lewis Washington, one of Brown's prisoners. The Baltimore Exchange says:

Col. Washington, who was a keen observer of Captain Brown during the events of Monday and Tuesday, expresses the highest admiration of the cool, calm courage of the insurgent leader, and of his humanity. He told us that he heard Captain Brown give explicit orders to his men not to injure, if possible any woman, and only to aim at those who carried guns.—Captain Brown's coolness and courage inspired his men with a like contempt of danger, and their conduct and conversations were marked by a remarkable calmness.

WHAT A HORRIBLE COUNTRY.—A letter-writer from Japan says:

"In all of my travels in this country, during the seven months which we have at various times spent in the same, it has never fallen to my lot to see a gentleman and lady, either of high or low rank, walking lovingly together, as can be seen in our own beloved country.

If one can Judge by appearances, the Japanese of Jeddo are an industrious, hard working people. Their day's work commences at daylight, and they do not quit until sundown: and for such long days labor they receive but one hundred pieces of cash—equal to ten cents of our currency—and they are in fact slaves to the rich, who oppress them in all ways.—When the coolie or mechanic happens to meet or pass a wealthy merchant in the streets, the former must, by the laws stop and bow his head nearly to the ground until the rich man passes by.

Jeddo has her public schools, and they are supported by a direct tax upon the people; and the Japanese interpreter gave me to understand that the law was very severe upon all parents who neglect to send their offspring to school.

In the outskirts of the city all kinds of mechanical trades are carried on to a very great extent. In many of the shops and factories the young girls and old women are to be seen hard at work at all sorts of manual labor, such as planing and sawing timber, boards, &c."

From the N. Y. Evening Post, yesterday.

The Trans-Atlantic Balloon.

Last Saturday, the colossal ballon which has been for some time in course of construction under the direction of Mr. T. S. Carlincourt Lowe, was conveyed from Hoboken to the grounds on Sixth avenue, between Fortieth and Forty Second streets, formerly occupied by the Crystal Palace. It was the intention of Mr. Lowe to commence the inflation of the balloon to-day, but owing to the delay in getting the gas ready, and to the fact that many of the articles required in the inflating process were carried by mistake to the Palace Garden instead of to the site of the late Crystal Palace, the projector finds it impossible to commence the process of inflation before Wednesday.

A visit to the Crystal Palace grounds this morning showing that the proprietors of the great aerial ship have gone to great expense and pains to secure the success of their bold experiment. The entire space formerly occupied by the Crystal Palace is now surrounded by a board fence fifteen feet high. On the Sixth avenue a wide entrance has been prepared, to admit those who wish to attend the public exhibitions of the balloon.

The ruins of the burned Crystal Palace that for so long a time covered the ground, have been now quite removed. In the centre of the space stands a large circular tent, much like those ordinarily used for circus exhibitions. Under this is the balloon—not yet a graceful globe, but merely a long heavy pile of oiled twilled muslin, the entire pile being covered with canvass. Near this stands the basket that will convey the intrepid voyagers. It is made of strongly woven wicker-work, about two inches thick, the ropes that attach it to the balloon being woven into the sides, which are about four feet high. The basket is six feet in diameter, and in the centre of its flooring there is a circular aperture, large enough to admit a man's body, and intended to afford, by means of a ladder, an escape if necessary, to the boat that will be suspended beneath. This boat is thirty feet long, and provided with a caloric engine and paddle wheels; it has been made at Green Point, and will be brought over to the Crystal Palace grounds this evening.

The gas necessary for the inflation of the balloon will be provided by the Manhattan Gas Company, who are laying pipes for the purpose, connecting with that in Forty-second street. They have already brought to the grounds a gigantic meter, one of the largest in existence.—This huge affair, in the form of a cylender, is eight feet in diameter about twelve feet long, and is capable of registering half a million cubic feet of gas per day.—This will be the first instance that a meter of this size has ever been used by a gas consumer, such huge affairs having been hitherto only used in large gas manufactories. Mr. Lowe estimates that he shall need 812,000 feet of gas to fully inflate his monster balloon.

Eight persons will probably start in the *City of New York* on her proposed trans-lantic aerial trip. Previous to starting the balloon will be publicly exhibited at the Crystal Palace grounds.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate

cures too numerous and too remarkable to be forgotten.

IT is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found

LAST EVENING'S REPORT.

Trial of the Harper's Ferry Conspirators

CHARLESTON, VA., Oct. 25.

The trial of Brown and other Harper's Ferry conspirators commenced here to-day in the magistrates court.

Col. Davenport was the presiding Justice, and the follywing magistrates are associated with him on the Bench: Dr. Alexander, John J. Lock, John F. Smith, Thos. H. Willis, Geo. W. Eichelberger, Chas. H. Lewis and Moses W. Burr.

At half past ten o'clock, the Sheriff was directed to bring in the prisoners who were conducted from the jail under a guard of 80 armed men. A guard was also stationed around the Court.

The court house was bristling with bayonets on all sides.

Chas. B. Hardy, Esq., acted as attorney for the county, assisted by Andrew Hunter, counsel for the commonwealth.

The prisoners were brought in. Brown and Edwin Coppie, manacled together.—Brown seemed weak and haggard, his eyes swollen from the effect of wounds on his head.

ALBANY, Oct. 25.

At the race to-day for the championship, the six-oared shell boat, Irving, carried off the belts and flag in 23 min. and 25 seconds. The Stephen Roberts barge came in second, time 34 min. and 54 sec. The race of double sculls did not come off. The single scull race was won by Augustus Pruyn.

TROY, Oct. 25.

At the Democratic Senatorial Convention held to-day for the district composed of Rensselaer and Washington counties, Hon. John D. Willard, of Troy, was unanimously nominated for re-election.

DR. M'LANE'S
CELEBRATED
VERMIFUGE
AND
LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated
Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,
PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and *take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

The Daily Herald, of Saturday, whines awfully because we have succeeded in obtaining the Telegraph Reports. It thinks that we should have made all the efforts which were necessary to get them, and then go to the conductor of that paper and offer to let the Herald into the arrangement! We have heard of many very cool things being *done* by the person who just now does the scribling for the Daily Herald—but we think this beats them all!—[Republican Advocate.

If the Editor of the Advocate has never heard any worse things of the writer for the HERALD than that we demand that paper to conform to established usage concerning the Telegraph Reports, we may well rest in contentment so far as our character is concerned.

What is this coolest thing we were ever known to do? Any person can make terms for telegraph reports with the Associated Press, but it is the invariable rule, and one that is nowhere deviated from, that, *each paper in the town where the reports are received, share in them alike*, and divide the expense between them.—The Advocate can cite no instance where this rule is deviated from—where so selfish a transactions has ever been carried into effect as that of monopolizing the Telegraph. In this matter the Advocate has established a precedent, but fortunately one that no enlightened member of the Press in this Country can be found to follow; but all alike, everywhere, will spurn the thought of doing such an illiberal and unmanly thing.

The efforts the Advocate made to get the Reports must have been tremendous. The Associated Press, was notified over a year ago that we wanted the Reports, but at that time, as we have before stated, they could not be delivered here. When the time come that they could be received here, the Advocate steps in and closes a contract shutting us out, and starts his paper. What could be more unmanly than such an act as this? The Advocate further says—

"No longer than last May, the Editor of the Daily Herald boasted publicly that he could secure the Reports, *but that it was not necessary, so long as there was but one Daily printed in town!* He said that as soon as another one was commenced, *he should obtain the Reports!*"

So far as we are concerned the above statement is false. But were it true, it offers no apology for the Advocate's attempt to keep the latest news out of the hands of the public, except through its columns.

The Advocate by such conduct as this is undermining whatever reputation for honor and liberality it ever had, and bringing merited condemnation upon itself from all parties. It is too late now for it to retrieve itself, for it has proclaimed its own dishonor and must take the consequences. Gladly would the Advocate release itself from the burthen it has undertaken to bear, but it cannot until its back is broke. It undertook to break the HERALD, but the weight falls upon itself, not us. The idea that a daily paper here is "perfectly worthless" without the afternoon telegraph News is all nonsense. Half of the telegraph News is now published by us as soon as it is by the Advocate, and the advantage of that paper over us with its monopoly, is pecuniarily our gain, yet it is true that we don't like to submit to the imposition it has imposed upon us.

It is said that the sweetest music to an Editor's ears is the clattering of the feet on the stairs—if he does business upstairs—of those who are eager to read what he (the editor) had written the night before, when perhaps the owners of these clattering feet were a bed and asleep without a thought of what the day would bring forth.

If this is so, we ought to have been well pleased if not happy last night.—Scarcely had we got seated in our chair ready to look over the evenings mail, when the door gently opened, and a voice from out the darkness in the doorway said, "have you got a daily 'Erald to sell here?" We looked up but darkness only was visible, save two white eyes, and two rows of ivory.

Are you a Black Republican? was our not very courteous enquiry!

"Don't know sir, but I want a daily 'Erald."

What do you want of it? was our natural enquiry, seeing at last that the voice came from a little black boy.

"I was sent for it, but I mus'nt tell who sent me."

We greatly regretted that a demand so complimentary, for the HERALD could not be supplied by us, but the fact was we had long before parted with the only copy we had, and the office above we had already many times been reminded by the knocking at its door, was closed for the night.

Making therefore these apologies to the Republican messenger who still stood in the door, we bade him good evening to which he hurriedly responded and merged into the darkness outside, that fitted him so exactly there seemed little difference between him and the night.

CAPT. BROWN.—In the speech of Gov. Wise at Richmond, on Friday, the Governor spoke of "Capt. Brown," awarding to him credit for bravery, fortitude and humanity toward his prisoners. He dwelt on the fact that Brown had armed himself with a sword which Frederick the Great had sent to General George Washington! The sword belonged to Mr. Lewis Washington, one of Brown's prisoners. The Baltimore Exchange says:

Col. Washington, who was a keen observer of Captain Brown during the events of Monday and Tuesday, expresses the highest admiration of the cool, calm courage of the insurgent leader, and of his humanity. He told us that he heard Captain Brown give explicit orders to his men not to injure, if possible any woman, and only to aim at those who carried guns.—Captain Brown's coolness and courage inspired his men with a like contempt of danger, and their conduct and conversations were marked by a remarkable calmness.

WHAT A HORRIBLE COUNTRY.—A letter-writer from Japan says:

"In all of my travels in this country, during the seven months which we have at various times spent in the same, it has never fallen to my lot to see a gentleman and lady, either of high or low rank, walking lovingly together, as can be seen in our own beloved country.

If one can Judge by appearances, the Japanese of Jeddo are an industrious, hard working people. Their day's work commences at daylight, and they do not quit until sundown; and for such long days labor they receive but one hundred pieces of cash—equal to ten cents of our currency—and they are in fact slaves to the rich, who oppress them in all ways.—When the coolie or mechanic happens to meet or pass a wealthy merchant in the streets, the former must, by the laws stop and bow his head nearly to the ground until the rich man passes by.

Jeddo has her public schools, and they are supported by a direct tax upon the people; and the Japanese interpreter gave me to understand that the law was very severe upon all parents who neglect to send their offspring to school.

In the outskirts of the city all kinds of mechanical trades are carried on to a very great extent. In many of the shops and factories the young girls and old women are to be seen hard at work at all sorts of manual labor, such as planing and sawing timber, boards, &c."

From the N. Y. Evening Post, yesterday.

The Trans-Atlantic Balloon.

Last Saturday, the colossal ballon which has been for some time in course of construction under the direction of Mr. T. S. Carlincourt Lowe, was conveyed from Hoboken to the grounds on Sixth avenue, between Fortieth and Forty Second streets, formerly occupied by the Crystal Palace. It was the intention of Mr. Lowe to commence the inflation of the balloon to day, but owing to the delay in getting the gas ready, and to the fact that many of the articles required in the inflating process were carried by mistake to the Palace Garden instead of to the site of the late Crystal Palace, the projector finds it impossible to commence the process of inflation before Wednesday.

A visit to the Crystal Palace grounds this morning showing that the proprietors of the great aerial ship have gone to great expense and pains to secure the success of their bold experiment. The entire space formerly occupied by the Crystal Palace is now surrounded by a board fence fifteen feet high. On the Sixth avenue a wide entrance has been prepared, to admit those who wish to attend the public exhibitions of the balloon.

The ruins of the burned Crystal Palace that for so long a time covered the ground, have been now quite removed. In the centre of the space stands a large circular tent, much like those ordinarily used for circus exhibitions. Under this is the balloon—not yet a graceful globe, but merely a long heavy pile of oiled twilled muslin, the entire pile being covered with canvass. Near this stands the basket that will convey the intrepid voyagers. It is made of strongly woven wicker-work, about two inches thick, the ropes that attach it to the balloon being woven into the sides, which are about four feet high. The basket is six feet in diameter, and in the centre of its flooring there is a circular aperture, large enough to admit a man's body, and intended to afford, by means of a ladder, an escape if necessary, to the boat that will be suspended beneath. This boat is thirty feet long, and provided with a caloric engine and paddle wheels; it has been made at Green Point, and will be brought over to the Crystal Palace grounds this evening.

The gas necessary for the inflation of the balloon will be provided by the Manhattan Gas Company, who are laying pipes for the purpose, connecting with that in Forty-second street. They have already brought to the grounds a gigantic meter, one of the largest in existence.—This huge affair, in the form of a cylinder, is eight feet in diameter about twelve feet long, and is capable of registering half a million cubic feet of gas per day.—This will be the first instance that a meter of this size has ever been used by a gas consumer, such huge affairs having been hitherto only used in large gas manufactories. Mr. Lowe estimates that he shall need 812,000 feet of gas to fully inflate his monster balloon.

Eight persons will probably start in the *City of New York* on her proposed transatlantic aerial trip. Previous to starting the balloon will be publicly exhibited at the Crystal Palace grounds.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood,*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,
FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,
FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

A CARD.—A handbill having recently been circulated, announcing me as an Independent Candidate for member of Assembly. I take this occasion to say, that the same is the work of some designing person unknown to me, and was done without my knowledge or consent.

JOHN DEMUND.

IT is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible *forms* of disease. Who would not give it a trial!

DR. N. R. C. ROWE.

URISCOPIA ? PHYSICIAN.

(Late from the Island of Barbadoes, West Indies

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections, Tumors, diseases of the Lungs, Throat, Liver, Kidneys &c., &c. Also Scrofulous and all other Chronic Diseases, at his office No. 6 Stone Block, corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathesome disease, CANCER—the thoughts of which chill the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skilful Physicians as decidedly incurable. These patients now live as witnesses to this fact. CATARRH, this most awful disease, which if not checked, terminates in Consumption, he can cure most speedily.—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practioner and no self taught man. Dr. , has discovered a speedy and certain cure for such cases of that fearful and ravaging disease CANCER, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer cannot be cured. Dr. ROWE however, has after a thorough investigation and study of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases more correctly and successfully than by any other mode of examination. The reason that a great many curable diseases are deemed incurable is simply from not finding out the real secret of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and $1 as a fee for testing it, at the same time stating their age will be told their disease. Letters addressed to Box 964, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. Reference as to his mode of treatment can be given to some of the first Physicians in this country.

☞ Dr. Rowe will be at the Exchange Hotel, Attica, for 4 days, Tuesday, Wednesday Thursday, Friday, Oct. 4, 5, 6, 7, where he can be consulted on the above diseases.

LAST EVENING'S REPORT.

Trial of the Harper's Ferry Conspirators

CHARLESTON, VA., Oct. 25.

The trial of Brown and other Harper's Ferry conspirators commenced here to-day in the magistrates court.

Col. Davenport was the presiding Justice, and the follywing magistrates are associated with him on the Bench: Dr. Alexander, John J. Lock, John F. Smith, Thos. H. Willis, Geo. W. Eichelberger, Chas. H. Lewis and Moses W. Burr.

At half past ten o'clock, the Sheriff was directed to bring in the prisoners who were conducted from the jail under a guard of 80 armed men. A guard was also stationed around the Court.

The court house was bristling with bayonets on all sides.

Chas. B. Hardy, Esq., acted as attorney for the county, assisted by Andrew Hunter, counsel for the commonwealth.

The prisoners were brought in. Brown and Edwin Coppie, manacled together.—Brown seemed weak and haggard, his eyes swollen from the effect of wounds on his head.

Coppie is uninjured; Stevens seems less injured than Brown, but looks haggard and depressed. Both have a number of wounds on the head.

The examination to-day was merely to see whether the charges are of sufficient importance to go before the Grand Jury.

To-morrow the jury will report a bill, and the case will be immediately called for trial. There is an evident intention to hurry the trial through and execute the prisoners as soon as possible, fearing attempts to rescue them. In the case of servile insurrection, 30 days are not required between conviction and execution, as in other capital convictions. The principal witnesses to day gave precisely the same testimony, in detail, as was published in their statement in Monday's New York Herald.

AUGUSTA, GA., Oct. 25.

The Comptroller General of Georgia reports the amount of cash in the Treasury as $288,765. The public debt and bonds outstanding, amount to $3.354,750.

The Treasury receipts during the year sum up $1,123,000, and expenditures $874.500.

The weather is favorable for the cotton crop.

ROCHESTER, Oct. 25.

The International Cricket Match is finished in favor of the English cricketers in one innings, and 68 runs to spare.

The Twenty-two's score was 39 and 64. The Eleven 171.

To-days play—Felix st. Lockyer, b. Wisden 0; Jackson (Amsterdam) st. Lockyer, b. Wisden, 0; Beattie b. Wisden, 0; Senior b. Wisden, 8; Pickering, not out, 14; S. Tarrant b. Wisden, 4; Hines b. Wisden 4; G. Tarrant b. Jackson, 2; H. Lillywhite b. Wisden, 0; Patterson c. Jackson, b. Wisden, 0; Collis (Buffalo) absent; Stephenson (Rochester) absent; Extras, 4; yesterday's score, 29; —Total 65.

Weather cold and windy; 1,000 persons were present this P. M. Six English cricketers and 12 Rochester base ball players from Live Oak, Flour City and Lone Star clubs, divided, played a match of nine innings; Lockyer's side, 7; Lillywhite's side, 27. The English cricketers left for Montreal this evening by the St. Lawrence route.

POUGHKEEPSIE, Oct. 24.

The American County Convention was held here to-day. The American State ticket was adopted, and a resolution nominating Jno. S. Emons, as the American candidate for Senator, was voted down by a large majority.

BOSTON, Oct. 25.

The Alms House at North Weymouth, Mass., was destroyed by fire last night.—Two insane paupers named Hayden and Dreck perished. Loss $6000.

Mr. B. A. Gould, an aged and well known citizen, died last night.

NEW BEDFORD, Mass., Oct. 25.

Two fires occurred in this city last night one on Cheapside street and the other in south second street, involving a loss of $10,000. Among the sufferers are J. C. Mars, dentist; Chas. Packfield, shoe-dealer; Tilden, confectioner, and Messrs. Cummings, owners of the buildings.

ALBANY, Oct. 25.

At the race to-day for the championship, the six-oared shell boat, Irving, carried off the belts and flag in 23 min. and 25 seconds. The Stephen Roberts barge came in second, time 24 min. and 54 sec. The race of double sculls did not come off. The single scull race was won by Augustus Troyn.

TROY, Oct. 25.

At the Democratic Senatorial Convention held to-day for the district composed of Rensselaer and Washington counties, Hon. John D. Willard, of Troy, was unanimously nominated for re-election.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,
PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and *take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

DR. COGGSWELL'S NEW MEDICAL SALT,

For Infamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT instead of its being a remedy for all ills, has control over but one ill; has but one aim, and accomplishes but one thing to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength it effectually cures inflammatory diseases, (no other,) by producing an equilibrium, of the fluids in the body, the want of which is the sole cause of inflammation!

NOTICE TO INVALIDS! The following forms which the unbalanced fluids assume, and many not here mentioned that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain-Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia, Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt*.

Ask your neighbors about the *New Medical Salt*. If sick, try it; if not sick, remember the *New Medical Salt*.

DR. COGGSWELL'S NEW MEDICAL Salt is for sale in Batavia by H. W. Fellows and by all enterprising druggists wherever the Herald is. As it is not a Patent medicine, but the prescription of an eminent Physician, no one should fail to try the New Medical Salt.

For testimonials and directions see circular

HERB DISPENSARY

OFFICE 95 MAIN STREET,

(1st door, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study; dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fluor Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills, will receive for $5 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effectual antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five Boxes for $1,00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

You who have drank "BILL'S" Lager Beer
And felt its warmth arise,
Know well it drives out ev'ry fear,
And wakes up pleasant surprise!

It fills the nerves with Native life,
And warms the stomach too,
Digestion moves with greater strife
And sets the soul in glow!

"BILL'S" Lager is the best of drink,
It makes a man FEEL all he'd think;
It warms him through and through, you know
And puts his senses in a glow.

It never makes a man quite drunk
Nor filthy as a common skunk!
But always makes the senses rise
To Truthful triumph if he buys!

Bill's glasses, too, are just the thing,
They hold as much as Nature'll swing,
And keep the mind in equal poise,
And conscience free from drunken noise.

So you who want your senses whet
You drink Bill's Lager, and you'll get
The drippings worth in sparkling foam,
At Bender's shop and happy home!
So you that want a bev'rage clear
And one that sparkles fine,
Come buy of Bill his Lager Beer,
'Twill make you *feel* sublime!
And will digestion much improve,
And make your business onward move!

Now is the Time to Subscribe.

THE
NEW YORK WEEKLY,
A HANDSOME QUARTO PUBLICATION,
BEAUTIFULLY ILLUSTRATED,
IS NOW UNIVERSALLY ACKNOWLEDGED TO BE
THE BEST STORY PAPER
IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Ella Mayville. Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters, our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c. &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Mute Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting melange, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of Interest, etc., etc. In a word, its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY.

The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taken tens, they are now taking hundreds of copies. This is the general effect among the *five* thousand News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly"

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is FOUR CENTS, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $5, eight copies for $12. Postmasters and others who get up clubs of ten, and send us $15 at one time, will be entitled to an extra copy for their trouble. The bills of all solvent banks taken at par for subscriptions. Canada subscribers must send twenty-five cents extra with every subscription, to pre-pay the American postage.

All letters and communications, in relation to the Editorial or Business Department of the NEW YORK WEEKLY, must be addressed to

STREET & SMITH,

'Tis Found

Something True and Important.

IF YOU are crippled with Palsy or Rheumatism suffering with pains and can find no relief for body or mind—given up as beyond the reach of medical aid, and have no other prospect before you than a premature grave, read the following—pause, reflect and hope on, as an opportunity is now offered for the restoration of your health. *Profs. Chamberlin & Bolles*, of Buffalo would say to the citizens of Batavia and vicinity that they have taken rooms at the Eagle Hotel, and will remain a few days for the purpose of introducing their new and important discovery in the use of Electricity for the cure of all curable diseases.

They solicit no patients except those given up ever where else as incurable. The reader might here ask do they really cure such cases or are their statements false? Have they cured any such cases in Batavia and vicinity, or are their cases all on paper and afar off? In reply they would say they have cured and are curing every day, just such cases. They have restored to health a great number of persons in Buffalo and surroundings, who have been suffering from various diseases, five, ten, and fifteen years and upwards, in a few days. They have cured and are curing a class of diseases that has baffled the skill of the medical profession in all ages of the world. The reader might here enquire, by what means such wonderful cures are performed? Not by irritating the delicate membranes of vital organs by druging the stomach, but by direct application of the positive and negative polarities of electricity.—Again it might be asked, has not electricity been employed as a remedial agent for years both in Europe and the United States, with indifferent success? and are not numbers now using it, in our very midst, with no better result? This is all very true; and when we consider the ignorance and recklessness displayed in its application the result has been more favorable than could have been anticipated. It has been considered as beneficial in a few cases, only and uncertain even in those. There has been no fixed principle for applying it, and, therefore, no uniform result could have been anticipated; but owing to the friendly relation existing between electricity and health, remarkable cures have been performed, which have been looked upon as a lucky hit, rather than the result of a fixed law. The ignorance displayed in the administration of this mighty agent, is unpardonable.

The current has been generally applied through the hands or feet in such power as to convulse the whole nervous and muscular system and frequently producing irreparable injury; sometimes it has been applied by means of metalic conductors to different parts of the body, which is equal to a process of cauterization—and the effect upon the nervous system is similar to that produced by over doses of Strychnia or Quinine.

Every thing connected with their mode of applying electricity is new and original with themselves. Their philosophy for the electrical laws of life, health and disease, is new.—Their reliable method for the diagnosis of disease by electrical contact is new.

As, also, their important discovery in the use of the positive and negative polarities to the human body, for the sure and speedy removal of all diseases.

It is new and unknown to medical men and others except the few instructed by them.

By this mode of applying electricity there is no guess work; no uncertainty; and no matter of doubt as to the result that will follow.

The diseased are invited to call and witness the wonderful cures they are performing daily.

Instruction given to those desiring a knowledge of this method of curing disease.

HOSTETTER'S
STOMACH BITTERS.

IT is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhœa, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

☞ Prepared and sold by HOSTETTER & SMITH, Pittsburgh, Pa. and sold by all druggists, grocers, and dealers generally throughout the United States, Canada, South America, and Germany.

The End of Political Toleration—The Beginning of Civil War.

The affair at Harper's Ferry was not the rising of a servile class against its masters. The tocsin of insurrection was sounded in vain. For months, the conspirators held secret possessions of a depot of arms and ammunitation, with money enough to incite the slaves and the discontented of all colors, if any such there had been. For two days they held possession of an Arsenal full of arms and treasure.—They could have equipped ten thousand slaves had they flocked to their standard but not one came forward. It was an invasion from the North, the fruit of a conspiracy at the North, and not a domestic rising. It was one of those acts which precede civil war, which provoke it, and which if not adequately met, render it inevitable.

If such a *raid* had been made from England into France, from France across the borders into Germany, or from Austria in Sardinia, it would have been the signal of instant war! The long conspiracy, which preceded it, the extent of the preparation, the countenance which public men and the popular journals gave it, the aggressions of State Executives and legislatures, in nullifying the Constitution, and proclaiming the outlawry of slavery, which have accompanied it in so many quarters, would have combined to characterise it as the public act of a State, and not the marauding enterprise of an individual. And if foreign governments, mutually estranged, had a right so to regard it, what have not our sister States of the South a right to complain of?

And yet what can they do? Order reprisals! Send hither invading troops! Issue letters of marque against our commerce! If they were strangers, they might do this. But they are brethren, bound in the common bond of union, and they cannot do this while that union lasts. They can appeal to our better judgment to cease this war—to our patriotism, to let them live in this Union—to our interests, to cease the conflict as fatal to us as to them.

They do not use this language. They make no cowardly appeal. But the facts speak to us imploringly, and in unmistakable eloquence, to desist from this fratricidal course. They tell us that there are lives of women and children, to be emperilled by a negro insurrection; and that what gives peculiar poignancy to the idea of a servile war at the South, is that the savage natures let loose and stung into madness there, would spare neither age nor sex, in the wild ebulition of their passion.

And what is the response of the North—if we take the language of the Republican leaders and journals, and preachers, uttered since the calamity? It is justification of the invasion; the assertion of the right of insurrection; taunts and mockery at the panic; and the threat that this is but the beginning of a series of outrages deliberately planned, and intended to force and terrify the South into an abandonment of its domestic institutions.

We say that is the purport of the language of the Republican press, of the so-called religious press, in their interest, and of the Reverend emissaries of the same party, who have spoken on the subject.

It is this that is formidable; and compared with this, the demonstration of Brown is utterly without consequence.—The extent to which this sympathy with Brown and his objects, and this justification of him, is manifested is absolutely appalling. It shows that the public mind is ulcerated and gangrened by a corroding fanaticism.

What has been the offence of the South? Why simply that it retains domestic slavery. When the Constitution was formed all the States were slave States. We have got rid of the institution by selling some of our slaves to the South, and by emancipating others. And now we threaten Civil War to the South, if she does not abandon the institution and conform her industrial system to ours. It is infamous!

What there is best in this Constitution under which we all live is, that it secures not merely liberty to individuals, but to communities, and that it gives a guaranty of toleration not merely to differences of religious creed, but of political faith and of civil institutions.

Religious intolerance has nearly died out. The burning faggot was long since quenched in blood, and the wheel of torture, clotted with the mangled flesh of its victims, has ceased to move. But fanaticism is not dead. It lives in a new form; and it wages a war of intolerance against political institutions. There shall be no diversity here, it says—no liberty of dissent. The one true political faith is to be preached to the heretic, but if it falls on deaf ears then the sword of the invader and the torch of the incendiary is to be applied.

The invasion of political rights has commenced; and for a moment it seems as if the whole intelligence of the North was embodied in it—that every breath here was gathered to swell the gale of fanaticism! The active, the noisy, the reckless, the demonstrative, join the outcry of persecution, hardly knowing what it means, not comprehending that it is Civil War, and only intending to vent their own selfish, and egotistical and unreasoning animosities.

It would be a fearful thing, if the classes who have made themselves heard at this crisis, constituted the actual numbers, or embodied the real intellect and the moral and religious feeling of the Northern States.

But these voices do not represent the North. There is yet here a deep devotion to the Union, a profound love of Country, a horror of civil commotion, and a growing consciousness of danger, that will no longer remain stifled.

It will be heard. It will speak in tones whose swelling volume will soon reverberate through the North, like the *thunder of the Heavens*. It will sweep over the whole Northern firmament. These rash and wicked men who dabble in blood, and who do not know their guilt will be called to their senses. They will not be permitted any longer to play their fantastic tricks in the name of "freedom." It is slavery they aim at, when they set up their tests of political belief, and punish non-conformity by rapine and blood.

The outraged States of the South can leave this question where it for the present, belongs—to the people of the North. Henceforth we will take care of the Fanatics of Intolerance. *If we fail to*, then the bond of union which holds us together had better be loosed forever; and let us seek in separation the peace we have found for three-fourths of a century together, and try by some new experiment of government, to secure the happiness and progress of our race. We are not without the models of such a future. The broken and dissevered States of Mexico and of Central and Southern America, with their mongrel races, their boasted Republicanism, their civil wars, and their rapid degradation, present a mirror in which we can behold our own destiny.

The Daily Advocate makes a most lame and impotent reply to our article in relation to Judge Brown's qualifications for the office for which he is a Candidate.—We give the Advocate and the "candidate" the benefit of our circulation for the following, and material portion of the reply.

"The alleged alteration of a stipulation was, in fact, as we are reliably informed, the mere *correction of a mistake* in a statement therein, which made it conform to the *exact truth* as it was known by both parties, and about which there was no dispute.

An explanation of the circumstances thereof was made at the time, which Judge Grover stated was *perfectly satisfactory* to the Court, and that it was plain Judge Brown had intended no wrong."

The reader will see that the above denial of the facts we stated, rests solely upon what the editor of the Advocate was *informed* upon the matter. Living witnesses are better than heresay information from interested parties.

The fling that the article was instigated by a Railroad Director, is simply absurd. It was instigated by a challenge that appeard in the Advocate, and having called out weapons upon its candidates it, and they must stand the fire.

We are instigated by no "Railroad Directors," nor "Bolters." We aim to elect the Democratic Straight Ticket, and defeat the Republicans in so doing.

"We have never said that a Republican was a thief, nor anything like it."

Herald of Friday.

"The code of honor in the Republican Party seems to be that of "honor among thieves," but this does not embrace honest men, and therefore it should not complain when they step out."

Herald of Friday.

Will the astute writer in the Herald have the goodness to reconcile the above two sentences, taken from his own articles—and while he is about it, show wherein he lacks of calling the Republicans thieves?

Advocate of Tuesday.

We have always supposed that there was a distinction, and a difference between a *Republican* and the *Republican party*, and also that a thing may not be, always what it *seems* to be. If however we are not, in our supposition, strictly and technically correct, and the above interrogator considers himself the Republican party, and therefore personally agrieved by our language above quoted, and still insists upon it that he has received the name of *thief* and will not accept this paragraph as an *amende honorable*, why then of course we shall have to give the question up, and hold ourself in readiness for pistols and coffee on any cool morning that may be designated.

The Republican papers everywhere are claiming that old John Brown, the leader of the recent insurrection at Harper's Ferry, is suffering from a species of monomania from which he considers himself divinely appointed to free all American slaves. This appology for Brown on the part of the Republican Press, would seem to indicate that his monomania consisted in a too free imbibition of the "Irrepressible conflict" doctrines of the Republican party.

The Rochester *Daily Advertiser*, now Union and Advertiser reached its thirty third anniversary yesterday, and says:—

"Thirty-three years ago this day, the 26th of October, the Rochester Daily Advertiser—now a part of this paper—was started in the village of Rochester, by Luther Tucker. It was the only daily newspaper west of Albany, and the only one in an inland town of the United States except at Albany."

WATER GAS.—The Philadelphia Inquirer makes the following statement respecting the invention of Dr. Sanders, which has been recently tested in Wilmington, Delaware, and appears to be a very different thing from the empirical article introduced by the celebrated Paine:

As some misapprehension has been caused by incorrect statements respecting the char[illegible] gas recently exhibite[illegible] Delaware, we can do justice to the invention, which is an exceedingly important one, by explaining away every ground for doubt or cavil.—The gas has no unpleasant odor. It is soft, white, strong, and agreeable while burning. The smell attending it at Wilmington was caused by its passing through lime purifiers used for the gas, where the sulphur, of course, was taken up and carried forward. This could not have occurred, had not the pipes communicated with the coal gas apparatus, as we have indicated. The water gas was unexceptionable where it was burned before passing into the purifiers, and the light was very brilliant and deservedly admired where its quality was displayed through burners suited to its density. Where the light was not efficient in Wilmington, was in burners only suited to the much thinner coal gas. Water gas passes through its burners about one-half as rapidly as coal gas would. This is an advantage to the consumer.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,
FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,
FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

L. McFARLAND, Collector.

It is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "Bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible *forms* of disease. Who would not give it a trial!

THOMAS YATES.

DR. N. R. C. ROWE.

URISCOPIA PHYSICIAN.

(Late from the Island of Barbadoes, West Indies)

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections, Pulmonary diseases of the Lungs, Throat, Liver, Kidneys, &c., &c. Also Scrofulous and all other Chronic Diseases, at his office No. [illegible] Stone Block, corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathesome disease, CANCER—the thoughts of which chill the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skillful Physicians as decidedly incurable. Those patients now live as witnesses to this fact. CATARRH, this most awful disease, which if not checked, terminates in Consumption, he can cure most speedily.—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practitioner and no self-taught man. Dr. [illegible] has discovered a speedy and certain cure for small cases of this fearful and ravaging disease CANCER, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer cannot be cured. Dr. Rowe however, has after a thorough investigation and study of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases more correctly and successfully than by any other mode of examination. The reason that a great many curable diseases are deemed incurable is [illegible] from not finding out the [illegible] seat of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and $1 as a fee for testing it, at the same time stating their age, will be told their disease. Letters addressed to Box 961, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. Reference as to his mode of treatment can be given to some of the first Physicians in this country.

☞ Dr. Rowe will be at the Exchange Hotel, Attica, for 4 days, Tuesday, Wednesday, Thursday, Friday, Oct. 4, 5, 6, 7, where he can be consulted on the above diseases.

Arrival of the Persia.

Two Days Later from Europe.

NEW YORK, Oct. 26.

The R. M. steamer Persia, from Liverpool the 15th inst., arrived at this port this morning with two days later news.

The steamship New York arrived at Southampton on the evening of the 14th, and the Borussia reached there the same night.

The statements in regard to the position of affairs at the Zurich Conference are conflicting. A variety of rumors to the effect that Austria positively declines to sign a treaty of peace if it is not in accordance with the preliminaries of Villafanca; that Austria desires to protract negotiations until the spring, when she will recommence the war; that Austria has undertaken to guarantee to the Pope the conservation of the temporal power in the Legations, and others of a like nature, are current, and must be taken for what they are worth.

There were statements that the signing of the treaty at Zurich was hourly expected, and that the representatives of the powers would afterwards meet in Congress. The Paris Constitutionnel of the 14th publishes an article signed by Secretary Boniface, stating that the only question to be settled at Zurich is the Lombardy debt.—The contracting powers being agreed on all other points, the early signing of the treaty is expected, and the questions now settled at the conference will be submitted to a Congress, the assembling of which all the European powers are agreed upon.

The London Evening Post states that the Cunard steamers are to touch at Cork (Queenstown) both out and home.

The Great Eastern was attracting great crowds of excursionists to Holyhead, and the Queen was to visit her during her sojourn in Wales, on or about the 17th inst.

Nothing definite was known as to the ultimate movements of the ship.

Trial of Brown.

CHARLESTON, Oct. 26.

Brown has made no confession, but on the contrary, says he has confidence in the goodness of God, and is confident that he will rescue him from the perils that surround him. He says he has had rifles levelled at him, knives at his throat, and his life at as great peril as it now is, but that God has always been at his side; he knows that God is with him and fears nothing.

Brown has consented to be defended by Messrs. Faulkner and Botts, they assuring him that they would defend him faithfully and give him the advantage of every privilege the law will allow.

The Court re-assembled at 12, when the grand jury reported true bills against each of the prisoners. 1st. Conspiring with the negroes to produce insurrection. 2d. For treason to the Commonwealth; and 3d, for murder.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE, &

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P.S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but *Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

Sold by Tryon, Wm. Seaver, and H. Fellows Batavia; Porter & Co., Corfu; G. W. Wright, East Pembroke; J. & S. B. Nutting, Richville; and dealers generally throughout the country.

DR. COGGSWELL'S NEW MEDICAL SALT.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT, instead of its being a remedy for all ills, has control over but one ill, has but one aim, and accomplishes but one thing, to wit:—subdues Inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT.—Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (no other,) by producing an equilibrium, of the fluids in the body, the want of which is the sole cause of Inflammation!

NOTICE TO INVALIDS!! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit:—Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia, Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more—no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt*.

Ask your neighbors about the *New Medical Salt*. If sick, try; if not sick, remember the *New Medical Salt*.

DR. COGGSWELL'S New Medical Salt is for sale in Batavia by H. W. Fellows and by all enterprising druggists wherever the Herald is.

As it is not a Patent Medicine, but the prescription of an eminent Physician, no one should fail to try the New Medical Salt.

For testimonials and directions, see circular.

DR. JOHNSON'S

HERB DISPENSARY

OFFICE 95 MAIN STREET,

(2d door, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgy pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fleur Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflamation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new. It is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills will receive for $5 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREAUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO.,

LOWELL, MASS.

Price, $1 per Bottle; Six Bottles for $5.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five Boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

DR. CHURCHILL'S REMEDY

FOR THE TREATMENT AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Disorders.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris) is winning for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. *The Hypophosphites* (increase the Principle which constitutes nervous force, and are the most powerful blood generating agents known.)

The Cure of Consumption,

In the SECOND and THIRD STAGES (of a period, consequently when there can be no uncertainty as to the nature of the disease) can be checked, IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

"This REMEDY has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act as a PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL-POX.

☞ **Professional Correspondence.**

"COLUMBUS, OHIO, Aug. 8, 1859.—I have been treating the disease for twenty five years, and have derived more satisfaction from the use of the HYPOPHOSPHITES *than from all other forms of medication combined*."

"MANCHESTER, MICH., Aug. 9, 1859.—I have used the HYPOPHOSPHITES in my practice *with very happy effects*—so much so that I WOULD NOT BE SATISFIED TO REMAIN WITHOUT THEM."

"MIDDLEBURY, VT., Aug. 5, 1859.—I believe the HYPOPHOSPHITES used in the manner and way Dr. Churchill used them, WILL CURE CONSUMPTION."

"SHEPHERDSTOWN, VA., Aug. 18, 1859.—I have prescribed the Hypophosphites in several cases, and *am delighted with its effects*. IT IS A SURPRISING REMEDY."

"LOWELL, O., July 5, 1859.—I have used in all about forty bottles, and in but one instance have they failed to benefit the patient, and that one a hopeless one before I was called. I have had several cases given up by attending physicians, who are now enjoying comparatively good health, and exempt from all the symptoms of pulmonary disease. I have used the Remedy in my own case, with decided success. It was regarded as hopeless by physicians and friends, and even by myself, under the old treatment. I am now able to ride, in attending to the sick, as many miles, perhaps, in a day, as any other physician in the county."

"CHATHAM, PA., July 29, 1859.—I received the twelve bottles of Churchill's Remedy for Consumption. * * * It has worked wonders in every case."

CONSUMPTIVES, in any stage of the Disease, should resort *immediately* to the use of the HYPOPHOSPHITES or LIME and SODA. "WINCHESTER'S GENUINE PREPARATION" (in simple syrup), in extra large bottles, is "chemically pure;" is the *only* preparation prepared by Dr. Churchill "for general use;" and is prepared according to his *original Formula.*

Dr. Churchill's Work on Consumption,

Comprising his Report made to the Imperial Academy of Medicine, Paris; Notes of Cases; and Letters, Instruments, Treatise, &c. together with a Circular, will be sent on receipt of TWELVE CENTS in stamps.

CAUTION.—Interested Druggists will try to sell you their own compounds. Do not buy them! My "Genuine Preparation" bears my *fac simile* signature.

Beware of all Preparations claiming to be the Hypophosphites, which contain IRON, or any DRUG. The country is likely to be flooded with spurious preparations. By writing to me, you obtain information that will prevent any deception being practised upon you.

PRICES.—One Bottle, $1; three Bottles, $3; Concentrated Solution, by mail, pre-paid, $2. Sold Wholesale and Retail at the Sole General Depot in the United States, (where all orders should be addressed) by

HOSTETTER'S STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhea, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

Commutation of the Sentence of Polly Frisch.

It will be seen by the following correspondence which we take from the Albany Evening Journal of last evening, that Gov. Morgan has commuted the sentence of Polly Frisch to imprisonment for life. We will here briefly remark, that since the trial, new evidence has come to light sustaining, in the fullest sense, the theory of insanity from hereditary predisposition, and thus the medical testimony given in the trial to that effect is most fully sustained:

It having been represented by those who were urging a Commutation of the sentence to imprisonment for life, of POLLY FRISCH, who was sentenced at Batavia in September last, to be hung on the second of November, for the murder of her child, that she was and had been for some time previous to the commission of the crime, of unsound mind, Governor MORGAN requested Doctor EDWARD HALL, Physician to the State Lunatic Asylum at Auburn, to visit her in the Jail at Batavia and make a careful examination, with a view to enable him to give an opinion as to whether the prisoner is now insane, and whether she was probably insane at the time the crime was committed, or whether her insanity, if it existed, was of such a nature that it might have or probably had arisen since, and requesting him also to furnish such information as he could gather bearing upon the propriety of a commutation on the ground of insanity and to make to him a full statement of his opinion, and the reasons therefor.

In compliance therewith, Dr. HALL visited the prisoner on the 21st and 22d of the present month, and has submitted to the Governor the information obtained by him in a lengthy report, together with the conclusions at which he has arrived, in a letter, a copy of which last we now publish.

The result of Dr. HALL's examination is conclusive to the mind of the Governor, and he has, therefore, solely on the ground of insanity, commuted her punishment to imprisonment for life.

STATE LUNATIC ASYLUM, AUBURN, Oct. 21, 1859.

To his Excellency Governor Morgan:—

SIR—In accordance with the request of your Excellency, I have visited Polly Frisch, now confined for murder in the jail at Batavia, in Genesee county, to ascertain whether she is of sound mind, and what was probably her mental condition during the commission of her crimes, and hereby respectfully report as follows:

I visited the prisoner at Batavia three times on the 20th and 21st inst., and personally examined her under different circumstances. I also went over the whole of the evidence bearing upon the subject of her insanity, and obtained new evidence which was important in helping me to decide in so peculiar a case.

In these examinations I received much assistance and information from the Sheriff, Mr. Pease, in regard to the habits and condition of the prisoner; also, from the counsel both for the prosecution and defence, and from the Drs. Cotes, who have been her principal physicians during her confinement in jail.

From the information thus obtained (which only a personal examination of several weeks could have made clearer) I am convinced that the prisoner, Polly Frisch, is now, and has for several years been subject to that form of insanity which is frequently the result of epileptic disease.—This is now plainly apparent, and I think if attention had been called to this form of mental disease as a solution of her unnatural actions, she would have been as much an object of sympathy and pity as of horror and aversion. I have thought it proper to send you the accompanying abstract of the prominent facts in this peculiar case so that your Excellency may be able to form some judgment of the correctness of my conclusions.

I have the honor to be, respectfully, yours
EDWARD HALL,
Physician of the State Lunatic Asylum
Auburn, N. Y.

The Herald wishes us to explain "how we can separate our paper from the articles, doctrines and sentiments it contains."

The political character of a newspaper is manifested by the "doctrines" advocated and measures supported by its Editor, as exhibited in his Editorials. His correspondents speak for themselves—he being only held responsible for any personal or moral injury which the articles may inflict. Then, if a correspondent only gives his views upon political matters and subjects connected with the commerce of the country—as was done in the case of our correspondent "*," we would not be responsible for any statements he might make; but if he attacked an individual, or gives utterance to sentiments which are of an injurious tendency in community, the editor is responsible for the consequences. Is the Herald answered?

No Sir! by no means—we must insist upon it we are not holding the Editor of the Advocate personally responsible for any thing politically. But when an editor admits into his paper political articles, designed to influence an election, such articles give the paper a character accordingly, as they are true or false, unless accompanied by a disclaimer. Supposing an editor does not write any editorials, but fills his paper with correspondence adverse to his private opinions, would the character of the paper fall back upon the editors opinion of which the public is not informed? of course not!

An Honest Confession.

We are informed on "reliable authority," as our neighbor over the way would say, that an honest Republican in electioneering for his party in a private circle said, "I know every word the HERALD says about Judge Brown is true, but then it won't hurt his chances in the least, but on the other hand it will do him good."

What a confession this is for a party now to make—that reputation is of no consequence, that the worse you prove a man's character to be, the better are his chances of an election in the Republican party. Is this the party our honorable citizens will strive to lift into power, when such men as BISSELL and WILLETT are opposing Candidates?

Sinking of the Steamer New World.

The following account of the disaster is from the Albany Evening Journal, of Thursday. Mr. Weed was a passenger on her.

At seven o'clock last evening, when off Tubby Hook, twelve miles from New York, the Passengers upon the New World were startled by a tremendous crash, which proved to have been occasioned by the breaking of her Engine, parts of which (probably the shackle-bars) were forced through her bottom. The first crash was succeeded by two or three others, equally fearful. Immediately afterwards the alarm was increased by information that water was rushing in with fearful rapidity.

There were, we judge, nearly three hundred Passengers, many of whom were women and children. There was not, however, more than a natural solicitude under circumstances so fearful.

We learned from Capt. St. John that the boat was in the channel of the river, with forty feet of water; and from the engineer, that the pumps could not keep her afloat.

Steam was immediately discharged, and the only danger was from the sinking or capsizing of the boat.

In twenty or twenty five minutes schooners were seen approaching. Previously a schooner came along side, on board which some sprung; one man striking his head, fell into the river and was lost.

When the steamboat Ohio, with her tow, came along side, the New World had sunk to her guards. Most of the passengers rushed on board the Ohio. Some, it was said jumped overboard, but were saved by lines thrown from the canal boats.

Soon after the Ohio cast off, the steamer Mercury Capt. D. Salisbury, of the Swiftsure Express Line, came along side and rescued the remainder of the passengers, some fifty or sixty. We passed from the saloon deck of the New World to the deck of the Mercury. The New World must, therefore, by that time, have sunk nearly or quite to the saloon floor.

Capt. St. John told us just as we left him that he hoped that she had buoyancy sufficient to keep her from being submerged.

The crash of machinery and the rush of water were simultaneous. All that could be done, therefore, was to save life. And fortunately the accident happened at an early hour in the evening when relief vessels were not distant.

There were reports of the loss of several passengers. A young lady with a child was said to have leaped overboard.

Among the Passengers who were taken off by Capt. Salisbury, was Alfred Kelly, Esq., and Lady, of Cleveland Ohio, the Hon. Martin Butterfield, M. C., of Palmyra. The Rev. William H. Hill, of California, was probably taken off by the Ohio.

There was less light freight (dry-goods) than usual, though a large load of heavy articles.

The thanks of some fifty rescued Passengers are due to Capt. Salisbury, of the Mercury, for his attentions and liberality. We were well cared for during the night, and landed at Hudson this morning just in time to take a freight train to Albany. No passage money was received by the Mercury.

One of the passengers (Mr. Muzzy,) says that he was in the upper saloon, he heard the engine-bell ring, and noticed immediately a rising and falling of the floor on which he stood, as if the vessel was running over something; and instantly after followed the crash of the engine. His idea is that the boat struck upon something beneath it, which threw the machinery out of gear, and produced the accident. The Pilot can explain why the engine bell was rung.

The man who jumped overboard, was picked up and came up on the afternoon train yesterday. His wife jumped in after him, and was also rescued.

Canal Policy of New York.

EDITOR HERALD:—

Will you please make the corrections pointed out in the accompanying "History of the Canal Policy of the State of New York," and also publish in your paper the important omission of a quotation from Hammond's Political History, which should have appeared on page 12, third line from the bottom, and oblige

THOS. B. LORD.

The errors refered to in the above note occur on 10th page, 11th line from the bottom, 1849 should read 1839.

On page 17, the list of stocks should read per cents, instead of shillings.

On 12th page, the following extract from Hammond's Political History of New York was entirely omitted:

To whatever cause the financial embarrassment may be ascribed, certain it is that the condition of the state was such as to alarm cool and calculating citizens. During the greater part of the year 1841, it had been found impossible to negotiate permanent loans without a sacrifice the most ruinous. Six per cent. stocks had fallen to 20 per cent. below par, and it was doubtful whether they would not fall even below that price. Large sums were due and in arrear to contractors, some of whom were obliged, in order to pay their laborers, to borrow of the banks on their own credits. Timid and cautious capitalists became alarmed, and some of them refused to loan money to the state on any terms. In this condition of things the state officers, in order to prevent a suspension of the public works, and a total wreck of the credit of the state, were obliged to enter the money-market and raise money on short loans, payable in nine and twelve months, &c. Like the merchant who, hard pressed, borrows money from day to day to meet the payment of his notes, and who is sometimes obliged to borrow of A. to day to repay money which he borrowed of B. yesterday. To a practice something like this, called "shinning," by the merchants, the state officers were obliged to resort for the purpose of discharging the pecuniary obligations of the state. In this way, and on these conditions, about $1,-600,000 had been raised. These loans were called "temporary loans."

The Sunken Steamer.

The New World lies about 150 yards from the shore, her bows under water at high tide.

One of the passengers says the accident was the result of carelessness on part of the engineer. Two or three men were in the cabin [illegible] accident occurred, and [illegible] to be intoxicated, it [illegible] drowned by the water rushing into the cabin windows. The names of these men are unknown. The list of passengers is among the contents of the Clerk's office in the wreck.

The New World is owned by the New Jersey Steamboat Co. She is worth from $100,000 to $150,000. No Insurance.

The loss on freight is unknown. It is said she did not have a very large freight.

The agent of the boat thinks there were no lives lost.

Another account says it has been ascertained by investigation, that eight or nine lives were lost.

One of the lost is understood to be Miss Linda Turner, of Elmira, N. B.

The New World has drifted across the river, and now lies afloat under the Palisades.

American Senatorial Convention.

Pursuant to call, a Convention of the Americans of the 29th Senatorial District, was held at Batavia, October 25th, 1859.

On motion, Samuel Richmond of Genesee, was chosen Chairman, and S. S. Pomroy, of Niagara, appointed Secretary.

The following gentleman presented credentials:—

Orleans—Geo. Porter, Philip Inman, W. N. Achilles, J. H. Denio, and Wm. S. Ball.

Genesee—S. Richmond, George G. Dickinson, John G. Russell, H. H. Wright and Robert Petit.

Niagara—L. J. Peck, R. M. Skeels, Wm. Clark, M. Johnson, and S. S. Pomroy.

On motion an informal ballot for a candidate for Senator was had.

After debate, the above motion was withdrawn, and a motion to nominate Lewis S. Payne by acclamation, was adopted without dissent.

On motion, a committee of three were appointed to report resolutions to the Convention.

The Chair appointed the following gentlemen: L. J. Peck, W. S. Ball, Samuel Richmond.

On motion, the following gentlemen were appointed a Senatorial Committee: S. S. Pomroy, of Lockport; J. H. Denio, of Albion; John G. Russell, of Batavia.

The committee on resolutions submitted the following report:—

Whereas, the time has come when party machines should be broken up, and honest and capable men should receive the suffrages of the people; and whereas, the leaders of the Republican party, believing their forces to be invincible, and abusing the power which they suppose themselves possessed of, have nominated unworthy men for responsible office, therefore be it

Resolved, That in selecting Lewis S. Payne, of Niagara County, for the office of Senator, the Democratic Convention has shown that the great interest of the *people* must be consulted to insure success at the polls, and we hail this nomination as the harbinger of better days, when a faithful record of devotion to the great interests of the people, shall commend candidates to the favorable consideration of any convention, rather than mere considerations of political expedience or records of subserviency to party leaders.

Resolved, That the American party of this Senatorial District, are in favor of the earliest practicable completion of the Erie canal enlargement, and of protecting, by judicious Legislation, the canal interests of the State, against the ungenerous competition of the railroads; that they demonstrated their opinions by their Senatorial action two years since when they inaugurated a movement of the people against party machinery, which totally annihilated a subservient tool of the railroad power, and put in his place a man whose independent position, great ability and unbending integrity made him an honor to the Senate while he lived, and his death an occasion for unfeigned grief.

Resolved, That we recognize in Lewis S. Payne an eminently fit successor of the lamented Stow—a man whose life-long devotion to the internal improvement policy of the State, whose intimate connection with the business of the canals; added to his unblemished integrity, superior capability, and untiring energy, render him peculiarly endowed with all the characteristics needed in a representative from this Senatorial District in this emergency; and that it is incumbent upon all the true friends of the canals that they should sustain, by their votes, a candidate whose devotion to their interests has throughout an honorable life, known, "no shadow of turning."

On motion, it was

Resolved, That a Senatorial Vigilance Committee of one from each town in the District, be appointed for the purpose of securing an earnest support of the candidate this day nominated.

In pursuance of this resolution, the following Committee was appointed:

Prepared from a prescription of Sir J. Clarke, M. D., Physician Extraordinary to the Queen.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, price One Dollar bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the FIRST THREE MONTHS of Pregnancy as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affections Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics and Whites, these Pills will effect a cure when all other means have failed; and although a powerful remedy do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

Sole Agent for the United States and Canada
JOB MOSES, Rochester, N. Y.

N. B.—$1,00 and 4 postage stamps enclosed to any authorized Agent, will insure a bottle, containing 50 pills, by return mail. ly d & w.

LOCAL MATTERS:

We would call the attention of our readers to the advertisement of Messrs H & E. M. McCormick's extensive stock of hats, caps, Robes &c., which they have just purchased for the fall trade.

THE ATLANTIC MONTHLY, for November has appeared with the Imprint of its New Publishers, Messrs. TICKNOR & FIELDS The Magazine retains the same list of contributors who have heretofore given it the character of the first Magazine in this country, and hence its change of Publishers will not materially affect its general plan, which, we believe has been eminently satisfactory, especially to its readers.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprets to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS.

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from a host of judges and *MECHANICS* to manufacture it second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

THOMAS YATES.

DR. N. R. C. ROWE.

URISCOPIA PHYSICIAN.

Late from the Island of Barbadoes, West Indies

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity that he can be consulted on all CANCEROUS and CATARRH affections, Tumors, diseases of the Lungs, Throat, Liver, Kidneys, &c. &c. Also Scrofulous and all other Chronic Diseases at his office No. 6 Stone Block, corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathsome disease, CANCER—the thoughts of which chill the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skillful Physicians as absolutely incurable. Those just his now live as witnesses to this fact. CATARRH, this most awful disease, which if not checked terminates in Consumption, he can cure most readily—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practitioner and no self taught man. Dr. R. has discovered a speedy and certain cure for such cases of that fearful and ravaging disease Cancer, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer cannot be cured. Dr. Rowe however, has after a thorough investigation and study of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases more correctly and successfully than by any other mode of examination. The reason that a great many curable diseases are deemed incurable is simply from not finding out the real seat of the disease. Parties at a distance, not able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and $1 as a fee for testing it, at the same time stating their age, will be told their disease. Letters addressed to Box 964, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. Reference as to his mode of treatment can be given to some of the first Physicians in this country.

☞ Dr. Rowe will be at the Exchange Hotel, Attica, for 4 days, Tuesday, Wednesday, Thursday, Friday, Oct 4, 5, 6, 7, where he can be consulted on the above diseases.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P. S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but *Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

For sale by A. Tryon & Co., Batavia, and H. Fellows, Batavia; Parker & Co., Corfu; G. W. Wright, East Pembroke; J. & S. H. Netting, Richville; and dealers generally throughout the country.

DR. COGGSWELL'S NEW MEDICAL SALT.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT is not [illegible] of its being a remedy for all ills, has cured over but one ill, has but one aim, and accomplishes but one thing, to wit: subdues Inflammatory Diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless [illegible] blood and strength, it effectually cures inflammatory diseases, [illegible] by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

NOTICE TO INVALIDS! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as readily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia, Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough, Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT [illegible] which it claims to do—no more, no less—[illegible] the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt*.

Ask your neighbors about the *New Medical Salt*. If sick, try; if not sick, remember the *New Medical Salt*.

DR. COGGSWELL'S New Medical Salt is for sale in Batavia by H. W. Fellows and by all enterprising druggists wherever the Herald is [illegible]. As it is not a Patent Medicine, but the prescription of an eminent Physician, no one should fail to try the New Medical Salt.

For testimonial and directions see circular.

Dr. Coggswell's Antiphlogistic Salt.

ACUTE PACKAGES, $1.00; CHRONIC $2.50.

Sent by mail, free of expense on receipt of price.

Invalids with chronic or long standing diseases, should always order a chronic package.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community; dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eyesight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such that patients can be cured at their own houses without expense, to any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for $5 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO.,

LOWELL, MASS.

Price, $1 per Bottle; Six Bottles for $5.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five Boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of the NEW REMEDY discovered by Dr. Churchill, of Paris, is attested by its use in UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and one with UNVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. The *Hypophosphites* [illegible] *the Principle which constitutes nervous force, and are the most powerful blood generating agents known.*

The Cure of Consumption,

In the second and third stages (at a period, consequently when there can be no uncertainty as to the nature of the disease), may be obtained IN ALL CASES by the treatment, except where the existing lesion of the lungs is of itself sufficient to produce death.

This Remedy has not only a curative effect, but will, if used whenever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act as a PRESERVATIVE when applied to constitutions, just as VACCINATION does with regard to small pox.

☞ Professional Correspondence.

"CHARLESTOWN, Mass., Aug. 6, 1859.—I have been treating the Hypophosphites for twenty-five years, and have derived more satisfaction from the use of the Hypophosphites *than from all other forms of medication combined.*"

Now is the Time to Subscribe.

THE

NEW YORK WEEKLY,

A HANDSOME QUARTO PUBLICATION,

BEAUTIFULLY ILLUSTRATED,

IS NOW UNIVERSALLY ACKNOWLEDGED TO BE

THE BEST STORY PAPER

IN THE WORLD!

Among its Regular Contributors will be found the names of some of the best male and female writers in the United States! Such writers as Justin Jones, (Harry Hazel,) Augustine J. H. Duganne, William Earle Binder, Harry Hazleton, James Reynolds, Francis S. Smith.

Mrs. Mary J. Holmes, Helen Forest Graves, Mary C. Vaughan, Margaret Verne, Anna Raymond, Eda Mayville: Write for it regularly, while a score of other well known writers occasionally contribute to its columns.

THE NEW YORK WEEKLY has now engaged a force of talent that cannot be rivaled by any establishment in the world!

NOTICES OF THE PRESS.

Never before has any new candidate for public favor in the Literary World received such flattering notices from the Press. From all quarters our editorial brethren have cheered us on by speaking of our enterprise in a manner to stimulate our vanity, and to excite the envy of our rivals.

GENERAL CHARACTER OF THE NEW YORK WEEKLY.

The WEEKLY is designed more especially as a First-Class Story Paper, in which we intend to give our readers a succession of THE BEST STORIES EVER PUBLISHED IN THE UNITED STATES! The aim and object of these productions will be to inculcate useful knowledge under the pleasing guise of fiction, or to teach great moral lessons through the same means. We shall never publish a word or line, the tendency of which is to injure the morals or taste of the reader. Every issue of the NEW YORK WEEKLY will contain short sketches of Life and Manners, Notings of Travel and Adventure, Short Stories, General Summary of Events, Humorous Gleanings, Poetry, Editorials, &c., &c. As specimens of our serials, we would point to A. J. H. Duganne's great story, Garibaldi, The Hero of Italy! Harry Hazel's exciting Indian Romance, The Mute Spy! Francis S. Smith's Intensely Interesting Domestic Story, Maggie, The Child of Charity! While, as specimens of our standing departments, we point with pride to our Ballads of the Bible, admitted by all to be the most chastely written and beautiful scriptural poems ever produced.

Our Knowledge Box, in which is weekly contained a number of paragraphs of the greatest importance to house-keepers and others.

Our Pleasant Paragraphs, an interesting *melange*, ranging "from grave to gay, from lively to severe."

Our Ladies' Column, prepared especially for the ladies by one of the most brilliant lady writers of the present day.

Our Mirthful Morsels, our Items of Interest, etc., etc. In a word its Editors will use their best endeavors to get up just such a paper as will eventually find its way to every fireside in the land—that shall be a welcome visitor wherever it goes—equally popular in the workshop and the office—at the fireside of the farmer, or in the counting-room of the merchant—a paper that parents can, with safety, place in the hands of their children without note or comment, feeling certain that its influence will be to stimulate their minds to the pursuit of knowledge, or lead them to abhor vice and wrong.

OUR CIRCULATION & PROSPECTS

The NEW YORK WEEKLY has gone up to a circulation which places it second in point of circulation in the list of publications of the day. There is but one weekly publication in the world having a larger circulation than the WEEKLY. The indications are, at present, that the circulation of the WEEKLY will soon reach half a million. Where the newsmen were taking tens, they are now taking hundreds of copies. This is the general effect among the *five thousand* News Agents who are now regularly selling the NEW YORK WEEKLY, while from nearly every Post Office in the country, we are daily getting subscriptions and orders for specimens.

How and Where to Get the "Weekly."

Wherever there is a News Agent, get the paper from him. By so doing, you do not run the risk of losing your money through the Post Office, or having to pay for what you will never get. If the paper you are buying from the Agent stops, you do not lose advance subscriptions, sent to a place where you have no means of looking after it. We trust the day is not far distant when every town, large enough to sustain a Post Office, will have its News Agency.

OUR TERMS:

The price of the NEW YORK WEEKLY is Four cents, but where Agents have to pay extra freight or postage, a higher price is necessarily charged. When sent by mail, the price will invariably be $2 00 a year, in advance. Subscriptions taken for three months. Two copies will be sent for one year for $3, four copies for $5, eight copies for $12. 'Tis Found

Something True and Important.

IF YOU are crippled with Palsy or Rheumatism suffering with pains and can find no relief for body or mind—given up as beyond the reach of medical aid, and have no other prospect before you than a premature grave, read the following—pause, reflect and hope on, as an opportunity is now offered for the restoration of your health. *Profs. Chamberlin & Bolles,* of Buffalo, would say to the citizens of Batavia and vicinity that they have taken rooms at the Eagle Hotel, and will remain a few days for the purpose of introducing their new and important discovery in the use of Electricity for the cure of all curable diseases.

They solicit no patients except those given up ever where else as incurable. The reader might here ask, do they really cure such cases or are their statements false? Have they cured any such cases in this place and vicinity, or are their cases all on paper and afar off? In reply they would say they have cured and are curing every day, just such cases. They have restored to health a great number of persons in Buffalo, and surroundings, who have been suffering from various diseases, five, ten, and fifteen years and upwards, in a few days. They have cured and are curing a class of diseases that has baffled the skill of the medical profession in all ages of the world. The reader might here enquire, by what means such wonderful cures are performed? not by irritating the delicate membranes of vital organs by drugging the stomach, but by direct application of the positive and negative polarities of electricity—again it might be asked, has not electricity been employed as a remedial agent for years both in Europe and the United States, with indifferent success? and are not numbers now using it in our very midst, with no better result? This is all very true; and when we consider the ignorance and recklessness displayed in its application the result has been more favorable than could have been anticipated. It has been considered as beneficial in a few cases, only and uncertain even in those. There has been no fixed principle for applying it, and, therefore, no uniform result could have been anticipated; but owing to the friendly relation existing between electricity and health, remarkable cures have been performed, which have been looked upon as a lucky hit, rather than the result of a fixed law. The ignorance displayed in the administration of this mighty agent, is unpardonable.

The current has been generally applied through the hands or feet in such power as to convulse the whole nervous and muscular system and frequently producing irreparable injury; sometimes it has been applied by means of metallic conductors to different parts of the body which is equal to a process of cauterization—and the effect upon the nervous system is similar to that produced by overdoses of Strychnia or Quinine.

Every thing connected with their mode of applying electricity is new and original with themselves. Their philosophy for the electrical laws of life, health and disease, is new.—Their reliable method for the diagnosis of disease by electrical contact is new.

As also, their important discovery in the use of the positive and negative polarities to the human body, for the safe and speedy removal of all diseases.

It is new and unknown to medical men and others except the few instructed by them.

By this mode of applying electricity there is no guess work, no uncertainty, and no matter of doubt as to the result that will follow.

The diseased are invited to call and witness the wonderful cures they are performing daily.

Instruction given to those wishing a knowledge of this method of curing disease.

HOSTETTER'S
STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhoea, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

Fever and Ague.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for Hostetter's Celebrated Stomach Bitters, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

☞ Prepared and sold by HOSTETTER & SMITH, Pittsburgh, Pa., and sold by all druggists, grocers, and dealers generally throughout the United States, Canada, South America, and Germany.

The Harper's Ferry Harper's.

We had hoped that one day might pass over without a refference to our Republican neighbor the Advocate, but it is after us vigorously, for the reason we suppose that its readers must have a hash of the HERALD's contents daily.

The article which appeared in the HERALD Thursday concerning the Harper's Ferry Insurrection, has drawn out our cotemporary to the full length of a column lacking only five lines.

We cannot review this long comment in detail, nor attempt to correct all its misstatements, for we have not the room to spare. That the "irrepressable conflict" doctrines of the Republican party are calculated to urge on to insurrection such fanatical minded men as old JOHN BROWN, there cannot be the slightest doubt on the part of any observer of human nature.

The Advocate attempts some hard shots at GERRIT SMITH, and the connection we have held with him, to his and our disadvantage.

What was is that so signally defeated GERRIT SMITH last year as independent candidate for Governor? The Speeches of WILLIAM H. SEWARD.

Mr. SEWARD took grounds on nearly all the great questions at issue so remarkably like those entertained and advocated by GERRIT SMITH, that even Mr. SMITH's friends were induced to stick to the Republican candidate for Governor, believing it best to abide by the party and its candidate while there was so little distinction between the principles of the men. These speeches were extensively circulated through the rural districts, and of course defeated GERRIT SMITH.

WILLIAM H. SEWARD is the leading mind of the Republican party, and is to-day just as much a disunionist as GERRIT SMITH, and if the Republican party gets into power, and attempts to carry out the doctrines advocated by Mr. SEWARD, we may well fear insurrections and various other evils, of which the Advocate professes great horror.

It is said that, on the evening of the 27th inst., JOSHUA L. BROWN left his lair, and went into a political meeting held by his opponents, at Pine Hill, and then made a self-laudatory speech, to try to convince his hearers that he had been an excellent Surrogate.

It is also said that AMOS TYRRELL, father of the Republican candidate for District Attorney, every evening this week has been into meetings held in support of the People's ticket, and there attempted to interrupt the Speakers, or to reply to them when they had done. By this means, he hopes to elect his son, District Attorney, and to diminish the vote against Joshua L. Brown. No man who has any sense of decency, would thus thrust himself into a meeting held by his opponents, to make disturbance, or to make speeches.

The Advocate says that "out of *all* the papers printed in Buffalo, but FOUR receive the Telegraph Reports. There are but *five* Daily papers in Buffalo, and these all share alike in the Telegraph. How can a Republican paper make such *mistakes*.

In reply to our denial of having ever declined taking the Telegraph Report it says:

"We have nothing to do with the *many changes which the Herald is going through with, as it has had so many different managers* since its commencement that it would be hard work to keep track of the concern. *But it is still the Herald, printed at the same office, by the same man, and run upon the same principles.*"

It seems to us neighbor that you have here mixed things up badly. We shall have to request you to straighten out the above paragraph and inform us which part of it we are to accept as the truth, before we can venture a reply; or, is it merely a divergence in both directions from the actual facts? We are inclined to think it is.

For The Genesee Co., Herald.

Are Republicans honest in their profession and consistent in their Practice?

It may seem uncharitable to doubt the sincerity of Republicans, while they are constantly and loudly proclaiming their honesty and consistency! But the man who is continually prating about his honesty, is not always the man to trust implicity. It is well to watch his actions as well as his professions and those who feel a consciousness of honest dealing need not and do not care to tell of it.

While the party is constantly denouncing the Democrats, their measures and the administration it will be well to watch their tergiversations in their aspirations for place and power.

Were they honest and sincere in their profession for *Free States*, and then vote 88 Rep., out of a hundred in Congress against the admission of Oregon into the confederacy as a free State! There was not the least taint of Slavery about the Oregon constitution. Why then oppose it, when this is the great test for the admission of new States?

Why was a strong Republican vote given in Congress against the admission of Minnesota as a free State? No man ever thought, or ever dreamed of attempting to make it a slave State. Was there honesty or consistency in these votes? Do those loud professions avail, when the *practice* is at fault?

In the attempt to settle the Kansas difficulties last winter—in Congress every Republican voted against the English Bill when a few days after the Crittenden Montgomery Bill, almost word for word like the English Bill—received the entire affirmative vote of the Republicans in the House.

But the attribute of consistency stood out in bold relief, and in glaring capitals last winter—when Judge Douglass voted against the Lecompton Constitution.—Every Republican throughout the length and breadth of the land shouted for Douglass. He was right—Squatter Sovereignty was right—the people in the Territories ought to have the power and the privilege to make their own constitution and laws, preparatory to admission into the Union, without the interference of Congress. Douglass was about to turn Rep. and he was the great man of the day and generation—he was fast outstretching the dimensions of "*Little Giant*," and assuming the proportions of the *Great Giant of* Republicanism! But when they found he stood by the Democratic party and popular sovereignty, because it was a Democratic measure—they at once denounced both *men and measures* and although Mr Douglass was consistent throughout, in his support and advocacy of measures,—Yet the opposition have followed him all the way since, with the same severe and vindictive spirit as before!

The Republican party in its first organization resisted all proposition to colonize the blacks. Their doctrine then was, what Fred Douglass's is now, "that the negro was born upon American soil, and had just as good right to all the privileges of citizenship as the whites"—that colonization would be unjust and cruel—that the negro is just as good, capable and intellectual, as the white man and consequently should be allowed the right of universal suffrage—the right to hold office and all the immunities which the whites enjoy. They have been death upon the old colonization society, and have followed it all through with the bitterest denunciations of malice and hate!

But in this present emergency for political capital—a new idea has come to their aid—a new project started. All are now for colonization—all go in for ridding the country of the blacks. Senator Dolittle and *other great men* of that party, now say that the Negroes must be colonized, that they cannot live upon American soil with the Anglo Saxon race, that Central or South America is the place to colonize the African race! There, in a new and untried region they can flourish and form prosperous and "industrious" communities, they can there make a country and a "commerce" of their own—can there develop the mental, moral and intellectual resources—in short become a great and glorious nation!

The proposition to return this unfortunate class to their native country—to the land of their fathers, and of their nativity, to a climate every way congenial to their natures and a soil whose natural productions supply their limited wants without labor, to a people of the same color and physical developments, in short to return Africans to Africa has always been scouted by these simon pure Republicans. In what way they intend to take possession of Central and South America, whether by conquest slaughter and the sword, or by the purchase or annexation we are not yet advised.

When they elect their *new President*, and get the government into their hands, *we shall see what we shall see!*

The Great Eastern.

The New York Times is the only American journal whose enterprise is manifested by a special correspondent on board the Great Eastern. It gives his last letter on her last trip, and a very long and interesting one it is—too long however for our columns. The writer is an American engineer, and his opinions are entitled to great weight. The Times gives in a leading editorial a brief summary of what he says:

The trial trip, in his judgement, has proved the Great Eastern to be a mechanical success. The maximum speed developed is given at *seventeen and a half miles* per hour, and our correspondent thinks more might have been got out of her if Mr. Russell had been willing to run risks with the boilers. She drew 22 feet 2 inches of water forward and 25 feet aft. The steering apparatus has been improved and works well. The ship rolls decidedly, but not excessively. The engines were not once stopped, and worked beautifully. The bulkheads were not water tight, nor so nearly so as they ought to be. The combustion of coal was about 300 tons per day. And in general the steamer proved her capability of performing very long voyages at a considerable economy and at an average Atlantic speed—and this is all that her projectors expected of her.

It will be seen that the emphatic statements which have been published in the London journals,—that the Great Eastern would not cross the Atlantic this year, are not fully warranted by the facts. Our correspondent, who has the best possible facilities for being well informed on the subject, says that the Directors have decided that she shall sail for Portland in November, provided the Board of Trade do not require needless repairs before they will grant her a license to carry passengers. Capt. Harrison declares his willingness to take her to sea at once, and Mr. Russell, her builder, is, also, perfectly satisfied that she is in good sea going condition. The Board of Trade may be excessively exacting in the matter, and may possibly thus delay her departure; but at the time our letter was written it was not believed they would throw any insurmountable obstacles in the way.

She "makes a note" of things, does Mrs. Spinner. Wishing to purchase a pocket diary she stepped into a bookseller's, and inquired of the clerk. "Pray sir tell me, have you the diar*ree* for this year and the next to come?"

BISHOP ONDERDONK TO APPEAL TO THE CIVIL LAW.—The N. Y. Herald says that Bishop Onderdonk, having been denied reinstatement on any terms by the Episcopal Convention at Richmond, has decided to appeal to the civil law for redress. Acting under the advice of a distinguished member of Congress, and prominent lawyer, he has resolved to bring a legal action to recover damages which he has sustained through the deprivation of his office, and its immunities, privileges and perquisites. The trial which doubtless proved nearly interesting as that which resulted in his being "silenced."

A man died recently and his last advice to his relatives was "to vote the regular Democratic ticket!"

DIED.

FARNUM—At his residence, in Flushing, Mich., on the 15th inst., Dr. R. A. FARNUM, in the 25th year of his age.

Dr F., was a former resident of Genesee County, N. Y., where his parents now reside. He completed his professional studies at the Medical College, Philadelphia, in the year 1854, and came to Michigan and commenced the practice of medicine, in Flushing, in the spring of 1857 where his unrivaled success as a physician, had won for him the esteem and friendship of all with whom he was acquainted, who now greatly deplore his loss. How hard to reconcile are the dealings of Providence, in thus removing from our midst one who had bestowed years of labor in preparing himself for future usefulness.—Permitted only to live to see the door open before him and himself just entering upon the field of fame and renown. Dr. F. leaves a young wife and infant child to deeply mourn his loss. [Com.]

L. McFARLAND, Collector.

IT is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrate student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial!

THOMAS YATES.

DR. N. R. C. ROWE.

URISCOPIA PHYSICIAN.

Late from the Island of Barbadoes, West Indies

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections. Tumors, diseases of the Lungs, Throat, Liver, Kidneys, &c. Also Scrofulous and all other Chronic Diseases, at his office No. 6 Stone Block, corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathsome disease, CANCER—the thoughts of which chill the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skillful Physicians as decidedly incurable. These patients now live as witnesses to this fact. CATARRH, this most awful disease, which if not checked, terminates in Consumption, he can cure most speedily.—Scrofulous and all other Chronic Diseases he treats with equal success. Patients placing themselves under his care will be treated strictly scientific, as he is a legitimate practitioner and no self taught man. Dr. [illegible] has discovered a speedy and certain cure for such cases of that [illegible] and [illegible] disease Cancer, as are curable. It has hitherto been the opinion of the Medical Faculty that Cancer can not be cured. Dr. Rowe however, has after a thorough investigation and study of the disease been able to discover a remedy that will cure such cases as can be cured. Though all cases cannot be cured, yet they can be relieved and life prolonged. Any one consulting him will be told candidly whether anything can be done for them or not. Consultation free. Dr. R. by a careful chemical examination of the Urine can tell almost every Chronic Disease that mankind is liable to, and thus can treat diseases correctly and successfully than by any other mode of examination. The reason that a great many chronic diseases are deemed incurable is [illegible] from not finding out the real seat of the disease. Parties at a distance, are able to consult him personally, by sending a small vial with some of their Urine from the first made in the morning, and at the same time stating their age [illegible]. Letters addressed to Box 964, Rochester, N. Y., will meet with prompt attention. Packages containing Urine must be addressed to his office. [illegible] to his mode of treatment can be given to some of the first Physicians in this county.

Dr. Rowe will be at the Exchange Hotel, Attica, for 4 days, Tuesday, Wednesday, Thursday, Friday, Oct. 4, 5, 6, 7, where he can be consulted on the above diseases.

Evening Report.

Speech of Joshua R. Giddings.

PHILADELPHIA, Oct. 28.

Hon. Joshua R. Giddings delivered an address in this city this evening on the general subject of Slavery, touching on the Harper's Ferry affair as an incident thereof. After alluding to the prediction of many eminent men—Thomas Jefferson, John Quincy Adams and others—that the day of deliverance of the Slaves must come, he said:—I deplore the loss of human life as deep as any man; I can never look upon human suffering unmoved, and yet I would not ask for the slave, nor for the master, for Brown, nor for his fellow prisoners—anything more nor anything less, than justice. Most of Brown's companions are dead, at least, the most fortunate of them have departed; the others will probably soon follow their sad fate; will occupy a brief page in the history of our nation. Those who yet survive seem to have anticipated the result, and are now waiting for its consummation.

Mr. Giddings then likened their case to that of Decatur and his followers in their attempted capture of the frigate Philadelphia in the harbor of Algiers, in the effort to save their countrymen from Slavery—they died, not one returned. Their plan was ill-conceived, but their motives were sublime, and we honor their memory.

Mr. Giddings said he invited Brown to Jefferson county, Ohio, where he delivered a lecture on Sunday, after church, telling his trials in Kansas. After the lecture Mr. Giddings prompted the audience to *contribute relief* to Brown. Afterwards Brown took tea at his residence, when they had a conversation. Though Brown never said he intended to visit the Slave State to free the slaves. Mr. Giddings inferred he would if opportunity offered, mainly from his having done so in Missouri. The were the only times that Mr Giddings saw Brown. No mention was made of a Harper's Ferry or Virginia organization, or a Provisional Government. He acknowledges contributing $5 to Brown's son towards the necessities of his father, after the rescue of Doy from his kidnappers, a matter in which Mr. Giddings acknowledges taking strong interest. In bestowing this gratuity he had little idea it was to be used in fitting out an expedition to capture Harper's Ferry; to effect the conquest of the Old Dominion; to strike terror to the Executive, or to imperil the government.

NOTICE.

A limited number of Young Gentlemen day boarders can be well accommodated at Park

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

P. S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly, and take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa. To those wishing to give them a trial, we will forward per mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

DR. COGGSWELL'S NEW MEDICAL SALT.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. COGGSWELL'S NEW MEDICAL SALT instead of its being a remedy for all ills, has control over but one ill, has but one aim, and accomplishes but one thing, to wit: subdues inflammatory diseases, whatever be its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (no other,) by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflamation!

NOTICE TO INVALIDS!! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma Cough Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGSWELL'S NEW MEDICAL SALT does just what it claims to do—no more, no less—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

DR. COGGSWELL'S NEW MEDICAL SALT. Get a Circular. Ask any Druggist about the *New Medical Salt*.

DR. JOHNSON'S

HERB DISPENSARY

OFFICE 95 MAIN STREET,
(2d door, Up Stairs, Buffalo, N. Y.)
A NEW, SPEEDY, AND MOST SUCCESSFUL
MODE OF TREATING

Spermatorhoea, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community, dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion: Marasmus, or muscular wasting and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgy pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhoea, or Fleur Albus, &c. Likewise Epilepsy Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from morbid excitement and chronic inflamation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own houses without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for $3 a series of Health Rules, and perfect chart of cure, which will be to them a lone polar star through life.

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PREPARED BY

DR. J. C. AYER & CO.,

LOWELL, MASS.

Price, $1 per Bottle; Six Bottles for $5.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five Boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish *gratis* our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipaled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

DR. CHURCHILL'S REMEDY

FOR THE PREVENTION AND CURE OF

CONSUMPTION.

WINCHESTER'S

GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

The Specific Remedy for Consumption, Chronic Bronchitis, Asthma, Scrofula, Dyspepsia, General Debility, and all Nervous Diseases.

The success of this NEW REMEDY (discovered by Dr. Churchill, of Paris) is obtaining for it the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases. The *Hypophosphites increase the Principle which constitutes nervous force, and are the most powerful blood generating agents known.*

The Cure of Consumption,

In the SECOND and THIRD STAGES (at a period, consequently when there can be no uncertainty as to the nature of the disease,) can be obtained, IN ALL CASES by this treatment, except when the existing lesion of the lungs is of itself sufficient to produce death.

This REMEDY has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act AS A PRESERVATIVE WITH REGARD TO CONSUMPTION, JUST AS VACCINATION DOES WITH REGARD TO SMALL POX.

☞ Professional Correspondence.

"COLUMBUS, OHIO, Aug. 6, 1859.—I have been treating the disease for twenty-five years, and have derived more satisfaction from the use of the HYPOPHOSPHITES *than from all other forms of medication combined.*"

"MANCHESTER, MICH., Aug. 3, 1859.—I have used the HYPOPHOSPHITES in my practice *with very happy effects*—so much so that I WOULD NOT BE SATISFIED TO REMAIN WITHOUT THEM."

"MIDDLEBURY, VT., Aug. 9, 1859.—I believe the HYPOPHOSPHITES used in the manner and way Dr. Churchill used them, WILL CURE CONSUMPTION."

"SHEPHERDSTOWN, VA., Aug. 15, 1859.—I have prescribed the Hypophosphite in several cases, and *am delighted with its effects.* IT IS ACCOMPLISHING WONDERS."

"LOWELL, O., July 5, 1859.—I have used it in all about forty bottles, and in but one instance have they failed to benefit the patient, and that was a hopeless case before I was called. I have had several cases given up by attending physicians WHO ARE NOW ENJOYING COMPARATIVELY GOOD HEALTH, and EXEMPT FROM ALL THE SYMPTOMS of pulmonary disease. I have used the REMEDY in my own case, *with decided success.* It was regarded as HOPELESS by physicians and friends, and even by myself, under the 'old treatment.' I am now able to ride, in attending on the sick, as many miles, perhaps, in a day, as any other physician in the county."

"CHATHAM, PA., July 28, 1859.—I received the twelve bottles of Churchill's Remedy for Consumption. * * * It HAS WORKED WONDERS IN EVERY CASE."

CONSUMPTIVES, in any stage of the Disease, should resort *immediately* to the use of the HYPOPHOSPHITES OF LIME AND SODA. "WINCHESTER'S GENUINE PREPARATION" (in simple syrup, in extra large bottles, is "chemically pure!" is the combination proposed by Dr. Churchill "for general use," and is prepared according to his *original Formula.*

Dr. Churchill's Work on Consumption,

Containing the Report made to the Imperial Academy of Medicine, Paris; Notes of Cases; and Letters, Documents, Testimonials, &c., together with a Circular, will be sent on receipt of TWELVE CENTS in stamps.

CAUTION.—Interested Druggists will try to sell you other preparations than mine. Do not buy them! My "Genuine Preparation" bears my *fac simile* signature.

Beware of all Preparations claiming to be the Hypophosphites, which contain IRON, or any DRUG. The country is likely to be flooded with spurious preparations. By writing to me, you obtain information that will prevent any deception being practised upon you.

'Tis Found

Something True and Important.

If YOU are crippled with Palsy or Rheumatism, suffering with pains and can find no relief for body or mind—given up as beyond the reach of medical aid, and have no other prospect before you than a premature grave, read the following— pause, reflect and hope on, as an opportunity is now offered for the restoration of your health. *Pratt, Chamberlin & Holton,* of Buffalo would say to the citizens of Batavia and vicinity that they have taken rooms at the Eagle Hotel, and will remain a few days for the purpose of introducing their new and important discovery in the use of Electricity for the cure of all curable diseases.

They solicit no patients except those given up by every where else as incurable. The reader might here ask, do they really cure such cases, or are their statements false? Have they cured any such cases in [illegible] vicinity, or are their cases all on paper [illegible]? In reply they would say they have cured and are curing every day, just such cases. They have restored to health a great number of persons in Buffalo, and surroundings, who have been suffering from various diseases, five, ten, and fifteen years and upwards, in a few days. They have cured and are curing a class of diseases that has baffled the skill of the medical profession in all ages of the world. The reader might here enquire by what means such wonderful cures are accomplished? [illegible] [illegible] It has been considered as being used in a few cases, only [illegible] There has been no fixed principle for applying it, and, therefore, no uniform result could have been anticipated, but owing to the friendly relation existing between electricity and health, remarkable cures have been performed, which have been looked upon as a lucky hit, rather than the result of a fixed law. The ignorance displayed in the administration of this mighty agent, is stupendous.

The current has been generally applied through the hands or feet in such power as to convulse the whole nervous and muscular system and frequently producing [illegible] paralysis; sometimes it has been applied by means of metallic conductors to different parts of the body, which is equal to a process of cauterization—and the effect upon the nervous system is similar to that produced by overdoses of strychnia or Quinine.

Everything connected with their mode of applying electricity is new and original with themselves. Their philosophy for the electrical laws of life, health and disease, is new— [illegible] reliable method for the diagnosis of disease [illegible]

[illegible] use of the positive and negative polarities in the [illegible] body, for the sure and speedy removal of all disease.

It is new and unknown to medical men and [illegible] except the few instructed by them.

[illegible] no matter of doubt as to the result that will follow.

[illegible] call and witness the wonderful cures they are performing daily.

[illegible] given to those desiring a knowledge of this method of curing disease.

HOSTETTER'S STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhœa, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

Fever and Ague.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

The Brown and Tyrrell Fizzle at Wheatville.

The advocates of the Brown and Tyrrell ticket, held a meeting at Wheatvile on the evening of the 27th inst., preparations had been previously made for a large turnout of the faithful. The meeting assembled in a small sitting room, of the Hotel, 13 feet by 14½, exactly by actual measurement, but was not more than half filled at that. The crowd when counted, and all told consisted of eleven men; who are voters and three boys; also three travelers who were stopping at the house. The meeting was addressed by Hon. Heman Blodgett of Alexander, Henry Howard Esq., of Cary, and by the Candidate for District Attorney himself in person, he having kindly consented to enlighten the good people of Alabama on the importance of securing the services of so able a personage as himself for the prosecuting officer of this county. There was but three Republicans present, two of the three at the close of the meeting avowed themselves decidedly for Taggart, the other one Moses Hoskins Esq. was so enamored with the convincing arguments of Esq. Howard, that he still hangs a little for Brown. The two travelers from Wyoming and Allegany, both intelligent Republicans, expressed in very decided language that if Genesee County had no better timber for District Attorney, the party ought to dig up a ghost of the old Whig party and run that.

A good story is on the street, about a Republican meeting down on one of the four corners in Pembroke, where there is a Tavern and Schoolhouse, a few evenings ago. The Speakers for the occasion were Rufus Robertson Esq., of this village, J. Summerfield Esq., of Le Roy; with our enterprising Young American neighbor, Thomas Yates Esq., and R. Petit as committee of arrangements. At the hour appointed Mr. Petit started out in quest of an audience, which not readily responding to the "call," Mr. Summerfield and our neighbor Thomas became *discouraged*, and either went to bed or reclined in an easy and comfortable posture, to wait "the good time coming." By and bye a few anxious Republicans and boys having assembled Rufus Robertson Esq., entertained them with a brief speech, his apologies for not giving them a good long and patriotic one, were that the audience was not sufficient to warrant it, and he had the rheumatism very bad.

Blow out the Light.

"The proprietors of Cady's School House, forty-two in number—all Black Republicans—to the managers of the soreheaded, anti-caucus association, send greeting:—We are most decidedly of the opinion that in view of the base calumnies so far promulgated against the action of our party, you are out of the pale of common courtesy. We would therefore say to the managers aforesaid, (to wit, Taggart, Bowen Richmond, and the Shepherd of the flock,) that should they all or severally, or any of their coagitators appear at our said School House, as notified, to reiterate their vile slanders to our very faces, they will probably find the door securely fastened and no open sesame at hand."
Alexander School District No. 8, Oct. 29.

MR. EDITOR:—The above beautiful morceau is from last Saturday's Daily Advocate. It is in perfect harmony with the action of Mr. Warner's celebrated committee of five. Shut out the facts cries the writer, suppress the evidence said the committee.

I send it to you to put it on record; and to say that I want it understood that a member of the celebrated committee of five who, is a brother-in-law of the chairman resides in the district. It is not difficult to guess the origin of the article? I do not believe that more than one out of the 42 proprietors knows of or sanctions or ever will sanction so despicable a resort, I have too much respect for the remaining 41 to believe any such thing of them.

A similar threat was held out in a quiet way as to another School House, but when the time came the door was open.

I say farther to the chairman and his satelites—Go on and hide the evidence as much as you can; yet the light will not be extinguished. The fire will not go out until those attempting its extinguishment shall themselves be extinguished. If the committee man gets and keeps the key let him know that the 41 will have full information on the subject in some other way.

A WEALTHY MAN.—The New York correspondent of the New Orleans Crescent gives the following account of GEORGE LAW.

If anything don't pay, George Law respectfully drops it. He now owns nine-tenths of the Eighth Avenue Railroad, which alone is an income for a prince, and growing more valuable every day. He also owns nearly all the stock of the Ninth Avenue, which, when completed, will run from the Battery through Greenwich street to the Ninth Avenue, and thence to Harlem River—a nine mile concern.—Half the ferries belong to Law. He owns the Dry Dock Bank, and the bank owns about forty acres of docks, houses, and land, almost in the heart of the city.—Law owns the Staten Island ferry boats, and two miles of water front nearest New York, that in a few years will be worth for docks ten millions. He really owns the Flushing Railroad, and Heaven knows how much more he owns. That immense thinking brain keeps accumulating. I don't think he goes into large opperations now for the purpose of making money.—I think he works to keep from stagnating. Though not a politician, he wields a very powerful influence upon politics, especially upon local affairs. Most persons have an idea that he is an old man. No such thing. He is only fifty-one years old, and possesses one of those vigorous constitutions that will last him forty-nine years longer.

It is a well known fact that Lady Franklin has expended nearly every shilling she possessed, to the amount of £30,000, in her various endeavors to ascertain her husband's fate, and that she appears destined to spend the remainder of her life in penury. It has been suggested that the women of England and America, who appreciate the unwavering heroism and constancy which have marked her search for records of her husband's fate, should unite in a subscription to raise a fund for her future support. Why is not the idea a good one? Should any action be taken upon it, there certainly can be no doubt of the result.

Bonnets are still passing away; growing "small by degrees and beautifully less." It is supposed that by another season the race will be extinct. In the meantime they make the most of themselves. If they are little they are bright. Let our fair readers pull a yellow hollyhock, a scarlet poppy or a crimson dahlia, put it on the back of their heads and they will have the present style of bonnet.

The Hartford Times suggests that, as the Republicans do not relish the prefix "Black," they may with propriety change their party name to *Brown Republicans*, in consideration of the recent exploits of the "Ossawatomie" champion.

The French Emperor and Mr. Mason's Obsequies.

The late lamented death of our Minister at the Court of the Tuileries, Mr. Mason, afforded the Emperor of the French an opportunity of signifying his personal and official respect, not only for the deceased Envoy, but for the nation which he represented, of which Napoleon was not slow to avail himself; and it ought to be thoroughly well understood by our people that the highest possible honors were paid to the memory of the American Minister by the express orders of the Emperor in person. Napoleon was far distant from Paris, at Biarritz, in the south of France, when the news of Mr. Mason's death reached him. He immediately telegraphed to the capital, commands that his own private carriage should be sent to the funeral; that all the officers of his household, then in Paris, should be present; and that a battalion, with muffled drums, should act as escort at the church.

The Syracuse Journal learns from a gentleman who has conversed with Gerrit Smith in regard to the tragedy at Harper's Ferry, that he was in no way identified with or privy to Brown's scheme.—His explanation is this:

Two years ago, Mr. Smith, in order to help the free State movement in Kansas, gave Brown a note of about $300 against a man then in Kansas. Brown could not collect the note, so he returned it to Mr. Smith, who agreed to give him, at some future time, cash to the amount of the note. After that he lost sight of Brown until about the 1st of June last, when he received a letter requesting him to send a draft for a certain amount—$100, we think—payable to another party. Mr. Smith, in compliance with the request and his former promise, promptly forwarded the draft, supposing it was a bona fide firm to whom it was addressed. He probably believed, also, that the money was to be used, at least indirectly, in assisting fugitive slaves, as that was the last 'Kansas work' that he knew anything about. Mr. Smith says distinctly that he had no knowledge or the least suspicion that Brown was engaged in planning an insurrection. This agrees perfectly with Brown's statement that he alone originated and carried out his scheme."

The Grand Jury of San Francisco county has adjourned without presenting any bill of indictment against Judge Terry for killing Senator Broderick in a duel, some doubt existing as to whether that body could legally indict for an offence committed after they had been already empanneled. The case accordingly goes over until the next Grand Jury meets.

The father of Wm. J. Lane, the Fulton Bank defaulter, has been seriously sick nearly all the time since the detection of his son's transactions. Whilst the defalcation of his son will probably take from him nearly all his property, the moral blow, it is thought, will prove the end to him. It is said that he suffers intensely, bordering on insanity.

The impression prevails at Panama that the United States Government is deeply implicated in the last fillibuster movement of Gen. Walker. The instructions issued to the commander of the Home Squaron are looked upon as sufficient proof of complicity. The "grave error" of Com. Paulding is to be avoided, and no vessel bearing the American flag, even if she is apparently full of fillibusters, is to be interfered with.

The Paris Pays publishes a long notice of the performance of Blondin on the tight rope at Niagara, the terrible conclusion of which was a fall into the raging cataract. The sun, it is stated, came out from the clouds when he was half way across his rope, and dazzled, he lost his balance and fell. His body had not been recovered.

A steam boat to run upon the ice between Albany and Poughkeepsie during the coming winter, is among the novelties talked of in New York. As such a boat answers well on the Upper Mississippi why not on the Hudson?

Counterfeiters are making Erie and Niagara counties winter quarters for their operations; in fact, it is a remark among thieves, stuffers, and bogus and counterfeit money "shovers," that when any description of money is too vile or barefaced to use any where else, it will always pass in Buffalo.

Contrary to expectation, the remains of Judge Mason, late United States Minister to Paris, arrived at New York on the steamship Ocean Queen, from Havre. The body remains on the steamer for the present, it being the intention of the family to forward it to Virginia by steamer.

Arrival of the Nova Scotian.

FARTHER POINT, Oct. 29

The steamship Nova Scotian, from Liverpool at 11 o'clock on the morning of 18th inst., passed this point at 6:30 A. M., to-day, on her way to Quebec, where she will be due to-night.

The news by this arrival is important.

A treaty of peace was signed between France and Austria on the 17th.

The Paris correspondent of the London Times states that in addition to the five great powers, Sardinia, Spain, Sweden, Portugal, Naples and Rome, will be represented in the European Congress.

It was stated that the treaty between France and Sardinia would be signed in a day or two, and a tri-partie treaty would be signed subsequently.

The Great Eastern remained at Holyhead.

Prince Albert visited her on 17th during the sojourn of the royal family at Bangor, but the Queen did not go.

The reports as to the proposed trip to America are indefinite, but a meeting of the directors was to be held on the 19, it was thought final arrangements would be made.

It had been asserted that she would sail for Portland on or about the 28th, but it was semi-officially announced that no decision had been come to.

BALTIMORE, Oct. 30.

Marshall Hannah, reporter of the Baltimore Sun, whilst in the fire alarm telegraph office to-night got into a difficulty with parties present, drew a pistol and shot Wm. L. McPhail, President of the second branch of the City Council, and at present acting mayor of the city during the sickness of Mayor Swann. The ball took effect in the thigh, and produced a serious wound, which will probably cause his death.

LOCAL MATTERS.

The Alexander Brass Band will hold a Festival at J. Washburn's in Alexander, on Friday evening Nov. 4th. We see Batavia is to be represented and the other towns around. The proceeds of the entertainment are to be appropriated toward the purchase of a uniform for the Band.

This is the season for coughs and colds. Call at Wilder's News Room and get Dr. Griswolds COUGH MIXTURE, the most speedy and effectual remedy for a cough known, It has been used for several years by some of our best citizens and always with success.

Remember at Wilder's.

Kenyon has just received a nice lot of Keg half Keg and Can Oysters of the O K and X X brands very fresh and nice.

*

IT is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his celebrated "bitters." The weak and nervous denizen of the counting-house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial!

Sold by druggists and dealers everywhere.

THE GREAT AMERICAN

Boot & Shoe Store,

No. 2, Odd Fellow's Hall.

GREAT DISCOVERY!

NEW MODE OF ADVERTISING.

The Proprietor of the Great American Shoe Store, No 2 Odd Fellows Hall, south side Main street, nearly opposite the Post Office, claims to be the inventor of the cheapest and best mode of advertising in the world. He claims to be the manufacturer of

BOOTS AND SHOES

that will advertise themselves, by giving ample satisfaction to the wearer, thereby speaking in language not to be misunderstood by him, which he immediately interprets to his neighbors. After having tested the merits of his invention for the last twenty years, he feels confident of its

ENTIRE SUCCESS,

and would recommend it to all the other Boot and Shoe makers and dealers in this vicinity to be adopted by them. And he would especially call the attention of the citizens of Genesee county and advise them to study well its operations.

He has on hand a good assortment of Stock such as

Oak and Hemlock Sole Leather,

French calf skins, kip and morocco, &c., which he holds will stand investigation from the best of judges; and *MECHANICS* to manufacture it who are second to none in the State.

Also the largest stock of Ready Made Boots and Shoes in the county; both *Eastern and Home Made, at prices that defy Competition.*

Thankful for the very liberal patronage you have been pleased to extend, I would respectfully solicit a continuance of the same.

DR. N. R. C. ROWE.

URISCOPIAN PHYSICIAN.

Late from the Island of Barbadoes, West Indies;

WHO has located in Rochester, begs to announce to the public of Batavia and vicinity, that he can be consulted on all CANCEROUS and CATARRH affections, Tumors, Diseases of the Lungs, Throat, Liver, Kidneys &c., &c. Also Scrofulous and all other Chronic Diseases, at his office No. 6 Stone Block, corner of Main and St. Paul Streets.

The success that has attended his practice was never surpassed by any other Medical man of his Profession. He has cured entirely some of the worst cases of that most loathsome, dreaded CANCER—the thoughts of which chill the heart and makes life a burden to those afflicted with it—which had been pronounced by some of the most skilful Physicians as entirely incurable. [illegible] CATARRH, the most [illegible] disease, which if not checked terminates in Consumption, he can cure [illegible]. Scrofulous and all other Chronic Diseases [illegible] with equal success. Latest News.

BY TELEGRAPH

This Morning's Report.

Further Foreign News.

The London Times says that the terms of the Zurich treaty are almost identical with those of the Villafranca Arrangement.

The rumor that France demands three hundred millions of francs as a war indemnity from Piedmont is pronounced false.—She claims only a re-imbursement of the sixty millions of francs advanced to that Government in arms and provisions.

Letters by the China mail confirm the telegraphic report of the favorable reception of the American Minister at Shanghai.

The steam-frigate Mississippi was at Shanghai, the Powhattan at the Gulf of Pechili, and the sloop of war Germantown at Japan.

The London Post says that preliminary negotiations for a Congress are only going on, being much easier to plan a congress than to contemplate the preliminaries.

England is pledged to enter into a congress unless the independence and free action of Central Italy are previously understood to be guaranteed. It is understood that the question of the Lombardy debt is left to the arbitration of the Belgians.

Paris, 18th—It is asserted that the second treaty of peace will be signed to-morrow.

The decision of the King of the Belgians on the debt of Lombardy has reached Zurich.

London, 19th—The Post has a despatch from Paris, dated last night, stating the three distinct instruments will be signed at Zurich.

The treaty between France and Sardinia will be signed in a day or two.—The tri-partie treaty will be signed subsequently.

The Morning Post says that assuming its information to be correct, the further proposals concerning the questions left open which it is intended to submit to the approval of a Congress, are of such a nature that the diplomats at Zurich have only heaped up materials of fresh difficulties.

England can and will take no part with any congress of which the first principle is not the recognition of the right of the Romagnas and Tuscany no less than the Modenese and Parmesan States to self government.

The first cannon-shot fired to force on the people of Romagna, Modena and Tuscany and other rulers than the Italian princes in whom they so fondly put their trust, will be the signal of a conflict as the one just brought to a close.

INDIA AND CHINA.

The India and China mails from Calcutta on September 9th, and Hong Kong on August 25th, had reached England.

The Times correspondent regards the reception of Mr Ward as a most politic stroke of the Pekin Cabinet, but it does not all remove the treachery to the British Ministry.

The Friend of China says that as the American treaty gives the United States liberty to tender their good offices in any difficulty with the Western Powers, Mr. Ward will soon have an opportunity of testing the virtues of this clause.

Later news had been received from India by the Red Sea telegraph.

The Bombay mail, of September 27th, reached Aden October 6th.

Central India was still unsettled.

The frontier districts of Nepaul were occupied by the Nena and his followers.

The Waghers were still in insurrection, and a force was to be sent against them.

The authorities at Pekin are represented as ready to receive the British Minister on friendly terms; meanwhile the Indian Government had been applied to for 15,000 troops for China, and two regiments were under orders to depart.

WASHINGTON, Oct. 30.

An intelligent gentleman who has just arrived here from the Pacific coast, says that the people there will be surprised at the visit of Lieut. Gen. Scott to San Juan as only in the Atlantic states has that Island been magnified to importance, which belongs to the United States and will be sustained.

They add that it is really not worth quarreling about, and that its value has been surprisingly over estimated.

It is not certain what the tone of the British Ministry to our Government is, but an explicit declaration that Gen. Harney was not instructed to occupy the Island, and a calm and dignified explanation of all the attendant circumstances, will, it is thought, produce a better state of feeling on the part of our trans atlantic neighbor.

Mr. Magruder left Washington this P. M. for Charlestown to join his law partner Mr. Chilton.

These gentlemen have been retained by certain parties in Boston as associate counsel for Brown.

DR. M'LANE'S

CELEBRATED

VERMIFUGE

AND

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE,

preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.
